ANATOMICAL APPLIANCES.

HER MAJESTY THE QUEEN, having specially honoured Mr. HEATHER BIGG, of 29, LEICESTER-SQUARE (Author of "Artificial Limbs, their Construction and Application;" "Deformities, and the Appliances necessary for their Treatment;" "Localized Movements, or Muscular Exercises applied to the Treatment of Spinal Curvature"), with a command to construct Mechanical Appliances for those wounded Soldiers particularly recommended to her gracious consideration, has led him to bestow considerable attention upon the scientific arrangement of such appliances; he therefore begs to invite Officers and others who are labouring under loss of limb, &c., to examine the Artificial Legs, Artificial Arms and Hands, Spinal Apparatus, &c., he possesses.

Mr. HEATHER BIGG, being conscious that the invention, construction, and application of mechanism for the treatment of deformities are frequently found to be unaccompanied by that enlarged scientific experience which such a subject requires, has recently visited the various Orthopædic Establishments of Paris, Vienna, Munich, Stuttgard, Berlin, Dresden, Cannstadt, Frankfort, &c., for the purpose of personally ascertaining what forms of apparatus were especially adopted, and thus enabling him to place at the disposal of the Medical Profession the resulting advantages.

Mr. HEATHER BIGG, having been for several years Anatomical, Surgical, and Orthopædic Mechanist to the Royal Hospitals of Chelsea and Greenwich, the Admiralty, the Hon. Board of Ordnance, the Hon. East India Company, St. George's, Middlesex, University College, King's College, Royal Free, Guy's, and St. Thomas's Hospitals, has devoted considerable time and experience to the invention, construction, and adaptation of every variety of Anatomical Appliance, and takes this opportunity of inviting the attention of the Medical Profession to the New and valuable Inventions he possesses for affording mechanical aid in cases of Talipes Varus, Valgus, Equinus, and Calcaneus; Lateral, Posterior, Rotative, and Anterior Curvature of the Spine; Inguinal, Femoral, Umbilical, and Ventral Hernia; Prolapsus Uteri and Ani; as well as every variety of Anatomical Deformity.

Mr. HEATHER BIGG also begs to invite attention to a Gymnasium which he has had constructed at 29, Leicester-square, in order that the Members of the Profession might be enabled to test for themselves the benefit resulting from a combination of mechanical appliances with calisthenics, where the condition of deformity requires such an arrangement, or the exercise of simple muscular power when merely a threatened departure from

Churchill's Manuals.

Fcap. 8vo, cloth, price 12s. 6d. each Volume.

AGGREGATE SALE, 105,000 COPIES.

ANATOMY: Mr. Erasmus Wilson.
CHEMISTRY: Mr. Fownes.
DENTAL SURGERY: Mr Tomes.
MATERIA MEDICA: Dr. Royle and Dr. Headland.
MEDICINE: Dr. Barlow.
MEDICAL JURISPRUDENCE: Dr. Taylor.
MICROSCOPE: Dr. Carpenter.
NATURAL PHILOSOPHY: Dr. G. Bird and Mr. Brooke.
OBSTETRICS: Dr. Tyler Smith.
OPHTHALMIC MEDICINE: Mr. Wharton Jones.
PATHOLOGICAL ANATOMY: Dr. H. Jones and Dr. Sieveking.
PHYSIOLOGY: Dr. Carpenter.
POISONS: Dr. Taylor.
SURGERY: Mr. Fergusson.

Handsome Gift-Books.

DALRYMPLE ON THE EYE.
Imperial 4to, half-morocco, gilt tops, 9*l.* 15s.

MACLISE'S SURGICAL ANATOMY.
Imperial folio, cloth, 3*l.* 12s.; or half-morocco, gilt tops, 4*l.* 4s.

MACLISE ON DISLOCATIONS AND FRACTURES.
Imperial folio, cloth, 2*l.* 10s.; in half-morocco, 2*l.* 17s.

WILSON ON SKIN DISEASES.
Imperial folio, half-morocco, gilt tops, 13*l.*

JOHN CHURCHILL, NEW BURLINGTON-STREET.

MEDICAL BIBLIOGRAPHY

FOR

1859.

NEW WORKS AND NEW EDITIONS,

PUBLISHED BY

Mr. CHURCHILL,

FROM JANUARY TO DECEMBER.

I.

ON THE STATE OF LUNACY AND THE LEGAL PROVISION FOR THE INSANE;

With Observations on the Construction and Organisation of Asylums.

By J. T. ARLIDGE, M.B., A.B., L.R.C.P. Lond.,

Formerly Medical Superintendent of St. Luke's Hospital.

8vo, cloth, 7s.

II.

A PRACTICAL ACCOUNT OF GENERAL PARALYSIS:

Its Mental and Physical Symptoms, Statistics, Causes, Seat, and Treatment.

By THOS. J. AUSTIN, M.R.C.S. Eng.,

Lately Medical Officer at Bethnal House Asylum.

8vo, cloth, 6s.

III.

A MANUAL OF MEDICAL DIAGNOSIS:

Being an Analysis of the Signs and Symptoms of Disease.

By A. W. BARCLAY, M.D.,

Assistant-Physician to St. George's Hospital.

Second Edition. Fcap. 8vo, cloth, 8s. 6d.

Digitized by Google

IV.

ON THE HYGIENIC MANAGEMENT OF INFANTS AND CHILDREN.

By T. HERBERT BARKER, M.D. Lond., F.R.C.S.

8vo, cloth, 5s.

V.

A PRACTICAL TREATISE ON DISEASES OF THE HEART, LUNGS, AND AIR-PASSAGES,

With a Review of the several Climates recommended in these Affections.

By JAMES BRIGHT, M.D., F.G.S.,

Member of the Royal College of Physicians, London.

Third Edition, revised and enlarged, post 8vo, cloth, 9s.

VI.

ON THE DISEASES OF THE STOMACH,

With an Introduction on its Anatomy and Physiology.

By WILLIAM BRINTON, M.D.,

Lecturer on Physiology at St. Thomas's Hospital; Physician to the Royal Free Hospital.

Post 8vo, cloth, 10s. 6d.

VII.

ON THE DISEASES AND INJURIES OF THE JOINTS.

Clinical and Pathological Observations.

By THOMAS BRYANT, F.R.C.S.,

Assistant-Surgeon and Lecturer upon Operative Surgery at Guy's Hospital.

Post 8vo, cloth, 7s. 6d.

VIII.

THE TREATMENT OF OBSTINATE ULCERS AND CUTANEOUS ERUPTIONS OF THE LEG.

By H. T. CHAPMAN, F.R.C.S.

Third Edition. Post 8vo, cloth, 3s. 6d.

Digitized by Google

IX.

ON WOUNDS AND INJURIES OF THE EYE.

By W. WHITE COOPER, F.R.C.S.,

Surgeon Oculist in Ordinary to her Majesty, Ophthalmic Surgeon to St. Mary's Hospital, &c.

Illustrated by 17 Coloured Figures and 41 Woodcuts, 8vo, cloth, 12s.

X.

PHTHISIS AND THE STETHOSCOPE;

Or, the Physical Signs of Consumption.

By RICHARD PAYNE COTTON, M.D.,

Physician to the Hospital for Consumption and Diseases of the Chest, Brompton.

Second Edition. Fcap. 8vo, cloth, 3s.

XI.

ON THE INFLUENCE OF VARIATIONS OF ELECTRIC TENSION

As the remote cause of Epidemic and other Diseases.

By WILLIAM CRAIG,

Licentiate of the Faculty of Physicians and Surgeons, Glasgow, and Consulting Surgeon to Ayr Fever Hospital.

8vo, cloth, 10s.

XII.

A GUIDE TO THE PRACTICAL STUDY OF EYE DISEASES:

With a short account of their Treatment, and of the Operations which some of them require.

By JAMES DIXON, F.R.C.S.,

Surgeon to the Royal London Ophthalmic Hospital.

Post 8vo, cloth, 9s.

XIII.

A TREATISE UPON PENETRATING WOUNDS OF THE CHEST.

By PATRICK FRASER, M.D.,

Late Staff Physician to the Army in the Crimea; Physician to the London Hospital.

8vo, cloth, 5s.

Digitized by Google

XIV.

FRESENIUS' QUALITATIVE CHEMICAL ANALYSIS.

Edited by LLOYD BULLOCK, F.C.S.

Fifth Edition, 8vo, cloth, 9s.

XV.

THE IRRITABLE BLADDER:

Its Causes and Curative Treatment.

By FREDERICK JAMES GANT, M.R.C.S.,
Surgeon to the Royal Free Hospital.
Post 8vo, cloth, 4s. 6d.

XVI.

THE MINERAL SPRINGS OF VICHY:

Their Efficacy in the Treatment of Gout, Indigestion, Acidity of the Stomach, and Gravel.

By Dr. GRANVILLE,
Author of 'The Spas of Germany,' &c.
8vo, cloth, 5s.

XVII.

GUY'S HOSPITAL REPORTS.

CONTENTS :—

1. Gastrotomy. By Mr. Cooper Forster.
2. Injuries and Diseases of Nervous System. By Mr. Bryant.
3. Ruptured Uterus. By Dr. Braxton Hicks.
4. Morbus Addisonii, Melanæmia, Leucocythemia, &c. By Dr. Wilks.
5. Malposition of Abdominal Viscera, Pyæmia, &c. By Dr. Habershon.
6. Treatment of Rheumatic Fever. By Dr. Whitley.
7. Lesions of Nervous System producing Diabetes. By Dr. Pavy.
8. On the Surgery of New Growths. By Mr. Birkett.
9. On Intra-cranial Aneurism; Effect on the Lung by Disease of Pneumogastrics; Urticaria, &c. By Dr. Gull.
10. Dental Pathology. By Mr. Salter.
11. Diagnosis and Treatment of Heart Disease. By Dr. Barlow.
12. Tests for Arsenic. By Dr. Odling.
13. Cases of Aneurism. By Mr. Poland.
14. Report of Cases of Poisoning.
15. Description of Wax Models of Elephantiasis.

Vol. V, New Series, with Eleven Plates, 8vo, 7s. 6d.

XVIII.

ON THE INJURIOUS EFFECTS OF MERCURY IN THE TREATMENT OF DISEASE.

By S. O. HABERSHON, M.D. Lond.,

Fellow of the Royal College of Physicians; Senior Assistant-Physician and Lecturer on Materia Medica at Guy's Hospital.
Post 8vo, cloth, 3s. 6d.

Digitized by Google

XIX.

THE HALF-YEARLY ABSTRACT OF THE MEDICAL SCIENCES.

Being a Digest of the Contents of the principal British and Continental Medical Works; together with a Critical Report of the Progress of Medicine and the Collateral Sciences.

Edited by W. H. RANKING, M.D. Cantab., and C. B. RADCLIFFE, M.D. Lond.

Post 8vo, cloth, 6s. 6d. Vols. XXIX and XXX.

XX.

A MANUAL OF PHOTOGRAPHIC CHEMISTRY.

By T. FREDERICK HARDWICH,

Lecturer on Photography in King's College, London.

Fifth Edition. Fcap. 8vo, cloth, 7s. 6d.

XXI.

ON THE ACTION OF MEDICINES IN THE SYSTEM.

By FREDERICK W. HEADLAND, M.D., L.R.C.P.

Third Edition. 8vo, cloth, 12s. 6d.

XXII.

A TREATISE ON VITAL CAUSES.

By JAMES NEWTON HEALE, M.D. Lond.,

Physician to the Hants County Hospital.

8vo, cloth, 9s.

XXIII.

A MANUAL OF THE DISSECTION OF THE HUMAN BODY.

By LUTHER HOLDEN, F.R.C.S.,

Lecturer on Anatomy at St. Bartholomew's Hospital.

8vo, cloth, 14s.

*** Finding it impossible to complete the *illustrated* edition as announced for this Session, the author, in compliance with the earnest request of his class, has reprinted the first edition, with some necessary corrections and emendations.

XXIV.

HUFELAND'S ART OF PROLONGING LIFE.

Edited by ERASMUS WILSON, F.R.S.

Second Edition. Fcap. 8vo, 2s. 6d.

Digitized by Google

XXV.

BLOOD DISEASE.

By J. VAUGHAN HUGHES, M.D., M.R.C.P.,
Formerly Physician to the Bedford General and Fever Hospitals.
Crown 8vo, cloth, 4s. 6d.

XXVI.

ON THE OPERATIONS FOR STRANGULATED HERNIA.

By J. H. JAMES, F.R.C.S.,
Consulting Surgeon to, and late Senior Surgeon of, the Devon and Exeter Hospital.
8vo, cloth, 5s.

XXVII.

HYDROPATHY; OR, HYGIENIC MEDICINE.

By EDWARD W. LANE, M.A., M.D. Edin.
Second Edition. Post 8vo, cloth, 5s.

XXVIII.

HOMŒOPATHY AND HYDROPATHY, IMPARTIALLY APPRECIATED.

With Notes illustrative of the Influence of the Mind on the Body.
By EDWIN LEE, M.D.
Fourth Edition. Post 8vo, cloth, 8s. 6d.

XXIX.

THE WATERING-PLACES OF ENGLAND.

By EDWIN LEE, M.D.
Fourth Edition. Post 8vo, cloth, 7s. 6d.

XXX.

SKETCH OF THE MEDICAL TOPOGRAPHY, OR CLIMATE AND SOILS, OF BENGAL AND THE NORTH-WEST PROVINCES.

By JOHN M'CLELLAND, F.L.S., F.G.S.,
Surgeon, Bengal Service.
Post 8vo, cloth, 4s. 6d.

Digitized by Google

xxxi.

ON DISLOCATIONS AND FRACTURES.

By JOSEPH MACLISE, F.R.C.S.

In Nine Parts, Imperial Folio, 5s. each, or

The entire work bound in cloth, £2 10s.; in half-morocco, £2 17s.

xxxii.

CHRONIC ALCOHOLIC INTOXICATION;

Or, Alcoholic Stimulants in Connection with the Nervous System;

With a Synoptical Table of Cases.

By WILLIAM MARCET, M.D., F.R.S.,

Assistant-Physician to the Westminster Hospital.

Fcap. 8vo, cloth, 4s.

xxxiii.

LECTURES ON CHANCRE,

Delivered by M. RICORD at the Hôpital du Midi, Paris.

Edited and Translated from the French by C. F. MAUNDER, F.R.C.S.

Demonstrator of Anatomy at Guy's Hospital.

8vo, cloth, 8s.

xxxiv.

AN EXPOSITORY LEXICON OF THE TERMS, ANCIENT AND MODERN, IN MEDICAL AND GENERAL SCIENCE, including a complete Medical and Medico-Legal Vocabulary.

By R. G. MAYNE, M.D.

Parts VIII, IX. 8vo, 5s. each.

xxxv.

THE CAUSATION AND PREVENTION OF DISEASE.

With an Appendix, showing that the Sewage of Towns may be employed as a Manure, without risk, or injury to the Health.

By JOHN PARKIN, M.D.

8vo, cloth, 5s.

Digitized by Google

XXXVI.

LECTURES ON THE DEVELOPMENT OF THE GRAVID UTERUS.

By WILLIAM O. PRIESTLEY, M.D., F.R.C.P. Edin.,
Physician-Accoucheur to the St. Marylebone Infirmary.
8vo, cloth, 5s. 6d.

XXXVII.

GENERAL DEBILITY AND DEFECTIVE NUTRITION:

Their Causes, Consequences, and Treatment.
By ALFRED SMEE, F.R.S.,
Senior Surgeon to the Royal General Dispensary, Surgeon to the Bank of England.
Fcap. 8vo, cloth, 8s. 6d.

XXXVIII.

ON POISONS, IN RELATION TO MEDICAL JURISPRUDENCE AND MEDICINE.

By A. S. TAYLOR, M.D., F.R.S.
Second Edition. Fcap. 8vo, cloth, 12s. 6d.

XXXIX.

A MANUAL OF DENTAL SURGERY.

Illustrated with 208 Engravings on Wood.
By JOHN TOMES, F.R.S.,
Surgeon to the Dental Hospital of London.
Fcap. 8vo, cloth, 12s. 6d.

XL.

AN INQUIRY INTO THE CURABILITY OF CONSUMPTION;

Its Prevention, and the Progress of Improvement in the Treatment.
By JAMES TURNBULL, M.D.,
Physician to the Liverpool Royal Infirmary.
Third Edition. 8vo, cloth, 6s.

Digitized by Google

XLI.

STRICTURE OF THE URETHRA,

ITS COMPLICATIONS AND EFFECTS;

A Practical Treatise on the Nature and Treatment of those Affections.

By ROBERT WADE, F.R.C.S.,

Senior Surgeon to the Westminster General Dispensary.

Fourth Edition, 8vo, cloth, 7s. 6d.

XLII.

THE ANATOMY OF THE HUMAN LUNG:

The Prize Essay to which the Fothergillian Gold Medal was awarded by the Medical Society of London.

By A. T. H. WATERS,

Lecturer on Anatomy and Physiology, Liverpool Royal Infirmary School of Medicine.

Post 8vo, cloth.

XLIII.

NOTES ON THE WOUNDED FROM THE MUTINY IN INDIA;

With a Description of the Preparations of Gun shot Injuries contained in the Museum at Fort Pitt.

By GEORGE WILLIAMSON, M.D.,

Staff-Surgeon.

With Eleven Lithographic Plates, 8vo, cloth, 12s.

XLIV.

HEALTHY SKIN:

A Popular Treatise on the Skin and Hair, their Preservation and Management.

By ERASMUS WILSON, F.R.S.

Sixth Edition. Fcap. 8vo, 2s. 6d.

XLV.

ON THROAT AILMENTS,

More especially the enlarged Tonsil and Elongated Uvula.

By JAS. YEARSLEY, M.R.C.S.,

Surgeon to the Metropolitan Ear Infirmary.

Seventh Edition. 8vo, cloth, 5s.

Digitized by Google

HUMAN PHYSIOLOGY.

Illustrated with numerous Engravings on Steel and Wood.

By W. B. CARPENTER, M.D., F.R.S.

Fifth Edition. 8vo, cloth, 26s.

By the same Author,

COMPARATIVE PHYSIOLOGY.

Illustrated with numerous Engravings on Wood.

Fourth Edition. 8vo, cloth, 24s.

ON LEUCORRHŒA: ITS PATHOLOGY AND TREATMENT.

By W. TYLER SMITH, M.D.,

Physician-Accoucheur to St. Mary's Hospital.

With Engravings. 8vo, cloth, 7s.

"This volume is of very great value. It is a book which ought to be in the hands of all interested in obstetrical studies."—'Edin. Monthly Journal.'

"The foregoing cursory examination of Dr. Tyler Smith's work will be sufficient to prove its value, and, we hope, more than enough to induce every practitioner to study it for himself. A blind attachment to a routine practice has hitherto often rendered the treatment of leucorrhœa nugatory, if not baneful."—'The Lancet.'

"We regard it as the most valuable, and, in every respect, as the best treatise which has yet appeared on the subject."—'Dublin Quarterly Journal.'

THE HUMAN MIND IN ITS RELATIONS With the BRAIN and NERVOUS SYSTEM.

By DANIEL NOBLE, M.D.,

Visiting Physician to the Clifton Hall Retreat, Manchester.

Post 8vo, cloth, 4s. 6d.

"Dr. Noble's work deals with profound questions in a very lucid manner, and contains, in a compendious form, a digest of the most modern views on the physiology of the mind."—'The Lancet.'

"Like all that has appeared on kindred subjects from the pen of Dr. Noble, his work is characterized at once by its soundness of professional scholarship, candour, and common sense."—'Dublin Quar. Med. Journ.'

By the same Author,

ELEMENTS OF PSYCHOLOGICAL MEDICINE: being an Introduction to the Practical Study of Insanity.

Second Edition, 8vo, cloth, 10s.

Digitized by Google

A PRACTICAL TREATISE on the DISEASES

of the TESTIS, and of the SPERMATIC CORD and SCROTUM. With numerous Wood Engravings.

By T. B. CURLING, F.R.S.,

Surgeon to the London Hospital.

Second Edition, Revised and Enlarged, 8vo, cloth, 14s.

By the same Author,

ON DISEASES OF THE RECTUM.

Second Edition, Revised and Enlarged, 8vo, cloth, 5s.

ON THE DISEASES OF THE BLADDER

AND PROSTATE GLAND.

By WILLIAM COULSON,

Surgeon to, and Lecturer on Surgery at, St. Mary's Hospital.

Fifth Edition, 8vo, cloth, 10s. 6d.

By the same Author,

ON LITHOTRITY AND LITHOTOMY.

With numerous Engravings on Wood, 8vo, cloth, 8s.

ON DROPSY CONNECTED WITH DISEASE

OF THE KIDNEYS (Morbus Brightii), and on some other Diseases of those Organs, associated with Albuminous and Purulent Urine.

Illustrated by numerous Drawings from the Microscope.

By W. R. BASHAM, M.D.,

Physician to the Westminster Hospital.

8vo, cloth, Ten Plates, 9s.

"Whether we have regard to the minuteness of observation and accuracy of delineation displayed in the accounts given of the cases themselves, or the masterly skill with which the important points of each are singled out for observation in the appended 'Remarks,' or to the admirable manner in which the progressive changes in the microscopic characters of the sedimentary deposits are displayed in the plates, we have no hesitation in recommending the book to our readers as one whose perusal should not be omitted by anyone anxious to treat cases of albuminuria with comfort to himself or advantage to his patients."—'Dublin Quar. Jour. of Med. Science, May, 1859.'

Digitized by Google

LOCALISED MOVEMENTS; or, MUSCULAR

EXERCISES, combined with Mechanical Appliances for the Treatment of Spinal Curvature and other Deformities; being the System pursued at Vienna, Berlin, Dresden, and the Principal Continental Cities, for the Prevention and Removal of Distortions.

By HENRY HEATHER BIGG,

Anatomical Mechanician to the Queen.

Post 8vo, cloth, 2s.

By the same Author,

THE MECHANICAL APPLIANCES

NECESSARY FOR THE TREATMENT OF DEFORMITIES.

Post 8vo, cloth, 4s.

By the same Author,

ARTIFICIAL LIMBS; THEIR CONSTRUCTION AND APPLICATION.

Post 8vo, cloth, 3s.

THE CHANGE OF LIFE IN HEALTH AND DISEASE:

A Practical Treatise on the Nervous and other Affections incidental to Women at the Decline of Life.

By Dr. TILT,

Senior Physician to the Farringdon General Dispensary and Lying-in Charity.

Second Edition. 8vo, cloth, 6s.

"We have much pleasure in introducing to our readers a second edition of Dr. Tilt's work, because we believe that much ignorance on the part of the public, and no little negligence on that of our profession, have contributed to the prevalence of erroneous views of the subject of which it treats."—'British and For. Med.-Chir. Rev.'

By the same Author,

ON DISEASES OF WOMEN,

IN RELATION TO OVARIAN AND UTERINE INFLAMMATION.

Second Edition. 8vo, cloth, 9s.

"If we are not deceived, Dr. Tilt's work will soon find favor with the junior members of the profession, inasmuch as it contains what we should call *the first principles of female pathology*."—'Lancet.'

Digitized by Google

ILLUSTRATIONS OF DIFFICULT PARTURITION, with PRACTICAL COMMENTARIES.

By J. HALL DAVIS, M.D.,

Licentiate of the Royal College of Physicians; Physician to the Royal Maternity Charity.

Post 8vo, cloth, 6s. 6d.

"The author's position and large experience entitle his opinions to respect. . . . . The Clinical Report contains one hundred and forty-four instructive histories, related in a clear, concise manner."—'Dublin Quar. Med. Journ.'

"We must refer our readers to Dr. Davis's book for his opinions. . . . . We feel high respect for his judgment and intelligence."—'Med.-Chir. Rev.'

"The result of five-and-twenty years spent for the most part in the responsible and trying position of Physician to the Royal Maternity Charity is in due time and season produced in the form of an unpretending but satisfactory volume."—'Med. Times and Gaz.'

"Amongst the many valuable contributions to Clinical Midwifery, this book of Dr. Hall Davis will, we think, occupy a permanent place."—'The Lancet.'

THE DIAGNOSIS OF SURGICAL CANCER.

By J. ZACHARIAH LAURENCE, F.R.C.S., M.B. Lond.,

Surgeon to the South London Ophthalmic Hospital.

Second Edition, revised and enlarged, 8vo, Plates, 7s. 6d.

"The present edition is still more worthy of praise than its predecessor. . . . . The illustrations are very truthful."—'Medical Times.'

ON THE PHYSICAL DIAGNOSIS OF THE DISEASES OF THE LUNGS AND HEART.

By HERBERT DAVIES, M.D., Cantab., Fellow of the Royal College of Physicians;

Senior Physician to the Royal Infirmary for Diseases of the Chest; Physician to the London Hospital.

Second Edition. Post 8vo, cloth, 8s.

"The work of one who is evidently an excellent auscultator."—'Medico-Chirurgical Quarterly Review.'

"A book well worthy of the closest study of the profession."—'Medical Gazette.'

"A work destined to form the opinions of the young, and to correct those of maturer years."—'Monthly Journal of Medicine.'

Digitized by Google

PHTHISIS AND THE STETHOSCOPE; or, The PHYSICAL SIGNS of CONSUMPTION.

By RICHARD PAYNE COTTON, M.D.,

Physician to the Hospital for Consumption and Diseases of the Chest, Brompton.

Second Edition, fcap. 8vo, cloth, 3s.

"This book, being rich in practical remarks, and free from stethoscopic refinements, cannot fail to be useful both to the student and the practitioner of medicine."—'Med. Times and Gaz.'

"Thoroughly practical, and free from all complications or unessential particulars. To students and young practitioners Dr. Cotton's book will be found most serviceable."—'The Lancet.'

"We strongly recommend this little work as a valuable guide to the recognition of pulmonary tuberculosis. Although it may be read through in an hour, it contains an amount of well-digested information not to be found in many more pretentious treatises."—'Edin. Med. Journal.'

By the same Author,

ON CONSUMPTION: its Nature, Symptoms, and TREATMENT.

To which was awarded the Fothergillian Gold Medal.

Second Edition, 8vo, cloth, 8s.

"A work already well known to the profession; additional information and experience render the present edition as complete as possible." 'Medical Times.'

"The remarks added to the present edition increase the value of the book, which has once more our approbation and best wishes."—'British Medical Journal.'

ON NATURE AND ART IN THE CURE OF DISEASE.

By Sir JOHN FORBES, M.D., F.R.S., D.C.L.,

Physician to Her Majesty's Household.

Second Edition. Post 8vo, cloth, 6s.

"Most sincerely do we thank Sir John Forbes as a benefactor of his profession and of mankind."—'Medico-Chirurgical Review.'

"This book gives explicit and coherent expression to that feeling of reaction against violent or perturbative practice which has been going on in the profession for the last twenty-five years, and may now be considered as settled and fixed."—'Edinburgh Medical Journal.'

PREFACE.

It is with feelings of grateful pleasure that we present this, the Fifteenth Annual Volume, to the Members of the Profession. Although it was never supposed that the publication of the MEDICAL REGISTER would interfere with, or detract from, the value of the MEDICAL DIRECTORY, we were scarcely prepared for so large a share of encouragement as we have, during the present year, received. Whether the result be traceable to a feeling of dissatisfaction with the Official List, or to a generous appreciation of private enterprise, it is our pleasing duty to acknowledge the sympathy and support which has been expressed in the most practical form, viz., an *increased Subscription List.* We have endeavoured to merit the confidence of the Profession by sparing no expense in its compilation, and by taking care that nothing practically useful should be omitted from its pages. For years past, the "DIRECTORY" has been the Handbook of the Profession, and a protection for the Public against quacks and empirics; and it is not too much to say that to the publication of the MEDICAL DIRECTORY, the Profession owe the New Medical

Digitized by Google

Act and the MEDICAL REGISTER. It was the "DIRECTORY" which revealed the enormous extent of unqualified practice, thereby proving the necessity of legal enactments for its restriction; and, although the Medical Act does not embrace all the privileges to which the Profession have a claim, it is a source of satisfaction to us that the "DIRECTORY" has been a means of improving the status, and advancing the interests of Medical Practitioners.

The present Volume is unquestionably more complete, and, thanks to the REGISTER, more correct than any of its predecessors. We have endeavoured to fulfil our promise by giving the name of every gentleman which appeared on the MEDICAL REGISTER FOR ENGLAND on November 1, 1859, and in doing so we have been compelled to include some names which have long disgraced the Profession. The publication of such names in a work which, for several years, has endeavoured to maintain the dignity and respectability of the Profession, is a source of great annoyance and regret to those who have the charge of its compilation, but it is very questionable whether those names could safely be omitted after having been recognised by the Medical Council.

It will be observed that a distinguishing mark, ‡, has been prefixed to the names of those who, for various reasons, have not registered under the Medical Act. By far the larger proportion of the gentlemen so marked have retired from practice, whilst others, disapproving of the heavy tax levied in the form of a Registration-fee, have refused to become registered.

At page 854 will be found a List of "Registered

Digitized by Google

Non-Residents," containing the names of those gentlemen who, on account of their being engaged in the Public Services, or otherwise, have no fixed residence. The insertion of this List is a departure from an old-established rule, viz., *that no name should be inserted without an address*, but the embodiment of the REGISTER in the MEDICAL DIRECTORY has rendered such a departure from our rule absolutely necessary, especially as the New List comprehends nearly nine hundred names.

THE EDITORS.

11 *New Burlington-street*,
Dec. 1859.

Notice to Subscribers.

Our Subscribers will greatly oblige by strictly observing the terms of subscription, and by remitting the amount in uncut postage stamps, or by post-office order, on receipt of the work: this is essentially necessary in so large a number of small payments, and is, at the same time, an acknowledgment of the safe delivery of the volume. The prompt compliance with this simple request will be esteemed a favour.

TERMS OF SUBSCRIPTION.

INCLUDING POSTAGE OR DELIVERY.

The London and Provincial Medical Directory . . .	7s. 6d.
The Medical Directory for Scotland	4s. 6d.
The Medical Directory for Ireland	4s. 6d.

N.B.—If not paid for *before the end of January*, the Work will be considered as a Non-Subscriber's copy, and charged accordingly.

TERMS TO NON-SUBSCRIBERS.

The London and Provincial Medical Directory . . .	8s. 6d.
The Medical Directory for Scotland	5s. 6d.
The Medical Directory for Ireland	5s. 6d.

Post-Office Orders to be drawn in favour of Charles Jackson, 11, *New Burlington-street, London; payable at Old Cavendish-street Post Office.*

*** *All communications should be addressed, "To the Editors of the Medical Directories, at Mr. Churchill's, New Burlington-street, London.* W."

THE MEDICAL ACT.

CAP. XC.

An Act to regulate the Qualifications of Practitioners in Medicine and Surgery.
[2nd August, 1858.]

WHEREAS it is expedient that persons requiring medical aid should be enabled to distinguish qualified from unqualified Practitioners: be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Short Title.

I. This Act may for all purposes be cited as "The Medical Act."

Commencement of Act.

II. This Act shall commence and take effect from the First Day of October, One thousand eight hundred and fifty-eight.

Medical Council.

III. A Council which shall be styled "The General Council of Medical Education and Registration of the United Kingdom," hereinafter referred to as the General Council, shall be established, and Branch Councils for England, Scotland, and Ireland respectively formed thereout as herein-after mentioned.

Members of Council.

IV. The General Council shall consist of one person chosen from time to time by each of the following bodies; (that is to say,)

The Royal College of Physicians:
The Royal College of Surgeons of England:
The Apothecaries' Society of London:
The University of Oxford:
The University of Cambridge:
The University of Durham:
The University of London:
The College of Physicians of Edinburgh:
The College of Surgeons of Edinburgh:
The Faculty of Physicians and Surgeons of Glasgow:
One person chosen from time to time by the University of Edinburgh and the two Universities of Aberdeen collectively:
One person chosen from time to time by the University of Glasgow and the University of St. Andrew's collectively:
One person chosen from time to time by each of the following bodies:
The King and Queen's College of Physicians in Ireland:
The Royal College of Surgeons in Ireland:
The Apothecaries' Hall of Ireland:
The University of Dublin:
The Queen's University in Ireland:
And six persons to be nominated by her Majesty with the advice of

Digitized by Google

her Privy Council, four of whom shall be appointed for England, one for Scotland, and one for Ireland; and of a President, to be elected by the General Council.

Provision in case the Universities of Glasgow, Aberdeen, and Saint Andrew's fail to appoint a person to represent them.

V. If the said Universities of Edinburgh and Aberdeen, of Glasgow and Saint Andrew's respectively, shall not be able to agree upon some one person to represent them in the Council, it shall be lawful for each of the said Universities to select one person; and thereupon it shall be lawful for her Majesty, with the advice of her Privy Council, to appoint one of the persons so selected to be a Member of the said Council for the said Universities.

Branches of the Council for England, Scotland, and Ireland.

VI. The Members chosen by the Medical Corporations and Universities of England, Scotland, and Ireland respectively, and the Members nominated by her Majesty, with the advice of her Privy Council, for such parts respectively of the United Kingdom, shall be the Branch Councils for such parts respectively of the United Kingdom, to which Branch Councils shall be delegated such of the powers and duties vested in the Council as the Council may see fit other than the power to make representations to her Majesty in Council as herein-after mentioned: the President shall be a Member of all the Branch Councils.

Qualification.

VII. Members of the General Council representing the Medical Corporations must be qualified to be registered under this Act.

Resignation or Death of Member of General Council.

VIII. The Members of the General Council shall be chosen and nominated for a term not exceeding five years, and shall be capable of re-appointment, and any Member may at any time resign his appointment by letter addressed to the President of the said Council, and upon the death or resignation of any Member of the said Council some other person shall be constituted a Member of the said Council in his place in manner herein-before provided; but it shall be lawful for the Council during such vacancy to exercise the powers herein-after mentioned.

Time and Place of Meeting of the General Council.

IX. The General Council shall hold their first meeting within three months from the commencement of this Act, in such place and at such time as one of her Majesty's Principal Secretaries of State shall appoint, and shall make such rules and regulations as to the times and places of the meetings of the General Council, and the mode of summoning the same, as to them shall seem expedient, which rules and regulations shall remain in force until altered at any subsequent meeting; and in the absence of any rule or regulation as to the summoning a meeting of the General Council, it shall be lawful for the President to summon a meeting at such time and place as to him shall seem expedient by letter addressed to each Member; and at every meeting, in the absence of the President, some other Member to be chosen from the Members present shall act as President; and all Acts of the General Council shall be decided by the votes of the majority of the Members present at any meeting, the whole number present not being less than eight, and at all such

Digitized by Google

meetings the President for the time being shall, in addition to his vote as a Member of the Council, have a casting vote, in case of an equality of votes; and the General Council shall have power to appoint an Executive Committee, out of their own body, of which the quorum shall not be less than three, and to delegate to such Committee such of the powers and duties vested in the Council as the Council may see fit, other than the power of making representations to her Majesty in Council as herein-after mentioned.

Appointment of Registrars and other Officers.

X. The General Council shall appoint a Registrar, who shall act as Secretary of the General Council, and who may also act as Treasurer, unless the Council shall appoint another person or other persons as Treasurer or Treasurers; and the person or persons so appointed shall likewise act as Registrar for England, and as Secretary and Treasurer or Treasurers, as the case may be, for the Branch Council for England; the General Council and Branch Council for England shall also appoint so many clerks and servants as shall be necessary for the purposes of this Act; and every person so appointed by any Council shall be removable at the pleasure of that Council, and shall be paid such salary as the Council by which he was appointed shall think fit.

Appointment of Registrars and other Officers by Branch Councils.

XI. The Branch Councils for Scotland and Ireland shall each respectively in like manner appoint a Registrar and other officers and clerks, who shall be paid such salaries as such Branch Councils respectively shall think fit, and be removable at the pleasure of the Council by which they were appointed; and the person appointed Registrar shall also act as Secretary to the Branch Council, and may also act as Treasurer, unless the Council shall appoint some other person or persons as Treasurer or Treasurers.

Fees for attending at Councils.

XII. There shall be paid to the Members of the Councils such fees for attendance and such reasonable travelling expenses as shall from time to time be allowed by the General Council, and approved of by the Commissioners of her Majesty's Treasurer.

Expenses of the Councils.

XIII. All monies payable to the respective Councils shall be paid to the Treasurers of such Councils respectively, and shall be applied to defray the expenses of carrying this Act into execution in manner following; that is to say, separate accounts shall be kept of the expenses of the General Council, and of those of the Branch Councils: and the expenses of the General Council, including those of keeping, printing, and publishing the Register for the United Kingdom, shall be defrayed, under the direction of the General Council, by means of an equal per-centage rate upon all monies received by the several Branch Councils; returns shall be made by the Treasurers of the respective Branch Councils, at such times as the General Council shall direct, of all monies received by them; and the necessary per-centage having been computed by the General Council, the respective contributions shall be paid by the Treasurers of such Branch Councils to the Treasurer or Treasurers of the General Council; and the expenses of the Branch Councils shall be

Digitized by Google

defrayed, under the direction of those Councils respectively, out of the residue of the monies so received as aforesaid.

Duty of Registrar to keep the Register correct.

XIV. It shall be the duty of the Registrars to keep their respective registers correct in accordance with the provisions of this Act, and the orders and regulations of the General Council, and to erase the names of all registered persons who shall have died, and shall from time to time make the necessary alterations in the addresses or qualifications of the persons registered under this Act; and to enable the respective Registrars duly to fulfil the duties imposed upon them it shall be lawful for the Registrar to write a letter to any registered person, addressed to him according to his address on the register, to inquire whether he has ceased to practise, or has changed his residence, and if no answer shall be returned to such letter within the period of six months from the sending of the letter it shall be lawful to erase the name of such person from the register; provided always, that the same may be restored by direction of the General Council should they think fit to make an order to that effect.

Registration of Persons now qualified, and of Persons hereafter becoming qualified.

XV. Every person now possessed, and (subject to the provisions herein-after contained) every person hereafter becoming possessed, of any one or more of the qualifications described in the Schedule (A.) to this Act, shall, on payment of a fee, not exceeding two pounds, in respect of qualifications obtained before the first day of January one thousand eight hundred and fifty-nine, and not exceeding five pounds in respect of qualifications obtained on or after that day, be entitled to be registered on producing to the Registrar of the Branch Council for England, Scotland, or Ireland the document conferring or evidencing the qualification or each of the qualifications in respect whereof he seeks to be so registered, or upon transmitting by post to such Registrar information of his name and address, and evidence of the qualification or qualifications in respect whereof he seeks to be registered, and of the time or times at which the same was or were respectively obtained: Provided always that it shall be lawful for the several Colleges and other Bodies mentioned in the said Schedule (A.) to transmit from time to time to the said Registrar lists certified under their respective seals of the several persons who, in respect of qualifications granted by such Colleges and Bodies respectively, are for the time being entitled to be registered under this Act, stating the respective qualifications and places of residence of such persons; and it shall be lawful for the Registrar thereupon, and upon payment of such fee as aforesaid in respect of such person to be registered, to enter in the register the persons mentioned in such lists, with their qualifications and places of residence as therein dated, without other application in relation thereto.

Council to make orders for regulating Registers to be kept.

XVI. The General Council shall, with all convenient speed after the passing of this Act, and from time to time as occasion may require, make orders for regulating the Registers to be kept under this Act as nearly as conveniently may be in accordance with the form set forth in Schedule (D.) to this Act, or to the like effect.

Digitized by Google

Persons practising in England before 1st August, 1815, entitled to be registered.

XVII. Any person who was actually practising medicine in England before the first day of August one thousand eight hundred and fifteen shall, on payment of a fee to be fixed by the General Council, be entitled to be registered on producing to the Registrar of the Branch Council for England, Scotland, or Ireland a declaration according to the form in Schedule (B.) to this Act, signed by him, or upon transmitting to such Registrar information of his name and address, and enclosing such declaration as aforesaid.

Council may require Information as to Course of Study, &c. required for obtaining Qualifications.

XVIII. The several Colleges and Bodies in the United Kingdom mentioned in Schedule (A.) to this Act shall from time to time, when required by the General Council, furnish such Council with such information as they may require as to the Courses of Study and Examinations to be gone through in order to obtain the respective qualifications mentioned in Schedule (A.) to this Act, and the ages at which such Courses of Study and Examinations are required to be gone through, and such qualifications are conferred, and generally as to the requisites for obtaining such qualifications; and any member or members of the General Council, or any person or persons deputed for this purpose by such Council, or by any Branch Council, may attend and be present at any such examinations.

Colleges may unite in conducting Examinations.

XIX. Any two or more of the Colleges and Bodies in the United Kingdom mentioned in Schedule (A.) to this Act may, with the sanction and under the direction of the General Council, unite or co-operate in conducting the examinations required for qualifications to be registered under this Act.

Defects in the Course of Study or Examination may be represented by General Council to Privy Council.

XX. In case it appear to the General Council that the Course of Study and Examinations to be gone through in order to obtain any such qualification from any such College or Body are not such as to secure the possession by persons obtaining such qualification of the requisite knowledge and skill for the efficient practice of their profession, it shall be lawful for such General Council to represent the same to her Majesty's Most Honourable Privy Council.

Privy Council may suspend the Right of Registration in respect of Qualifications granted by College, &c., in default, but may be revoked.

XXI. It shall be lawful for the Privy Council, upon any such representation as aforesaid, if it see fit, to order that any qualification granted by such College or Body, after such time as may be mentioned in the order, shall not confer any right to be registered under this Act: Provided always, that it shall be lawful for her Majesty, with the advice of her Privy Council, when it is made to appear to her, upon further representation from the General Council or otherwise, that such College or Body has made effectual provision, to the satisfaction of such General Council, for the improvement of such Course of Study or Examinations, or the mode of conducting such examinations, to revoke any such order.

Digitized by Google

Persons not to be Registered in respect of Qualifications granted by the College Body before Revocation.

XXII. After the time mentioned in this behalf in any such Order in Council no person shall be entitled to be registered under this Act in respect of any such qualification as in such Order mentioned, granted by the College or Body to which such Order relates, after the time therein mentioned, and the revocation of any such Order shall not entitle any person to be registered in respect of any qualification granted before such revocation.

Privy Council may prohibit attempts to impose Restrictions as to any Theory of Medicine or Surgery by Bodies entitled to grant Certificates.

XXIII. In case it shall appear to the General Council that an attempt has been made by any Body, entitled under this Act to grant qualifications, to impose upon any candidate offering himself for examination an obligation to adopt or refrain from adopting the practice of any particular theory of medicine and surgery, as a test or condition of admitting him to examination or of granting a certificate, it shall be lawful for the said Council to represent the same to her Majesty's Most Honourable Privy Council, and the said Privy Council may thereupon issue an injunction to such Body so acting, directing them to desist from such practice; and in the event of their not complying therewith, then to order that such Body shall cease to have the power of conferring any right to be registered under this Act so long as they shall continue such practice.

As to the making and authentication of Orders, &c.

XXIV. All powers vested in the Privy Council by this Act may be exercised by any three or more of the Lords and others of the Privy Council, the Vice-President of the Committee of the said Privy Council on Education being one of them; and all orders and acts of the Privy Council under this Act shall be sufficiently made and signified by a written or printed document, signed by one of the Clerks of the Privy Council, or such officer as may be appointed by the Privy Council in this behalf; and all orders and acts made or signified by any written or printed document purporting to be so signed shall be deemed to have been duly made, issued, and done by the Privy Council; and every such document shall be received in evidence in all courts, and before all justices and others, without proof of the authority or signature of such clerk or other officer or other proof whatsoever, until it be shown that such document was not duly signed by the authority of the Privy Council.

As to Registration by Branch Registrars.

XXV. Where any person entitled to be registered under this Act applies to the Registrar of any of the said Branch Councils for that purpose, such Registrar shall forthwith enter into a Local Register in the form set forth in Schedule (D.) to this Act, or to the like effect, to be kept by him for that purpose, the name and place of residence, and the qualification or several qualifications in respect of which the person is so entitled, and the date of the registration, and shall, in the case of the Registrar of the Branch Council for Scotland or Ireland, with all convenient speed send to the Registrar of the General Council a copy, certified under the hand of the Registrar, of the entry so made, and the Registrar of the General Council shall forthwith cause the same to be entered in the General Register; and such Registrar shall also forthwith cause all entries made in the Local

Digitized by Google

Register for England to be entered in the General Register; and the entry on the General Register shall bear date from the Local Register.

Evidence of Qualification to be given before Registration.

XXVI. No qualification shall be entered on the Register, either on the first registration or by way of addition to a registered name, unless the Registrar be satisfied by the proper evidence that the person claiming is entitled to it; and any appeal from the decision of the Registrar may be decided by the General Council or by the Council for England, Scotland, or Ireland (as the case may be); and any entry which shall be proved to the satisfaction of such General Council or Branch Council to have been fraudulently or incorrectly made may be erased from the Register by order in writing of such General Council or Branch Council.

Register to be published.

XXVII. The Registrar of the General Council shall in every year cause to be printed, published, and sold, under the direction of such Council, a correct Register of the names in alphabetical order according to the surnames, with the respective residences, in the form set forth in Schedule (D.) to this Act, or to the like effect, and medical titles, diplomas, and qualifications conferred by any Corporation or University, or by Doctorate of the Archbishop of Canterbury, with the dates thereof, of all persons appearing on the General Register as existing on the first day of January in every year; and such Register shall be called "The Medical Register;" and a copy of the Medical Register for the time being, purporting to be so printed and published as aforesaid, shall be evidence in all courts and before all justices of the peace and others that the persons therein specified are registered according to the provisions of this Act; and the absence of the name of any person from such copy shall be evidence, until the contrary be made to appear, that such person is not registered according to the provisions of this Act: Provided always, that in the case of any person whose name does not appear in such copy, a certified copy, under the hand of the Registrar of the General Council or of any Branch Council, of the entry of the name of such person on the General or Local Register shall be evidence that such person is registered under the provisions of this Act.

Names of Members struck off from List of College, &c., to be signified to General Council.

XXVIII. If any of the said Colleges or the said Bodies at any time exercise any power they possess by law of striking off from the lists of such College or Body the name of any one of their Members, such College or Body shall signify to the General Council the name of the Member so struck off; and the General Council may, if they see fit, direct the Registrar to erase forthwith from the Register the Qualification derived from such College or Body in respect of which such Member was registered, and the Registrar shall note the same therein: Provided always, that the name of no person shall be erased from the Register on the ground of his having adopted any Theory of Medicine or Surgery.

Medical Practitioners convicted of Felony may be struck off the Register.

XXIX. If any registered Medical Practitioner shall be convicted in England or Ireland of any felony or misdemeanour, or in Scotland of any crime or offence, or shall after due inquiry be judged by the

Digitized by Google

General Council to have been guilty of infamous conduct in any professional respect, the General Council may, if they see fit, direct the Registrar to erase the name of such Medical Practitioner from the Register.

Registered Persons may have subsequent Qualifications inserted in the Register.

XXX. Every person registered under this Act who may have obtained any higher degree or any qualification other than the qualification in respect of which he may have been registered, shall be entitled to have such higher degree or additional qualification inserted in the Register in substitution for or in addition to the qualification previously registered, on payment of such fee as the Council may appoint.

Privileges of Registered Persons.

XXXI. Every person registered under this Act shall be entitled according to his qualification or qualifications to practise Medicine or Surgery, or Medicine and Surgery, as the case may be, in any part of her Majesty's dominions, and to demand and recover in any court of law, with full costs of suit, reasonable charges for professional aid, advice, and visits, and the cost of any medicines or other medical or surgical appliances rendered or supplied by him to his patients: Provided always, that it shall be lawful for any College of Physicians to pass a byelaw to the effect that no one of their Fellows or Members shall be entitled to sue in manner aforesaid in any court of law, and thereupon such byelaw may be pleaded in bar to any action for the purposes aforesaid commenced by any Fellow or Member of such College.

None but Registered Persons to recover Charges.

XXXII. After the first day of January one thousand eight hundred and fifty-nine, no person shall be entitled to recover any charge in any court of law for any medical or surgical advice, attendance, or for the performance of any operation, or for any medicine which he shall have both prescribed and supplied, unless he shall prove upon the trial that he is registered under this Act.

Poor Law Medical Officers not disqualified if registered within Six Months of passing of Act.

XXXIII. Provided also, that no person who on the first of October one thousand eight hundred and fifty-eight shall be acting as Medical Officer under an Order of the Poor Law Commissioners or Poor Law Board shall be disqualified to hold such office, by reason of his not being registered as herein required, unless he shall have failed to be registered within six months from the passing of this Act.

Meaning of Terms "legally qualified Medical Practitioner," &c.

XXXIV. After the first day of January one thousand eight hundred and fifty-nine, the words "legally qualified Medical Practitioner," or "duly qualified Medical Practitioner," or any words importing a person recognized by law as a Medical Practitioner or Member of the Medical Profession, when used in any Act of Parliament, shall be construed to mean a person registered under this Act.

Registered Persons exempted from serving on Juries, &c.

XXXV. Every person who shall be registered under the provisions of this Act shall be exempt, if he shall so desire, from serving on all juries and inquests whatsoever, and from serving all corporate, parochial, ward, hundred, and township offices, and from serving in

Digitized by Google

the militia, and the name of such person shall not be returned in any list of persons liable to serve in the militia, or in any such office as aforesaid.

Unregistered Persons not to hold certain Appointments.

XXXVI. After the first day of January one thousand eight hundred and fifty-nine, no person shall hold any appointment as a Physician, Surgeon, or Medical officer either in the military or naval service, or in emigrant or other vessels, or in any hospital, infirmary, dispensary, or lying-in hospital, not supported wholly by voluntary contributions, or in any lunatic asylum, gaol, penitentiary, house of correction, house of industry, parochial or union workhouse or poorhouse, parish union, or other public establishment, body, or institution, or to any friendly or other society, for affording mutual relief in sickness, infirmity, or old age, or as a Medical officer of health, unless he be registered under this Act: Provided always, that nothing in this Act contained shall extend to repeal or alter any of the provisions of the Passengers Act, 1855.

No Certificate to be valid unless person signing be registered.

XXXVII. After the first day of January one thousand eight hundred and fifty-nine, no Certificate required by any Act now in force, or that may hereafter be passed, from any physician, surgeon, licentiate in medicine and surgery, or other medical practitioner, shall be valid, unless the person signing the same be registered under this Act.

Penalty on wilful Falsification of Register.

XXXVIII. Any Registrar who shall wilfully make or cause to be made any falsification in any matters relating to the Register shall be deemed guilty of a misdemeanour in England or Ireland, and in Scotland of a crime or offence punishable by fine or imprisonment, and shall, on conviction thereof, be imprisoned for any term not exceeding twelve months.

Penalty for obtaining Registration by False Representations.

XXXIX. If any person shall wilfully procure or attempt to procure himself to be registered under this Act, by making or producing or causing to be made or produced any false or fraudulent representation or declaration, either verbally or in writing, every such person so offending, and every person aiding or assisting him therein, shall be deemed guilty of a misdemeanour in England and Ireland, and in Scotland of a crime or offence punishable by fine or imprisonment, and shall, on conviction thereof, be sentenced to be imprisoned for any term not exceeding twelve months.

Penalty for falsely pretending to be a Registered Person.

XL. Any person who shall wilfully and falsely pretend to be or take or use the name or title of a Physician, Doctor of Medicine, Licentiate in Medicine and Surgery, Bachelor of Medicine, Surgeon, General Practitioner or Apothecary, or any name, title, addition, or description implying that he is registered under this Act, or that he is recognized by law as a Physician, or Surgeon, or Licentiate in Medicine and Surgery, or a Practitioner in Medicine, or an Apothecary, shall, upon a summary conviction for any such offence, pay a sum not exceeding twenty pounds.

Recovery of Penalties.

XLI. Any penalty to which under this Act any person is liable on summary conviction of any offence may be recovered as follows: (that

Digitized by Google

is to say), in England, in manner directed by the Act of the Session holden in the eleventh and twelfth year of her Majesty, chapter forty-three, and in Ireland, in manner directed by "The Petty Sessions (Ireland) Act, 1851," or any other Act for the time being in force in England and Ireland respectively for the like purposes; and any such penalty may in Scotland be recovered by the Procurator Fiscal of the county, or by any other person before the Sheriff or two Justices, who may proceed in a summary way and grant warrant for bringing the party complained against before him or them, or issue an order requiring such party to appear on a day and at a time and place to be named in such order, and every such order shall be served on the party by delivering to him in person or by leaving at his usual place of abode a copy of such order and of the complaint whereupon the same has proceeded, and upon the appearance or default to appear of the party, it shall be lawful for the Sheriff or Justices to proceed to the hearing of the complaint, and upon proof on oath or confession of the offence, the Sheriff or Justices shall, without any written pleadings or record of evidence, commit the offender and discern him to pay the penalty named as well as such expenses as the Sheriff or Justices shall think fit, and failing payment shall grant warrant for recovery thereof by poinding and imprisonment, such imprisonment to be for such period as the discretion of the Sheriff or Justices may direct, not exceeding three calendar months, and to cease on payment of the penalty and expenses.

Application of Penalties.

XLII. Any sum or sums of money arising from conviction and recovery of penalties as aforesaid shall be paid to the Treasurer of the General Council.

Application of Monies received by Treasurer.

XLIII. All monies received by any Treasurer arising from fees to be paid on registration, from the sale of registers, from penalties, or otherwise, shall be applied for expenses of registration and of the execution of this Act.

Accounts to be published.

XLIV. The Treasurers of the General and Branch Councils shall enter in books to be kept for that purpose a true account of all sums of money by them received and paid, and such accounts shall be submitted by them to the respective General Council and Branch Councils at such times as the Councils shall require; and the said accounts shall be published annually, and such accounts shall be laid before both Houses in the month of March in every year, if Parliament be sitting, or, if Parliament be not sitting, then within one month after the next meeting of Parliament.

Notice of Death of Medical Practitioners to be given by Registrars.

XLV. Every Registrar of deaths in the United Kingdom on receiving notice of the death of any medical practitioner shall forthwith transmit by post to the Registrar of the General Council and to the Registrar of the Branch Council a certificate under his own hand of such death, with the particulars of time and place of death, and may charge the cost of such certificate and transmission as an expense of his office, and on the receipt of such certificate the Medical Registrar shall erase the name of such deceased medical practitioner from the Register.

Provision for Persons practising in the Colonies and elsewhere, and for Students.

XLVI. It shall be lawful for the General Council by special orders to dispense with such provisions of this Act or with such part of any regulations made by its authority as to them shall seem fit in favour of persons now practising medicine or surgery in any part of her Majesty's dominions other than Great Britain and Ireland by virtue of any of the qualifications described in Schedule (A.); and also in favour of persons practising medicine and surgery within the United Kingdom on foreign or colonial diplomas or degrees before the passing of this Act; and also in favour of any persons who have held appointments as Surgeons or Assistant-Surgeons in the Army, Navy, or Militia, in the service of the East India Company, or are acting as Surgeons in the public service, or in the service of any charitable institutions, and also, so far as to the Council shall seem expedient, in favour of Medical Students who shall have commenced their professional studies before the passing of this Act.

New Charter may be granted to the College of Physicians of London.

XLVII. It shall be lawful for her Majesty to grant to the Corporation of the Royal College of Physicians of London a new charter, and thereby to give to such Corporation the name of "The Royal College of Physicians of England," and to make such alterations in the constitution of the same Corporation as to her Majesty may seem expedient; and it shall be lawful for the said Corporation to accept such charter under their common seal, and such acceptance shall operate as a surrender of all charters heretofore granted to the said Corporation, except the charter granted by King Henry the Eighth, and shall also operate as a surrender of such charter and of any rights, powers, or privileges conferred by or enjoyed under an Act of the Session holden in the fourteenth and fifteenth years of King Henry the Eighth, Chapter Five, confirming the same as far as such charter and Act respectively may be inconsistent with such new charter: Provided, nevertheless, that within twelve months after the granting of such Charter to the College of Physicians of London, any Fellow, Member, or Licentiate of the Royal College of Physicians of Edinburgh, or of the Queen's College of Physicians of Ireland, who may be in practice as a Physician in any part of the United Kingdom called England, and who may be desirous of becoming a Member of such College of Physicians of England, shall be at liberty to do so, and entitled to receive the diploma of the said College, and to be admitted to all the rights and privileges thereunto appertaining, on the payment of a registration fee of two pounds to the said College.

Her Majesty may grant Power to College of Surgeons to institute Examinations, &c. for Dentists.

XLVIII. It shall, notwithstanding anything herein contained, be lawful for her Majesty, by charter, to grant to the Royal College of Surgeons of England power to institute and hold examinations for the purpose of testing the fitness of persons to practise as Dentists who may be desirous of being so examined, and to grant certificates of such fitness.

New Charter may be granted to College of Physicians of Edinburgh.

XLIX. It shall be lawful for her Majesty to grant to the Corporation of the Royal College of Physicians of Edinburgh a new

Digitized by Google

charter, and thereby to give to the said College of Physicians the name of "The Royal College of Physicians of Scotland," and it shall be lawful for the said Royal College of Physicians, under their common seal, to accept such new charter, and such acceptance shall operate as a surrender of all charters heretofore granted to the said Corporation.

The Faculty at Glasgow may be amalgamated.

L. If at any future period the Royal College of Surgeons of Edinburgh and Faculty of Physicians and Surgeons of Glasgow agree to amalgamate, so as to form one united Corporation under the name of "The Royal College of Surgeons of Scotland," it shall be lawful for her Majesty to grant, and for such College and Faculty under their respective common seals to accept, such new charter or charters as may be necessary for effecting such union, and such acceptance shall operate as a surrender of all charters heretofore granted to such College and Faculty; and in the event of such union it shall be competent for the said College and Faculty to make such arrangements as to the time and place of their examinations as they may agree upon, these arrangements being in conformity with the provisions of this Act, and subject to the approval of the General Council.

New Charter may be granted to the King and Queen's College of Physicians in Ireland.

LI. It shall be lawful for her Majesty to grant to the Corporation of the King and Queen's College of Physicians in Ireland a new charter, and thereby to give to such Corporation the name of "The Royal College of Physicians of Ireland," and to make such alterations in the constitution of the said Corporation as to her Majesty may seem expedient; and it shall be lawful for the said Corporation to accept such charter under their common seal, and such acceptance shall operate as a surrender of the charter granted by King William and Queen Mary, so far as it may be inconsistent with such new charter.

Charters not to contain new Restrictions in the Practice of Medicine or Surgery.

LII. Provided always, That nothing herein contained shall extend to authorize her Majesty to create any new restriction in the Practice of Medicine or Surgery, or to grant to any of the said Corporations any power or privileges contrary to the common law of the land or to the provisions of this Act, and that no such new charter shall in anywise prejudice, affect, or annul any of the existing statutes or bye-laws of the Corporations to which the same shall be granted, further than shall be necessary for giving full effect to the alterations which shall be intended to be effected by such new charters and by this Act in the constitution of such Corporation.

Provisions of 17 & 18 *Vict. c.* 114, *as to University of London, to continue in force.*

LIII. The enactments and provisions of the University of London Medical Graduates' Act, 1854, shall be deemed and construed to have applied and shall apply to the University of London for the time being, notwithstanding the surrender or determination of the therein-recited charter, and the granting or acceptance of the now existing charter of the University of London, or the future deter-

Digitized by Google

mination of the present or any future charter of the said University, and the granting of any new charter to the said University; and that every Bachelor of Medicine and Doctor of Medicine of the University of London for the time being shall be deemed to have been and to be entitled and shall be entitled to the privileges conferred by the said Act, in the same manner and to the same extent as if the charter recited in the said Act remained in force, subject nevertheless to the provisions of this Act.

British Pharmacopœia to be published.

LIV. The General Council shall cause to be published under their direction a book containing a list of medicines and compounds, and the manner of preparing them, together with the true weights and measures by which they are to be prepared and mixed, and containing such other matters and things relating thereto as the General Council shall think fit, to be called "British Pharmacopœia;" and the General Council shall cause to be altered, amended, and republished such Pharmacopœia as often as they shall deem it necessary.

Chemists, &c. not to be affected.

LV. Nothing in this Act contained shall extend or be construed to extend to prejudice or in any way to affect the lawful occupation, trade, or business of Chemists and Druggists and Dentists, or the rights, privileges, or employment of duly licensed Apothecaries in Ireland, so far as the same extend to selling, compounding, or dispensing medicines.

SCHEDULE (A.)

1. Fellow, Licentiate, or Extra Licentiate of the Royal College of Physicians of London.
2. Fellow or Licentiate of the Royal College of Physicians of Edinburgh.
3. Fellow or Licentiate of the King's and Queen's College of Physicians of Ireland.
4. Fellow or Member or Licentiate in Midwifery of the Royal College of Surgeons of England.
5. Fellow or Licentiate of the Royal College of Surgeons of Edinburgh.
6. Fellow or Licentiate of the Faculty of Physicians and Surgeons of Glasgow.
7. Fellow or Licentiate of the Royal College of Surgeons in Ireland.
8. Licentiate of the Society of Apothecaries, London.
9. Licentiate of the Apothecaries' Hall, Dublin.
10. Doctor, or Bachelor, or Licentiate of Medicine, or Master in Surgery of any University of the United Kingdom; or Doctor of Medicine by Doctorate granted prior to passing of this Act by the Archbishop of Canterbury.
11. Doctor of Medicine of any Foreign or Colonial University or College, practising as a Physician in the United Kingdom before the first day of October 1858, who shall produce certificates to the satisfaction of the Council of his having taken his degree of Doctor of Medicine after regular examination, or who shall satisfy the Council, under Section Forty-five of this Act, that there is sufficient reason for admitting him to be registered.

MEDICAL AMENDMENT ACT.

CAP. XXI.

An Act to amend the Medical Act (1858). [19th April, 1859.]

21*st and* 22*nd Vict.*, *c.* 90.

WHEREAS by an Act passed in the last Session of Parliament, chapter ninety, "The Medical Act," provision is made for the Registration of Members of the Medical Profession, and certain Disabilities are imposed, after the first day of January one thousand eight hundred and fifty-nine, on Members of that Profession who are not then registered: And whereas, by reason of the time required for the collection and examination of the proper evidence

Digitized by Google

on the first formation of "The Medical Register," it is expedient to amend the said Act as hereinafter mentioned: And whereas it is expedient that Schedule D. of the aforesaid Act should be amended: And whereas in Sections Thirty-one and Forty-seven of the Medical Act (1858) the terms "Fellow," and "Member" of the Royal Colleges of Physicians of London and Edinburgh are made use of, whilst in Schedule A. in the same Act "Fellows," "Licentiates," and "Extra Licentiates" of the said colleges are alone entitled to be registered: Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1st July, 1859, to be substituted in ss. 32, 34, 36, and 37, of recited Act for 1st Jan., 1859.

I. The first day of July one thousand eight hundred and fifty-nine shall be substituted, in sections thirty-two, thirty-four, thirty-six, and thirty-seven respectively of the said Act, for the first day of January one thousand eight hundred and fifty-nine; and the said several sections, and all provisions of the said Act having reference thereto, shall be construed and take effect as if the word July had been originally inserted in each of the said sections instead of the word January.

Section 33 of recited Act repealed.

II. Section thirty-three of the said Act shall be repealed, and no person shall by reason of the said Act be or be deemed to have been disqualified to hold such office as mentioned in the said section thirty-three, or any appointment mentioned in the said section thirty-six, unless he shall have failed to be registered on or before the first day of July one thousand eight hundred and fifty-nine.

Fourth Column of Schedule D. repealed.

III. The fourth column of Schedule D. of the said Act with its heading shall be repealed and omitted.

The Term "Member" to be added in First and Second Heads of Schedule A.

IV. The term "Member" shall be added after the term "Fellow" to the qualifications described in the first and second heads of Schedule A.

The words "Forty-six" to be substituted for "Forty-five" in Schedule A.

V. And whereas in Schedule A. of the said Act there is a reference to Section "Forty-five," but the word "five" is there inserted by mistake: Now it is hereby enacted, That the words "Forty-six" shall be deemed to be substituted in this Schedule in the place of the words "Forty-five."

Any Person not a British Subject having obtained his Degree or Diploma may act as Resident Physician, &c., of any Hospital exclusively for Foreigners.

VI. Nothing in the said Act contained shall prevent any person not a British subject who shall have obtained from any Foreign University a Degree or Diploma of Doctor in Medicine, and who shall have passed the regular examinations entitling him to practise medicine in his own country, from being and acting as the Resident Physician or Medical Officer of any hospital established exclusively for the relief of foreigners in sickness: Provided always, that such person is engaged in no Medical Practice except as such Resident Physician or Medical Officer.

THE MEDICAL COUNCIL.

President.—Sir BENJAMIN C. BRODIE, Bart., D.C.L., Pres. R.S.

1. Dr. THOMAS WATSON, for the Royal College of Physicians of London.
2. JOSEPH H. GREEN, Esq., for Royal College of Surgeons, England.
3. JOHN NUSSEY, Esq., for the Apothecaries' Society of London.
4. Dr. H. W. ACLAND, for the University of Oxford.
5. Dr. H. J. H. BOND, for the University of Cambridge.
6. Dr. DENNIS EMBLETON, for the University of Durham.
7. Dr. JOHN STORRAR, for the University of London.
8. Dr. ALEXANDER WOOD, for the Royal College of Physicians, Edinburgh.
9. Dr. ANDREW WOOD, for the Royal College of Surgeons, Edinburgh.
10. Dr. JAMES WATSON, for the Faculty of Physicians and Surgeons, Glasgow.
11. JAMES SYME, Esq., for the Universities of Aberdeen and Edinburgh.
12. Dr. J. A. LAWRIE, for the Universities of Glasgow and St. Andrew's.
13. Dr. AQUILLA SMITH, for the King's and Queen's College of Physicians in Ireland.
14. Dr. ROBERT CARLISLE WILLIAMS, for the Royal College of Surgeons of Ireland.
15. Dr. CHARLES H. LEET, for the Apothecaries' Hall of Ireland.
16. Dr. JAMES APJOHN, for the University of Dublin.
17. Dr. JOHN D. CORRIGAN, for the Queen's University of Ireland.

Appointed by the Queen, with the advice of her Privy Council.

18. Sir JAMES CLARK, Bart., M.D.
19. Sir CHARLES HASTINGS, M.D.
20. WILLIAM LAWRENCE, Esq.
21. THOMAS PRIDGIN TEALE, Esq.
22. Dr. ROBERT CHRISTISON.
23. Dr. WILLIAM STOKES.

Registrar and Secretary.—Dr. FRANCIS HAWKINS.

VACCINATION.

TUESDAY, DECEMBER 6, 1859.

AT the Council Chamber, Whitehall, the 1st day of December, 1859.

By the Lords of Her Majesty's Most Honourable Privy Council.—

To the Guardians of the Poor of all Unions and Parishes, to the Churchwardens and Overseers of all Parishes, Townships, and places in which the Relief to the Poor is not administered by Guardians, in England and Wales, and to all Medical Practitioners.

WHEREAS by the Public Health Act, 1858, and by an Act since passed to perpetuate the same, it is enacted that the Privy Council may from time to time issue such regulations as they may think fit, for securing the due qualification of persons to be thereafter contracted with by guardians and overseers of unions and parishes in England for the vaccination of persons resident in such unions and parishes, and for securing the efficient performance of vaccination by the persons already or thereafter to be contracted with as aforesaid;—

Now, therefore, it is hereby ordered, by the Lords and others of Her Majesty's Most Honourable Privy Council (of whom the Vice-President of the Committee of the said Privy Council on Education is one) that on and after the first day of January, one thousand eight hundred and sixty, the following regulations shall be in force; viz.:—

Qualification of Contractors.

1. Except where the Privy Council, for reasons brought to their notice, see fit in particular cases otherwise to allow, no person shall in future be admitted as a contractor for vaccination, unless he possess the same qualifications as are required by the Orders of the Poor Law Commissioners as qualifications for a District Medical Officer, and produce a special certificate, given, under such conditions as the Privy Council from time to time fix, by some public vaccinator whom the Privy Council authorize to act for the purpose, and by whom he has been duly instructed or examined in the practice of vaccination, and all that relates thereto:—

but the production of this special certificate on occasion of the contract being made may be dispensed with, if the certificate, or some other which the Privy Council judge to be of like effect, have been among the certificates or testimonials necessary for obtaining any diploma, licence, or degree, which the candidate possesses;—

and also, in respect of persons legally admitted to practise before this regulation comes into effect, the special certificate may be dispensed with, on condition that the contract, during one year from its making, continue subject to the approval of the Poor Law Board;—

and all persons now contracted with shall be deemed to be qualified to be again contracted with.

Qualification of Deputies of Contractors.

2. Under the same conditions as are appointed for the admission of

Digitized by Google

a contractor, any person qualified to be a contractor may, on the contractor's application, be admitted by the guardians or overseers to act as his occasional deputy;—

but, if this admission be not part of the original contract, it must be notified by indorsement upon the contract; and at least 15 days before it is intended to take effect, a copy of the proposed indorsement, together with all requisite evidence of the qualification of the person whom it is proposed to admit, must be transmitted to the Poor Law Board.

Vaccination and Inspection.

3. All vaccinations and inspections under contract shall be performed by the contractor in person, or by some other contractor of the same union or parish acting for him, or by a deputy duly admitted as above;—

but at any station where the contractor is authorised (as above) to grant certificates, pupils and other candidates, aged not less than 18 years, may, in his presence and under his direction, take part in vaccinating.

All vaccinations and inspections under contract shall be performed in accordance with the annexed "Instructions for Vaccinators under Contract."

Register of Cases.

4. Until some new form of vaccination-register be duly prescribed, the person who performs any vaccination under contract shall, on the day when he performs it, legibly write in his Register (as now provided) the letter R (for Revaccination) against the name of every person, adult or adolescent, who, having in early life been successfully vaccinated, is revaccinated; and shall also enter in some column, or in the margin of the register, the source whence the lymph used in the vaccination was obtained;—

thus: the name, or number (if any) in the register, of the subject from whom the lymph was taken; or "N.V.E.," if the lymph was sent by the National Vaccine Establishment; or the name or description of any other source;—

and where the vaccination or the inspection is done by a person acting as deputy for the contractor, the deputy shall write the initials of his name in the register side by side with the entry of the case; viz.: in the left margin of the page if it be a vaccination which he performs, or in the right margin of the page if it be an inspection which he performs.

Contracts.

5. Guardians and overseers, in their respective unions and parishes, shall forthwith take measures to bring the performance of public vaccination into conformity with these regulations.

WM. L. BATHURST.

Instructions for Vaccinators under Contract.

(1.) Except there be immediate danger of small-pox, vaccinate only subjects who are in good health. Satisfy yourself that there is not any eruption behind the ears, or elsewhere on the skin; nor any febrile state; nor any irritation of the bowels. Under no circumstances vaccinate a subject to whom, from the state or prospects of his health, vaccination is likely to prove injurious. Do not re-vaccinate persons who in infancy have been efficiently vaccinated, unless

Digitized by Google

they be more than 15 years of age, or, if during any immediate danger of small-pox, more than 12 years of age.

(2.) In all ordinary vaccinations, vaccinate by four or five separate punctures, so as to produce four or five separate good-sized vesicles; or, if you vaccinate otherwise than by separate punctures, take care to produce local effects equal to those just mentioned.

(3.) Direct care to be taken for keeping the vesicles uninjured during their progress, and for avoiding afterwards the premature removal of the crusts.

(4.) Register the results of vaccination only after having yourself inspected the cases. Register as "successful" no case of primary vaccination, unless the course of the vesicle have been strictly regular according to the subjoined description, A; and register as "successful" no case of re-vaccination, unless either the regular vaccine vesicle have ensued, or the results have been normally modified according to the subjoined description, B. Or if in either case you register as "successful" any result which does not agree with the subjoined descriptions, write also the word "irregular" in the column of the register where you record the result.

(5.) Endeavour to maintain in your district such a succession of cases as will enable you uniformly to vaccinate with liquid lymph directly from arm to arm; and do not, under ordinary circumstances, adopt any other method of vaccinating. To provide against emergencies, always have in reserve some stored lymph;—either *dry*, as on thickly-charged ivory points, constantly well-protected from damp; or *liquid*, according to the method of Dr. Husband of Edinburgh, in fine, short, uniformly capillary (not bulbed) tubes, hermetically sealed at both extremities. Lymph, successfully preserved by either of these methods, may be used without definite restriction as to time; but with all stored lymph caution is necessary, lest in time it have become inert, or otherwise unfit for use. If, in order to vaccinate with recent liquid lymph, you convey it from case to case in a vial or in other like manner, without its being hermetically sealed, do not let more than 18 hours, and in very hot weather not more than 12 hours, intervene before it is used.

(6.) Consider yourself strictly responsible for the quality of whatever lymph you use or furnish for vaccination. Take lymph only from subjects who are in good health; especially satisfying yourself that they are free from eruption on the skin. Take it only from well-characterised, uninjured vesicles. Do not take it from cases of re-vaccination. Take it (as may be done in all regular cases on the day week after vaccination) at a time when the vesicles are plump, either just before the formation of the areola, or, at the latest, not more than twenty-four hours after the areola has begun to form.

(7.) In vaccinating from arm to arm, and still more in proceeding to store lymph, avoid draining any vesicle which you puncture. From such a vesicle as vaccination by puncture commonly produces, do not, under ordinary circumstances, take more lymph than will suffice for the immediate vaccination of five subjects, or for the charging of seven ivory points, or for the filling of three capillary tubes; and from larger or smaller vesicles take only in like proportion to their size.

(8.) Scrupulously observe in your inspections every sign which tests the efficiency and purity of your lymph. Note any case wherein the vaccine vesicle is unduly hastened or otherwise irregular in its development, or wherein any undue local irritation arises; and if similar

Digitized by Google

results ensue in other cases vaccinated with the same lymph, desist at once from employing it.

(9.) If from any cause your supply of lymph ceases, or becomes unsuitable for further use, take immediate measures for obtaining a new supply.

(10.) Keep in good condition the lancets or other instruments which you use for vaccinating, and do not use them for other surgical operations.

N.B. Supplies of lymph, guaranteed by the National Vaccine Board, are furnished on application to all medical practitioners. Letters of application for this lymph should be addressed "To the Registrar of the National Vaccine Establishment, Privy Council Office, London, S.W."

Signs of successful Vaccination and of successful Re-vaccination.

(GREGORY, revised by CEELY and MARSON.)

(A.) "When vaccination has been successfully performed on a healthy infant, the puncture may be felt elevated on the second and third day, and soon afterwards, if examined with a magnifying glass, appears surrounded by a slight redness. On the fifth or sixth day a distinct vesicle is formed, having an elevated edge and depressed centre. On the eighth day it appears distended with a clear lymph. The vesicle, on this, its day of greatest perfection, is circular and pearl-coloured; its margin is turgid, firm, shining, and wheelshaped. Late on the seventh, or early on the eighth, day an inflamed ring or areola begins to form around the base of the vesicle, and, with it, continues to increase during the two following days. This areola is of a circular form, and its diameter extends from one to three inches. When at its height, on the ninth or tenth day, there is often considerable hardness and swelling of the subjacent cellular membrane. On the tenth or eleventh day the areola begins to subside, leaving, as it fades, two or three concentric circles of redness. The vesicle now begins to dry in the centre, and acquires there a brownish colour. The lymph which remains becomes opaque, and gradually concretes; so that about the fourteenth or fifteenth day the vesicle is converted into a hard round scab of a reddish brown colour. This scab contracts, dries, blackens, and, about the twenty-first day, falls off. It leaves a cicatrix which commonly is permanent in after life, circular, somewhat depressed, dotted or indented with minute pits, and, in some instances, radiated. The above described local changes, while in active progress, are attended by feverishness; first, from the fifth to the seventh day, so slightly that often the fact passes unobserved; and again more considerably during those days when the areola is about its height; the infant now being restless and hot, with more or less disturbance of stomach and bowels. About the same time, especially if the weather be hot, children of full habit not infrequently show on the extremities, and less copiously on the trunk, a lichenous, roseolar or vesicular eruption, which commonly continues for about a week. When vaccination is performed on such adults or adolescents as have not previously been vaccinated, and likewise when lymph is employed which has recently been derived from the cow, the resulting phenomena, as compared with the preceding description, are somewhat retarded in their course; and the

Digitized by Google

areola is apt to be much more diffuse. There is also more feverishness; but eruption is less frequently seen."

(B.) "When persons who have once been efficiently vaccinated are, some years afterwards, re-vaccinated with effective lymph, there sometimes result vesicles which, as regards their course and that of the attendant areola, cannot be distinguished from the perfect results of primary vaccination. But far more usually results are more or less modified by the influence of such previous vaccination. Often no true vesicles form, but merely papular elevations surrounded by areolæ; and these results, having attained their maximum on or before the fifth day, afterwards quickly decline. Or if vesicles form, their shape is apt to vary from that of the regular vesicle, and their course to be more rapid; so that their maturity is reached on or before the sixth day, their arcolæ decline on or before the eighth day, and their scabbing begins correspondingly early. In either case the areolæ tend to diffuse themselves more widely and less regularly, and with more affection of the cellular membrane, than in primary vaccination; and the local changes are accompanied by much itching, often by some irritation of the axillary glands, and in some cases on the fourth or fifth day by considerable febrile disturbance."

NOTIFICATION.

Qualification of Public Vaccinators.

WHEREAS under the provisions of the Public Health Act, 1858, and of an Act since passed to perpetuate the same, the Privy Council have this day issued Regulations "for securing the due qualification of persons to be hereafter contracted with by Guardians and Overseers of Unions and Parishes in England for the vaccination of persons resident in such Unions and Parishes, and for securing the efficient performance of vaccination by the persons already or hereafter to be contracted with as aforesaid;" and whereas in these regulations it is, among other things, required that, on and after the first day of January, one thousand eight hundred and sixty, persons to be contracted with for vaccination, and persons to be allowed to act in their stead, shall, except in certain cases, produce evidence of being duly qualified in all that relates to the practice of vaccination; which evidence must consist in a certificate given, after due instruction or examination, by some Public Vaccinator whom the Privy Council authorise to act for the purpose:

NOTICE IS HEREBY GIVEN—

1) that, subject to Orders of the Privy Council, the Public Vaccinators named in the following list are authorised by the Privy Council to give the required certificates of proficiency in vaccination to persons whom they have instructed therein, and those whose names in the following list are printed in italic letters are also authorised to give such certificates after examination to persons whom they have not themselves instructed;

2) that from and after the first day of January, one thousand eight hundred and sixty, the Vaccinating-Stations, at which these Vaccinators officiate, will be open, under conditions set forth in the annexed memorandum, for the purposes of teaching and examination; and

3) that from time to time, as additions are made by the Privy Council to the list of persons whom they now authorise to give

Digitized by Google

certificates of proficiency in vaccination, the names of the other persons thus authorised will be published in the London Gazette.

Cities and Towns having Educational Vaccinating-Stations.	Public Vaccinators authorised to give Certificates of Proficiency in Vaccination.	Places used as Educational Vaccinating-Stations.

Council Office, 1st December, 1859. WM. L. BATHURST.

Memorandum of Arrangements made in England for the Public Teaching of Vaccination, and for the granting of such Certificates of Proficiency in Vaccination as will qualify the bearers (if otherwise eligible) to be contracted with by Guardians and Overseers for the performance of Public Vaccination.

The Stations at present established for educational purposes are all in places where there are recognized medical schools. They are stations where the appointed public vaccinator uniformly attends in person, and where the annual number of vaccinations, as compared with the number of vaccinating-days, is sufficiently large to promise that the student, during his period of attendance, will, as a rule, always find many cases together for observation. They are stations from which vaccine lymph is furnished for the public service; the vaccinators in charge of them having, for this purpose, been selected by the National Vaccine Board to be Members of the National Vaccine Establishment.

The vaccinator of an educational vaccinating-station, during his attendance thereat, will exhibit and explain the course and characters of the vaccine vesicle, will practically teach the best method or

Digitized by Google

methods of performing vaccination, and of taking lymph for present or future use, will inculcate all precautions which are necessary with regard to the health of subjects proposed for vaccination, and with regard to the selection and preservation of lymph, and will give all such other instruction as is requisite for the scientific and successful performance of vaccination and re-vaccination. During his course of instruction, he will make provision to ensure that always some cases come for inspection on the 10th, as well as on the 8th day; and, for the purpose of shewing these cases to his pupils, he will give, on the day appointed for their coming, a second weekly attendance at his station. He will further enable and direct each pupil to see at least six cases of vaccination on at least two other days of their progress: viz., before the 8th and after the 10th day. In the teacher's presence, and under his direction, any pupil, aged not less than eighteen years, may take part in vaccinating; but not till he have attended the station on at least two vaccinating-days.

Any person, desirous of being admitted as pupil at an educational vaccinating-station, shall pay a fee not exceeding one guinea, and thereupon receive a ticket entitling him to attend the public vaccinations of the teacher. When the pupil has attended at the station, during the times of vaccinating and teaching, for at least six weeks, the teacher, if satisfied of his proficiency, shall, on receiving back his ticket, but without further payment, give him a certificate in the appointed form.

At stations where the teacher is also authorized to give certificates of proficiency in vaccination to persons whom he has not himself instructed therein, such persons will, on appointed occasions, be examined by the teacher, on payment of a fee not exceeding one guinea, and if he find them competent, receive certificates accordingly. In case of failure to pass this examination, the candidate may be admitted to a second examination on payment of a fee not exceeding half a guinea.

The certificate of proficiency will be understood to imply—and therefore the teacher who signs it will have taken care to ascertain, that the person to whom it is given can skilfully vaccinate, both with liquid lymph (including such as is preserved in capillary tubes) and also from ivory points;—that he can properly charge ivory points or capillary tubes with lymph;—that he is aware of the relative advantages of recent and preserved lymph, and of all precautions which are requisite in using the latter;—that, from among vaccinated subjects presented for eighth-day inspection, he can select, and give reasons for preferring, those who are fittest to furnish lymph;—that, besides being thoroughly familiar with all local changes which, from first to last, normally ensue on vaccination, he has learnt what causes may accelerate or retard the local changes, or give them undue severity, or otherwise render them irregular;—that he is well-informed as to the constitutional effects of vaccination (including the eruptions which sometimes follow it) and as to the treatment which cases of vaccination, under various circumstances, may require;—that he knows how far the protective influence of vaccination is affected by lapse of time, and how far by the mode in which vaccination is performed—especially by the number or size of vesicles, and knows generally under what circumstances re-vaccination is to be recommended;—finally, that he is acquainted with the laws and regulations relative to public vaccination, and understands the local arrangements which are necessary for maintaining a constant supply of lymph.

MEDICAL WITNESSES' ACT.

6 & 7 William 4, c. 89.

An Act to provide for the Attendance and Remuneration of Medical Witnesses at Coroners' Inquests. [17th Aug. 1836.]

Whereas it is expedient to provide for the attendance of Medical witnesses at coroners' inquests, also remuneration for such attendance, and for the performance of *post-mortem* examinations at such inquests: be it therefore enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons in this present Parliament assembled, and by the authority of the same, that from and after the passing of this Act whenever, upon the summoning or holding of any coroner's inquest, it shall appear to the coroner that the deceased person was attended at his death or during his last illness by any legally qualified Medical practitioner, it shall be lawful for the coroner to issue his order in the form marked (A.) in the schedule hereunto annexed, for the attendance of such practitioner as a witness at such inquest; and if it shall appear to the coroner that the deceased person was not attended at or immediately before his death by any legally-qualified Medical practitioner, it shall be lawful for the coroner to issue such order for the attendance of any legally-qualified Medical practitioner being at the time in actual practice in or near the place where the death has happened; and it shall be lawful for the coroner, either in his order for the attendance of the Medical witness, or at any time between the issuing of such order and the termination of the inquest, to direct the performance of a *post-mortem* examination, with or without an analysis of the contents of the stomach or intestines, by the Medical witness or witnesses who may be summoned to attend at any inquest; provided that if any person shall state upon oath before the coroner that in his or her belief the death of the deceased individual was caused partly or entirely by the improper or negligent treatment of any Medical practitioner or other person, such Medical practitioner or other person shall not be allowed to perform or assist at the *post-mortem* examination of the deceased.

II. And be it further enacted, That whenever it shall appear to the greater number of the jurymen sitting at any coroner's inquest, that the cause of death has not been satisfactorily explained by the evidence of the Medical practitioner or other witness or witnesses who may be examined in the first instance, such greater number of the jurymen are hereby authorized and empowered to name to the coroner in writing any other legally-qualified Medical practitioner or practitioners, and to require the coroner to issue his order, in the form hereinbefore-mentioned, for the attendance of such last-mentioned Medical practitioner or practitioners as a witness or witnesses, and for the performance of a *post-mortem* examination, with or without an analysis of the contents of the stomach or intestines, whether such an examination has been performed before or not; and if the coroner, having been thereunto required, shall refuse to issue such order, he shall be

Digitized by Google

deemed guilty of a misdemeanour, and shall be punishable in like manner as if the same were a misdemeanour at common law.

III. And be it further enacted, that when any legally-qualified Medical practitioner has attended upon any coroner's inquest in obedience to any such order as aforesaid of the coroner, the said practitioner shall for such attendance at any inquest in Great Britain be entitled to receive such remuneration or fee as is mentioned in the schedule hereunto annexed; and for any inquest held in Ireland the said practitioner shall be paid in the manner provided by the laws in force in that part of the United Kingdom; and the coroner is hereby required and commanded to make his order for the payment of such remuneration or fee, when the inquest shall be held in Great Britain, and such order may be addressed and directed to the churchwardens and overseers of the parish or place in which the death has happened; and such churchwardens and overseers, or any one of them, is and are hereby required and commanded to pay the sum of money mentioned in such order of the coroner to the Medical witness therein mentioned, out of the funds collected for the relief of the poor of the said place.*

IV. Provided nevertheless, and be it further enacted, that no order of payment shall be given, or fee or remuneration paid, to any Medical practitioner, for the performance of any *post-mortem* examination which may be instituted without the previous direction of the coroner.

V. Provided also, and be it further enacted, that when any inquest shall be holden on the body of any person who has died in any public hospital or infirmary, or in any building or place belonging thereto, or used for the reception of the patients thereof, or who has died in any county or other lunatic asylum, or in any public infirmary or other public medical institution, whether the same be supported by endowments or by voluntary subscriptions, then and in such case nothing herein contained shall be construed to entitle the Medical officer whose duty it may have been to attend the deceased person as a Medical officer of such institution as aforesaid, to the fees or remuneration herein provided.

VI. And be it further enacted, That where any order for the attendance of any Medical practitioner as aforesaid shall have been personally served upon such practitioner, or where any such order not personally served shall have been received by any Medical practitioner in sufficient time for him to have obeyed such order, or where any such order has been served at the residence of any Medical practitioner, and in every case where any Medical practitioner has not obeyed such order he shall for such neglect or disobedience forfeit the sum of five pounds sterling, upon complaint thereof made by the coroner or any two of the jury before any two justices having jurisdiction in the parish or place where the inquest under which the order issued was held, or in the parish where such medical practitioner resides; and such two justices are hereby required, upon such complaint, to proceed to the hearing and adjudication of such complaint, and, if such Medical practitioner shall not show to the said justices a good and sufficient cause for not having obeyed such

* Since the passing of this Act the coroner himself has been required by another Act, 1st Vict. cap. 68, to pay the Medical fees after examination of every inquest, and charge the amount to the county.

Digitized by Google

order, to enforce the said penalty by distress and sale of the offender's goods, as they are empowered to proceed by any Act of Parliament for any other penalty or forfeiture.

VII. And be it enacted, that nothing in this Act contained shall extend to Scotland.

CORONER'S INQUEST at

upon the body of

By virtue of this my Order as Coroner for , you are required to appear before me and the Jury at on the day of one thousand eight hundred and , at of the clock, to give evidence touching the cause of the death of the aforesaid person; [and make or assist in making a *post-mortem* examination of the body (with an analysis of the contents of the stomach, if such be necessary), and report thereon at the said inquest.]

Signed *Coroner.*

THE

LONDON MEDICAL DIRECTORY,

And General Medical Register,

1860;

CONTAINING the names of gentlemen practising within a range of five miles from Charing-cross. The suburbs included are as follows:—*North*, Highgate, Balls Pond, and Kingsland; *North East*, Dalston, Clapton, Hackney, and Homerton; *North West*, Hampstead, Kilburn, and Willesdon; *West*, Kensalgreen, Shepherd's Bush, and Hammersmith; *South West*, Fulham and Battersea; *South*, Clapham, Norwood, and Camberwell; *South East*, Peckham, Old Kent-road, and Rotherhithe; *East*, Bow, Stepney, and Blackwall.

N.B.—The signs (*) *and* (‡) *which are prefixed to the names of some of the gentlemen in this list have the following signification:—*

(*) Denotes those who have not returned the Annual Circular: for the correctness of entries so marked, the Editors do not hold themselves responsible.

(‡) Marks those who up to November 1, 1859, had not registered themselves under the new Medical Act.

---

*ABEL, SAMUEL, 2, Alfred-terr. Queen's-rd. Bayswater. W.—M.R.C.S. Eng. and L.S.A. 1823.

ARTS. MATRICULATION.

There shall be two examinations* for Matriculation in each year; one commencing on the second Monday in January, and the other on the first Monday in July. No candidate shall be admitted to the Matriculation Examination unless he have produced a certificate showing that he has completed his sixteenth year. This certificate† shall be transmitted to the Registrar at least fourteen days before the commencement of the examination. A fee of two pounds shall be paid at Matriculation. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be admitted to any subsequent examination for Matriculation without the payment of any additional fee, provided that he give notice of his intention to the Registrar at least fourteen days before the commencement of the examination. The examination shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting, for the purpose of ascertaining the competence of the candidates to pass, *viva voce* questions to any candidate in the subjects in which they are appointed to examine. Candidates for the Matriculation Examination shall be examined in the following subjects:—

---

* The examinations will be held at Burlington House, London; and also, under special arrangement, in other Cities, Towns, and Colleges of the United Kingdom.

† A certified copy from the Baptismal Register, or a certificate from the Registrar-General in London or from the Superintendent Registrar of the district, is expected.

Digitized by Google

Mathematics: Arithmetic and Algebra. Geometry. Natural Philosophy:* Mechanics, Hydrostatics, Hydraulics, and Pneumatics. Acoustics. Optics. Chemistry. Classics: The Greek and Latin Languages. One Greek and one Latin subject, to be selected one year and a half previously by the Senate from the works of the undermentioned authors.† The papers in Classics shall contain passages of the ancient authors to be translated into English, and simple and easy sentences of English to be translated into Latin. The papers shall also contain questions in Grammar, History, and Geography. The English Language: Outlines of English History and Modern Geography. The French or the German Language: Translation into English. Candidates shall not be approved by the Examiners unless they show a competent knowledge in: 1. Classics; 2. The English Language, English History, and Modern Geography; 3. Mathematics and Natural Philosophy; 4. Chemistry; 5. Either the French or the German Language. In the first week of examination the examinations shall be conducted in the following order:—Afternoon, three to six. Monday, French, two to four, German, four to six; Tuesday, English History; Wednesday, Chemistry; Thursday, Natural Philosophy; Friday, two to five, the English Language. Morning, ten to one. Tuesday, Mathematics; Wednesday, Greek Classic and History; Thursday, Mathematics; Friday, Roman Classic and History. On Monday morning at nine o'clock in the week next but one ensuing, the Examiners shall arrange in three divisions, each in alphabetical order, such of the candidates as have passed.

EXAMINATION FOR HONOURS.

Any candidate who has passed may be examined for honours in Mathematics and Natural Philosophy, Classics, Chemistry, and Natural History. Candidates for honours in Mathematics and Natural Philosophy shall be examined in the following subjects:—Arithmetic and Algebra, Geometry, Plane and Spherical Trigonometry, Conic Sections, the elements of Statics and Dynamics, the elements of Hydrostatics, the elements of Optics. This examination shall take place on Tuesday, Wednesday, and Thursday, in the week next but one after the Matriculation Examination; in the morning from ten to one, and in the afternoon from three to six. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in Mathematics evinced by the candidates at the Matriculation Examination. Candidates for honours in Classics shall be examined in any of the following subjects:—The Greek and Latin Languages, Composition in Latin and in English. The papers in Classics shall contain passages of the ancient authors, to be translated into English, and passages of English to be translated into Latin. The papers shall also contain

* The knowledge required of these subjects in Natural Philosophy will be such as may be attained by attending a course of experimental Lectures.

† The Classical subjects for 1859 and 1860 are:—For 1859: Homer—Iliad, Book V; Cicero—De Amicitiâ, and Pro Lege Manilia. For 1860: Xenophon—The Hellenics, Book II; Virgil—Georgics, Book III; Æneid, Book V.

Digitized by Google

questions in Grammar, History, and Geography. This examination shall take place on Tuesday, Wednesday, and Thursday, in the week following the examination for honours in Mathematics and Natural Philosophy; in the morning from ten to one, and in the afternoon from three to six. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall also have regard to the proficiency in Classics, History, and Geography, evinced by the candidates at the Matriculation Examination. Candidates for honours in Natural History shall be examined in one or both of the following subjects:—Botany, Zoology. The examination for honours in Chemistry shall take place on the Friday in the week next but one after the Pass Examination, in the morning from ten to one; and the examination in Natural History, on the same day, in the afternoon, from two to five. Such candidates for honours in Chemistry and Natural History as acquit themselves to the satisfaction of the Examiners shall be arranged in the order of proficiency in each subject. If in the opinion of the Examiners any candidate of not more than twenty years of age shall possess sufficient merit, the candidate who shall distinguish himself the most in Mathematics and Natural Philosophy, and the candidate who shall distinguish himself the most in Classics, shall each receive an exhibition of thirty pounds per annum for the next two years, payable in quarterly instalments, provided he shall declare on receiving each instalment his intention of presenting himself within three years from his passing the Matriculation Examination to be examined either for the Degree of B.A., or at the first Examination for the Degree of M.B. If in the opinion of the Examiners any candidate of not more than twenty years of age shall possess sufficient merit, the candidate who shall distinguish himself the most in Chemistry, and the candidate who shall distinguish himself the most in either branch of Natural History, shall each receive a prize to the value of ten pounds in books or money.

BACHELOR OF ARTS.

Candidates for the Degree of Bachelor of Arts shall be required to have passed the Matriculation Examination, and to pass two subsequent examinations.* *First B.A. Examination*:—The First B.A. Examination† shall take place once a year, and shall commence on the third Monday in July. No candidate shall be admitted to this examination within one

---

* Candidates who have already passed the Matriculation Examination will be admitted to the *single* B.A. Examination prescribed by the former regulations (copies of which may be obtained by application to the Registrar) in October, 1860, on producing the certificates required by those regulations. After 1860 the single Examination will be discontinued; and no candidate will be admitted to the B.A. Degree who shall not have passed the double Examination prescribed by the new regulations.

† The examinations will be held at Burlington House, London; and also, under special arrangement, in other Cities, Towns, and Colleges of the United Kingdom.

academical year of the time of his passing the Matriculation Examination; nor unless he have produced a satisfactory certificate of good conduct. This certificate shall be transmitted to the Registrar at least one calendar month before the commencement of the examination. The fee for this examination shall be five pounds. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be afterwards admissible to the First B.A. Examination without the payment of any additional fee, provided that he give notice of his intention to the Registrar at least fourteen days before the commencement of the examination. The examination shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting, for the purpose of ascertaining the competence of the candidates to pass, *viva voce* questions to any candidate in the subjects in which they are appointed to examine. Candidates shall be examined in the following subjects: Mathematics—Arithmetic and Algebra; Geometry; Plane Trigonometry. Latin, and Roman History—The Latin Language; Two Latin subjects, one in prose, the other in verse; to be selected two years previously by the Senate from the works of the undermentioned authors.* The papers in Latin shall contain passages of the ancient authors to be translated into English, and short passages of English to be translated into Latin. The papers shall also contain questions in Grammar, History, and Geography. History—The English Language, Literature, and History; The French or the German Language—Translation into English; Translation from English into French or German. Candidates shall not be approved by the Examiners unless they show a competent knowledge in 1. Latin, and Roman History; 2. English Language, Literature, and History; 3. Mathematics; 4. Either the French or the German Language. In the first week of examination the examinations shall be conducted in the following order:—Morning, 10 to 1: Monday, Latin; Tuesday. Mathematics; Wednesday, English History; Thursday, French. Afternoon, 3 to 6: Monday, Latin, and Roman History; Tuesday, Mathematics; Wednesday, English Language and Literature; Thursday, German. On Monday morning, at 9 o'clock, in the following week, the Examiners shall arrange in two divisions, each in alphabetical order, such of the candidates as have passed.

EXAMINATIONS FOR HONOURS.

Any candidate who has passed the First B.A. Examination may be examined for honours in Mathematics, in Latin, and in English, and for prizes in the French and German Languages and Literature. Candidates for honours in Mathematics shall be examined in the following subjects: Algebra, including the Theory of Equations; Analytical Geometry; The Differential and Integral Calculus; Calculus of Finite Differences; Theory of Probability. This examination shall take place on Tuesday, Wednesday, and Thursday, in the week following the first B.A. examination; in the morning from 10 to 1, and in the afternoon from 3 to 6. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and

* The Latin subjects for 1859 and 1860 are:—For 1859: Livy—Book XXXI; Horace—The Satires. For 1860: Cicero—De Oratore, Book I; Virgil—The Eclogues.

Digitized by Google

candidates shall be bracketed together unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in Mathematics evinced by the candidates at the first B.A. examination. Candidates for honours in Latin shall be examined in any of the following subjects: The Latin Language; Composition in Latin and English. The papers in Latin shall contain passages of the ancient authors to be translated into English, and passages of English to be translated into Latin. The papers shall also contain questions in Grammar, History, and Geography. This examination shall take place on Monday, Tuesday, and Wednesday in the week following the examination for honours in Mathematics; in the morning from 10 to 1, and in the afternoon from 3 to 6. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in Latin displayed by the candidate at the first B.A. examination. If in the opinion of the Examiners any candidate of not more than twenty-two years of age shall possess sufficient merit, the candidate who shall distinguish himself the most in Mathematics, and the candidate who shall distinguish himself the most in Latin, shall each receive an exhibition of forty pounds per annum for the next two years, payable in quarterly instalments, provided that he shall declare, on receiving each instalment, his intention of presenting himself, within two years from his passing the first B.A. examination, at the second examination for the degree of B.A. Candidates for honours in English shall be examined in subjects to be defined from time to time. This examination shall take place on Thursday and Friday in the week following the examination for honours in Mathematics; in the morning from 10 to 1, and in the afternoon from 3 to 6. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in English displayed by the candidates at the first B.A. examination. If in the opinion of the Examiners any candidate of not more than twenty-two years of age shall possess sufficient merit, the candidate who shall distinguish himself the most in English shall receive an exhibition of thirty pounds per annum for the next two years, payable in quarterly instalments, provided that he shall declare, on receiving each instalment, his intention of presenting himself, within two years from his passing the first B.A. examination, at the second examination for the degree of B.A. The examinations for the prizes in French and German shall take place in the week following the examination for honours in Latin; that in French on Wednesday, in the morning from 10 to 1, and in the afternoon from 3 to 6; that in German on Thursday, in the morning from 10 to 1, and in the afternoon from 3 to 6. The Examiners shall publish in the course of the ensuing week the names of the candidates whom they shall consider to be entitled to the prizes, together with the names of any other candidates whom they may deem worthy of creditable mention, arranged in the order of proficiency; and candidates shall be bracketed together unless the Ex-

Digitized by Google

aminers shall be of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in French and German evinced by the candidates at the first B.A. examination. If in the opinion of the Examiners any candidate of not more than twenty-two years of age shall possess sufficient merit, the candidate who shall distinguish himself the most in French, and the candidate who shall distinguish himself the most in German, shall each receive a prize to the value of ten pounds in books or money.

Second B. A. Examination:—The Second B. A. Examination* shall take place once a year, and shall commence on the fourth Monday in October. No candidate shall be admitted to this examination within one academical year of the time of his passing the First B. A. Examination; nor unless he have produced a satisfactory certificate of good conduct. This certificate shall be transmitted to the Registrar at least one calendar month before the commencement of the examination. The fee for this examination shall be five pounds. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be afterwards admissible to the Second B. A. Examination without the payment of any additional fee, provided that he give notice of his intention to the Registrar at least fourteen days before the commencement of the examination. The examination shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting, for the purpose of ascertaining the competence of the candidates to pass, *viva voce* questions to any candidate in the subjects in which they are appointed to examine. Candidates shall be examined in the following subjects:

Natural Philosophy—Mechanics; Hydrostatics, Hydraulics, and Pneumatics. Astronomy. Animal Physiology. Classics—the Greek and Latin Languages. The papers in Classics shall contain passages of the ancient authors to be translated into English, and short passages of English to be translated into Latin. The papers shall also contain questions in Grammar, History, and Geography: Logic and Moral Philosophy.† Candidates shall not be approved by the Examiners unless they show a competent knowledge in—1. Classics. 2. Grecian History. 3. Natural Philosophy. 4. Animal Physiology. 5. Logic and Moral Philosophy. In the first week of examination the examinations shall be conducted in the following order:—Morning, 10 to 1—Monday, Greek; Tuesday, Grecian History; Wednesday, Natural Philosophy; Thursday, Logic and Moral Philosophy. Afternoon, 3 to 6—Monday, Greek and Latin; Tuesday, Animal Physiology; Wednesday, Natural Philosophy; Thursday, Logic and Moral Philosophy. On Tuesday morning, at nine o'clock, in the following week, the Examiners shall arrange in two divisions, each

---

* The examinations will be held at Burlington House, London; and also, under special arrangement, in other Cities, Towns, and Colleges of the United Kingdom.

† The extent of acquirement expected in Logic and Moral Philosophy is such as may fairly be attained by a course of instruction in a class during the year preceding examination. The Senate think it better to leave the choice of books to the respective Professors.

Digitized by Google

in alphabetical order, such of the candidates as have passed, and a certificate, under the seal of the University, and signed by the Chancellor, shall be delivered to each candidate.

EXAMINATION FOR HONOURS.

Any candidate who has passed may be examined for honours in Mathematics and Natural Philosophy, Classics, Logic and Moral Philosophy, Chemistry, Animal Physiology, and Vegetable Physiology and Structural Botany. Candidates for honours in Mathematics and Natural Philosophy shall be examined in the following subjects: Algebra, including the Theory of Equations; Analytical Geometry; the Differential and Integral Calculus; Calculus of Finite Differences; Theory of Probability; Statics and Dynamics; Hydrostatics; Hydraulics and Pneumatics; Heat; Optics; Astronomy. This examination shall take place on Tuesday, Wednesday, and Thursday, in the week following the second B.A. examination; in the morning from 10 to 1, and in the afternoon from 3 to 6. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in Mathematics and Natural Philosophy evinced by the candidates at the Second B.A. Examination. Candidates for honours in Classics shall be examined in any of the following subjects: The Greek and Latin Languages; Composition in Greek, Latin, and English. The papers in Classics shall contain passages of the ancient authors to be translated into English, and passages of English to be translated into Latin and Greek. The papers shall also contain questions in Grammar, History, and Geography. This examination shall take place on Monday, Tuesday, and Wednesday, in the week following the examination for honours in Mathematics and Natural Philosophy; in the morning from 10 to 1, and in the afternoon from 3 to 6. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together, unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall also have regard to the proficiency in Classics evinced by the candidates at the Second B.A. Examination. Candidates for honours in Logic and Moral Philosophy shall be examined in the following subjects: Names, Notions, and Propositions; Syllogism; Induction and subsidiary operations; the Senses; the Intellect; the Emotions; the Will; the Theory of Ethics. This examination shall take place on Thursday and Friday in the week following the examination for honours in Mathematics and Natural Philosophy; in the morning from 10 to 1, and in the afternoon from 3 to 6. In the course of the following week the Examiners shall publish, in the order of proficiency, a list of the candidates who acquit themselves to their satisfaction; and candidates shall be bracketed together, unless the Examiners are of opinion that there is a clear difference between them. In determining the relative position of candidates, the Examiners shall have regard to the proficiency in Logic and Moral Philosophy evinced by the candidates at the Second B.A. Examination. The examinations for honours in Chemistry, Animal Physiology, Vegetable Physiology and

Digitized by Google

Structural Botany, shall take place in the week immediately following the examination for honours in Classics; that in Chemistry on Wednesday, in the morning from 10 to 1; that in Animal Physiology on Thursday, in the morning from 10 to 1, and in the afternoon from 3 to 6; and that in Vegetable Physiology and Structural Botany on Friday, in the morning from 10 to 1. The Examiners shall publish in the course of the ensuing week a list of the candidates who acquit themselves to their satisfaction, in the order of proficiency in each subject. If in the opinion of the Examiners any candidate of not more than twenty-three years of age shall possess sufficient merit, the candidate who shall distinguish himself the most in Mathematics and Natural Philosophy, the candidate who shall distinguish himself the most in Classics, and the candidate who shall distinguish himself the most in Logic and Mental and Moral Philosophy, shall each receive fifty pounds per annum for the next three years, with the style of University Scholars. Under the same circumstances, the candidate who shall distinguish himself the most in Chemistry, the candidate who shall distinguish himself the most in Animal Physiology, and the candidate who shall distinguish himself the most in Vegetable Physiology and Structural Botany, shall each receive a prize to the value of ten pounds in books or money.

MASTER OF ARTS.

The examination for the degree of Master of Arts shall take place once a year, and commence on the first Monday in June. No candidate shall be admitted to the examination for the degree of M.A. until after the expiration of one academical year from the time of his obtaining the degree of B.A. in this University, or in one of the Universities of Oxford, Cambridge, Dublin, and Durham, nor unless he have shown evidence of having completed his twentieth year. The certificates shall be transmitted to the Registrar at least fourteen days before the examination begins. The fee for the degree of M.A. shall be ten pounds. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be admissible to any subsequent examination for the same degree without the payment of any additional fee, provided that he give notice of his intention to the Registrar at least fourteen days before the commencement of the examination. The examination shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting, for the purpose of ascertaining the competence of the candidates to pass, *viva voce* questions to any candidate in the subjects in which they are appointed to examine. Candidates for the degree of M.A. shall be examined in one or more of the following branches of knowledge:—1. Classics; 2. Mathematics and Natural Philosophy; 3. Logic and Moral Philosophy, Political Philosophy, History of Philosophy, Political Economy. No candidate shall be approved by the Examiners unless he show a competent knowledge in one of these branches of knowledge. The candidates who pass to the satisfaction of the Examiners shall be arranged in the order of proficiency; and candidates shall be bracketed together, unless the Examiners are of opinion that there is a clear difference between them. If in the opinion of the Examiners any candidate shall possess sufficient merit, the candidate who shall distinguish himself the most in branch 1, the candidate who shall distinguish himself the most in branch 2, and the candidate who shall dis-

Digitized by Google

inguish himself the most in branch 3, shall each receive a gold medal of the value of twenty pounds; and if the same candidate distinguish himself the most in two or more of the said branches, he shall receive a gold medal in right of each branch in which he shall so distinguish himself. The examination in branch 1 shall take place in the first week on Monday, Tuesday, Wednesday, and Thursday; in the morning from 10 to 1, and in the afternoon from 3 to 6. The examination in branch 2 shall take place in the next week on Monday, Tuesday, Wednesday, and Thursday; in the morning from 10 to 1, and in the afternoon from 3 to 6. The examination in branch 3 shall take place in the third week on Monday, Tuesday, Wednesday, and Thursday; in the morning from 10 to 1, and in the afternoon from 3 to 6.

MEDICINE.—BACHELOR OF MEDICINE.

Candidates for the degree of Bachelor of Medicine shall be required: 1. To have been engaged during four years in their professional studies at one or more of the institutions or schools recognised by this University. 2. To have spent one year at least of the four in one or more of the recognised institutions or schools in the United Kingdom. 3. To pass two examinations.

FIRST M.B. EXAMINATION.

The first M.B. examination shall take place once a-year, and commence on the first Monday in August.* No candidate shall be admitted to this examination unless he have produced certificates to the following effect:— 1. Of having completed his nineteenth year. 2. Of having taken a degree in Arts in this University, or in a University the degrees granted by which are recognised by the Senate of this University; † or of having passed the Matriculation Examination.‡ 3. Of having been a student during two years at one or more of the medical institutions or schools recognised by this University, subsequently to having taken a degree in Arts or passed the Matriculation Examination. 4. Of having attended a course of lectures on each of four of the subjects in the following list:— Descriptive and Surgical Anatomy; General Anatomy and Physiology; Comparative Anatomy; Pathological Anatomy; Chemistry; Botany; Materia Medica and Pharmacy; General Pathology; General Therapeutics; Forensic Medicine; Hygiene; Midwifery and Diseases peculiar to Women and Infants; Surgery; Medicine. 5. Of having dissected during nine months. 6. Of having attended a course of practical chemistry, comprehending practical exercises in conducting the more important processes of general and pharmaceutical chemistry, in applying tests for discovering the adulteration of articles of the Materia Medica, and the presence and nature of poisons; and in the examination of mineral waters, animal secretions, urinary deposits, calculi, &c. 7. Of having attended to practical pharmacy during a sufficient length of time to enable

* The annual number of examinations will be increased at a future period, should it be found desirable.

† The degrees in arts of all Universities in the United Kingdom are recognised by the Senate for this purpose.

‡ The Matriculation Examination is the same for students in Arts and for students in Medicine.

Digitized by Google

him to acquire a practical knowledge in the preparation of medicines. These certificates shall be transmitted to the Registrar at least fourteen days before the examination begins. The fee for this examination shall be 5*l*. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be afterwards admissible to the first M.B. examination without the payment of any additional fee.

Candidates shall be examined in the following subjects:

Anatomy; Physiology; Chemistry; Botany; Materia Medica and Pharmacy. The candidate shall also be required to translate passages from the Latin Pharmacopœia.

The examinations shall be conducted in the following order:—Morning, 10 to 1—Monday, Anatomy and Physiology, by printed papers; Tuesday, Chemistry, by printed papers; Wednesday, 10 to 12, Botany, by printed papers. Afternoon, 3 to 6—Monday, Anatomy and Physiology, by printed papers; Tuesday, Materia Medica and Pharmacy, by printed papers. To commence on Friday, at 10—Chemistry, by *viva voce* and experiment; and Materia Medica and Pharmacy, by *viva voce* and demonstration from specimens. To commence on Tuesday in the following week, at 10—Anatomy and Physiology by *viva voce*, demonstration from preparations, and dissection. On Wednesday morning in the week following the commencement of the examination, the Examiners shall arrange in two divisions, each in alphabetical order, such of the candidates as have passed; and a pass certificate, signed by the Registrar, shall be delivered to each candidate. Such candidates only as in the opinion of the Examiners are admissible to the examination for honours shall be placed in the first division.

EXAMINATION FOR HONOURS.

Any candidate who has been placed in the first division at the first M.B. examination may be examined for honours in any or all of the following subjects:—Anatomy and Physiology (candidates may illustrate their answers by sketching the parts they describe); Chemistry; Materia Medica and Pharmaceutical Chemistry; Structural and Physiological Botany. The examinations shall take place in the week following the commencement of the first M.B. examination. They shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting *viva voce* questions upon the written answers of the candidates when they appear to require explanation. The examinations shall be conducted in the following order:—Morning, 10 to 1—Thursday, Anatomy and Physiology; Friday, Chemistry; Saturday, Structural and Physiological Botany. Afternoon, 3 to 6—Thursday, Anatomy and Physiology; Friday, Materia Medica and Pharmaceutical Chemistry.—In determining the relative position of candidates, the Examiners shall have regard to the proficiency evinced by the candidates in the same subjects at the pass examination. Candidates who pass the examinations, and acquit themselves to the satisfaction of the Examiners, shall be arranged according to the several subjects and according to their proficiency in each; and candidates shall be bracketed together, unless the Examiners are of opinion that there is a clear difference between them. If in the opinion of the Examiners sufficient merit be evinced, the candidate who shall distinguish himself the most in Anatomy and Physiology, the candidate who shall

Digitized by Google

distinguish himself the most in Chemistry, and the candidate who shall distinguish himself the most in Materia Medica and Pharmaceutical Chemistry, shall each receive an exhibition of thirty pounds per annum for the next two years. Under the same circumstances, the first and second candidates in each of the preceding subjects shall each receive a gold medal of the value of five pounds. Under the same circumstances, the candidate who shall distinguish himself the most in Structural and Physiological Botany shall receive a gold medal of the value of five pounds.

SECOND M.B. EXAMINATION.

The second M.B. examination shall take place once a year, and commence on the first Monday in November. No candidate shall be admitted to this examination within two academical years of the time of his passing the first M.B. examination, nor unless he have produced certificates to the following effect:—1. Of having passed the first M.B. examination. 2. Of having subsequently to having passed the first M.B. examination attended a course of lectures on each of two of the subjects comprehended in the list at page 271, and for which the candidate had not presented certificates at the first M.B. examination. 3. Of having, subsequently to having passed the first M.B examination, dissected during six months. 4. Of having conducted at least six labours; certificates on this subject will be received from any legally-qualified practitioner in medicine. 5. Of having attended the surgical practice of a recognised hospital or hospitals during twelve months, and lectures on Clinical Surgery. 6. Of having attended the medical practice of a recognised hospital or hospitals during other twelve months, and lectures on Clinical Medicine. 7. Of having, subsequently to the completion of his attendance on surgical and medical hospital practice, attended to practical medicine in a recognised hospital, infirmary, or dispensary, during six months. Certificates on this subject will be received from any legally-qualified practitioner having the care of the poor of a parish. The candidate shall also produce a certificate of moral character from a teacher in the last school or institution at which he has studied, as far as the teacher's opportunity of knowledge has extended. These certificates shall be transmitted to the Registrar at least fourteen days before the examination begins. The fee for this examination shall be five pounds. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be afterwards admissible to the second M.B. examination without the payment of any additional fee. Candidates shall be examined in the following subjects:—Physiology (the papers in Physiology shall include questions in Comparative Anatomy); General Pathology, General Therapeutics, Hygiene; Surgery; Medicine; Midwifery; Forensic Medicine. The candidate shall also be required to translate passages of the Latin Pharmacopœia into English and of the English Pharmacopœia into Latin. The examinations shall be conducted in the following order:—First week—By printed papers, Morning, 10 to 1—Monday, Physiology; Tuesday, Surgery; Wednesday, Midwifery. Afternoon, 3 to 6—Monday, General Pathology, General Therapeutics, Hygiene; Tuesday, Medicine; Wednesday, Forensic Medicine; Friday, the candidates to report on the cases of actual patients.—Second week—By *viva voce* interrogation and demonstration from preparations, with translations from the Pharmacopœias. To commence on Monday morning at 10. On Monday morning in the following week the

Digitized by Google

Examiners shall arrange in two divisions, each in alphabetical order, such of the candidates as have passed. And a certificate, under the seal of the University, and signed by the Chancellor, shall be delivered to each candidate. Such candidates only as in the opinion of the Examiners are admissible to the examination for honours shall be placed in the first division. The Senate desire it to be understood that Bachelors of Medicine of the University of London have no right, as such, to assume the title of Doctor of Medicine.

EXAMINATION FOR HONOURS.

Any candidate who has been placed in the first division at the second M. B. examination may be examined for honours in any or all of the following subjects:—Physiology and Comparative Anatomy (candidates may illustrate their answers by sketching the parts they describe); Surgery; Medicine; Midwifery. The examinations shall take place in the week following the second M.B. examination. They shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting *viva voce* questions upon the written answers of the candidates when they appear to require explanation. The examinations shall be conducted in the following order:—Morning, 10 to 1—Tuesday, Physiology and Comparative Anatomy; Wednesday, Surgery; Thursday, Medicine; Friday, Midwifery. Afternoon, 3 to 6—Tuesday, Physiology and Comparative Anatomy; Wednesday, Surgery; Thursday, Medicine. In determining the relative position of candidates, the Examiners shall have regard to the proficiency evinced by the candidates in the same subjects as at the pass examination. Candidates who pass the examinations, and acquit themselves to the satisfaction of the Examiners, shall be arranged according to the several subjects and according to their proficiency in each; and candidates shall be bracketed together, unless the Examiners are of opinion that there is a clear difference between them. If in the opinion of the Examiners sufficient merit be evinced, the candidates who shall distinguish himself the most in Physiology and Comparative Anatomy, the candidate who shall distinguish himself the most in Surgery, and the candidate who shall distinguish himself the most in Medicine, shall each receive an exhibition of fifty pounds per annum for the next two years, with the style of University Medical Scholar. Under the same circumstances, the first and second candidates in each of the preceding subjects shall each receive a gold medal of the value of five pounds. Under the same circumstances, the candidate who shall distinguish himself the most in Midwifery shall receive a gold medal of the value of five pounds.

DOCTOR OF MEDICINE.

The examination for the degree of Doctor of Medicine shall take place once a year, and commence on the fourth Monday in November. No candidate shall be admitted to this examination unless he have produced certificates to the following effect:—1. Of having taken the degree of Bachelor of Medicine in this University, or a degree in Medicine or in Surgery at a University the degrees granted by which are recognised by the Senate of this University.* Those candidates who have not taken the

* At present, all candidates for the degree of Doctor of Medicine must have previously obtained the degree of Bachelor of Medicine in this University.

Digitized by Google

degree in this University shall produce a certificate of having completed their twenty-third year. 2. Of having attended, subsequently to having taken one of the above degrees in Medicine. *a.* To Clinical or Practical Medicine during two years in a hospital or medical institution recognised by this University. *b.* Or, to Clinical or Practical Medicine during one year in a hospital or medical institution recognised by this University, and of having been engaged during three years in the practice of his profession. *c.* Or, if he have taken the degree of Bachelor of Medicine in this University, of having been engaged during five years in the practice of his profession. One year of attendance on Clinical or Practical Medicine, or two years of practice, will be dispensed with in the case of those candidates who at the second M.B. examination have been placed in the first division. 3. Of moral character, signed by two persons of respectability. These certificates shall be transmitted to the Registrar at least fourteen days before the examination begins. The fee for the degree of Doctor of Medicine shall be ten pounds. No candidate shall be admitted to the examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him, but he shall be admissible to any subsequent examination for the same degree without the payment of any additional fee. The examination shall be conducted by means of printed papers and *viva voce* interrogation. Candidates shall be examined in the following subjects:—Logic and Moral Philosophy;* Medicine. The examinations shall be conducted in the following order:—By printed papers, Morning, 10 to 1—Monday, Logic and Moral Philosophy; Tuesday, Medicine.—Afternoon, 3 to 6—Monday, A commentary on a case in Medicine, Surgery, or Midwifery, at the option of the Candidate; Tuesday, Medicine; Thursday, The candidates to report on the cases of actual patients. By *viva voce* interrogation—Friday, at 1 p.m. Examination on the answers to the printed papers, and on the commentaries. On Monday morning in the following week the Examiners shall arrange in two divisions, each in alphabetical order, such of the candidates as have passed. And a certificate under the seal of the University, and signed by the Chancellor, shall be delivered to each candidate.

REGULATIONS RELATING TO STUDENTS WHO COMMENCED THEIR MEDICAL STUDIES IN OR BEFORE JANUARY 1839.†

Candidates who commenced their professional studies in or before January, 1839, shall be admitted to the first examination for the degree of

---

* Candidates who have taken a degree in Arts in this University, or in a University the degrees granted by which are recognised by the Senate of this University, shall be exempted from this part of the examination. The degrees in Arts of all Universities in the United Kingdom are recognised by the Senate for this purpose. The subjects of the examination in Logic and Moral Philosophy are as follows:—Names, Notions, and Propositions; Syllogism; Induction and subsidiary operations; the Senses; the Intellect; the Will, including the Theory of Moral Obligation.

† Candidates who have obtained the degree of M.B. under the regulations contained in this page, and who are desirous of proceeding to the degree of M.D., will be required to produce the certificates enumerated in page 274 and above.

Bachelor of Medicine on producing certificates to the following effect:—1. Of having been engaged during two years in their professional studies. 2. Of having attended a course of lectures on each of four of the subjects comprehended in the list at page 271. 3. Of having dissected during nine months. 4. Of having attended to practical pharmacy during a sufficient length of time to enable them to acquire a practical knowledge in the preparation of medicines. Candidates who commenced their professional studies in or before January, 1839, shall be admitted to the second examination for the degree of Bachelor of Medicine on producing certificates to the following effect:—1. Of having been engaged during four years in their professional studies. 2. Of having passed the first M.D. examination. 3. Of having attended a course of lectures on each of two of the subjects comprehended in the list at page 271. 4. Of having dissected during twelve months. 5. Of having attended to practical pharmacy during a sufficient length of time to enable the pupil to acquire a practical knowledge in the preparation of medicines. 6. Of having conducted at least six labours. 7. Of having attended the surgical practice of a recognised hospital or hospitals during twelve months. 8. Of having attended the medical practice of a recognised hospital or hospitals during other twelve months. 9. Of having completed the twenty-second year of their age. 10. Of moral character from a teacher in the last school or institution at which they have studied, as far as the teacher's opportunity of knowledge has extended.—Candidates who have not taken a degree in Arts, or passed the Matriculation Examination in this University, will be required to translate a portion of Celsus *de Re Medica*.

REGULATIONS RELATING TO PRACTITIONERS IN MEDICINE OR SURGERY DESIROUS OF OBTAINING DEGREES IN MEDICINE.*

BACHELOR AND DOCTOR OF MEDICINE.—*Bachelor of Medicine.*—Candidates shall be admitted to the two examinations for the degree of Bachelor of Medicine on producing certificates to the following effect:—1. Of having been admitted prior to the year 1840 members of one of the legally-constituted bodies in the United Kingdom for licensing Practitioners in Medicine or Surgery; or, of having served previously to 1840 as Surgeons or Assistant-Surgeons in Her Majesty's Army, Ordnance, or Navy, or in the Service of the Honourable the East India Company. 2. Of having received a part of their education at a recognised institution or school, as required by the Charter of the University. 3. Of moral character, signed by two persons of respectability. Candidates who have not taken a degree in Arts, or passed matriculation examination in this University, will be required to translate a portion of Celsus *de Re Medica*. —*Doctor of Medicine.*—Candidates who have been engaged during five years in the practice of their Profession shall be admitted to the examination for this degree on producing certificates to the following effect:—1. Of having been engaged during five years in the practice of their Profession. 2. Of having taken the degree of Bachelor of Medicine in this University. Candidates who have not taken a degree in Arts, or passed the matriculation examination in this University, will be required to translate a portion of Celsus *de Re Medica*.

* All the regulations in this page are applicable exclusively to Practitioners who obtained their licences or commissions prior to 1840.

ROYAL COLLEGE OF PHYSICIANS.

Pall Mall East, London. S.W.

Pres., T. Mayo, M.D.—*Censors*, Thomas Alfred Barker, M.D., William Baly, M.D., Frederick Weber, M.D., William Whitbey Gull, M.D.—*Treas.*, Dr. J. Alderson.—*Regist.*, Henry Alfred Pitman, M.D.—*Curr. of Museum*, the President, the Censors, and J. Alderson, M.D., R. Nairne, M.D, P. Black, M.D., and W. Wegg, M.D.—*Sec.*, Mr W. Copney.

The College of Physicians consists of Fellows. The Licentiates enjoy the same privileges as the Fellows as far as practice is concerned, but they have no share in the direction of the affairs of the College. The Fellows are now chosen from the body of Licentiates, a certain number being generally elected on the 25th of June each year.

The EXAMINERS *for the Licence are the President and Censors.* The examination for the Licence takes place four times a-year; viz., shortly before Christmas, Easter, Midsummer, and Michaelmas.

FEES.—*Licence*, 31*l.* 10s. *Fellowship*, 56*l.* 10s. including 25*l.* stamp.

EXTRACTS FROM BYE-LAWS.

CHAPTER XIII.—MEMBERS.

I. Licentiates of the College who shall have been admitted Licentiates before the 1st day of October, 1859; and Extra-Licentiates of the College who shall be admitted Licentiates of the College under the bye-laws enacted February 16th, 1859; and Graduates in Medicine who shall be admitted Licentiates of the College before the 1st day of March, 1860, under the bye-laws enacted February 16th, 1859, shall, from and after the 1st day of October, 1859, be styled Members of the College, provided always that they have, since their admission as Licentiates, obeyed the bye-laws, and do engage henceforth to obey the bye-laws of the College.

II. The Members of the College shall be alone eligible to the Fellowship. They shall have the use of the library and museum, subject to the regulations relating thereto, and shall be admitted to all lectures, and shall enjoy such further privileges as may from time to time be defined by the bye-laws; but they shall not be entitled to any share in the government, nor to attend or vote at general meetings, of the Corporation.

III. Any person not engaged in the practice of pharmacy, who shall have satisfied the College touching his knowledge of medical and general science and literature, and who shall comply with such regulations as are or shall be required by the bye-laws, may be proposed to the College to receive a licence to practise physic, as a member of the College. The decision of the College shall be determined by ballot.

IV. Every candidate for a Member's Licence shall furnish proof that he has attained the age of twenty-five years.

V. Every candidate for a Member's Licence shall produce a testimonial from a fellow or member of the college, satisfactory to the Censors' Board, to the effect that, as regards moral character and conduct, he is a fit and proper person to be admitted a member of the college.

VI. Every candidate for a Member's Licence (except such as shall be admissible under the provisions of Chap. XIII., Sec. 15) shall produce proof of his having been engaged, during a period of five years, in the-

Digitized by Google

study of medicine, at a medical school or schools, recognised by the college.

VII. Every candidate for a Member's Licence, who has not taken a degree in medicine at an University in the United Kingdom (except such as shall be admissible under the provisions of Chap. XIII., Sect. 15), shall produce evidence, satisfactory to the Censors' Board, of his having studied the following subjects: — Anatomy, with Dissections; Physiology; Chemistry, with Practical Chemistry; Materia Medica and Botany; Theory and Practice of Medicine; Morbid Anatomy; Principles of Surgery; Midwifery, and the Diseases of Women and Children; Forensic Medicine; of his having attended diligently during three years the medical practice, and during nine months the surgical practice of a hospital containing at least 100 beds; and of his having served the office of clinical clerk during at least six months.

VIII. Every candidate for a Member's Licence, who has prosecuted his studies abroad, whether in part or to the full extent required by the preceding regulations (except such as shall be admissible under the provisions of Chap. XIII, Sect. 15), shall, nevertheless, bring proof of his having attended, during at least twelve months, the medical practice of a hospital in the United Kingdom containing 100 beds.

IX. If the Censors' Board should doubt the sufficiency of the certificates and testimonials produced by any candidate, or his fitness, in any respect, for admission to examination, they may submit the case to a General Meeting of the Fellows.

X. No candidate shall be admitted to examination who uses, for the sake of gain, any remedy which he keeps secret.

XI. No candidate shall be admitted to examination who is engaged in trade, or who practices pharmacy, or makes any engagement with a chemist, or any other person, for the supply of medicine, from which profit is derived, or who practises physic or surgery in partnership, by deed or otherwise, so long as that partnership continues.

XII. Every candidate for a Member's Licence (except in cases specially exempted), shall have given proof of his acquirements by written answers to questions placed before him, and shall have been examined *viva voce* at three separate meetings of the Censors' Board, and shall have been approved by the President and Censors, or by the major part of them, at each examination.

XIII. The examination shall be conducted as follows:—The candidate shall be examined in Physiology, in Pathology, and in Therapeutics, in three separate examinations, by written questions, as well as *viva voce* before three meetings of the Censors' board. In each of the examinations in writing, as well as at each of the *viva voce* examinations, he shall be required to translate into Latin or English, a passage from a Greek medical work, and into English a passage from a Latin medical work; or he may, in lieu of translating the Greek passage, give proof of a competent knowledge of one or more of the modern European languages. At, or in connection with, the second examination before the Censors' Board, the candidate's knowledge of Practical Medicine may be tested by requiring him to examine persons labouring under disease, and to describe morbid specimens. At the commencement of the first *viva voce* examination, the candidate shall, if required, declare, in writing, at what University or Schools he has studied general Literature and Science, and what honours have been conferred upon him, in regard to his knowledge of Literature, Science, or

Digitized by Google

Medicine; and such declaration shall, if it seem fit, be recorded in the annals of the College.

XIV. When the candidate for a Member's Licence has already obtained the degree of Doctor or Bachelor in Medicine at an University in the United Kingdom, after a course of study and an examination, satisfactory to the Censors' Board, he shall be exempt from all parts of the examinations hereinbefore described, except such as relate to Pathology and Therapeutics.

XV. In case of any candidate who has attained the age of forty years, the Rules laid down in Sections 6, 7, 8, may be dispensed with. He shall, however, produce testimonials of moral character and conduct, and of general and professional acquirements. The Censors' Board having examined and considered these testimonials, may, if they see fit, submit them to the Fellows at a General Meeting, and it shall be determined by the votes of the Fellows present, or of the majority of them, taken by ballot, if required, whether the candidate shall be admitted to such examination, as the Censors' Board may deem sufficient.

XVI. Any candidate not approved by the Censors' Board shall not, except by special permission of the College, be readmitted to examination until after the lapse of a year.

XVII.—Every candidate approved by the Censors' Board shall be proposed, at the next General Meeting of Fellows, as qualified to receive a Licence to practise Physic, as a Member of the College; and if the majority of the Fellows present shall consent (the votes being taken by ballot) he shall forthwith, on complying with the Regulations prescribed by the Bye-Laws, receive a Licence to practice Physic, as a Member of the College.

XVIII. No one shall be admitted to practise physic as a member of the College, unless he shall give his assent to the following words, addressed to him by the President or Vice-President, in the presence of the Fellows:—"You give your faith that you will observe and obey the statutes and bye-laws of this College, and submit to such penalties as may be imposed for any neglect or infringement of them; and that you will, to the best of your ability, do all things in the practice of your profession for the honour of the College, and the good of the public." And after he has been admitted, he shall confirm this promise by affixing his name to the same words, previously committed to writing.

XIX. The President or Vice-President, addressing the person or persons to be admitted, shall say—"I, A. B., President (or Vice-President), do admit, and give you authority as a member (or members) of this College, to teach and to practise physic, and to enjoy all accompanying honours and privileges whatsoever, here or elsewhere bestowed on Physicians." And, taking by the hand each member so admitted, the President or Vice-President shall add—"I wish you all prosperity."

XX. Every member, at the time of his admission, shall have letters testimonial under the seal of the College, in this form:—

SCIANT OMNES, NOS.

A. B., Presidentem Collegii Regalis Medicorum Londinensis, unà cum Censoribus, examinâsse et approbâsse ornatissimum virum, C. D., et cum consensu Sociorum ejusdem Collegii, auctoritate nobis a Domino Rege et Parliamento commissâ, ei concessisse liberam facultatem et licentiam tam docendi quam exercendi scientiam et artem medicam, eidemque summis

honoribus et privilegiis, quæcunque hic vel alibi Medicis concedi solent, frui dedisse. In cujus rei fidem et testimonium, adjectis Censorum et Registrarii chirographis, sigillum nostrum commune præsentibus apponi fecimus, datis ex ædibus Collegii die ——— mensis ——— anno Domini millesimo octingentesimo

Consoribus, ———

———

———

Registrario, ———

N.B. This document shall be endorsed by the Member with his usual signature, and by the Registrar, with the following words:—"I certify that C. D., to whom these Letters Testimonial have been granted by the College, has been duly admitted to practise Physic, as a Member of the College."

———Member.

———Registrar.

XXI. The fee to be paid for admission as a Member of the College shall be thirty guineas.

RULES OF CONDUCT, AND PENAL BYE-LAWS RELATING TO MEMBERS.

I. Every Member of the College, in prescribing for a patient, shall write on his prescription the date thereof, the name of the patient, and the initial letters of his own name.

II. If two or more Physicians, Fellows or Members of the College, be called in consultation, they shall confer together with the utmost forbearance, and no one of them shall prescribe, or even suggest, in the presence of the patient, or the patient's attendants, any opinion as to what ought to be done, before the method of treatment has been determined by the consultation of himself and his colleagues; and the Physician first called to a patient shall, unless he decline doing so, write the prescription for the medicines agreed upon, and shall sign the initials of the Physician or Physicians called in consultation, he placing his own initials the last. If any difference of opinion should arise, the greatest moderation and forbearance shall be observed, and the fact of such difference of opinion shall be communicated to the patient or the attendants by the Physician who was first in attendance, in order that it may distress the patient and his friends as little as possible.

III. No Member of the College shall accuse a Fellow or another Member of the College, of ignorance of his art; or publicly, or before witnesses not lawful judges in the matter, stigmatise him with opprobrious terms; or officiously, or under colour of a benevolent purpose, offer medical aid to, or prescribe for any patient whom he knows to be under the care of another legally qualified Medical Practitioner.

IV. No Member of the College shall use, for the sake of gain, any remedy which he keeps secret, or follow systematically any line of practice which may bring discredit on the College, or on the Science of Medicine.

V. No member of the College shall be engaged in trade, or shall prac-

Digitized by Google

tise pharmacy, or make any engagement with a chemist, or any other person, for the supply of medicines, from which profit is derived, or practise physic or surgery in partnership, by deed or otherwise.

VI. If it shall at any time hereafter appear, or be made known to the President and Censors, that any member of the College has obtained admission to the College by fraud, false statement, or imposition, or has been guilty of any great crime, or public immorality, or has acted in any respect in a dishonourable or unprofessional manner, or has violated any bye-law, rule, or regulation of the College, the President and Censors may call the member so offending before the Censors' Board; and, having investigated the case, may admonish, or reprimand, or inflict a fine not exceeding 10*l.*; or, if they deem the case of sufficient importance, may report the case to the College, and thereupon a majority of two-thirds of the Fellows present at a meeting of the Fellows, which must be specially summoned for that purpose, may declare such member to be no longer a member of the College, and he shall forfeit all the rights and privileges which he does or may enjoy as a member, and his name shall be expunged from the list of members accordingly.

ROYAL COLLEGE OF SURGEONS OF ENGLAND,

Lincoln's Inn-fields, London. W.C.

Charter of Incorporation, 22nd March, 1800; other Charters, 13th February, 1822; 14th September, 1843, and 18th March, 1852; Number of Council, 24.

COUNCIL.

Brasseur; *Prof. of Anat. and Surg.*, Mr. P. G. Hewitt; *Comp. Anat. and Physiol.*, Mr. G. Busk; *Histol.*, Mr. J. T. Quekett; *Conserv. of Museum*, Mr. J. T. Quekett; *Libr.*, Mr. J. Chatto; *Sec.*, Mr. E. Belfour; *Ass. Sec.*, Mr. E. Trimmer; *Clerk*, Mr. T. M. Stone.

REGULATIONS RELATING TO CANDIDATES FOR THE DIPLOMA OF MEMBER OF THE COLLEGE.

I. Candidates are required to produce the following certificates, viz: 1. Of being twenty-one years of age. 2. Of having been engaged during four years in the acquirement of professional knowledge. 3. Of having studied practical pharmacy during three months. 4. Of having attended lectures on anatomy, delivered not less frequently than four times in each week, during two winter sessions. 5. Of having performed dissec-

Digitized by Google

tions during not less than two winter sessions. 6. Of having attended lectures on physiology, delivered not less frequently than twice in each week, during two winter sessions. 7. Of having attended lectures on surgery during two winter sessions. 8. Of having attended one course of lectures on each of the following subjects, viz.: chemistry, materia medica, medicine, and midwifery. 9. Of having attended at a recognised hospital or hospitals in the United Kingdom the practice of medicine, and clinical lectures on medicine, during one winter* and one summer† session. 10. Of having attended, at a recognised hospital or hospitals in the United Kingdom, the practice of surgery, and clinical lectures on surgery, during three winter and two summer sessions. Those candidates who shall have pursued their studies in Scotland or Ireland will be admitted to examination upon the production of the several certificates required by the Colleges of Surgeons of Edinburgh and Ireland respectively from candidates for their diploma.

Preliminary Education.—It is the intention of the Council to institute an examination, or to require some equivalent evidence of the candidate's proficiency in the ordinary branches of a liberal education.

II. Members or licentiates of any legally-constituted College of Surgeons in the United Kingdom, and graduates in surgery of any university requiring residence to obtain degrees, will be admitted for examination on producing their diploma, licence, or degree, together with proof of being twenty-one years of age, and of having been occupied at least four years in the acquirement of professional knowledge.

III. Graduates in medicine of any legally constituted college or university requiring residence to obtain degrees, will be admitted for examination on adducing, together with their diploma or degree, proof of having completed the anatomical and surgical education required by the foregoing regulations, either at the school and hospital of the university where they shall have graduated, or at one or more of the recognised schools and hospitals in the United Kingdom.

IV. Candidates who shall have attended at recognised Colonial hospitals and schools ‡, the medical and surgical practice, and the several courses of lectures, with the dissections required by the foregoing regulations, will be admitted for examination upon producing certificates of such attendance, together with certificates of having attended in London, during one winter session, the surgical practice of a recognised hospital, and lectures on anatomy, physiology, and surgery, with dissections.

V. Certificates will not be recognised from any hospital unless the surgeons thereto be members of one of the legally constituted Colleges of Surgeons in the United Kingdom; nor from any school of anatomy and

---

* The winter session comprises a period of six months, and, in England, commences on the 1st of October and terminates on the 31st of March.

† The summer session comprises a period of three months, and, in England, commences on the 1st of May, and terminates on the 31st of July. No provincial hospital will be recognised by this College which contains less than 100 patients; and no metropolitan hospital which contains less than 150 patients.

‡ The recognition of Colonial hospitals and schools is governed by the same regulations, with respect to number of patients, to courses of lectures, and to physicians, surgeons, and lecturers, as apply to the recognition of provincial hospitals and schools in England.

Digitized by Google

physiology or midwifery, unless the teachers in such schools be members of some legally constituted College of Physicians or Surgeons in the United Kingdom; nor from any school of surgery, unless the teachers in such school be members of one of the legally constituted Colleges of Surgeons in the United Kingdom.

VI. Certificates will not be received on more than one branch of science from one and the same lecturer; but anatomy and dissections will be considered as one branch of science.

VII. Certificates will not be received from candidates who have studied in London, unless they shall have registered their tickets at the College during the last ten days of January, March, and October in each year; nor from candidates who have studied elsewhere, unless their names shall duly appear in the registers transmitted during such studies from their respective schools.

N.B.—In the certificates of attendance on hospital practice and on lectures, it is required that the dates of commencement and termination be clearly expressed; and no interlineation, erasure, or alteration will be allowed. Blank forms of the required certificates may be obtained on application to the Secretary, to whom they must be delivered, properly filled up, ten days before the candidate can be admitted to examination; and all such certificates are retained at the College.

REGULATIONS RELATING TO THE EXAMINATION FOR THE DIPLOMA OF MEMBER OF THE COLLEGE.

I. Candidates for the Diploma of Member of this College who shall commence their Professional Education on or after the 1st of January, 1861, will be required to produce one or other of the following certificates:—1. Of Graduation in Arts at a recognised University; 2. Of an Examination for Matriculation, or such other Examination as shall, in either case from time to time, be sanctioned by the Council of this College; at a University in the United Kingdom; at a recognised University in the Colonies; or at a recognised foreign University. 3. Of the Oxford or Cambridge Middle Class Examinations; either Junior or Senior. 4. Of the Preliminary Examination for the Fellowship of this College. 5. Of the Previous Examination of the University of Cambridge.—That candidates who shall not be able to produce one or other of the foregoing certificates, be required to pass an examination in English, Classics, and Mathematics; to be instituted at this College, and to be conducted by the Board of Examiners of the Royal College of Preceptors, under the direction and supervision of the Council of this College, and to include such subjects as may hereafter be determined by this Council. And that the special or particular subjects of examination be published in each preceding year, and the examination from time to time added to or increased, as the opportunities of education may be improved.

II. The examination of candidates for the diploma of member of this college will be divided into two parts; the first relating to anatomy and physiology, the second relating to pathology, surgery, and surgical anatomy. The first examination, on anatomy and physiology, will be made as practical and demonstrative as possible. The second examination, on pathology, surgery, and surgical anatomy, will be partly written, and partly oral; and the written part of this examination will have the precedence.

Digitized by Google

III. The examination on anatomy and physiology will be held in the months of April, May, July, November, and January. The examination on anatomy will be on the recently-dissected subject, and on prepared parts of the human body. Candidates for these examinations are required to signify their desire of being admitted thereto not less than one month previous to the period of examination. The fee of five guineas to be paid by each candidate prior to his examination on anatomy and physiology, and which fee will be allowed in the fee required on his admission as a member of the College. Such students as shall have completed the second session of their anatomical studies, and shall be desirous thereof, will be admitted to the first or anatomical examination in November or January next. And from and after the 1st of March next, all candidates for the diploma of the College will be required to undergo the double examination.

ADMISSION OF MEMBERS TO THE FELLOWSHIP BY ELECTION.

1. Members of the College of fifteen years' standing who were Members on the 14th day of September, 1843, desirous of admission to the Fellowship, otherwise than by examination, shall transmit or deliver to the Secretary of the College a Declaration signed by himself, in the following terms, namely:—I, A.B., of C., a Member of the Royal College of Surgeons of England, do declare that I do not sell or supply Drugs or Medicines, (or that) I do not sell or supply Drugs or Medicines (otherwise than in due exercise or practice of my Profession as an Apothecary). Together with a Certificate in the following terms, namely:—"We, the undersigned Fellows of the Royal College of Surgeons of England, do from our personal knowledge of the high moral character and professional attainments of A. B. of C., declare that in our opinion he is deserving of the honour of the Fellowship of the said College, and that he does not sell or supply Drugs or Medicines, (or that) he does not sell or supply Drugs or Medicines otherwise than in the due exercise or practice of his Profession as an Apothecary. We therefore recommend the said A. B. to the Council to be admitted a Fellow of the College." 2. In the case of a Member residing in the United Kingdom, such Certificate shall be signed by six Fellows of the College. 3. In the case of a Member absent from the United Kingdom, in the service of the Royal Army or Navy, such Certificate shall be signed by two Fellows of the College, and also by the Officer superintending the Medical Department of the Service to which such member shall belong. 4. In the case of a Member absent from the United Kingdom in the service of the Honourable East India Company, such certificates shall be signed by two Fellows of the College, and also by the Secretary to the Military Department of the said Company. 5. In the case of a Member resident in any of the British Colonies, Plantations or Dependencies, such certificate shall be signed by two Fellows of the College, and also by the Governor, Lieutenant-Governor or Superintendent of such Colony, Plantation or Dependency, whose signature shall be verified by the Secretary, or one of the Under-Secretaries of State for the Colonies. 6. The said Declaration and Certificate shall be received at least seven days before the Meeting of the Council at which the ballot shall be taken for the election of the said Member into the Fellowship. 7. The fee of Ten Guineas, payable upon the Admission of Members to the Fellowship by Election, shall be paid at or before the issue of the Diploma of Fellowship. The Names of such Fellows as shall be elected as aforesaid, shall be entered upon the List or Register of Fellows

Digitized by Google

according to the dates of their election, and when more than one shall be elected upon the same day, their names shall take precedence according to the priority of their Diplomas as Members. 8. No Member of the College, admitted to the Fellowship by election, shall exercise any right or privilege he shall have acquired as a Fellow until he shall have signed a copy of the Bye-Laws of the College, in testimony of having engaged himself to the observance thereof and made and subscribed the following Declaration in the presence of the Council, viz. :—"I, A. B., of C., Member of the Royal College of Surgeons, of England, do solemnly and sincerely declare that while a Fellow of the said College, I will observe the Bye-Laws thereof, and will obey every lawful summons issued by order of the Council of the said College, having no reasonable excuse to the contrary."

ADMISSION OF MEMBERS TO THE FELLOWSHIP BY EXAMINATION.

1. Except in the cases and instances hereinafter provided for to the contrary, every candidate for the Fellowship, whether a member of the College or not, shall produce certificates satisfactory to the Court of Examiners,—That he is twenty-five years of age. That he is (if found qualified upon his examination) a fit and proper person to be admitted to the Fellowship, and the certificate of which shall be signed by three Fellows. That he has passed the preliminary examination in Classics, Mathematics, and French, appointed by the Council, or such other examination in any University in the United Kingdom as the Council may from time to time determine to be equivalent thereto. That he has been engaged for six years in the acquirement of professional knowledge in hospitals or schools of anatomy, surgery, and medicine, recognised by the Council of the College for that purpose; and that no less than three winter and three summer sessions thereof have been passed in one or more of such hospitals in London. That he has studied Anatomy and Physiology by attendance on lectures and demonstrations, and by dissections, during three winter sessions of not less than six months each, at a recognised school or schools. That he has attended lectures on the theory and practice of Medicine and on Clinical Medicine, and also on the theory and practice of Surgery and on Clinical Surgery, during two sessions of not less than six months each, at recognised schools and hospitals. That he has attended one course of lectures on each of the following subjects, viz., Chemistry, Materia Medica, Midwifery, with attendance on cases, Medical Jurisprudence and Comparative Anatomy, at one or more recognised school or schools. That he has attended the surgical practice of a recognized hospital or hospitals during four winter and four summer sessions, and the medical practice of a rocognized hospital or hospitals during one winter and one summer session. That he has served the office of house-surgeon or dresser in a recognised hospital in the United Kingdom. He shall also present for examination clinical reports with observations thereon of not less than six surgical cases taken by himself at one or more of the recognised hospitals in the United Kingdom, with satisfactory evidence of their authenticity and genuineness. 2. In the case of a candidate who shall have taken by examination the degree of Bachelor or Master of Arts in any University in the United Kingdom, it shall be sufficient for him to produce a certificate or certificates that he has been engaged for five years (instead of six years) in the acquirement of professional knowledge in recognised hospitals or schools of surgery and medicine, but he shall in all

Digitized by Google

other respects produce the certificates of the foregoing course of study. 3. Any person who shall have been a member of the College on the fourteenth day of September, one thousand eight hundred and forty-four, shall be entitled to be admitted to the examination for the Fellowship upon the production of a certificate, signed by three Fellows, that he has been eight years in the practice of the profession of surgery, and that he is a fit and proper person to be admitted a Fellow, if upon examination he shall be found qualified. 4. Any person who shall have become a member of the College after the said fourteenth day of September, one thousand eight hundred and forty-four, shall, after the expiration of twelve years from the date of the diploma, also be entitled to be admitted to the examination for the Fellowship upon the production of a certificate signed by three Fellows, that he has been for twelve years in the practice of the profession of surgery, and that he is a fit and proper person to be admitted a Fellow, if upon examination he shall be found qualified.

The preliminary examination in Classics, Mathematics, and French, is held in the months of April and October; to which candidates are admitted upon having completed the eighteenth year of their age, and on the payment of the fee of ten guineas, which sum is allowed in the fee for the Fellowship Election. The professional examination is held in the months of May and November, and occupies two days. The subjects of the first day's examination are Anatomy and Physiology, those of the second day Pathology, Therapeutics, and Surgery; in the Anatomical Examination the candidate has to perform dissections or operations on the dead body. The time allowed for examination each day is from ten o'clock in the forenoon until four o'clock in the afternoon. Each candidate, upon going in for examination, has delivered to him a written or printed copy of such questions as have been determined upon by the Court of Examiners, and to which questions he is required to give written answers. A candidate whose qualifications shall be found insufficient, upon his professional examination, will not be allowed to present himself a second time until after the expiration of one year from his first examination.

The following are the subjects of the preliminary examinations of the candidates for the Fellowship during the year 1859, viz.:—CLASSICS. Herodotus, Book IX; Sophocles, Antigone; Tacitus, Annals, Books III and IV; Virgil, Æneid, Books XI and XII. Each candidate is required to bring up one of the above Greek and one of the above Latin authors; one prose writer and one poet.

MATHEMATICS.—Arithmetic; Algebra, as far as to include the doctrine of proportion, and simple equations with one or two unknown quantities. Euclid: Books 1, 2, and 3; Statics, Hydrostatics, Optics, and Acoustics. In the last two it will be sufficient to be prepared with general explanations of the leading phœnomena, such as may be found in treatises on physics, except in the cases of Statics and Hydrostatics, in which Mathematical demonstrations will be required of the elementary propositions, such as may be found in any of the following books:—Barrett's Propositions in Mechanics and Hydrostatics; Snowball's Cambridge Course of Elementary Natural Philosophy; Whewell's Mechanical Euclid; William's Elements of Mechanics and Hydrostatics.

FRENCH.—The translation into English of a passage in two of the following works, at the option of the candidate:—Iphigénie of Racine; De l'Allemagne, by Madame de Staël; Le Médecin de Campagne, by Balzac.

Digitized by Google

Grammatical questions on the parts of speech, particularly the conjugation of the irregular verbs in the selected passages.

The following are the hospitals and schools of surgery and medicine from which certificates of the professional education of candidates for the Fellowship of this College will be received, viz.:—

HOSPITALS IN ENGLAND.—*London.*—St. Bartholomew's—St. Thomas's—Westminster—Guy's—St. George's—London—Middlesex—University College—Charing-Cross—King's College—St. Mary's, Paddington.

Provincial.—Bath United Hospital—Bedford General Infirmary—Birmingham General Hospital—Queen's Hospital, Birmingham—Bristol Infirmary—Addenbrooke's Hospital, Cambridge—Derbyshire General Infirmary—Devon and Exeter Hospital—Gloucester Infirmary—Hull Infirmary—Kent and Canterbury Hospital—Leeds General Infirmary—Leicester Infirmary—Liverpool Infirmary—Liverpool Northern Hospital—Liverpool Southern Hospital—Manchester Royal Infirmary—Newcastle-upon-Tyne Infirmary—Norfolk and Norwich Hospital—Northampton General Infirmary—Nottingham General Hospital—Radcliffe Infirmary, Oxford—Salisbury General Infirmary—Salop Infirmary—Sheffield General Infirmary—Stafford County General Infirmary—Sussex County Hospital—Winchester County Hospital—Worcester Infirmary.

REGULATIONS RESPECTING THE PROFESSIONAL EDUCATION OF CANDIDATES FOR THE CERTIFICATE OF QUALIFICATION IN MIDWIFERY.

1. Persons who were Fellows or Members of the College prior to the 1st day of January, 1853, will be admitted to examination for the certificate of qualification in midwifery upon producing their diploma. 2. Persons having become members of the College subsequently to the 1st of January, 1853, will be admitted to examination on producing their diploma, together with a certificate or certificates of having attended twenty labours. 3. Members or Licentiates of any legally constituted College of Surgeons in the United Kingdom, and graduates in surgery of any University requiring residence to obtain degrees, will also be admitted to examination on producing, together with their diploma, licence, or degree, proof of being twenty-one years of age—of having been occupied four years in the acquirement of professional knowledge—of having attended one course of lectures on Midwifery—and of having attended not less than twenty labours. 4. Graduates in medicine of any legally constituted College or University requiring residence to obtain degrees, will also be admitted to examination on producing, together with their diploma or degree, proof of being twenty-one years of age—of having been occupied four years in the acquirement of professional knowledge—of having completed, at recognised schools, the Anatomical and Surgical Education required of candidates for the diploma of Member of the College—of having attended one course of lectures on Midwifery—and of having attended not less than twenty labours. 5. Persons having commenced their professional education, either by attendance on hospital practice, or on lectures on Anatomy, prior to the 1st of January, 1853, will be admitted to examination on producing the several certificates of professional education required for admission to examination for the diploma of Member of this College at the period when such persons shall respectively have, in such manner, commenced their professional education. 6. Persons having commenced their professional education, either by attendance on hospital practice, or on lectures on Anatomy, after the 31st day of December, 1852, will be admitted to examination on producing certificates of being twenty-one years of age—of having been engaged during four years in the acquirement of professional knowledge—of having completed, at recognised schools, the professional education required of candidates for the diploma of member of this College—of having attended one course of lectures on Midwifery and the diseases of women and children—and of having personally conducted thirty labours.

N.B. The fee for the certificate is as follows, viz.:—1. Persons who were Fellows or Members of this College prior to the 1st of January, 1853, two guineas. 2. Persons admitted Fellows or Members of this College subsequently to the 1st of January, 1853, three guineas. 3-4. Persons producing any other diploma or certificate of degree which may be considered by the Council to afford satisfactory proof of sufficient surgical and medical education, three guineas. 5-6. All other persons ten guineas. Candidates who shall be found not qualified will be referred for a period of not less than three months, and are required upon again appearing before the Board to produce a certificate of having personally conducted at least ten labours subsequently to the date of such reference.

REGULATIONS RELATING TO THE AD EUNDEM ADMISSION TO THE FELLOWSHIP AND MEMBERSHIP.

I. Any Fellow of the Royal College of Surgeons in Ireland, of the Royal College of Surgeons of Edinburgh, or of the Faculty of Physicians and Surgeons of Glasgow, who shall be desirous of Admission to the Fellowship of this College, must transmit or deliver to the Secretary his Diploma, an Application to be so admitted, and a Declaration signed by himself in the following terms:—

"I, A.B., of C., Fellow of D., do hereby declare that I was duly admitted to such Fellowship, having previously passed the necessary Examination or Examinations required by the Bye-Laws or Regulations of the said Royal College (or Faculty), and that I am in the *bona fide* practice of the Profession of a Surgeon in England (or Wales), and that I do not sell or supply Drugs or Medicines, (or that) I do not sell or supply Drugs or Medicines otherwise than in the due exercise or practice of my Profession as an Apothecary."

Together with the foregoing Declaration must be transmitted or delivered the following Certificate:—

"We, the undersigned, Fellows of the Royal College of Surgeons in Ireland (or of Edinburgh), (or of the Faculty of Physicians and Surgeons of Glasgow), do hereby certify that A.B., of C., Fellow of the said Royal College (or Faculty), is, from his moral character and professional attainments, a fit and proper person to be admitted to the Fellowship of the Royal College of Surgeons of England, and that he does not sell or supply Drugs or Medicines, (or that) he does not sell or supply Drugs or Medicines otherwise than in the exercise or practice of his Profession of an Apothecary, and we accordingly recommend him to the Council of the said College, to be admitted a Fellow thereof."

The foregoing Certificate must be signed by six Fellows of the College (or Faculty) of which the said Applicant shall be a Fellow.

A similar Certificate signed by six Fellows of this College must also be transmitted or delivered with the foregoing Declaration and Certificate.

II. Any Member or Licentiate of the Royal College of Surgeons in Ireland, of the Royal College of Surgeons of Edinburgh, or of the Faculty of Physicians and Surgeons of Glasgow, who shall be desirous of admission to the Membership of this College, must transmit or deliver to the Secretary his Diploma, an Application to be so admitted, and a Declaration signed by himself in the following terms:—

"I, A.B., of C., Member (or Licentiate) of D., do hereby declare that I was duly admitted as such Member (or Licentiate), having previously passed the necessary Examination or Examinations required by the Bye-Laws or Regulations of the said Royal College (or Faculty), and that I am in the *bonâ fide* practice of the Profession of a Surgeon in England (or Wales.)"

Together with the foregoing Declaration must be transmitted or delivered the following Certificate:—

"We, the undersigned Members (or Licentiates) of the Royal College of Surgeons in Ireland (or of Edinburgh), or of the Faculty of Physicians and Surgeons of Glasgow), do hereby certify that A. B., of C., Member (or Licentiate) of the said Royal College (or Faculty), is, from his moral character and professional attainments, a fit and proper person to be admitted to the Membership of the Royal College of Surgeons of England, and we

Digitized by Google

accordingly recommend him to the Council of the said College to be admitted a Member thereof."

The foregoing Certificate and Recommendation must be signed by six Members or Licentiates of the College (or Faculty) of which the said Applicant shall be a Member or Licentiate.

A similar Certificate and Recommendation, signed by six Members of this College, must also be transmitted or delivered with the foregoing Declaration, Certificate, and Recommendation.

III.—The Fellows, Members or Licentiates of the Royal College of Surgeons in Ireland, of the Royal College of Surgeons of Edinburgh, or of the Faculty of Physicians and Surgeons of Glasgow, will not be admissible to the Fellowship or Membership of this College unless the Council of this College shall be satisfied that the respective Courses of Professional Study for such Fellowship, Membership, or Licence required by the Colleges or Faculty to which such Fellow, Member or Licentiate shall belong, shall be equal to the respective Courses of Professional Study required for the Fellowship and Membership of this College.

IV.—The Fellows of the Royal Colleges of Dublin and Edinburgh, and of the Faculty of Glasgow, will be required to pay on their Admission to the Fellowship of this College the sum of Thirty Guineas over and above all charges for Stamps which shall be necessary.

V. The Members or Licentiates of the Colleges of Dublin and Edinburgh, and of the Faculty of Glasgow, will be required to pay on their Admission to the Membership of this College the sum of Twenty Guineas over and above all charges for Stamps which shall be necessary.

VI. No person admitted *ad eundem* a Fellow or Member of this College, will be allowed to exercise any right or privilege he shall have acquired by such admission, until he shall have signed a copy of the Bye-laws of the College, in testimony of having engaged himself to the observance thereof, and made and subscribed the following Declaration in the presence of the Council, viz.:—

"I, A. B., of C., Fellow (Member or Licentiate) of D., do solemnly and sincerely declare, that while a Fellow (or Member) of the Royal College of Surgeons of England, I will observe the Bye-Laws thereof, and will obey every lawful summons issued by order of the Council of the said College, having no reasonable excuse to the contrary."

The Licentiates of the Royal College of Surgeons in Ireland, of the Royal College of Surgeons of Edinburgh, and of the Faculty of Physicians and Surgeons of Glasgow, are admissible to the Membership of this College under the Bye-Laws relating to *ad eundem* admissions.

All persons who were Members of the Royal College of Surgeons in Ireland on the 14th OF SEPTEMBER, 1843, and who have since become or shall hereafter become Fellows of the said College, are admissible to the Fellowship of this College under the Bye-Laws relating to *ad eundem* admissions.

All Fellows of the Royal College of Surgeons in Ireland, admitted to the Fellowship thereof after examination, are admissible to the Fellowship of this College under the Bye Laws relating to *ad eundem* admissions.

All persons who were Members of the Royal College of Surgeons of Edinburgh on the 14th OF SEPTEMBER, 1843, and who have since become or shall hereafter become Fellows of the said College, are admissible to the

Digitized by Google

Fellowship of this College under the Bye-Laws relating to *ad eundem* admissions.

All Persons who were Members of the Faculty of Physicians and Surgeons of Glasgow on the 14th OF SEPTEMBER, 1843, and who have since become or shall hereafter become Fellows of the said Faculty, are admissible to the Fellowship of this College under the Bye-Laws relating to *ad eundem* admissions.

The Fellows of the Royal College of Surgeons in Edinburgh and of the Faculty of Physicians and Surgeons of Glasgow, whose Diplomas of Fellowship shall bear date subsequently to the 14th OF SEPTEMBER, 1843, are admissible to the Fellowship of this College under the Bye-Laws relating to *ad eundem* admissions when the Council shall be satisfied that the Curricula of Education and the nature of the Examination under which each of such Fellows shall have been admitted were equal to those required from Persons admitted after examination to the Fellowship of this College.

MUSEUM.

The museum is open to the Members of the College, to the trustees of the Hunterian collection, and to visitors introduced by them personally or by written orders stating their names (which orders are not transferable), on the public days, which are Mondays, Tuesdays, Wednesdays, and Thursdays, from twelve to four o'clock, except during the month of September, when the museum is closed. The museum is open on the above days to all fellows and licentiates of the Royal College of Physicians in London; to Peers and Members of Parliament; to the Great Officers of State, and of the Royal Household, and their immediate deputies; to all the dignitaries of the church and of the law; to all general and flag officers; to the members of all the learned and scientific bodies in the United Kingdom; to the members of all the government boards, and to all others introduced by them respectively; to all learned and scientific foreigners, and to the articled students of the College. The secretary and conservators will exercise their discretion in the case of applications for admission from all other persons. Any one desirous of devoting especial study to particular departments of the museum, may have access for that purpose on Fridays, from twelve to four in winter, and from twelve to five in summer, on making a written application to the President. Persons desirous of comparing specimens with those in the museum, or of having specimens examined, or of gaining other information, are requested to present themselves on Saturdays from ten to one o'clock. Visitors are requested to insert their names and residences in the book provided for that purpose.

A synopsis of the contents of the museum, 8vo, may be obtained of the porter in the hall, price sixpence.

LIBRARY.

The library is open daily, Sundays excepted, to Members and articled students of the College, from ten until four o'clock during the winter months, and from ten until five o'clock during the summer months. Members have the privilege of personally introducing a visitor. Persons not members, desirous of admission, must make application in writing to the President or library committee, specifying their Christian and surnames, rank or profession, and residence. Tickets of admission, which are not transferable, are granted for six months, at the expiration of which time application must be made for their renewal. Readers wishing to refer to any

Digitized by Google

book are requested to furnish the librarian with the title or number thereof written on a slip of paper; and to return such book to the librarian before quitting the library. Readers taking extracts from any book, may not lay the paper on which they write on any part of such book; nor may any tracings be taken from any plate without the permission of the committee. Books belonging to the College are not to be written upon; and any one observing a defect in a book, is requested to report the same to the librarian. Readers desirous of consulting works not in the library are requested to communicate their wishes in writing to the librarian, in order that the same may be reported to the Committee. Every person, upon admission to the library, is required to insert his name and residence in a book provided for that purpose.

PRIZES.

Collegial Triennial Anatomical Prize, of Fifty Guineas.

The subject of this prize is—"The Anatomy and Physiology of the Supra-renal Bodies, illustrated by Drawings and Preparations."

Jacksonian Prize, of Twenty Guineas.

There were two prizes for the past year, 1859, the subjects of which are—"The Structure and Treatment of Vascular Nævi, illustrated by Cases, Drawings, and Preparations," and "The Morbid Changes in the Retina, as seen in the Eye of the Living Person, and after removal from the Body; together with the Symptoms associated with the several Morbid Conditions; illustrated by Cases, Drawings, and Preparations."

There are also two subjects for prizes for the present year, 1860, viz.:—"The Healthy and Morbid Anatomy of the Prostate Gland," and "A Description of the Diseased Conditions of the Knee-joint which require amputation of the Limb, and of those Conditions which are favourable for Excision of the Joint, with an explanation of the relative advantages of both operations as far as can be ascertained by Cases properly authenticated."

THE SOCIETY OF APOTHECARIES.

Blackfriars, London. E.C.

CHARTERED 1616.

Master, Mr. F. R. Gowar; *Wardens*, Messrs. J. Hunter and W. Buchanan; *Court of Exam.:* Mr. W. Dickinson; *Chairm.*, Messrs. W. P. Brodribb, R. Robertson, R. Norton, R. King, T. Peregrine, R. H. Semple, W. T. Dyer, T. R. Wheeler, C. Taylor, H. M. Rowdon, and J. Randall; *Sec. to Court*, Mr. A. M. Randall; *Clerk to Soc.*, Mr. R. B. Upton; *Prof. of Chem. and Mat Med.*, Dr. W. T. Brande; *Exam. for Soc.'s Prize in Bot.*, Dr. J. D. Hooker; *Cur. of Bot. Garden*, Mr. T. Moore; *Beadle*, Mr. C. Rivers.

Note.—Members are those who constitute the incorporated Society of Apothecaries: Licentiates, those who have obtained their Licence to practise as Apothecaries.

Digitized by Google

REGULATIONS, ETC.

Every Candidate for a Certificate of Qualification to practise as an Apothecary, will be required to produce Testimonials—

1. Of having passed a Preliminary Examination in Classics and Mathematics.

2. Of having served an apprenticeship of not less than five years to an Apothecary qualified by the Act of 1815.

No gentleman practising in *England or Wales* can give his apprentice a legal title to examination, unless he is himself legally qualified to practise as an Apothecary either by having been in practice prior to or on the 1st August, 1815, or by having received a certificate of his qualification from the Court of Examiners. An apprenticeship for not less than five years to Surgeons practising as *Apothecaries* in Ireland and Scotland, gives to the apprentice a title to be admitted to Examination.

3. Of having attained the full age of twenty one years.

As evidence of age, a copy of the baptismal register will be required in every case where it can possibly be procured.

4. Of good moral conduct.

A testimonial of moral character from the gentleman to whom the Candidate has been an apprentice will always be more satisfactory than from any other person.

5. And of having pursued a Course of Medical Study in conformity with the regulations of the Court.

COURSE OF STUDY.

Every Candidate whose attendance on Lectures shall commence on or after the 1st of October, 1858, must attend the following Lectures and Medical Practice during not less than three winter and two summer sessions; each winter session to consist of not less than six months, and to commence not sooner than the 1st nor later than the 15th of October; and each summer session to extend from the 1st of May to the 31st of July.

FIRST YEAR.—*Winter Session*—Chemistry; Anatomy and Dissections; *Summer Session*—Materia Medica and Therapeutics; Botany and Practical Chemistry.*

SECOND YEAR.—*Winter Session*—Anatomy and Physiology; Dissections; Principles and Practice of Medicine; Clinical Medical Practice.† *Summer Session*—Clinical Medical Practice;† Midwifery and Diseases of Women and Children, with attendance on Cases (not less than twenty);‡ Forensic Medicine and Toxicology; Demonstrations on Morbid Anatomy.

THIRD YEAR.—*Winter Session*—Clinical Lectures—(seventy-five);§ Clinical Medical Practice† and Demonstrations on Morbid Anatomy.

---

* By Practical Chemistry is intended a *specific* course of instruction in the Laboratory, with an opportunity of Personal Manipulation in the Ordinary processes of Chemistry, and of acquiring a knowledge of the various Re-Agents for Poisons.

† Medical Practice must be attended during the full term of Eighteen Months; Twelve months at an Hospital connected with a recognised Medical School, and Six Months either at a recognised Hospital or Dispensary, if more convenient.

‡ A certificate of such attendance will be received from a legally-qualified practitioner.

§ The Course of Clinical Lectures may be commenced in the Second Summer Session. The Attendance on these Lectures must be certified by one or more of the recognized Physicians of the Hospital.

Digitized by Google

The above course of study may be extended over a longer period than three winter and two summer sessions, provided the lectures and medical practice are attended in the order prescribed. Those gentlemen whose attendance on lectures commenced before the 1st Oct., 1858, will be allowed to complete their studies in conformity with the previous regulations.

RECOGNITION OF LECTURERS AND SCHOOLS.

No lecturer will be recognised by the court who is not connected with a recognised medical school, or who teaches on more than two branches of medical science, nor until he has produced very satisfactory testimonials of his attainments in the science he proposes to teach, and of his ability as a teacher thereof, from at least two persons of acknowledged talents and distinguished acquirements in the particular branch of science in question. Satisfactory assurance must also be given that the teacher is in possession of the means requisite for the full illustration of his lectures, viz., that he has, if lecturing—On chemistry, a laboratory and competent apparatus; on materia medica, a museum sufficiently extensive; on botany, a hortus siccus, plates or drawings, and recent plants; on midwifery, a museum, and such appointment in a public institution as may afford the means of practical instruction to the pupils. Lectures on anatomy, and physiology, and anatomical demonstrations, must be in conformity with the regulations of the Royal College of Surgeons. The lecturer on the principles and practice of medicine, if he lectures in London, must be a member of the Royal College of Physicians of London; and if in a provincial town either a member of the Royal College of Physicians of London, or a graduated Doctor of Medicine of a British University of four years' standing, unless prior to his graduation he had been for four years a licentiate of this court. The lecturer on materia medica and therapeutics must be a member of the Royal College of Physicians, or a graduated Doctor of Medicine of a British University of four years' standing, or he must have been a licentiate of this court for the same period. The lecturer on midwifery must be a member of one of the legally constituted Colleges of Physicians or Surgeons in the United Kingdom, of four years' standing, or he must have been a licentiate of this court for the same period. The names of the lecturers recognised by the court, may be known on application to the secretary, at the hall of the society. The certificates of teachers recognised by the constituted medical authorities in Ireland and Scotland, as also those of the medical professors in foreign universities, are received by the court. Much inconvenience having arisen from the presentation of schedules signed by lecturers unknown to the court, it is particularly requested that the registrars of the medical schools will furnish a correct list of their recognised teachers to the secretary of this court, at the commencement of every winter session.

HOSPITALS AND DISPENSARIES.

No hospital will be recognised by the court, unless—1. It contains at least one hundred beds. 2. It be under the care of two or more physicians, Members of the Royal College of Physicians of London, or graduated Doctors of Medicine of a British University; and an apothecary legally qualified, either by having been in practice prior to the 1st of August, 1815, or by having received a certificate of qualification from this court. 3. The physicians give lectures on clinical medicine, and instruction in morbid anatomy. No dispensary will be recognised by the court, unless it

Digitized by Google

be situated in some town where there is a recognised medical school, and be under the care of at least two physicians and an apothecary legally qualified. No medical practice will be available, unless it be attended in conformity with the course of study prescribed for pupils.

REGISTRATION OF TESTIMONIALS.

All testimonials must be given on a printed schedule, and the blanks therein must be filled up by the lecturers themselves. Students will be supplied with schedules at the time of their first registration; in London, at this hall; in the provincial towns from the gentlemen who keep the registers of the medical schools, and whose names may be known by application to the secretary of this court. All students, in London, are required personally to register the several classes for which they have taken tickets, and those only will be considered as complying with the regulations of the court, whose names and classes in the register correspond with their schedules. Tickets of admission to lectures and medical practice must be registered in the months of October and May, but no ticket will be registered unless it be dated within seven days from the commencement of the course. Due notice of the days and hours of such registrations will be given from time to time. The court also requires students at the provincial medical schools to register their names in their own handwriting with the registrar of each respective school, within the first twenty-one days of October, and first fourteen days of May; and to register their certificates of having duly attended lectures or medical practice within fourteen days of the completion of such attendance. The registrars are requested to furnish the Court of Examiners with a copy of each registration immediately after its close, as those students only will be admitted to examination whose registrations have been duly communicated to the court.

JUNIOR PRELIMINARY EXAMINATION IN CLASSICS AND MATHEMATICS.

An examination in classics and mathematics will be held at the hall three times in the year, viz., on the third Tuesday in the months of March, July, and November. Medical students will be admitted to this examination at any period from the date of their apprenticeship to the commencement of the second winter session of their curriculum; and those who pass it will not be subject to any subsequent examination in Latin, except in the Pharmacopœia Londinensis and prescriptions. The subjects of examination will be announced in the medical journals three months before each examination. Candidates for this examination will be required to enter their names in a book kept at the beadle's office, not less than a fortnight before the day of examination. This examination will be compulsory on those gentlemen who commence their apprenticeship on and after 1st of August, 1858, unless they shall have passed the Middle Class Examination of Oxford or Cambridge, or the Matriculation Examination of the University of London. Gentlemen failing to pass this examination will not be re-admitted under a period of four months.

EXAMINATION.

The Court of Examiners meet in the hall every Thursday, where candidates are required to attend at a quarter-past four o'clock. Every person intending to offer himself for examination must give notice in writing to

Digitized by Google

the Clerk of the Society on or before the Monday previously to the day of examination, and must at the same time deposit all the required testimonials at the office of the beadle, where attendance is given every day, except Sunday, from ten until four o'clock. On and after the 1st of August, 1858, the examination of candidates for a certificate of qualification to practise as Apothecaries will be divided into two parts. First Examination, which may be passed after the second winter session (provided the candidate has completed the nineteenth year of his age), will embrace the following subjects:—Latin, including the Pharmacopœia and physicians' prescriptions; anatomy; physiology; general and practical chemistry; botany; materia medica. Second Examination, after the third winter session (the five years' pupilage being completed):—Practice of medicine and pathology; midwifery, including the diseases of women and children; forensic medicine and toxicology.

The examination of the candidate for a certificate of qualification to act as assistant to an apothecary, in compounding and dispensing medicines, will be as follows: In translating physicians' prescriptions, and the Pharmacopœia Londinensis; in pharmacy and materia medica.

By the 22nd section of the Act of Parliament, no rejected candidate for a certificate to practise as an apothecary, can be re-examined until the expiration of six months from his former examination; and no rejected candidate as an assistant until the expiration of three months. The Act directs the following sums to be paid for certificates: For London, and within ten miles thereof, ten guineas; for all other parts of England and Wales, six guineas. Persons having paid the latter sum become entitled to practise in London, and within ten miles thereof, by paying four guineas in addition. For an assistant's certificate, two guineas.

METROPOLITAN HOSPITALS AND SCHOOLS OF MEDICINE.

*** Cases of great emergency require no recommendation to obtain admission into the London Hospitals. The Medical Officers have the privilege of fixing the days and hours of attendance.

ST. BARTHOLOMEW'S HOSPITAL.

West Smithfield. E.C.

Founded by Rahere, 1102.

Phys., Drs. Hue, Burrows, F. J. Farre. and Jeaffreson.—*Asst.-Phys.*, Drs. Black, Baly, Kirkes, and Martin.—*Phys.-Acc.*, Dr. West.—*Surgs.* Messrs. Lawrence, Stanley, Lloyd, and Skey.—*Asst.-Surgs.*, Messrs. Wormald, Paget, M'Whinnie, and Coote.

This hospital receives within its walls upwards of 6,000 in-patients annually, and its out-patients and casualties amount to more than 95,000 annually. It contains 650 beds, of which 410 are allotted to surgical cases and 230 to medical cases and the diseases of women. One of the assistant-physicians sees the medical out-patients daily, between eleven and two; and one of the assistant surgeons sees the surgical out-patients daily, between twelve and two. The casualty patients are seen at all hours in the surgery by the apothecary, house-surgeons, and dressers. Surgical operations on Saturday, at half-past one. The physicians and surgeons deliver four clinical lectures weekly, during both the winter and the summer sessions. A record of all important cases is kept, under the superintendence of a Registrar, Mr. Callender. Inspections of morbid anatomy, in the pathological theatre, as opportunities offer—of the medical cases, by Mr. Callender; of the surgical cases, by the house-surgeons, under the superintendence of the surgeons.

The Winter Session commenced on the 4th of October, and will be continued to the 31st of March, with a short vacation at Christmas.—The Summer Session begins on the 1st of May, and is continued to the end of July.

WINTER SESSION.

Medicine: Drs. G. Burrows and W. Baly, Mondays, Wednesdays, and Fridays, at half-past eight a.m. One course, 5*l.* 5s.; unlimited, 7*l.* 7s.

Surgery: Mr. W. Lawrence, Mondays, Wednesdays, and Thursdays, at seven o'clock in the evening. One course, 5*l.* 5s.; a second course, 3*l.* 3s.; unlimited, 7*l.* 7s.

Digitized by Google

Chemistry: Dr. E. Frankland, Mondays and Fridays, at half-past ten a.m., and on Wednesdays, at half-past nine a.m. One course, 5*l.* 5s.; unlimited, 7*l.* 7s.

Descriptive and Surgical Anatomy: Mr. F. C. Skey, daily (except Saturdays), at half-past two o'clock. Half session, 5*l* 5s.; whole session, 7*l.* 7s.; unlimited, 10*l.* 10s.

General Anatomy and Physiology: Mr. W. S. Savory, Monday, Tuesday, Thursday, and Friday, at half-past nine o'clock in the morning. One course, or half session, 5*l.* 5s.; whole session, 7*l.* 7s.; unlimited, 10*l.* 10s.

Superintendence of Dissections: Messrs. Callender and Smith, from half-past ten to half-past two o'clock every day.

The dissecting-rooms are open daily, from seven o'clock till four. The entrance to the lectures on Anatomy, or to those on Physiology, confers the right of dissecting.

SUMMER SESSION.

Materia Medica and Therapeutics: Dr. F. J. Farre, Tuesdays, Thursdays, and Saturdays, at nine. One course, 4*l.* 4s.; unlimited, 6*l.* 6s.

Midwifery and the Diseases of Women and Children: Dr. C. West, daily (except Monday and Thursday), at eight a.m. One course, 4*l.* 4s.; unlimited, 6*l.* 6s.

Botany: Dr. W. S. Kirkes, on Mondays, Wednesdays, and Fridays, at nine a.m. One course, 3*l.* 3s.; unlimited, 4*l.* 4s.

Forensic Medicine: Dr. P. Black, on Tuesdays, Thursdays, and Saturdays, at ten. One course, 3*l.* 3s.; unlimited, 4*l.* 4s.

Practical Chemistry: Dr. E. Frankland, on Mondays, Tuesdays, Thursdays, and Fridays, from ten till one. One course, 2*l.* 2s.; unlimited, 3*l.* 3s.

Comparative Anatomy: Mr. A. M. M'Whinnie, on Mondays, Wednesdays, and Fridays, at ten. One course, 2*l.* 2s.; unlimited, 3*l.* 3s.

Demonstrations of Operative Surgery: Messrs. Callender and Smith. Fee for the course, 2*l.* 2s.

Entrance fee to all the lectures required for the Members' Examinations at the Royal College of Surgeons and the Society of Apothecaries, 50 guineas.

Entrance fee to all the lectures and hospital practice required for the same Examinations, 90 guineas.

Unlimited entrance to all the lectures, 60 guineas.

The above general entrance-fees may be paid in two, or in three portions, in the first weeks of October, 1859, and of May and October, 1860.

Students having entered for any period to the hospital practice or lectures, may prolong their attendance, on paying the difference between their first entrance fee and that for any longer period.

HOSPITAL PRACTICE—*Fees of Attendance.*

Medical Practice: Six months, 10*l.* 10s.; nine months, 12*l.* 12s.; eighteen months, 15*l.* 15s.; an unlimited period, 31*l.* 10s. The clinical clerks to the physicians are elected from the most diligent students.

Surgical Practice: Six months, 15*l.* 15s.; twelve months, 21*l.*; three years, 26*l.* 5s.; an unlimited period, 31*l.* 10s.; *Dresserships*, three months, 12*l.* 12s.; six months, 18*l.* 18s.; twelve months, 26*l.* 5s.

The entrance to the Medical or Surgical Practice confers the right of attending the courses of clinical lectures by the Physicians or Surgeons.

Digitized by Google

In addition to the clinical instruction given by all the medical officers at their visits, courses of clinical lectures are delivered weekly during both the Winter and the Summer Sessions—on Medicine, by Drs. Burrows and Farre; on Surgery, by Messrs. Lawrence, Stanley, Lloyd, and Skey.

The examinations after death are made in the Pathological Theatre, at twelve o'clock, by the Demonstrator of Morbid Anatomy.

Surgical operations on Saturdays, at half past one o'clock.

Cases in Midwifery are attended as out-patients of the hospital, by the students of the midwifery class, under the superintendence of the Physician-Accoucheur. More than 600 cases are thus attended annually.

The attendance on Lectures of all students of the first year is registered. All students proceeding to examination at the College of Surgeons are examined three times a week, by the teachers of Anatomy.

All students of the first year are examined weekly in the several subjects of their studies by the tutor, Dr. Batten.

Instruction in Practical Pharmacy is given in the Apothecaries' shop, under the direction of Mr. Wood.

The Museums of Anatomy, Materia Medica, and Botany, are open daily to the students of the respective classes.

A reading room is open to all students of the school during the greater part of the day. Subscription to the Medical Journals, for three years, 10s. 6d.

The Library contains upwards of 5,000 volumes of the standard works on Medical and other sciences, with the chief Medical Journals, which are circulated among the subscribers. Subscription, for twelve months, 1*l.* 1s.; for three years, 1*l.* 11s. 6d.; for four years, 2*l.* 2s.

Collegiate Establishment: Under the direction of the Treasurer and a Committee of the Governors of the Hospital; houses within the hospital walls have been fitted up as a College, for the residence of forty students. The establishment is under the superintendence of Dr. Martin, the resident Warden, from whom the rules may be obtained.

SCHOLARSHIPS AND PRIZES: Examinations are held in the several classes at the end of each session, and scholarships, prizes, and honorary distinctions are awarded in October.

Two Scholarships, of the value of 45*l.* for one year, will be awarded in May, 1860. The subjects of examination will be, for one, Medicine, Surgery, and Midwifery; for the other, Anatomy, Physiology, and Botany.

The Wix Prize, founded by the Rev. S. Wix, Vicar and Hospitaller, will, in 1860, be given for the best Essay "On the authority derived from the Holy Scriptures in favour of the study of Medical and Surgical Science."

The President's Prize will, in 1860, be given for the best report of surgical cases observed in the hospital during the previous year.

The Treasurer, Mr. W. Foster White, will give a prize to the student of the first year who shall make the best dissection and pass the best practical examination on Anatomy.

The Bentley Prize, founded by James Bentley, Esq., late Treasurer of the hospital, will, in 1860, be given for the best report of medical cases observed in the hospital during the previous year.

The Hichens Prize, founded by Robert Hichens, Esq., will be given to the student who passes the best Examination in Bishop Butler's "Analogy of Natural and Revealed Religion."

Digitized by Google

The Foster Prize, founded by George Holgate Foster, Esq, for the encouragement of Practical Anatomy, will be given to the student who shall display the greatest industry and skill in the dissecting-rooms.

Mr. Lloyd will give a Microscope as a Prize for the best report of the most interesting cases occurring in the wards under his charge.

Prizes of Books or Instruments, and Honorary Certificates, will be awarded to the students who give proof of proficiency in the several subjects of study. The rules to be observed by candidates for the several scholarships and prizes may be seen in the museum or the library of the hospital, or in the "Students' Handbook."

CHARING-CROSS HOSPITAL.

Charing-Cross. W.C.

Cons. Phys., Dr. Shearman.—*Phys.*, Drs. Golding and Chowne.—*Asst.-Phys.*, Drs. Willshire and Salter.—*Surgs.*, Messrs. Hancock and Canton.—*Asst.-Surgs.*, Messrs. Hird and Barwell.—*Dentist*, Mr. Robertson.—*Dispenser*, Mr. M. H. Humphreys.—*Sec.*, Mr. J. Robertson.—*Clerk*, H. Woolcott.

WINTER SESSION.

Principles and Practice of Medicine: Drs. Chowne and Willshire. Monday, Wednesday, and Friday, from half-past two to half-past three. One session, 4*l.* 4s.; two sessions, 6*l.* 6s.; three sessions, 7*l.* 7s.

Physiology and Pathology: Dr. H. Salter. Daily (except Saturday), from half-past three to half-past four. One session, 4*l.* 4s.; two sessions, 6*l.* 6s.; three sessions, 7*l.* 7s.

Anatomy (Descriptive and Surgical): Mr. Canton. Daily (except Saturday), from nine till ten. One session, 4*l.* 4s.; two sessions, 6*l.* 6d., three sessions, 7*l.* 7s.

Demonstrations and Dissections: Dr. Goldsbro. During several hours daily. One session, 2*l.* 2s.; two sessions, 4*l.* 4s.; three sessions, 4*l.* 4s.

Surgery: Mr. Hancock. Tuesday, Thursday, and Friday, at five p.m. One session, 3*l.* 3s.; two sessions, 5*l.* 5s.; three sessions, 6*l.* 6s.

Chemistry: Mr. R. V. Tuson. Monday, Wednesday, and Friday, from ten to eleven. One session, 5*l.* 5s.; two sessions, 6*l.* 6s.; three sessions, 7*l.* 7s.

Natural Philosophy: Wednesday, Thursday, and Friday, at a quarter-past eleven. One course, 3*l.* 3s.

SUMMER SESSION.

Midwifery, and the Medical Treatment of Women and Children: Dr. Chowne. Monday, Tuesday, Wednesday, and Thursday, from half-past two till half-past three. One session, 3*l.* 3s.; two sessions, 5*l.* 5s.; three sessions, 6*l.* 6s. Abundant opportunities are afforded to the advanced students of attending obstetrical cases.

Materia Medica and Therapeutics: Dr. Steggall. Monday, Tuesday, and Wednesday, from nine till ten. One session, 4*l.* 4s.; two sessions, 5*l.* 5s.; three sessions, 6*l.* 6s.

Forensic Medicine: Dr. G. Birkett and Mr Hird. Monday, Wednesday,

Digitized by Google

and Friday, from half-past three till half-past four. One session, 2*l.* 2s.; two sessions, 3*l.* 3s.; three sessions, 4*l.* 4s.

Botany: Mr. J. Syme. Daily (except Wednesday), from ten till eleven. One session, 2*l.* 2s.; two sessions, 3*l.* 3s.; three sessions, 4*l.* 4s.

Practical Chemistry: Mr. R. V. Tuson, assisted by Mr. C. W. Heaton. Tuesday, Thursday, Friday, and Saturday. One session, 2*l.* 2s.

Comparative Anatomy: Mr. R. Barwell. Tuesday, Thursday, and Saturday, from half-past three till half-past four. One session, 3*l.* 3s.; three sessions, 4*l.* 4s.

HOSPITAL PRACTICE.

Medical Practice: three months, 6*l.* 6s.; six months, 10*l.* 10s.; full period required, 18*l.* 18s. *Surgical Practice:* three months, 6*l.* 6s.; six months, 10*l.* 10s; full period required, 18*l.* 18s. Full period required by the Royal College of Surgeons and the Society of Apothecaries, to both medical and surgical practice, 31*l.* 10s. For a longer period, 5 guineas for each additional winter, and 3 guineas for each additional summer session.

The Physicians and Surgeons visit the wards on their respective days between one and two o'clock.

The cases in the Out-patients' Department are seen and prescribed for at the hospital daily between twelve and two o'clock.

Clinical Lectures: Medical and Surgical Clinical Lectures are given by the Physicians and Surgeons of the hospital, in accordance with the new regulations.

Morbid Anatomy: Post-Mortem Examinations are made in available cases, and demonstrations given.

The Museum contains numerous instructive preparations of morbid and natural structure; together with models, drawings, diagrams, &c., for illustrating the various lectures.

Certificates of attendance on the practice at this hospital and on the lectures at this school are received as qualifying for Examination on the respective subjects by the University of London, College of Surgeons, and Society of Apothecaries.

Demonstrations in Operative Surgery, applications of bandages, splints, and other mechanical means of cure, by Mr. Hancock.

Attendance is given in the dissecting-room by the teacher of anatomy, and the demonstrator, Mr. Goldsbro.

General fee to matriculated students for all the lectures required by the College of Surgeons and Society of Apothecaries for the full period required, and in the order of attendance prescribed by the latter, 44*l.* 2s. To the students are presented cards of admission to the library, renewable periodically. The matriculation fee is 2*l.* 2s.

Medical Tutor, T. W. Goldsbro, M.D. The duty of the Medical Tutor is to assist the students in the subject of the lectures.

Diseases of the Eye: Matriculated students are admitted free to the lectures upon the diseases of the eye, delivered by Mr. Hancock, at the Royal Westminster Ophthalmic Hospital, closely adjacent.

Microscopical Demonstrations, on healthy and diseased structures. Dr. Salter, the Lecturer on Physiology and Pathology, gives, in the summer, a short course of practical microscopical demonstrations, including the following subjects:—The principles of construction of the different forms of microscopes, and the manipulation of the instrument; the microscopical examination of the tissues, of the solids and fluids of the body, especially of the urine and other secretions, and of various morbid products; practical

Digitized by Google

instructions in the different methods of preparing and mounting microscopical subjects as permanent specimens. Matriculated students are admitted free to this course.

The Library, containing numerous standard medical and surgical works, both ancient and modern, and supplied with the current medical periodicals, is open daily (Sunday excepted), from half-past nine a.m. till half-past four p.m., and is under the superintendence of the Librarian. The Library is furnished with a Cabinet of Materia Medica, and Osteological preparations. Recent specimens of Medical Botany are also supplied during the summer session.

The Chemical Laboratory is open daily under the immediate direction of the Professor of Chemistry, from ten o'clock till four, except on Saturdays, when it closes at one o'clock.

Residence of Students: With a view of insuring domestic comforts, as well as regularity of habits, arrangements have been made with several medical gentlemen and others residing in the neighbourhood of the hospital, to receive students as inmates, and parents or guardians are advised to communicate with the Dean before determining the place of residence. Arrangements have also been made for apprenticing students intended for general practice to members of the Society of Apothecaries, resident within a convenient distance of the College. The Dean attends in the library every morning at half-past twelve o'clock, and any letter addressed to him will be attended to without delay.

Degrees: Students of this College are admitted to examination for degrees in medicine, and for the honours, exhibitions, and Scholarships conferred by the Senate of the University of London.

FREE SCHOLARSHIPS.—Candidates for free scholarships are required to be the sons of professional men, or of gentlemen in a corresponding station of society, of reduced circumstances, and are to have had a good preliminary classical education fitting them for the medical profession. They are to send in their application and testimonials before the 1st of August. A printed form for that purpose will be supplied to them upon the written application of the candidates themselves, addressed to the Managers of the College.

MEDICAL OFFICERS OF THE PUBLIC SERVICES.—The medical officers of the Army and Navy are admitted to the practice and lectures at this hospital, upon presenting a recommendation for that purpose from the heads of their respective departments.

THE MEDALS AND TESTIMONIALS OF HONOUR—Are awarded in conformity with the following arrangements:—The competitors for the Governors' Clinical medals are to have attended the medical and surgical practice of the hospital for the full period required to qualify for examination by the College of Surgeons and Society of Apothecaries. Competitors for the Silver Class Medals, and Testimonials of Honour, of the Senior Classes, are to be in the last session of their attendance in the classes for the medal or testimonials for which they are competitors. Competitors for the Bronze Medals, and Testimonials of Honour, of the Junior Classes, are to have completed, when the current session shall be ended, the first session of attendance, in the classes for the medal or testimonial for which they are competitors. In those classes of which only one session is required by the College of Surgeons and Society of Apothecaries, a Silver Medal is offered for competition instead of a Bronze Medal. Gentlemen having already competed successfully in one branch of study, are not entitled again to compete in that branch.

ST. GEORGE'S HOSPITAL.

Hyde-park-corner. S.W.

Phys., Drs. Page, B. Jones, Pitman, and Fuller.—*Obst.-Phys.*, Dr. R. Lee.—*Asst.-Phys.*, Drs. Barclay and Ogle.—*Surgs.*, Messrs. C. Hawkins, Cutler, Tatum, and H. C. Johnson.—*Asst.-Surgs.*, Messrs. P. Hewett and G. D. Pollock.—*Dentist*, Mr. Vasey.—*Apoth.*, Mr. J. H. Hammerton.—*Sec.*, Mr. Gunning.—*Asst.-Sec*, Mr. Holmes.

This hospital contains 350 beds, of which 200 are allotted to surgical and 150 to medical cases.

Gentlemen becoming pupils of this hospital, who desire to be Members of the Royal College of Surgeons, or Licentiates of the Society of Apothecaries, may qualify themselves for examination on paying forty guineas at the commencement of the first year; forty guineas at the commencement of the second year; and twelve guineas at the commencement of the third year.

The payment for the year will admit the pupil to all the lectures, and to the hospital practice required, for that year only.

Special entries to hospital practice, or to any separate course of lectures, may be made as heretofore:—viz.

To the practice of the Physicians on the following terms—

For the period required to qualify for Examination by the Society of Apothecaries, 16*l.* 16s.; for six months, 8*l.* 8s.; for one year, 16*l.* 16s.; for each additional year, 8*l.* 8s.; Perpetual pupils, 25*l.* 4s.; Fee to the Apothecary, 1*l.* 1s.

To the practice of the Surgeons on the following terms—

For the period required to qualify for Examination by the Royal College of Surgeons, 21*l.*; for six months, 15*l.* 15s.; for each additional year, 10*l.* 10s.; Perpetual pupils, 52*l.* 10s.

A Maternity Department, for the delivery of married lying-in women at their own homes, is established at the hospital, under the superintendence of the Obstetric Physician.

Attendance of the Physicians and Surgeons, daily at one o'clock. Surgical operations on Thursday at one o'clock.

Clinical Lectures are given by the Physicians and Surgeons of the hospital during the winter and summer sessions.

Clinical Instruction on the diseases peculiar to women is given in the wards of the hospital by the Obstetric Physician.

Ophthalmic Surgery: Patients with diseases of the eye are treated by Messrs. Tatum and H. C. Johnson, on Tuesdays and Saturdays, at half-past twelve o'clock.

Dental Surgery: Mr. Vasey will deliver a course of lectures on Dental Surgery during the summer session.

Practical Pharmacy: Gentlemen may be instructed in Pharmacy, in the laboratory and dispensary of the hospital, on the following terms—three months, 8*l.* 8s.; six months, 12*l.* 12s.; twelve months, 15*l.* 15s.

Clinical Assistants: Every pupil entering to the medical practice must hold the office of clinical assistant to one of the physicians, for two periods of two months each. Every pupil entering to the surgical practice must hold the office of clinical assistant to one of the surgeons, for two periods of two months each.

Dressers: Pupils entering to the surgical practice must hold the office of

Digitized by Google

dresser for two periods of two months each, and perpetual pupils will have the privilege of holding the office of dresser for two periods of four months each, without additional fee. The dresser of the surgeon of the week boards at the hospital free of expense.

House-Surgeons: The perpetual pupils are eligible to be assistant house-surgeon for six months, and house-surgeon for twelve months (without additional fee), when properly qualified for the office.

Obstetric Assistant: This officer must be a legally qualified practitioner; he is appointed for twelve months, and is eligible for re-appointment at the end of that period. He resides and boards in the hospital, and receives a yearly salary of one hundred pounds.

The Library and Reading-Room: Are open during the greater part of the day. Each pupil of the hospital has to subscribe the sum of ten shillings and sixpence to the library, at the commencement of each winter session.

The Museum is open daily to the pupils of the hospital.

LECTURES.

Descriptive and Surgical Anatomy: Messrs. Pollock and H. Gray, Monday, Wednesday, Thursday, and Friday. Course, 6*l.* 6s. Perpetual, 8*l.* 8s. In these lectures, the numerous parts and organs of which the human body consists are described with reference to their form and mutual relations, especially in their connection with surgery. Recent dissections, drawings, and preparations are made use of for the purpose of illustration.

Physiology, General, and Comparative Anatomy: Mr. A. Johnson. Tuesday and Saturday. Course, 6*l.* 6s. Perpetual, 8*l.* 8s. The structure and properties of the different tissues common to several organs are minutely described in this course, as also the functions performed by those organs either separately, or combined for a common purpose, and the laws which govern their actions. These lectures are illustrated by recent dissections and anatomical preparations, human and comparative, by experiments and diagrams.

Practical Anatomy: A regular series of demonstrations of certain structures of the body will be given by the demonstrators, Dr. Hastings and Dr. Dickinson, who will likewise assist the students in their studies. One of the lecturers will also attend in the dissecting-room twice a week, for the purpose of holding examinations or affording practical instruction in Anatomy; and each pupil is expected to attend these examinations.

Microscopical Anatomy: Demonstrations will be given during the winter session.

Theory and Practice of Physic: Dr. Pitman. Monday, Wednesday, and Friday, 6*l.* 6s. A general view of symptoms and their relations to disordered functions, and to the several forms of altered structure, is given in this course of lectures; and also the special application of the general facts and doctrines which have been ascertained and established. The lectures are illustrated by recent specimens of morbid structures, by preparations from the museum, and by drawings.

Theory and Practice of Surgery: Mr. Tatum. Monday, Wednesday, and Friday. Course, 4*l.* 4s. Perpetual, 6*l.* 6s. These lectures include an exposition of the principles on which a knowledge of diseased structures is based, and an explanation of the various ways in which nature attempts the reparative process. The principal operations of surgery are performed on the dead body during the course, and diseases, accidents, and injuries are illustrated by drawings, casts, recent specimens and morbid prepara-

Digitized by Google

tions, including the extensive series presented to the hospital by Sir B. C. Brodie, Bart., and C. Hawkins.

Morbid Anatomy: Instruction in morbid anatomy is given by the physicians and surgeons in the pathological theatre of the hospital as opportunities occur.

Chemistry: Dr. H. M. Noad. Tuesday, Thursday, and Saturday. Course, 6*l.* 6s. Perpetual, 8*l.* 8s. These lectures will be divided into three sections. The first will be occupied with a full consideration of the fundamental doctrines of chemistry. In the second division the materials of the inorganic world, and their most important combinations, will be examined. The third division will be devoted to as extensive an inquiry into the important department of animal and vegetable chemistry as the limits of the course will allow.

WINTER SESSION: Scale of fees for practical instruction (to be paid on entrance), including the use of apparatus and materials, excepting platinum and silver, and their salts, which are found by the student. For every day in the week, from Oct. 1st to March 31st, 18*l.* 18s.; for four days in the week, 15*l.* 15s.; for three days, 12*l.* 12s.; for two days, 10*l.* 10s.; for one day, 8*l.* 8s.; for one month (every day in the week), 5*l.* 5s.; for one month (four days in the week), 4*l.* 4s.; for one month (three days in the week), 3*l.* 3s.

SUMMER SESSION.

Practical Chemistry: A commodious laboratory has been arranged, and every requisite provided to carry into full effect the regulations of the Society of Apothecaries, which require "a specific course of instruction to be given in the laboratory, with an opportunity of personal manipulation in the ordinary processes of chemistry, and of acquiring a knowledge of the various re-agents for poisons." The course of instruction is comprised in thirty lessons of two hours each; to be attended during the first summer session. It commences May 2nd, and terminates about the middle of July. Hours of attendance from half-past nine till half-past eleven. Fee, including the use of materials, 4*l.* 4s.

Midwifery and Diseases of Women and Children: Dr. R. Lee. Monday, Wednesday, and Friday, 6*l.* 6s. These lectures comprehend—1. The Anatomy and Pathology of the unimpregnated Uterine System. 2. A description of the Gravid Uterus, and an account of the diseases of Pregnant Women. 3. The Symptoms and Treatment of all the varieties of Parturition. 4. The Diseases of Puerperal Women. 5. The Diseases of Infants. Numerous drawings and engravings, and an extensive museum, are used to illustrate these lectures. Pupils have ample opportunities of attending practical midwifery, a maternity department for the delivery of married lying-in women at their own homes being established at the hospital, under the superintendence of the Obstetric Physician.

Materia Medica: Dr. Barclay. Daily, except Saturday. Course, 5*l.* 5s. Perpetual, 6*l.* 6s. This course embraces a consideration of all substances which are used as medicines, arranged in groups according to their action as remedial agents. Their physical and chemical characters are described; the mode of detecting their adulterations illustrated by experiments; the principal operations of pharmacy explained; and a few lectures are devoted to the theory and art of prescribing. Diagrams, drawings, and specimens are used for the purpose of illustration, and an extensive collection of Materia Medica is open for the use of the students.

Digitized by Google

Medical Jurisdiction: Dr. Fuller. Monday, Wednesday, Thursday, and Friday. Course, 3*l.* 3*s.* Perpetual, 4*l.* 4*s.* The application of the physiological, medical, and surgical sciences to the elucidation of legal investigations, including Toxicology, is taught in these lectures.

Botany: Mr. M. T. Masters. Daily, except Saturday. Session, 3*l.* 3*s.* Perpetual, 4*l.* 4*s.* This course comprises the Anatomy and Physiology of the Vegetable Kingdom, including an explanation of the natural and artificial system of classification. Fresh and dried specimens of plants, with numerous drawings, are used to illustrate these lectures, and herborising excursions are made during the session.

EXHIBITIONS AND PRIZES.—*"The William Brown Exhibition" of 40l. per annum, tenable for three years.*—This Exhibition was founded by the widow of William Brown, Esq., formerly a pupil of St. George's Hospital, to be competed for by perpetual Pupils, who have commenced their third but not completed their fourth Winter Session. It will be "bestowed on the Candidate who shall show the best general fitness for the exercise of the Medical Profession, and whose moral conduct shall in all respects be satisfactory." This Exhibition will be open for competition to gentlemen who enter as perpetual pupils, to the Surgeons or Physicians, in the session 1859-60 and 1860 and 61.

The Thompson Medal: Mr. Sergeant Thompson, who was for many years Treasurer of St. George's Hospital, invested the sum of 100*l.*, three per cent. stock, in the names of trustees, for the purchase of a silver medal annually, to be awarded for the best clinical report of medical and surgical cases, observed in the hospital during the preceding twelve months. The reports are to be sealed up, a motto placed on the outside of the cover, and sent, with a sealed envelope, with a similar motto on the outside, and the name and address of the candidate inside, to the Secretary of the Medical School Committee, on or before the 31st July.

Sir Charles Clarke's Prize, for Good Conduct: Sir Charles Clarke, Bart., M.D., formerly a pupil of St. George's Hospital, left the sum of 200*l.* consols, the interest of which was to be awarded annually to the student of the hospital "who, by reason of his general good conduct during the preceding year, should be considered the most deserving."

A Prize of Twenty Guineas, for general proficiency in Medical Studies, will be offered to students who enter to the Hospital Medical School for the Session 1859-60. The examination will take place in July.

The following Prizes will be offered for the encouragement of Clinical study, under the following regulations:—

A Prize of Twenty Guineas, for Surgeons' Pupils in their second year.

A Prize of Twenty Guineas, for Physicians' Pupils in their second year.

1. Every pupil competing for one of the above prizes will be required to leave his Case Book with the Director of the Clinical Department on or before the 31st March. 2. The cases must be selected from the Surgical or the Medical Wards by the Surgeons' Pupil or Physicians' Pupil respectively. 3. The regularity of attendance in the Wards of the Hospital; the number of cases recorded; the care with which they are kept; and the nature of the observations on each case, will guide the Examiners in their decision. 4. Each candidate will be examined orally on his own cases.

Sir Benjamin Brodie's Clinical Prize in Surgery—Will be awarded to the Matriculated Surgeon's Pupil of the Hospital who shall have delivered to the surgeons the best report of not fewer than twelve surgical cases, which

Digitized by Google

have occurred in the hospital during the preceding twelve months, each case being accompanied with notes illustrative of its pathology, diagnosis, and treatment. The same regulations are to be followed as in the case of "The Thompson Medal Prize," but the Reports are to be sent to the Junior Surgeon, on or before the 31st of July.

The Lewis Powell Clinical Prize in Medicine—Will be awarded to the Matriculated Physician's Pupil of the Hospital who shall produce the best Report of not fewer than twelve Medical cases which have occurred in the hospital during the preceding twelve months. The same regulations as above are to be followed, but the Reports sent to the Secretary of the Medical School Committee on or before the 31st of July.

Curator of the Pathological Museum: A curator is appointed annually by the weekly board, on the recommendation of the Medical School Council, with a salary of 50*l.* per annum.

Registrars: Two registrars are appointed annually by the weekly board, on the recommendation of the Medical School Council, each with a salary of 20*l.* per annum.

Regulations respecting Students: A register is kept, in which the names of all students in St. George's Hospital Medical School, the lectures which they attend, and the certificates which they obtain must be registered. The fee for registration is one guinea. Students who wish to be *matriculated students* are required to receive the entire medical education ordered by the College of Surgeons and Society of Apothecaries, in the Medical School of the Hospital. The attention of students is particularly directed to the following regulations:—1. Every student must, at the beginning of every session, take out tickets for the lectures which he proposes to attend from the Treasurer of the Hospital School, Mr. Pollock, or, in his absence, from the Apothecary of the Hospital. The tickets must be taken to the respective lecturers, for their signatures, before they can be registered at the College or Hall. 2. All certificates of lectures must be obtained from Mr. Athol Johnson. 3. Towards the close of the winter and summer sessions, certificates of attendance on the lectures will be prepared for those students who are entitled to them, signed by the respective lecturers of the Hospital Medical School. 4. Students are particularly requested to give their schedules to Mr. A. Johnson as soon as they procure them from the College and the Hall, and to apply for their certificates at the conclusion of each session. 5. Students, after having procured their certificates of attendances on the Medical or Surgical Practice of the Hospital, and on Clinical lectures at the end of each session, are to return their schedules to Mr. A. Johnson. 6. Certificates will not be granted to those students who neglect to comply with these regulations.

*** Further information may be obtained from Mr. Pollock, the Treasurer of the School, from any of the lecturers, or from Mr. Hammerton, the Apothecary of the hospital.

Some of the lecturers and other gentlemen connected with the hospital receive students to reside with them.

*GROSVENOR-PLACE SCHOOL OF ANATOMY AND MEDICINE,

Adjoining St. George's Hospital, Hyde-park-corner. S.W.

This school was established in 1830, to afford the students attending the practice of St. George's Hospital the opportunity of studying anatomy in premises contiguous to the hospital. The original plan was gradually extended, till all the departments of a recognised medical school were completed. Several hundreds of medical men have now been educated within its walls, and the present teachers are anxious to carry out more thoroughly the practical character of the instruction which has commanded for this school so large an amount of success. In order to do this effectively, arrangements have been made to enable each lecturer to ascertain the progress his pupil is making in his studies. Every opportunity is also taken by the lecturers to bring before the student cases, preparations, and specimens, in order that he may acquire a practical knowledge of his profession. It has often been a matter of regret, that medical students should so frequently find it necessary to have recourse to routine preparations before their final examinations. In order to prevent any necessity for extra-academical teaching, classes are formed of those students who are about to undergo their examinations. These classes are regularly conducted by the various lecturers, who endeavour to blend the demonstrative and tutorial with the professorial character of their teaching.

Fee for Lectures.—General fee to all the Lectures required by the Universities of London and St Andrew's, the Royal College of Surgeons of England, and the Society of Apothecaries, 35 guineas.

Fee to all the Lectures required by any *one* of the above Boards, 30 guineas.

Fee to Lectures and Hospital Practice.—Gentlemen attending this School can attend, conveniently, either at St. George's Hospital, which adjoins the School, or at University College, King's College, Charing-Cross, the Middlesex, or the Westminster Hospitals. The fees to all the lectures at this School, and to the Medical and Surgical Practice qualifying for both College and Hall, are as follow:—

		£	s.	d.
Grosvenor-place School and Practice of	St. George's Hospital	74	11	0
" " "	King's College or St. Mary's Hospitals -	73	10	0
" " "	Charing-Cross Hospital	68	5	0
" " "	Middlesex Hospital -	66	15	0
" " "	Westminster Hospital	64	1	0
" " "	University College Hospital - -	63	15	0

The following courses of lectures are delivered during the Winter and Summer Sessions, and qualify for examination at the University of London, the Royal Colleges of Physicians and Surgeons, the Apothecaries' Society, and the Army, Navy, and East India Medical Boards.

WINTER SESSION.

Anatomy and Physiology: Dr. B. W. Richardson. Tuesday, Wednesday, Thursday, and Friday, at six p.m. Single course, 5*l.* 5s.; perpetual 6*l.* 6s.

---

* No return from the Secretary for the present year.

Digitized by Google

Descriptive and Surgical Anatomy: Dr. G. B. Halford and Mr. Lawton. Daily, except Saturday, at nine a.m. Single course, 6*l.* 6s.; perpetual, 8*l.* 8s.

Practical Anatomy: Mr. Pittard.

Principles and Practice of Medicine: Drs. Cockle and Leared. Monday, Wednesday, and Friday, at seven p.m. Single course, 5*l.* 5s.; perpetual, 6*l.* 6s.

The Principles and Practice of Surgery: Messrs. T. Spencer Wells and W. Adams. Monday, Wednesday, and Friday, at eight p.m. Single course, 5*l.* 5s.; perpetual, 6*l.* 6s.

Chemistry: Dr. Thudichum. Tuesday and Thursday, at seven p.m. Single course, 5*l.* 5s.; perpetual, 6*l.* 6s.

SUMMER SESSION.

Operative Surgery. Daily at eleven. The pupils in this class are divided into series of eight, before whom the whole of the operations of Surgery are demonstrated by Mr. T. Spencer Wells. Fees for the course, 5*l.* 5s.

Military Surgery, including the Nature and Treatment of Gunshot Wounds: Mr. G. E. Blenkins. Tuesday and Thursday, at three p.m. This course will comprise the consideration of the diseases of climates to which soldiers are liable, the sanitary arrangements of camps and barracks, examination of recruits, disabilities, and invaliding, feigned maladies—in short, all that relates to the special duties of the military medical man, or the health and well-being of soldiers, in camp or in quarters.

Botany: Mr. Bainbridge. Monday, Wednesday, and Friday, at nine a.m. The course will be illustrated by fresh specimens; demonstrations with the microscope will be given, and occasional excursions will be made with the class. Single course, 3*l.* 3s.; perpetual, 4*l.* 4s.

Practical Chemistry: Dr. Thudichum. Tuesday, Thursday, and Saturday, at half-past nine a.m. In this course the student performs all the experiments necessary for his instruction in Analytical and Toxicological Chemistry, under the superintendence of the lecturer. Fee for the course, 3*l.* 3s.

Materia Medica and Therapeutics: Dr. Arthur Leared. Monday, Wednesday, and Friday, at eight a.m. Single course, 3*l.* 3s.; perpetual, 4*l.* 4s. This course will be illustrated by an extensive series of diagrams, and a complete museum, to which the student will have constant access.

Midwifery and Diseases of Women and Children: Mr. Bloxam and Dr. Priestley. Daily, except Saturday, at a quarter to three p.m. Single course, 3*l.* 3s.; perpetual, 4*l.* 4s. Pupils of this class will be provided with cases when qualified to attend them.

Medical Jurisprudence: Dr. Francis Webb. Daily, except Saturday, at twelve noon. Single course, 3*l.* 3s.; perpetual, 4*l.* 4s. This course is practically illustrated throughout by tables, physiological and chemical experiments, and dissections.

Comparative Anatomy and Zoology: Mr. Hulme. Tuesday, Thursday, and Saturday, at ten a.m. Single course, 2*l.* 2s.; perpetual, 3*l.* 3s. The lectures will be illustrated by diagrams and specimens. The course is such as is required by the Army and Navy Boards, by the College of Surgeons for the Fellowship Examination, and by the University of London.

Hygiene: Dr. Richardson. Single Course, 1*l.* 1s.; perpetual, 2*l.* 2s.

Dental Surgery: Mr. Hulme. Single course, 1*l.* 1s.; perpetual, 2*l.* 2s.

The physicians and surgeons connected with the school have made

Digitized by Google

arrangements for their pupils to attend the practice of the various institutions with which they are connected.

The Museum of Anatomy, Pathological Anatomy, and Materia Medica, are constantly open to the student for the purposes of study, and contain every specimen necessary for his assistance.

Demonstrations with the Microscope are regularly given in the courses of lectures on anatomy, physiology, pathology, and botany.

Pupils desirous of cultivating the important art of organic analysis will have an opportunity of doing so, under the direction of the lecturer on chemistry, or by attendance on the classes at the Royal College of Chemistry.

Prizes and Certificates of Honour are awarded at the end of the session to those pupils who most distinguish themselves in the examinations of their classes, and in general proficiency.

The Dissecting Rooms are open daily from eight a.m. till dusk. Mr. Pittard will attend in the rooms four hours daily, to superintend the dissections and assist the students instituting frequent examinations, in order to assure a thorough practical knowledge of Anatomy.

Practical Lessons in Physical Diagnosis are given by Drs. Cookle and Richardson, and in the Examination of the Urine, by Dr. Thudichum, constituting a distinct course on physical diagnosis.

Some of the lecturers receive private pupils to reside with them, whose studies they superintend.

Any further particulars may be obtained by application to Dr. B. W. Richardson, 12, Hinde-street, Manchester-square. W.; at the school, 1, Grosvenor-place; or at the private residences of any of the lecturers.

---

*GUY'S HOSPITAL,

St. Thomas's street, Borough. S.E.

Founded A.D. 1722, by Thomas Guy, during his lifetime.

Cons. Phys., Dr. Bright.—*Phys.*, Drs. T. Addison, G. H. Barlow, O. Rees, and W. W. Gull.—*Asst.-Phys.*, Drs. S. O. Habershon, S. Wilks, and F. W. Pavey.—*Surgs.*, Messrs. E. Cock, J. Hilton, and J. Birkett.—*Asst.-Surgs.*, Messrs. A. Poland, J. C. Forster, and T. Bryant.—*Obst. Phys.*, Dr. H. Oldham.—*Asst. Obst. Phys.*, Dr. B. Hicks.—*Surg.-Dentists*, Messrs. T. Bell and J. Salter.—*Surg. Eye Infirm.*, Mr. J. F. France.—*Apoth.*, Mr. J. Stocker.

Children are admitted into the general wards, where special accommodation is provided for their reception. The eye infirmary which pupils attend is under the care of the ophthalmic surgeon; attendance, Mondays and Thursdays, at twelve. There is also a lying-in charity, to which the pupils have access, and wards appropriated to female diseases, under the care of the physicians-accoucheur, by whom clinical lectures and instructions are given. The library, reading-room, museums of human and comparative anatomy, anatomical model-room, models of cutaneous diseases

---

* No return from the Secretary for the present year.

Digitized by Google

(by Mr. Towne, modeller), are open to the students daily. The specimens in these museums, with the drawings and diagrams in all, amount to upwards of 15,000. Pupils entering to the hospital practice are expected to produce testimonials as to moral character and general acquirements. Connected with the institutions are Physical and Clinical Societies.

This hospital contains nearly 550 beds, and has, in addition to the ordinary medical and surgical, ophthalmic and obstetric wards.

Upwards of 40,000 out-patients are annually relieved.

Guy's Hospital Lying-in Charity.—It is the object of this charity to provide attendance during confinement for poor women, living within a distance of two miles from the hospital, at their own homes.

Cards are issued, beforehand, on application, to persons who are proper objects for relief, and are to be presented, when labour is coming on, at the hospital, when provision will be immediately made for attendance on the case.

The charity is under the general direction and superintendence of the Obstetric physicians of the hospital, who are aided in carrying on the business of the charity by the resident Obstetric clerks, and by the pupils on the midwifery list.

Two books are to be kept in this department of the hospital—(1) A record of all persons to whom cards shall have been issued entitling them to the benefits of the charity. (2) A register of all cases actually attended from the charity: such register to contain all important details respecting the several cases.

Average number of women delivered by the agency of this charity, nearly 1,800 per annum.

WINTER SESSION.

Medicine: Drs. Rees and Gull. Mondays, Wednesdays, and Fridays, at half-past three.

Clinical Medicine: Drs. Addison, Barlow, Hughes, and Rees.

Surgery: Messrs. Hilton and Birkett. Tuesdays, Thursdays, and Saturdays, at half-past three.

Clinical Surgery: Messrs. Cook, Hilton, and Birkett.

Anatomy, Descriptive and Surgical: Messrs. Poland and C. Forster. Daily, at two, except Wednesdays, at nine.

Physiology and Microscopic Anatomy: Dr. Pavy. Tuesdays, Thursdays, and Saturdays, at twelve.

Demonstrations on Anatomy: Messrs. Durham and Moxon. Daily.

Demonstrations on Morbid Anatomy: Dr. Wilks. Daily, at half-past two.

Clinical Lectures on Midwifery and Diseases of Women: Drs. Lever and Oldham.

Chemistry: Dr. A. S. Taylor. Tuesdays, Thursdays, and Saturdays, at eleven.

Moral Philosophy: Rev T. H. Bullock.

Dental Surgery: Mr. Salter.

Experimental Philosophy: Mr. Durham. Wednesdays, at eleven.

SUMMER SESSION.

Demonstrations on Cutaneous Diseases: Drs. Addison and Gull. Mondays, at one.

Materia Medica: Dr. Habershon. Tuesdays, Thursdays, and Saturdays, three.

Digitized by Google

Clinical Medicine: Drs. Gull, Habershon, and Wilks.
Clinical Surgery: Messrs. Poland, Forster, and Bryant.
Midwifery: Drs. Lever and Oldham. Daily, at a quarter to nine.
Medical Jurisprudence: Dr. A. S. Taylor. Tuesdays, Thursdays, and Saturdays, at ten.
Ophthalmic Surgery: Mr. France. Wednesdays and Fridays, at three.
Pathology: Dr. Wilks. Mondays, at twelve.
Dental Surgery: Mr. Salter.
Comparative Anatomy: Dr. Pavy. Wednesdays and Fridays, at twelve.
Botany: Mr. Johnson. Tuesdays, Thursdays, and Saturdays, at half-past eleven.
Practical Chemistry: Dr. Odling. Mondays, Wednesdays, and Fridays, ten to one.
Pupils' Physical Society: Saturdays, alternate, at seven in the evening.
The Clinical Wards open the first week in October and first week in May.
Lying-in Charity: Drs. Lever and Oldham.
Curator of the Museum: Dr. Wilks.
REGISTRARS: *Medical*, Dr. Whitley; *Surgical*, Mr. Bryant.
Mr. Maunder will assist Pupils in their studies.
The library, museums, and model-rooms are open daily to the students, from nine o'clock a.m. till five o'clock p.m.

Gentlemen desirous of becoming students must produce satisfactory testimony as to their education and conduct; they are required to pay 40*l.* for the first year, 40*l.* for the second year, and 10*l.* for every succeeding year of attendance. One payment of 100*l.* entitles a student to a perpetual ticket. The payment for the year admits to the lectures, practice, and all the privileges of a student for that year only.

Clinical clerks, dressers, ward clerks, dressers' reporters, obstetric residents, and dressers in the eye ward, are selected according to merit from those students who have attended a second year. A resident house-surgeon is appointed every six months, from those students who have obtained the college diploma. Every student will be required to sign an engagement to conform to the rules and regulations for the internal management of the hospital. The privileges of a student will be withdrawn in the event of neglect or misconduct. Certificates will not be given for lectures and practice unless duly attended.

Mr. Stocker, Apothecary to Guy's Hospital, is authorised to enter the names of students.

KING'S COLLEGE,

Strand, W.C.

WINTER SESSION.

Anatomy, Descriptive and Surgical: Prof. R. Partridge; *Demonst.*, Mr. John Wood, daily, except Monday, nine to ten a.m. Sessional Course, 6*l.* 6s. Unlimited, 9*l.* 9s.
Physiology—General and Morbid Anatomy: Dr. L. S. Beale. Monday, Wednesday, Thursday, and Friday, four to five. 6*l.* 6s. and 9*l.* 9s.
Chemistry: Dr. W. A. Miller; *Demonst.*, Mr. E. A. Hadow. Tuesday,

Digitized by Google

Wednesday, Thursday, and Saturday, at quarter-past ten. 7*l.* 7*s.* and 9*l.* 9*s.*

Principles and Practice of Medicine: Dr. G. Budd. Tuesday and Saturday, four to five; and Thursday, five to six. 7*l.* 7*s.*

Principles and Practice of Surgery: Prof. W. Fergusson. Monday, Wednesday, and Friday, five to six. 5*l.* 5*s.* and 7*l.* 7*s.*

Logic and Natural Philosophy, as required by the Army Medical Board, daily, except Saturday, at quarter-past eleven. 2*l.* 2*s.* and 3*l.* 3*s.*

SUMMER SESSION.

Botany: Prof. A. Henfrey. Tuesday, Wednesday, Thursday, and Friday, eleven to twelve. 3*l.* 3*s.* and 4*l.* 4*s.*

Materia Medica and Therapeutics: Dr. Johnson. Monday, Wednesday, Thursday, and Friday, quarter-past twelve to quarter-past one. 4*l.* 4*s.* and 6*l.* 6*s.*

Midwifery and the Diseases of Women and Children: Dr. A. Farre. Monday, Wednesday, Thursday, and Friday, nine to ten. 6*l.* 6*s.*

Forensic Medicine: Dr. W. A. Guy. Monday, Tuesday, Wednesday, and Friday, three to four. 3*l.* 3*s.* and 4*l.* 4*s.*

Practical Chemistry: Prof. C. L. Bloxam. Daily, quarter-past ten to twelve. 4*l.* 4*s.* and 8*l.* 8*s.*

Comparative Anatomy: Prof. T. R. Jones. Monday, Wednesday, and Friday, quarter-past ten to quarter-past eleven. 3*l.* 3*s.* and 4*l.* 4*s.*

Sub-Dean and Med. Tutor: Mr. J. Harley. The duty of this officer is to assist students in the subjects of their lectures, and to give attendance for two hours daily for the purpose of conducting the business of the department.

KING'S COLLEGE HOSPITAL,

Portugal-street, Lincoln's-inn. W.C.

Cons. Phys., Drs. T. Watson and R. Ferguson.—*Phys. for In-Patients*, Drs. G. Budd, R. B. Todd, and G. Johnson.—*Phys. to Out-Patients*, Drs. W. A. Guy and L. S. Beale.—*Phys. Acc. and Phys. for Dis. of Wom. and Child.*, Dr. A. Farre.—*Asst.-Phys.*, Drs. C. Murchison and C. Evans.—*Surgs. for In-Patients*, Messrs. W. Fergusson, R. Partridge, and W. Bowman; *Surg. for Out-Patients*, Mr. H. Lee.—*Asst.-Surgs.*, Messrs. J. Wood and J. W. Hulke.—*Surgs.-Dent.*, Mr. S. Cartwright, jun.—*Disp.*, Mr. F. Blackburn.

Clinical Lectures are delivered at half-past one, on alternate Mondays, by Dr. Budd; alternate Tuesdays, by Dr. Johnson, at half-past one; at half-past one on alternate Thursdays, by Mr. W. Fergusson; alternate Fridays, by Mr. R. Partridge, at half-past one; on alternate Saturdays, at nine a.m., by Dr. Todd. *Perpetual admission* to the Medical and Surgical Practice: For Matriculated students, 31*l.* 10*s.*; not matriculated 36*l.* 15*s.* *Medical Practice:* Three months, 6*l.* 6*s.*; six months, 10*l.* 10*s.*; eighteen months, 15*l.* 15*s.*; perpetual, 21*l.* *Surgical Practice*: Three months, 10*l.* 10*s.*; six months, 15*l.* 15*s.*; twenty-one months, 21*l.*; perpetual, 26*l.* 5*s.* The fees for matriculation amount to 4*l.* 15*s.* 6*d.*, and must be paid on entrance.

The Fees for admission to all the classes required by the Hall and College, both for lectures and hospital attendance, amount to 93*l.* 9*s.*

The Fees for perpetual admission to every Course (except the Class of

Digitized by Google

Analytical Chemistry and the Courses of Logic and Natural Philosophy), including the hospital, amount to 108*l.* 3s.

It is strongly recommended that the Fee for attendance on the Medical Tutor's Class for one year be added:—Fee to resident Students, 2*l.* 2s.; to non-resident Students, 3*l.* 3s.

The fees may be paid either in one sum on Matriculation, or in two equal sums, the one at the commencement of the first Winter or Summer Session, the other after the first Christmas vacation, not later than Jan. 21st, unless other arrangements are made at the time of entrance; but for full particulars respecting the payment of fees, see the King's College Calendar.

Analytical and Experimental Chemistry: Besides the chemical Course and the summer class of Practical Chemistry, provision is made for those students who wish to become more minutely acquainted with certain subdivisions of the science. The class formed for this purpose is conducted in the laboratory, under the superintendence of the Professors and Demonstrator. By this means each student will be enabled to familiarise himself with the methods of analysis and research. Attention is particularly given to Analytical and Agricultural Chemistry, and processes of manufacturing art. The fees for admission to the Laboratory Class are, for one month, 4*l.* 4s.; for three months, 10*l.* 10s.; for six months, 18*l.* 18s., &c.

Pathological Chemistry: Demonstrations on the Urine: Dr. Beale, Professor of Physiology, has a laboratory adjoining King's College Hospital, arranged especially for the prosecution of Microscopical researches in connexion with Pathology and Chemical Medicine. Fee, 5*l.* 5s. per month. He also gives practical demonstrations on the chemical and microscopical character of the urine. Fee for the course of demonstrations, 2*l.* 2s.

Natural Philosophy and Logic: Courses of Natural Philosophy and Logic, required by the Army Medical Board, will be given in the first part of each winter session.

SCHOLARSHIPS.

A. Warneford Scholarships: The sum of 200*l.* is set apart annually, in consideration of 5,000*l.* presented to the College by the late Rev. S. W. Warneford, LL.D., for Scholarships to students of this department, viz.:

Class I.—"*For the encouragement of the previous Education of Medical Students.*" Two Scholarships of 25*l.* per annum, for three years, are open to all new matriculated medical students at the beginning of their first winter session. Candidates are examined in Divinity, the Classics, English History, Mathematics, and the Modern Languages. An equal number of marks are assigned to each subject.

N.B.—In October 1859, three extra scholarships of 25*l.* each, for two years, were given.

Class II.—"*For the encouragement of Resident Medical Students.*" One Scholarship of 25*l.* per annum, for two years, is open to all second year matriculated medical students, who, during

at least six months of their first academical year,
and
the whole of their second academical year

shall have resided within the limits of the College, and shall produce certain specified certificates. Candidates are examined in Divinity, and in the particulars of hospital practice.

B. College Scholarships: The Council of King's College give, at the

Digitized by Google

close of each winter session, the following Scholarships to matriculated students of the medical department.

1. One of 40*l.* per annum, for two years, open to students of the third and fourth years.

2. One of 30*l.* per annum, for one year, open to students of the second year.

3. Three of 20*l.* per annum, for one year, open to students of the first year.

The subjects for these examinations, with the exception of certain specified portions of divinity (and Latin in the case of the Junior Scholarships), are wholly medical.

C. Daniell Scholarships: This Scholarship has been founded in honour of the late Professor Daniell, and is open to every student of the College, whether matriculated or occasional. It is of the annual value of 20*l.*, tenable for two years; and is given every second year for the best series of researches in Chemistry made in the laboratory of the College since the last award.

D. Divinity Scholarships: This Scholarship of 30*l.* is also open to matriculated students of this department.

PRIZES.

A. Leathes Prizes: The interest of 300*l.*, bequeathed by the late P. H. Leathes, Esq., is applied in the purchase of a Bible and Prayer Book, as annual prizes to the two medical students who shall be found most worthy of the same, for their proficiency in religious knowledge, and for their general good conduct.

B. Warneford Prizes: The sum of 40*l.* is set apart annually in consideration of 1,000*l.* presented to the College by the late Rev. S. W. Warneford, LL.D., and is expended in the purchase of medals and books, as prizes to the two medical students who shall most distinguish themselves at an examination consisting of questions in—1. Any two branches of medical science taught in the College, to be selected by the candidates. 2. The Holy Scriptures. 3. Butler's Analogy. The first prize is of the value of 25*l.*, and the second of 15*l.*

Matriculated Students only can become candidates for the prizes A. and B., the examination for which takes place in October of each year.

C. Class Prizes and Certificates of Honour: Prizes are awarded annually for proficiency in the several subjects of Analogy, Physiology, Chemistry, Materia Medica, Surgery, Medicine, Midwifery, Botany, Forensic Medicine, Comparative Anatomy, and Practical Chemistry. These consist of books of the value of 3*l.*

Certificates of Honour are given to such students in each class as the respective Professors shall consider entitled to receive them.

Two Medical Clinical Prizes, one of 3*l.*, for the winter session, and the other, of 2*l.*, for the summer session; and two surgical clinical prizes, of the same value, are given for the best examination upon the cases treated of in the hospital at the mid-day visit, and upon the subjects discussed in the clinical lectures delivered during the winter and summer sessions respectively.

Two Medical Clinical Prizes, of the value of 8*l.* and 4*l.*, given by Dr. Todd at the end of each winter session, are open to the competition of students of the third and fourth years, who have attended the early hospital visit, during the previous summer and winter sessions.

Digitized by Google

All students, occasional as well as matriculated, will be admitted to contend for the class prizes C, under rules laid down as to the number of courses of lectures.

Associates of King's College: At the end of each winter session, the Professors lay before the Council the names of those medical students whom they recommend to be elected Associates of King's College, London, on account of general good conduct, regularity of attendance at the classes in the College and at the hospital, and professional acquirements.

Degrees: Students of this College are admitted to degrees in Arts and Medicine, and for the honours, exhibitions, and Scholarships conferred by the Senate of the University of London.

By a regulation of the University of Edinburgh, three out of the four years of study required by that University for its degree of M.D. may be passed at King's College.

Residence of Students: Rooms are provided within the walls of the College for the residence of a limited number of matriculated students. The Censor of the College lives within its walls, and to him is committed by the Council the superintendence of all resident students under academical discipline.

Some of the Professors receive Pupils into their houses.

The Council have also sanctioned a limited number of medical gentlemen, residing in London or its immediate neigbourhood, to receive pupils into their houses.

The parents or guardians of students are earnestly requested to communicate with the Dean of the Medical Department before fixing their place of residence.

Dining Hall: There is a Dining Hall in the College, for the accommodation of the resident students, and for such other students as may desire to avail themselves of it.

The Sub-Dean of the Medical Department attends for two hours daily at the College, to see students and their friends. Any letter addressed to him at King's College, London, on the subject of this department, will receive early attention.

LONDON HOSPITAL,

Whitechapel. E.

Phys., Drs. Little, P. Fraser, and H. Davies.—*Asst.-Phys.*, Drs. Parker, Ramskill, and A. Clark.—*Surgs.*, Messrs. Luke, Adams, and Curling. *Asst. Surgs.*, Messrs. Critchett, N. Ward, and J. C. Wordsworth.—*Obst. Phys.*, Dr. Ramsbotham.—*Asst. Obst. Phys.*, Dr. Barnes.—*Surg.-Dentist*, Mr. Barrett.

The London Hospital contains 445 beds, of which about 135 are allotted to medical, and 310 to surgical cases. Of these 310 beds upwards of 190 are exclusively appropriated to cases of accident. In the year 1858 27,790 patients were relieved, including 3,976 in-patients, and 23,814 out-patients. The accidents brought to the hospital during 1858 were 11,529, including 2,090 in-patients, and 9,439 out-patients.

The Winter Session commenced on Monday, October 3rd, 1859, when the Introductory Lecture was delivered by Mr. Critchett, at 3 p.m. Lec-

Digitized by Google

tures on Anatomy, Physiology, and General and Morbid Anatomy, Chemistry, Medicine, and Surgery, will be given.

The Summer Session will commence on the 1st of May, 1860. Lectures on Midwifery, Materia Medica, Ophthalmic Surgery, Botany, Forensic Medicine, Comparative Anatomy, Practical Chemistry, and Practical Histology, will be given.

General fee for attendance on the medical and surgical practice, qualifying for the Examinations at the London University, Royal College of Surgeons, and Apothecaries' Hall, and for perpetual attendance on all the lectures, 88*l.* 4s., payable in two instalments of 44*l.* 2s. each, at the commencement of the two first winter sessions of attendance. Perpetual fee to the lectures alone, 50*l.* Students can make special entries to lectures or hospital practice.

WINTER SESSION.

Medicine: Dr. N. Parker. Tuesday, Thursday, and Saturday, at 10.15 a.m. One session, 5*l.* 5s.; unlimited, 7*l.* 7s.

Surgery: Messrs. T. B. Curling and G. Critchett. Monday, Wednesday, and Friday, at three p.m.

The lectures on Ophthalmic Surgery will be delivered by Mr. Critchett, in the Summer Session. One session, 4*l.* 4s.; perpetual, 6*l.* 6s.

Descriptive and Surgical Anatomy:—Mr. J. Adams. Monday, Tuesday, Thursday, and Friday, at a quarter past nine a.m. Examinations on Saturday. One session, 5*l.* 5s.; unlimited, 8*l.* 8s.

Physiology and General and Morbid Anatomy.—Dr. A. Clark. Monday, at 4 p.m., and on Tuesday and Thursday, at three p.m. One session, 4*l.* 4s.; perpetual, 7*l.*

Practical Anatomy: Messrs. J. Sharman and John Cooper. Attendance in the dissecting-room daily, from ten to three. Demonstrations and Examinations. One session, 5*l.* 5s.; unlimited, 8*l.* 8s.

Chemistry: Dr. H. Letheby. The subjects of this course are Physics in their relation to Chemistry, and Chemistry proper. Alternately, the one or the other constitutes the chief subject of the course, so that those who are studying for the Universities may in the period of two winter sessions obtain a full course of lectures on each subject. The days of lecture will be Monday, Wednesday, and Friday, at half-past ten. One session, or unlimited, 7*l.* 7s.

Anatomy and Pathology of the Teeth, and Dental Surgery: Mr. H. J. Barrett. This course consists of twelve lectures, and will be delivered at seven p.m. One course, 2*l.* 2s., Free to Students who have paid the general Fee.

SUMMER SESSION.

Midwifery and Diseases of Women and Children: Dr. F. H. Ramsbotham. Gentlemen when qualified have opportunities of attending an unlimited number of cases of labour in the neighbourhood of the hospital. The days of lecture are Monday, Tuesday, Thursday, and Friday, at three p.m. One session, 4*l.* 4s.; unlimited, 6*l.* 6s.

Forensic Medicine: Dr. F. H. Ramsbotham and Dr. H. Letheby. Daily, except Saturday, at ten a.m. One course, 3*l.* 3s.; two courses, or unlimited, 4*l.* 4s.

Materia Medica and General Therapeutics: Dr. H. Davies. Tuesday, Wednesday, and Friday, at nine a.m. One session, 3*l.* 3s.; unlimited, 4*l.* 4s. A cabinet of Materia Medica is open to students.

Digitized by Google

Ophthalmic Surgery, Mr. Critchett, Wednesday, at 3 p.m.

Practical Chemistry: Dr. H. Letheby. In this course the operations are conducted by the students, under the superintendence of Dr. Letheby. During May, June, and July, on Tuesday, Thursday, and Saturday, at eleven a m. Extra fee to students of the hospital, for apparatus, &c., one course, 2*l.* 2s.; others, 3*l.* 3s.

Botany: Mr. R. Bentley. Monday, Wednesday, and Friday, at half-past ten, a.m. It is proposed to devote the Saturdays in the earlier part of the course to examinations, and in the latter to herborizing excursions in the neighbourhood of London, and exercises in Practical Botany. One course 3*l.* 3s.; two courses, or perpetual, 4*l.* 4s.

Practical Histology, and the use of the Microscope in Diagnosis: Conducted by the students, under the superintendence of Dr. A. Clark, on Wednesday and Saturday, at twelve. A cabinet of Microscopic preparations is open to the students.

Comparative Anatomy: Mr. Langdon, H. Down. This course consists of twelve lectures. Thursday, at 9 a.m. One course, 2*l.* 2s., free to Students who have paid the general fee.

HOSPITAL PRACTICE.

One of the Physicians and one of the Surgeons attend daily; the former at eight o'clock a.m., or one p.m.: the latter at one p.m.: and one of the Assistant-Physicians and one of the Assistant-Surgeons, daily at one p.m. Casualties are admitted at all hours by the House-Surgeons and Dressers. Surgical operations, except in cases of emergency, are performed on Thursdays, at 1.30 p.m. Dr. Ramsbotham attends on Tuesday and Friday at two p.m., and Dr. Barnes on Wednesday and Saturday, at one p.m. for the out-patients' department.

Mr. Barrett gives practical instruction in Dental operations, on Tuesday and Friday, at eight a.m. Practical classes on Auscultation and Percussion.

Clinical Lectures are given by the Physicians and Surgeons, and by Assistant Obstetric Physician.

Practical Morbid Anatomy: The post-mortem examinations take place at 12.30 p.m., and are superintended by Dr. Clark.

Museum and Library: The Anatomical Museum is open daily to the students from eleven a.m. to two p.m. Curator: Dr. Clark. The reading-room is open daily from ten a.m. to four p.m. Gentlemen who have entered to the medical and surgical practice, or to two or more courses of lectures, will be admitted without any fee to the reading-room; and to the privileges of the library, on depositing 1*l.*, to be returned at the termination of the period of study at the hospital.

London Hospital Collegiate Society: Meetings are held on alternate Thursdays, at 7.30 p.m., for the reading of papers and for discussions, the first meeting taking place on the second Thursday in October.

Hospital Prizes: Two gold medals are annually awarded by the Governors to such students, attending the medical and surgical practice, as shall have most distinguished themselves in the performance of their duties at the hospital.

FEES OF ATTENDANCE ON THE HOSPITAL PRACTICE.

On the Medical Practice: For six months, 6*l.* 6s.; for period required by Apothecaries' Hall, 11*l.* 11s.; unlimited, 21*l.* One medical pupil

Digitized by Google

remains in the hospital as Assistant Medical Officer day and night for a week, and is provided with commons.

On the Surgical Practice and Dressing: For twelve months, including six months' dressership, 12*l.* 12s.; for eighteen months, including twelve months' dressership, 18*l.* 18s.; for three years, including twelve months' dressership, 26*l.* 5s.; for twelve months' additional dressership, during the above three years, 5*l.* 5s.; for twelve months' dressership, after the expiration of the above three years, 8*l.* 8s.

The pupils enter and dress under all the surgeons. Two in rotation remain in the hospital day and night for a week, and are provided with commons.

The privilege of dressing for twelve months is given annually to three pupils of the school, each pupil being previously required to dress the out-patients for one year. An Assistant-Dentist is also elected for three months.

A Resident-Accoucheur for six months, and an Assistant-Medical Officer, and two House-Surgeons for three months (subject to re-appointment), elected without any additional fee, reside in the hospital, and are provided with commons.

Several of the lecturers receive resident pupils.

Further information may be obtained from Mr Adams, 4, St. Helen's-place, or Dr. Parker, Hon. Sec., 22, Finsbury-square, E.C., or on application at the College.

MARYLEBONE WORKHOUSE, INFIRMARY.

Marylebone-road. W.

Digitized by Google

The Session was opened on October 3, at eight o'clock p.m., with an Introductory Address by Mr. Ure.

It is a distinctive characteristic of St. Mary's Hospital that the following Medical appointments are annually conferred upon the Pupils, free of every expense. The advantages arising from five of these appointments far exceed in money-value as many Scholarships of 50*l.* each. There are Four Resident Medical Officers who board (free of all expense) in the hospital, three of whom are appointed for twelve months; and one (the Obstetric Officer), who is appointed for six months; four Non-resident Medical Officers; a Medical and a Surgical Registrar; all of whom are appointed by the Weekly Board of Governors, on the recommendation of the Medical Committee. Clinical Clerks and Dressers are selected from the best qualified Students. All the above offices are awarded, after competition, among the qualified perpetual pupils of the hospital.

WINTER SESSION.

General and Morbid Anatomy and Physiology: Dr. Markham and Mr. J. Lane. Monday, Tuesday, Thursday, and Friday, at 2.30 p.m. One session, 6*l.* 6s.; unlimited, 8*l.* 8s.

Descriptive and Surgical Anatomy: Messrs. J. Lane and Gascoyen. Monday, Tuesday, Thursday, and Friday, at 10.15 a.m. One session, 6*l.* 6s.; unlimited, 8*l.* 8s. Mr. Walton will give the demonstrations of the Surgical operations on the dead body.

Practical Anatomy and Superintendence of Dissections: Mr. Gascoyen.

Chemistry: Dr. A. J. Bernays. Tuesday, Thursday, and Saturday, at nine a.m. One session, 5*l.* 5s.; unlimited, 7*l.* 7s.

Principles and Practice of Medicine: Drs. Chambers and Sibson. Monday, Wednesday, and Friday, at nine a.m. One session, 4*l.* 4s.; unlimited, 6*l.* 6s.

Principles and Practice of Surgery: Messrs. Coulson and Spencer Smith. Monday, Wednesday, and Friday, at 3.45 p.m. One session, 4*l.* 4s.; unlimited, 6*l.* 6s.

Clinical Medicine: Dr. Alderson. Monday, at 1.45 p.m. One session, 3*l.* 3s.; unlimited, 4*l.* 4s.

Clinical Surgery: Mr Ure. Thursday, at 1.45 p.m. One session, 3*l.* 3s.; unlimited, 4*l.* 4s.

SUMMER SESSION.

Botany: Professor Bentley. Monday, Wednesday, and Friday, at four. One session, 3*l.* 3s.; unlimited, 4*l.* 4s.

Materia Medica and Therapeutics: Dr. Sieveking. Monday, Tuesday, Thursday, and Friday, at three. One session, 4*l.* 4s.; unlimited, 6*l.* 6s.

Practical Chemistry: Dr. A. J. Bernays. Saturday, nine to twelve. One session, 3*l.* 3s.

Midwifery and the Diseases of Women and Children: Dr. T. Smith. Daily, except Saturday, at nine. One session, 4*l.* 4s.; unlimited, 6*l.* 6s.

Medical Jurisprudence: Dr. B. Sanderson. Monday, Wednesday, and Friday, at ten. One session, 3*l.* 3s.; unlimited, 4*l.* 4s.

Military Surgery, Tropical Medicine, and the Hygiene of Fleets and Armies: Dr. J. Bird. Monday, Wednesday, and Friday, at eleven. One session, 2*l.* 2s.; unlimited, 3*l.* 3s.

Ophthalmic Surgery: Mr. W. W. Cooper. Tuesday, at two. Fee, 1*l.* 2s.

Digitized by Google

Aural Surgery: Mr. J. Toynbee. Thursday, at 2.30. Fee, 2*l.* 2s.

Dental Surgery: Mr. Sercombe. Monday and Thursday, at 9.30. Fee, 2*l.* 2s.

Comparative Anatomy and Zoology: Dr. Graily Hewitt. Tuesday and Thursday, at ten. One session, 2*l.* 2s.; unlimited, 3*l.* 3s.

Natural Philosophy: Mr. G. R. Smalley, B.A. Wednesday, at three. One session, 2*l.* 2s.; unlimited, 3*l.* 3s.

Entrance-fee to all the lectures required for the Examinations at the Royal College of Physicians and Surgeons, and the Society of Apothecaries, 52*l.* 10s.

Entrance-fee to the hospital practice required by the Royal College of Surgeons and the Society of Apothecaries, 36*l.* 15s.

Entrance-fee as a perpetual pupil, entitling the student to unlimited attendance on the hospital practice, and on every course of lectures delivered in the school, with instruction in Practical Chemistry, during one session, and the right to compete for all the offices mentioned above, 105*l.*

The above general entrance fees may be paid in instalments, by arrangement with the Dean of the School, Mr. Spencer Smith.

PRIZES AND CERTIFICATES OF HONOUR.

Examinations in the various classes will take place at the termination of the session; but, with the exception of Military Surgery, Comparative Anatomy, and Natural Philosophy, prizes will not, as heretofore, be awarded for single courses; the other classes will be grouped in accordance with the curriculum laid down for students of the first, second, and third year; the object being to ensure the general proficiency of the students of each year in their respective subjects of study.

Practical Anatomy: A prize will be awarded to the student who shall make the best anatomical preparation; such preparation to become the property of the school.

HOSPITAL PRACTICE.

The hospital contains more than 150 beds, 65 of which are devoted to medical and the rest to surgical cases. This division includes a ward appropriated to the diseases of women, and also beds for ophthalmic and aural cases.

The in-patients are visited daily by the physicians and surgeons at one o'clock.

Lectures on Clinical Medicine will be regularly delivered by Dr. Alderson, and on Clinical Surgery by Mr. Ure, and occasionally by the other medical officers in their respective departments.

The out-patients are seen daily at half-past twelve by the physicians and surgeons in charge of them.

Surgical operations are performed on Wednesdays at one o'clock.

Post-mortem examinations are made by Dr. Markham at two o'clock.

The Physician-Accoucheur attends on Tuesdays and Saturdays, at half-past one o'clock. The Ophthalmic Surgeon attends on Tuesdays and Saturdays at half-past one o'clock. The Aural Surgeon attends on Mondays and Thursdays at half-past one o'clock. The Surgeon-Dentist attends on Mondays and Thursdays at half-past nine o'clock.

A Maternity Department is attached to the hospital for the delivery of poor married women at their own homes (257 were attended during the

Digitized by Google

past year). Pupils are allowed to attend cases, under the direction of the Resident Obstetric Officer.

FEES.

For Medical Practice: Three months, 5*l.* 5*s.*; six months, 7*l.* 7*s.*; twelve months, 12*l.* 12*s.*; eighteen months, 15*l.* 15*s.*; perpetual, 21*l.*

For Surgical Practice: Six months, 9*l.* 9*s.*; twelve months or such time as is required by the College of Surgeons, 21*l.*; perpetual. 31*l.* 10*s.*

Practical Pharmacy: Students may receive private instruction in Practical Pharmacy in the laboratory and dispensary of the hospital on the following terms: Six months, 6*l.* 6*s.*; twelve months, 10*l.* 10*s.*

MIDDLESEX HOSPITAL.

Berners-street. W.

Phys., Drs. Stewart, Goodfellow, and Thompson.—*Phys.-Acc.*, Dr. Frere.—*Asst.-Phys.*, Drs. F. Weber and C. Coote. *Surgs.*, Messrs. Shaw, De Morgan, Moore, and Henry.—*Asst.-Surg.*, Messrs. Nunn and Flower.—*Surg.-Dent.*, Mr. J. Tomes.—*Apoth.*, Dr. Corfe.—*Med. Regist.*, Messrs. Sibley and Bury.

WINTER SESSION.

Principles and Practice of Medicine: Drs. Stewart and Goodfellow.
Principles and Practice of Surgery: Mr. Shaw.
Physiology and General Anatomy: Mr. C. De Morgan.
Descriptive and Surgical Anatomy: Mr. Moore.
Practical Anatomy and Demonstrations: Messrs. Nunn and Flower.

The dissecting-room is open daily from eight o'clock, a.m., to five o'clock, p.m. Attendance is given in the dissecting-room from ten to three on Monday, Wednesday, and Friday; from ten to four on Tuesday and Thursday; and from ten to twelve on Saturday. Admission to the dissections for those who are not pupils of the anatomical class—One session, 4*l.* 4*s.*; perpetual, 6*l.* 6*s.*

Morbid Anatomy: Mr. Sibley.
Chemistry: Messrs. T. Taylor and Heisch.

SUMMER SESSION.

Midwifery and Diseases of Women and Children: Dr. Frere.
Materia Medica and Therapeutics: Dr. H. Thompson.
Medical Jurisprudence: Mr. Henry and Dr. Coote.
Botany: Mr. R. Bentley.
Comparative Anatomy: Mr. Flower.
Practical Chemistry: Messrs. Taylor and Heisch.
Histology and Minute Anatomy: Dr. W. W. Webb.

HOSPITAL PRACTICE.

Medical Practice: For three months, 6*l.* 6*s.*; six months, 10*l.* 10*s.*; eighteen months, 15*l.* 15*s.*; an unlimited time, 21*l.*

Surgical Practice: For six months, 10*l.* 10*s.*; twelve months, 12*l.* 12*s.*; three years, 18*l.* 18*s.*; an unlimited time, 21*l.*

Digitized by Google

Fee to the apothecary, 1*l.* 1*s.*; fee to the secretary, 5*s.* Fee for the entire period of attendance required by the College of Surgeons and Apothecaries' Company (viz., eighteen months of medical, and three years of surgical, practice), 30*l.* This payment includes the fees of the apothecary and secretary.

General fee for attendance on the hospital practice and lectures required by the College of Surgeons and Apothecaries' Company, 81*l.* This sum may be paid by instalments of 35*l.* at the beginning of the first session, 35*l.* at the beginning of the second session, and 11*l.* at the beginning of the third session; for every additional session, 10*l.*

This fee admits the students to the Practical Chemistry course, and to all other lectures delivered in the college except Comparative Anatomy.

Instruction in Practical Pharmacy, with opportunities of dispensing, is given by the apothecary; fee for six months, 8*l.* 8*s.*; for twelve months, 12*l.* 12*s.*

Instruction in Pharmacy, in the drug-room, without dispensing; for three months, 6*l.* 6*s.*

Museum—Curator, Mr. Flower. The museum is open to students daily.

Library—Admission to the library and reading-room is included in the fees paid by general students. Occasional students, who desire to make use of the library, may do so on payment of 10*s.* 6*d.* The Library contains an extensive collection of medical works, with the various medical periodicals. The books are allowed to be taken out from the library under proper regulations.

A Medical Society is established, under regulations sanctioned by the governing body of the hospital. A prize is given by the Society for the best paper of the Session.

Written Periodical Class Examinations will be held in the course of each Session, and must be attended by all general Students.

To those Students who have most distinguished themselves at the above, in all the subjects of study embraced in the session, Prizes of several guineas will be awarded. Certificates of Honour will also be given for proficiency in each of the classes.

Clayton Prize.—An Annual Prize of the value of Three Guineas, given by Oscar Clayton, Esq. will be awarded for proficiency in Comparative Anatomy.

The Governor's Prize of Twenty Guineas will be awarded to the Student who, having distinguished himself generally by conduct and acquirements in the school, shall present the best joint Clinical Reports in Medicine and Surgery.

The authorities of the hospital have made arrangements by which the in-patient clinical clerk and dresser of the day, and also a limited number of general students, under certain regulations, have liberty to dine with the resident officers at the Board-room table. Some of the medical officers receive resident pupils into their houses.

Parents and guardians who propose sending pupils to the hospital may communicate with the Dean, or with Mr. De Morgan, treasurer to the school, at the hospital, daily from one to three o'clock. Information may also be obtained on application to any of the lecturers, or to Dr. Corfe, the resident medical officer.

All students on entering will be required to sign an undertaking to conform to the laws relating to the discipline of the hospital and school.

From recent enlargements the hospital now contains upwards of 300

Digitized by Google

beds, of which 185 are for surgical, and 120 for medical cases. The cancer establishment receives thirty-three patients. Wards are specially appropriated to cases of uterine disease and of syphilis. Two thousand one hundred and nine in-patients were admitted during the past year. The number of out-patients during the same period amounted to 16,469.

Clinical Clerks and Dressers.—For securing a complete system of Clinical Instruction, and for more perfectly carrying into effect the Regulations of the College and Hall, the General Students will be required to perform the duties of Medical Clinical Clerks for one-half of each Session, and of Surgical Dressers during the other half. First-year Students will not enter on their Clinical Studies until the first Summer Session, when they will be required to perform the duties of Clinical Clerks and Dressers in the Out-patient department under the superintendence of the Assistant-Physicians and the Assistant-Surgeons. The Out-patients' Dressers will thus have the opportunity of practising Bandaging and other minor Surgical Operations, and the Clinical Clerks will be prepared to undertake duties of Clerks to the Physicians. Certificates of attendance on Hospital Practice will only be granted to those General Students who have complied with these Regulations.

The House-Surgeons and Clinical Assistants are elected from the students who have satisfactorily discharged the duties of Clinical Clerks and Dressers. The Governors, for the encouragement of Clinical Study in the Hospital, have instituted three hospital Assistantships to be awarded on competition to students who have completed their education in the school, whose duty will be to observe and record the cases in the hospital, and generally in the absence of the Medical Officers to carry out the treatment directed by them. Fee for twelve months, 21*l.* They are provided with board and residence in the hospital free of expense.

The in-patients are visited daily at one o'clock. Surgical operations are performed on Wednesday, at one.

Clinical lectures are delivered twice a week by the physicians and surgeons.

The medical and surgical out-patients are attended on four mornings in the week by the assistant-physicians and assistant-surgeons, and every opportunity is taken to render this department available to the pupils for the ready investigation of disease.

Midwifery and the Diseases of Women and Children: Upwards of 850 cases of labour were attended under the direction of the physician-accoucheur during the last year, and the students are at all times furnished with an ample supply of cases under his superintendence. Out-patients with uterine and infantile diseases are seen by the physician-accoucheur on Wednesdays and Saturdays at twelve o'clock.

Ophthalmic Department: Patients with diseases of the eye are attended by Mr. Moore on Tuesdays, Thursdays, and Saturdays, at nine o'clock.

Dental Surgery: Pupils receive instruction on diseases of the teeth, and the operations connected with them, on Tuesdays, Thursdays, and Saturdays, at nine o'clock. Fee for occasional pupils, five guineas. For those who desire to comply with the regulations of the Royal College of Surgeons in respect to the Examination for Certificates in Dental Surgery, the general fee will be Forty Guineas. This sum may be paid by instalments of Twenty-five Guineas at the beginning of the First Session, and Fifteen Guineas at the beginning of the Second Session. A special course of

Digitized by Google

Lectures on the Anatomy of the Head and Neck will be instituted in connexion with these Regulations.

Post-mortem Examinations are performed under the superintendence of Dr. C. Coote, at two o'clock.

(See also Advertisement.)

ST. THOMAS'S HOSPITAL,

St. Thomas's-street, Borough. S.E.

Formerly an almshouse, built by Richard Prior, of Bermondsey, in the year 1213, but having been destroyed by fire, was rebuilt in 1215, by Peter de Rupibus, Bishop of Winchester. In 1552 Edward VI endowed and incorporated St. Thomas's for the reception of the sick, infirm, and lame.

Gentlemen proposing to become students at St. Thomas's Hospital are required to produce satisfactory testimonials of moral character and general education.

The Admission Fee to hospital practice and all the lectures is 40*l.* for the first year, a similar sum for the second, and 10*l.* for each succeeding year; or 90*l.* at one payment for unlimited attendance.

Special entries may be made to any course of lectures, or to the hospital practice.

A Chemical Laboratory, under the direction of the chemical lecturer, is provided for students.

Subject to certain regulations, the students have access to the library and to the use of a microscope; as also to the museums of anatomy and pathology, of materia medica, and of chemistry and mineralogy.

Examinations are held at the end of the winter and summer sessions.

The Winter Session will terminate at the end of March—*The Summer Session* will commence on May 1st, and terminate at the end of July.

Cons. Phys., Dr. Roots.—*Phys.*, Drs. Barker, J. R. Bennett, and Goolden.—*Cons. Surg.*, Mr. Green.—*Surgs.*, Messrs. South, Mackmurdo, Solly, Le Gros Clark, and Simon.—*Asst.-Phys.*, Drs. Peacock and Bristowe.—*Obst. Phys. and Surg.*, Dr. Waller and Mr Henry Gervis.—*Res. Med. Off.*, Mr. Whitfield.

This hospital contains 520 beds; nearly 5,000 patients are annually admitted within its walls, and upwards of 1,100 out-patients and casualties are relieved every week. The Physicians and Surgeons commence their visits daily at half-past eight or nine. The out-patients are prescribed for daily, at half-past nine o'clock, by the assistant-physicians, surgeons, and obstetric physician and surgeon.

Operations on Saturdays, at one o'clock.

Post-Mortem Examinations by Dr. Bristowe and Mr. S. Jones.

WINTER SESSION.

Demonstrations: Messrs. Rainey and Ord. Daily, nine to three.

Descriptive and Surgical Anatomy: Messrs. Le Gros Clark and Jones. Daily, at one.

Chemistry: Dr. R. D. Thompson. Monday, Wednesday, and Friday, at twelve.

Digitized by Google

Physiology and General Anatomy: Mr. Granger and Dr. Brinton. Monday, Wednesday, and Friday, at four.

General Pathology: Mr. Simon. Monday, Wednesday, and Friday, at eleven.

Surgery: Mr. South. Monday. Wednesday, and Friday, at three.

Microscopical Anatomy: Mr. Rainey. Saturdays, at one.

Clinical Medicine: Dr. Barker. Monday and Thursday, at two.

Theory and Practice of Medicine: Dr. J. R. Bennett. Tuesday, Thursday, and Saturday, at three.

SUMMER SESSION.

Materia Medica: Dr. Peacock.

Forensic Medicine: Dr. Brinton.

Midwifery and the Diseases of Women and Children: Dr. Waller.

Botany: Dr. Bristowe.

Practical Chemistry: Dr. R. D. Thompson.

Comparative Anatomy and Natural History: Mr. W. M. Ord.

Clinical Medicine: Dr. Barker.

Public Health: Dr. H. Greenhow.

Clinical Instruction is given at stated times by the medical and surgical officers. Lectures in clinical medicine are given by Dr. Barker twice a week.

There is a special *Ophthalmic Ward*, under Mr Mackmurdo, and a special department for the *Diseases of Women and Children*, under Dr. Waller and Mr. H. Gervis, in both of which departments clinical lectures are given.

Instruction in Dental Surgery by Mr. Patient. Tuesdays, at eleven o'clock.

Medical Tutor: Dr. E. Clapton.

Curator of the Museum: Mr. S. Jones.

PRIZES.

Matriculations: To encourage and reward a good general education in pupils entering the medical and surgical school, there is held early in October a Matriculation Examination, in three divisions, viz.:—1. In Mathematics, Classics, and Ancient History, the President's Prize of twenty guineas; 2. In Physics and Natural History, a College Prize of 20*l.*; 3. In Modern Languages and Modern History, a College Prize of 20*l.* Attendance at these examinations is optional, but all matriculating students are at liberty to compete in any one or more of them. To the three most distinguished pupils for general proficiency in early years, the following prizes are awarded.

First Year's Students: 1. The Treasurer's Prize of thirty guineas; 2. A College Prize of 20*l.*; 3. A College Prize of 10*l.*

Second Year's Students: 1. A College Prize of 30*l.*; 2. A College Prize of 20*l.*; 3. A College Prize of 10*l.* Clinical clerks and dressers are selected according to merit from among the students of this period. Dressers are provided with rooms and commons during their period of attendance in the hospital free of expense.

Third Year's Students: 1. A College Prize of 30*l.*; 2. A College Prize of 20*l.*; 3. A College Prize of 10*l.* Three clinical assistants are selected from among the past clinical clerks; each holds office for three months;

Digitized by Google

a first prize of 10*l.* and a second of 5*l.* are awarded to the two most meritorious of the year.

The Cheselden Medal, founded by George Vaughan, Esq., is awarded in respect of a special examination in surgery and surgical anatomy.

The Smith Prize of 5*l.*, founded by Newman Smith, Esq., for the best essay on "Neuralgia."

The Treasurer's Gold Medal is given annually for general proficiency and good conduct to whichever student has passed through his pupilage in the most meritorious manner.

The House-Surgeons and Resident Accoucheur are chosen according to merit, from gentlemen who have obtained their professional diplomas; the former to hold office for six or twelve months, the latter for three or six; all are provided with rooms and commons.

A Hospital Registrar, at an annual salary of 80*l.* is selected from gentlemen who have been distinguished for merit and who have completed their studies in the school.

Students of each year are classed according to their respective total merits in the examinations, and all of the first class in each year receive certificates of honour.

The conditions under which the prizes are awarded, with all other particulars as to subjects of examination, as also prospectuses, &c., may be obtained from Mr. Whitfield, the medical secretary, resident in the hospital.

A limited number of students can reside with some of the officers close to the hospital.

UNIVERSITY COLLEGE HOSPITAL.

Gower street. W.C.

Phys., Drs. Walshe, Parkes, Garrod, and Jenner.—*Obst. Phys.*, Dr. Murphy.—*Asst.-Phys.*, Dr. Hare.—*Surgs.*, Messrs. Quain and Erichsen.—*Cons. Surg. Eye Infirm.*, Mr. Quain.—*Ophth. Surg.*, Mr. W. Jones.—*Asst.-Surgs.*, Messrs. Marshall and H. Thompson.—*Dent. Surg.*, Mr. G. A. Ibbetson.—*Res. Med. Off.* Dr. Edwyn Andrew.

WINTER TERM.

Anatomy: Mr. Ellis. Daily, from nine to ten. The entire term, 7*l.* 7*s.*; first half term, 4*l.* 4*s.*; second half term, 4*l.* 4*s.*; perpetual, 10*l.* 10*s.*; In the dissecting-room the pupils will be directed in their studies during several hours daily, by Mr. Ellis, and by Mr. W. F. Teevan, Demonstrator.

Anatomy and Physiology: Dr. Sharpey. Daily except Saturday; from ten to eleven. Entire term, 6*l.*; first half term, 3*l.*; second half term, 3*l.*; perpetual, 9*l.*

Chemistry: Dr. Williamson. Daily, except Saturday, from eleven to twelve. Half term, 3*l.*; entire term, 6*l.*; perpetual, 9*l.*

Comparative Anatomy and Zoology: Dr. Grant. Daily, except Saturday, from three to four. *Comparative Anatomy:* From the beginning of October to the end of January. *Zoology:* From the 1st of February to the end of May. *For Comparative Anatomy*, 4*l.*; for *Zoology*, 4*l.*; perpetual, 9*l.* Attendance on Dr. Grant's courses of Comparative Anatomy and Zoology at this College is recognised by the Army Medical Board as

Digitized by Google

equivalent to the course of Natural History required as a qualification for Army Surgeons.

Principles and Practice of Surgery: Mr. Erichsen, Tuesday, Thursday, and Friday, from four to five p.m. For the term, 4*l.* 10*s.*; perpetual, 6*l.*

Principles and Practice of Medicine: Dr. Walshe. Daily, except Saturday, from five to six p.m.. For the entire term, 6*l.* 10*s.*; first half term, 3*l.* 5*s.*; second half term, 3*l.* 5*s.*; perpetual, 8*l.*

SUMMER TERM.

Practical Physiology and Histiology: Dr. G. Harley. Demonstrations, Monday and Wednesday, four to five alternately. Saturday, from ten to eleven. Fee, 3*l.*

Materia Medica and Therapeutics: Dr. A. B. Garrod. Daily, except Mondays, from eight to nine a m. Fee, 4*l.*; perpetual, 6*l.*

Pathological Anatomy: Dr. Jenner. Tuesday, Wednesday, and Friday, from nine to ten a.m. Fee, 3*l.*; perpetual, 4*l.*

Medical Jurisprudence: Dr. Harley. Mondays, Tuesdays, Thursdays, and Fridays, at ten a.m. Fee, 3*l.*

Practical Chemistry: Dr. Williamson, Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays, from eleven to twelve. Fee, 4*l.* This payment includes all cost of materials, apparatus, &c.

Midwifery and Diseases of Women and Children: Dr. Murphy. Daily, except Saturday, from twelve to one. Fee, perpetual, 6*l.*

Palæo-Zoology: Dr. Grant. Daily, except Saturdays, from three to four; commencing on the first Monday of May. Fee, 1*l.*

Ophthalmic Medicine and Surgery: Mr. Wharton Jones. Tuesdays and Thursdays. Fee, 2*l.* N.B. Gentlemen who propose to attend this course are requested to enter their names before the 1st of May, in order that the most convenient hour of lecture may be determined on.

Botany: Dr. Lindley.

Senior and Junior Classes: Fee for the Junior Class, 2*l.*; for the Senior Class, 3*l.*; for any single part, 2*l.*; for perpetual admission, 6*l.* Junior Class, daily, except Saturday, from four to five, until the end of April. Senior Class, daily, except Saturdays, from four to five.

Practical Instruction in Operative Surgery: Mr. John Marshall. Daily, according to the facilities obtainable, from seven to nine a.m., beginning in April or May. Fee, including expenses for matriculated students of class of anatomy, 5*l.* 5*s.*; for others, 7*l.* 7*s.*

WINTER AND SUMMER TERM.

Clinical Instruction: Clinical Instruction is given by the Physicians and Surgeons of the Hospitals in their daily visits, and also by means of Lectures and Examinations upon the cases. Payment included in the Hospital Fee.

Clinical Medicine: Lectures once a fortnight by Dr. Walshe, twice a week by Dr. Parkes, the Professor of Clinical Medicine, once a fortnight by Dr. Garrod, and once a week by Dr. Murphy.

Clinical Surgery: Lectures twice a week by Mr. Quain, and once a fortnight by Mr. Erichsen.

Analytical Chemistry: Dr. Williamson. The instruction in this department is conducted in a spacious Laboratory with complete arrangements for the pursuit of all branches of Chemical Investigation by the Senior

Digitized by Google

Pupils, and for the practical study of Elementary Analysis by those less advanced. The Laboratory is open daily, from nine a.m. to four p.m. from the 1st of October until the end of July, with a short recess at Christmas and Easter. The Professor is aided in the direction of the Students by Assistants. Fee, exclusive of the expense of materials, 25 guineas; for three months, 10 guineas; for a single month, 4 guineas.

Philosophy of the Mind and Logic: Rev. J. Hoppus, Ph. D.

At the end of every Session there will be awarded a "Filliter" Exhibition of 30*l.*, as a prize for proficiency in Pathological Anatomy, and a "Longridge" Exhibition of 40*l.*, as a prize for General Proficiency in Medicine and Surgery.

Atkinson Morley Surgical Scholarships—"For the promotion of the Study of Surgery amongst the Students of University College, London." A Scholarship will be awarded every year. Each Scholarship will be of the annual amount of 45*l.*; it will be tenable for three years; and will be payable on the day of election, and on the 16th of June in each of the two following years. The election will take place on the 16th day of June in every year, or the day preceding when the 16th falls on a Sunday; and will be made by the Council after receiving the Report of Examiners.

According to the directions of the will of Mr. Morley, the founder of these Scholarships, elections for these Scholarships will take place on the sixteenth day of June in each year; and persons to be eligible as candidates must have been of approved good conduct in the College, and Students in the classes of the Faculty of Medicine of the College for not less than three years nor more than five years, such years of studentship to be immediately preceding each such election or appointment, and they may be deemed by the Faculty of Medicine in the College to possess a competent knowledge of Anatomy, Chemistry, Physiology, and Medicine. Among such eligible candidates such one student will be elected in each year, who, upon examination, to be conducted in such manner as the Council of the College shall from time to time direct, shall be found to possess the greatest proficiency in the theory and practice of Surgery.

HOSPITAL PRACTICE.

The Physicians' and Surgeons' visits are made daily at one and two o'clock. Each of the three Physicians visits his patients three times a week.

Obstetric Department.—Dr. Murphy attends three times a week to see patients affected with uterine disease, and children; and on alternate days to receive applications from women who wish to be attended in their confinement.

Ophthalmic Department.—Mr. W. Jones makes his visit three times a week, and occasionally delivers Clinical Lectures on the cases under his charge.

An Assistant-Physician and an Assistant-Surgeon attend four days in the week for the care of out-patients.

The Dental Surgeon attends on Wednesday mornings at ten o'clock.

Bandaging.—A Course of Practical Instruction in the application of Bandages and other Surgical Apparatus is given by Mr. Marshall, Assistant-Surgeon, in the Summer term.

Practical Pharmacy.—Instruction in the Hospital Dispensary for three or six months as required.

Digitized by Google

TERMS OF ADMISSION TO THE PRACTICE AND CLINICAL LECTURES.

To Students who have already entered, in the Medical Faculty of the College, to three classes, of which the courses are of six months' duration, —(two classes, in which the courses are of three months' duration, being considered equivalent to one of six months).—

Also to pupils who produce certificates of having attended a course of lectures of a recognised School of Medicine, and during one year the practice of a recognised Hospital:

For perpetual admission to the Medical and Surgical practice, 26*l.* 5s.

For one year to the Physicians' and Surgeons' practice, 21*l.*; Physicians' or Surgeons' practice separately, 15*l.* 15s.

For six months to the Physicians' and Surgeons' practice, 15*l.* 15s.; Physicians' or Surgeons' practice separately, 10*l.* 10s.

For instruction in Bandaging, 1*l.* 1s.

For six months' Practical Pharmacy, 5*l.* 5s.; three months, 3*l.* 3s.

To Pupils other than as above specified:

For perpetual admission to the Medical and Surgical practice, 36*l.* 15s.

For one year to the Physicians' and Surgeons' practice, 30*l.*; Physicians or Surgeons' practice separately, 22*l.*

For six months to the Physicians' and Surgeons' practice, 22*l.*; Physicians' or Surgeons' practice, separately, 15*l.*

For six months' Ophthalmic practice, 5*l.* 5s.

For twelve months' Dental Surgery practice, 5*l.* 5s.

For instruction in bandaging, 1*l.* 1s.

For six months' Practical Pharmacy, 5*l.* 5s.; three months, 3*l.* 3s.

The above fees to be paid at the Office of the College.

(*Note.*)—These fees are devoted to the maintenance of the Hospital, the Physicians and Surgeons having relinquished their proportion of them for its benefit.

Every pupil pays, in addition to the fees, 10s. Apothecary's, and 5s. Office fees.

Physicians' Assistants, House-Surgeons, Midwifery Assistants, Physicians' Clerks, Surgeons' Dressers, and Ophthalmic Surgeons' Assistants are selected from Pupils being Students of the College and of unexceptionable moral character, without additional payments. In case of the qualifications of the candidates for the respective offices being equal, preference will be given to those who have obtained the highest honours in the medical classes of the College. The Physicians' Assistants, Obstetric Assistant, and House-Surgeons reside in the Hospital, paying for their board.

CHARLES C. ATKINSON, *Secretary to the Council.*
A. W. WILLIAMSON, F.R.S., *Dean of the Faculty.*

August, 1859.

WESTMINSTER HOSPITAL,

Broad Sanctuary. S.W.

Instituted, A.D. 1719: Incorportated, A.D. 1836; contains 175 beds; and affords relief to about 2,000 In-patients, and 20,000 Out-patients annually.

Phys., Drs. Basham, Fincham, and Radcliffe.—*Asst.-Phys.*, Drs. Marcet and Russell Reynolds.—*Surgs.*, Messrs. Holt, Brooke, and Holthouse.—*Asst.-Surgs.*, Messrs. Hillman and Power.—*Surg.-Dent.*, Mr. Clennon.—*Apoth.*, Mr. J. U. Allen.—*Sec.*, Mr. F. J. Wilson.

Digitized by Google

Hospital Practice.—The in-patients are visited daily. at one p.m., by the Physicians and Surgeons; and the out-patients, at half-past twelve, by the Assistant-Physicians and Assistant-Surgeons. Surgical operations are performed on Tuesdays, at two o'clock. Post-mortem examinations and demonstrations of Pathological Anatomy are conducted by Mr. Power, under the superintendence of the physicians and surgeons, at half-past two o'clock. Clinical Assistants, Physicians' Clerks, and Surgeons' Dressers are selected from the most qualified students, without additional fee.

Clinical Lectures and Demonstrations of Morbid Anatomy: Lectures on clinical medicine and surgery, with demonstrations of morbid anatomy, will be delivered during the winter and summer sessions by the Physicians and Surgeons.

Practical Midwifery: When properly qualified, students will be amply supplied with cases from the Westminster maternity charity (*Phys.*, Dr. F. Bird; *Asst.-Phys.*, Dr. W. Ogle), established for the delivery of lying-in-women at their own homes.

Ophthalmic Surgery: In addition to the Ophthalmic practice of the hospital, the students are permitted to attend the practice of the Royal Westminster Ophthalmic Hospital, without additional fee.

Dental Surgery: Practical instruction in dental operations is given three times a week, and a special course of lectures on dental surgery will be delivered during the months of January, February, and March, by Mr. Clendon, on Wednesdays, at ten a.m.

Pharmacy: Practical instruction on this subject, with opportunities for dispensing, may be obtained in the Dispensary of the Hospital.

Museums and Reading Room: The museum of physiological and pathological anatomy, the museum of materia medica, the library and reading-room, are open daily.

WINTER SESSION.

Chemistry: Dr. Marcet. Tuesday at one p.m., Wednesday and Friday at two p.m. One course, five guineas; perpetual, seven guineas. These lectures comprise both Inorganic and Organic Chemistry, including their relation both to physiology and the practice of medicine.

Descriptive and Surgical Anatomy: Mr. Holthouse. Daily except Saturday at nine a.m. One course, five guineas; perpetual, seven guineas. These lectures consist of a complete course of anatomical demonstrations, in which the student will be instructed successively in the Anatomy of the Bones, Ligaments, Muscles, Vessels, Nerves, and the Viscera of the Head, Chest, and Abdomen.

Practical Anatomy: Demonstrators, Mr. Christopher Heath and Mr. John T. Gray. The dissecting-Room is light and well-ventilated, and every convenience is provided for the use of the student, and to facilitate his studies. The students will be assisted in their dissections daily, from ten till two, by the demonstrators. Admission fee for those gentlemen who are not pupils of the school—one course, two guineas; two courses, three guineas.

Physiology and Physiological Anatomy: Mr. Power. Monday, Wednesday, and Friday, at three. One course, five guineas; perpetual, seven guineas. The course of lectures comprehends a systematic exposition of the Functions of the Living Body, and a full description of the organs by which they are performed.

Principles and Practice of Surgery: Messrs. Holt and Brooke. Monday,

Digitized by Google

Wednesday, and Friday, at two p.m. One course, five guineas; perpetual, seven guineas. These lectures comprehend General Surgery, the Surgery of Tissues, the Surgery of Regions, and Operative Surgery.

Principles and Practice of Medicine: Dr. Basham. Monday, Tuesday, Thursday, and Friday, at four p.m. One course, five guineas; perpetual, seven guineas. This course, which comprises General and Special Pathology, will be illustrated by recent specimens of diseased structure, drawings, preparations, and models; the characteristics of special diseases will be exemplified by reference to cases in the wards of the hospital.

SUMMER SESSION.

Botany: Mr. Syme. Monday, Wednesday, and Friday, at half-past eleven a.m. One course, three guineas; perpetual, five guineas. This course will be illustrated by fresh and dried specimens of plants; a large collection of diagrams; microscopical demonstrations; and occasional excursions into the country.

Comparative Anatomy and Zoology: Mr. Power. Tuesday, Thursday, and Saturday, at half-past eleven. One course, two guineas; two courses, three guineas. This course is such as is required by the University of London, for the fellowship examination of the Royal College of Surgeons, and by the Army and Navy Boards.

Forensic Medicine: Drs. Fincham and Reynolds. Monday, Wednesday, and Friday, at three p.m. One course, three guineas; perpetual, four guineas. In this course is taught the application of the several branches of medical knowledge to the elucidation of legal questions.

Materia Medica and Therapeutics: Dr. Radcliffe. Monday, Wednesday, and Friday, at two p.m. One course, three guineas; perpetual, five guineas. In this course the principles of Diet, Regimen, and Hygiene, as well as the ordinary topics of Materia Medica and Therapeutics, are fully considered. The lectures are illustrated by a complete museum, and by diagrams and drawings.

Natural Philosophy: Mr. Brooke. Monday, at four p.m. One course, one guinea. This course of lectures is intended to make the student acquainted with the Elements of Physics, and their application to Medical Science.

Midwifery and Diseases of Women and Children: Dr. F. Bird. Tuesday, Thursday, and Friday, at four p.m. One course, three guineas; perpetual, five guineas.

Practical Chemistry: Dr. Marcet. Tuesday and Thursday, at three. One course, two guineas. In this course an opportunity is given to the student for personal manipulation in the ordinary processes of Chemistry, and for acquiring a knowledge of the various re-agents for the detections of poisons.

Examinations: Fee, three guineas. In order to facilitate the studies of gentlemen about to present themselves for examination at the University of London, the College of Surgeons, and Apothecaries' Hall, a Class for Examinations will be held by Mr. Power during the winter and summer sessions, on Mondays, Wednesdays, and Fridays, from three to four o'clock.

PRIZES.

Prizes for General Proficiency: In order to encourage a general attention on the part of the student to all the branches of medical education successively, three medals, accompanied by certificates of general proficiency,

Digitized by Google

will be annually awarded; the subjects for examination being those attention to which is required by the College of Surgeons and the Society of Apothecaries during the first, second, and third years, respectively, viz.: 1. One open to competition by students of the first year; the subjects for examination being Anatomy, Physiology, Chemistry, Botany, and Materia Medica. 2. One for students of the second year; the subjects being Anatomy, Physiology, Medicine, Surgery, Forensic Medicine, and Midwifery. 3. One for students of the third year; the subjects being Surgery, Clinical Medicine, and Clinical Surgery. The examinations for these prizes will be rendered as practical as possible, and those on Clinical Medicine and Clinical Surgery will include the diagnosis, prognosis, and treatment of disease in actual patients selected for the purpose. The prizes will not be awarded should the result of the respective examinations fall short of a standard satisfactory to the Examiners.

Prize for Clinical Midwifery: A prize for proficiency in Clinical Midwifery will be awarded.

Prize in Dental Surgery: There will also be a prize awarded for Dental Surgery.

Fees: The entire period of hospital practice (medical and surgical) required by the College of Surgeons and the Society of Apothecaries may be attended on payment of a composition fee of twenty-six guineas, which may be paid at once, or by instalments of one-half on entrance, and the remainder at the commencement of the second year.

The Medical and Surgical practice may, if required, be attended separately for longer or shorter periods,—namely, Medical Practice, for six months, ten guineas; twelve months, twelve guineas; eighteen months, fifteen guineas; and perpetual, twenty guineas. Surgical Practice, for three months, six guineas; six months, ten guineas; twelve months, fifteen guineas; and perpetual, twenty guineas.

The whole of the lectures required by the College of Surgeons and the Society of Apothecaries may be attended on payment of a fee of forty-four guineas, which may be paid at once, or by instalments of one-half at the commencement of the first winter session, and the remainder at the commencement of the second winter session.

Any special course of lectures may be attended separately, on payment of the specified fee.

*** The entire course of study (hospital practice and lectures) required by the College of Surgeons and the Society of Apothecaries may be attended for seventy guineas.

Any information respecting the hospital and medical school may be obtained on application to

F. J. WILSON, Secretary to the Hospital.

*ROYAL COLLEGE OF CHEMISTRY,

315, *Oxford-street.* W.

The Royal College of Chemistry has become the property of the Government, and its spacious and well-furnished Laboratories are now used for the instruction of the pupils of the Metropolitan School of Science applied to Mining and the Arts. The instruction in this Institution is under the superintendence of Professor A. W. Hofmann, Ph.D., and consists of—

* No return from the Secretary for the present year.

Digitized by Google

I. A course of Practical Analysis in the Laboratory.

II. A series of Lectures on General Chemistry.

The Laboratory Instruction, which is divided into a *qualitative* and *quantitative* course, is necessarily adapted to the previous knowledge of the student, such as he may have acquired by attending the chemical lectures delivered at the Institution. The course commences with experimental exercises, calculated to make the pupil *practically* acquainted with the *general* properties of the simple substances. The next subjects of his study are the *analytical* properties of the elements, and of their most important compounds. The knowledge thus acquired is subsequently put into practice in the performance of a series of analyses, so arranged as to lead the student, step by step, from the simplest to the most complicated cases, both of qualitative and quantitative analysis. Particular attention is paid to the use of the blow-pipe, and the various methods of commercial testing, alkalimetry, chlorimetry, &c.

The fundamental studies in Practical Chemistry are the same for all pupils, however different the future pursuit may be to which the knowledge obtained will be applied. It is only after the most important methods of distinguishing, separating, and estimating substances have been mastered, and after sufficient practice and skill in experiment have been acquired, that the course of each student diverges into some special line. This will of necessity vary with his abilities and his ultimate objects.

Each laboratory student works independent; there are no classes. All operations are superintended by the Professor and his assistants. A table with drawers, cupboard, and shelves, is appropriated to every pupil. The Institution supplies gas, fuel, and re-agents. Larger and more expensive instruments, such as air-pumps, thermometers, barometers, condensers, large evaporating dishes, &c., may be had on loan from the Laboratory. The student has to provide himself only with the apparatus specified in the Laboratory Regulations.

The course of lectures is delivered in the newly-erected Theatre at the College in Oxford-street. It consists of 90 Lectures, and treats of General Chemistry, with especial reference to its application in the arts and manufactures. This course commences on the first Monday in October.

SCHOOL OF PHARMACY,

17, *Bloomsbury Square*, W.C.

CONNECTED WITH THE PHARMACEUTICAL SOCIETY.

The Lectures on *Chemistry* and *Practical Pharmacy* by Dr. Redwood are delivered at half-past eight on the Tuesday, Wednesday, and Friday mornings, from October to July.

Dr. Redwood will also give a practical course of instruction in *Pharmacy*, which will continue throughout the year, with the exception of August and September.

Professor Bentley will deliver Lectures on Materia Medica and Botany, at the house of the Society, every Monday and Saturday morning from October, and in the gardens of the Royal Botanic Society, Regent's Park, every Monday and Saturday morning during May, June, and July.

Further particulars, with terms, may be obtained on application to the Secretary, Elias Bremridge, at the house of the Society.

LONDON MEDICAL AND SCIENTIFIC SOCIETIES.

*ABERNETHIAN SOCIETY, ST. BARTHOLOMEW'S HOSPITAL. E.C.—Established 1796. *Pres.*, Messrs. Callender and T. Smith; *Vice-Pres.*, Messrs. Batten, R. Southey, F. Lloyd, and Ross; *Treas.*, Dr. Baly; *Hon. Sec.*, Mr. Herbert Thompson.

The meetings of the Society will be held every Thursday evening, in the Library, chair to be taken at eight o'clock.

ARMY MEDICAL AND SURGICAL SOCIETY, MEDICAL BOARD, WHITEHALL YARD. S.W.—Established 1856. *Pres.*, Sir Andrew Smith, K.C.B., M.D.; *Vice-Pres.*, Sir J. Hall, K.C.B., M.D.; *Insp-Gen.*, Dr. Dumbreek, C.B., D.I.G, Mr. Taylor, C.B., D.I.G., and Dr. Maclachlan, D.I.G.; *Treas.*, Mr. Blenkins; *Hon. Secs.*, Messrs. Wyatt and Fitzgerald; *Counc.*, Dr. Gibson, C.B., Dr. Logan, Dr. Monro, Dr. Bostock, Dr. Balfour, Mr. Matthew, Dr. F. Reid, Mr. Thornton, Dr. Jephson, Mr. Fogo, Mr. Baker, Mr. Mouat, C.B., V.C., D.I.G.; and Dr. Carson.

This Society was instituted for the cultivation of professional subjects, and the formation of a closer intercourse amongst the Medical officers of the Army generally. It consists of Ordinary, Extraordinary, Honorary, and Corresponding Members, who are elected by ballot. Annual Subscription, 10s. The Society publishes a Journal of its transactions half-yearly, and the members are entitled to a copy of the same. The ordinary meetings are held on the first Saturday of each month at half-past seven in the evening, with the exception of the months of July, August, and September.

ASSOCIATION OF MEDICAL OFFICERS OF ASYLUMS AND HOSPITALS FOR THE INSANE.—Established 1841. *Pres.*, Sir C. Hastings (Worcester); *Pres. Elect.*, Dr. Bucknill (Devon Co. Asyl.); *Ex-Pres.*, Dr. J. Conolly (Hanwell); *Treas.*, Mr. W. Ley (Co. Asyl., Oxon); *Audit.*, Dr. H. Tuke (Chiswick), and Dr. Sherlock (Co. Asyl. Worcester); *Gen. Hon. Sec.*, Dr. L. Robertson (Co. Asyl., Hayward's Heath, Sussex); *Hon. Sec. for Irel.*, Dr. Stewart (Asyl., Belfast); *Hon. Sec. for Scot.*, Dr. Wingett (Roy. Asyl., Dundee); *Edit. of Journ.*, Dr. Bucknill (Co. Asyl., Devon.)

* No return from the Secretary for the present year.

Digitized by Google

The objects of the Association are the improvement of asylums and hospitals for the insane; the acquisition and diffusion of a more extended knowledge of insanity and its treatment; and the promotion of a free communication on the subjects between the Members. It consists of Medical Officers of Hospitals and Asylums for the Insane, public and private, and of legally-qualified Medical practitioners, otherwise engaged in the treatment of insanity.

The election of members takes place by ballot at the Annual Meetings, a majority of two thirds of those present being required for the election of each candidate. Each Member pays an Annual Subscription of one guinea.

The Annual Meeting is held in July, either in London, or, if so agreed at the preceding meeting, or after circular to each Member, in some provincial town or city where, or in the neighbourhood of which, there is a Public Asylum, or where some other object is likely to attract the Members.

The Annual Meeting for 1860 will be held in London, under the presidency of Dr. Bucknill.

The Association publishes a quarterly journal, "The Journal of Mental Science," a copy of which Members are entitled to receive gratuitously.

---

*British Meteorological Society, 5, Cavendish-square. W.—[No return since 1858.]

Charing Cross Hospital Medical Society. W.C. Established 1859. *Hon. Pres.*, Dr. Chowne; *Pres.*, Mr. J. R. Shorto; *Vice-Pres.*, Mr. Gordon Smith; *Hon. Sec. and Treas.*, Mr. F. W. Cooper; *Counc.* Messrs. Brown, Aggett, Belcher, and Dobson.

This Society holds its meetings every alternate Thursday evening at 8.30, for the reading and discussion of papers on Medical and scientific subjects. Students of any recognised School of Medicine are admitted as Members.

Chemical Society, Burlington House, Piccadilly. W.—*Pres.*, Prof. B. C. Brodie, F.R.S.; *Vice-Pres.*, Mr. W. T. Brande, Dr. C. G. B. Daubeny, Mr. T. Graham, Col. P. Yorke, Dr. W. A. Miller, Dr. H. B. Jones, and Dr. Lyon Playfair; *Treas.*, Dr. W. De La Rue; *Secs.*, Drs. T. Redwood, and W. Odling; *Ed. Soc's. Journ.*, Mr. H. Watts; *Coll.*, Mr. T. West.

The Meetings of the Society are held on the first and third Thursdays of every month from November to June inclusive, excepting that in January there is only one Meeting on the third Thursday of the month. The Chair is taken at eight o'clock precisely. An Annual General Meeting is held on the 30th day March (or if that day fall upon Sunday, on the 31st), at eight o'clock, p.m., for the Election of Officers for the year ensuing, and for receiving the Report of the Council on the state of the Society.

Indies and North America, Dr. G. Milroy. *Other Members of Council*, Mr. C. L. Bradley, Dr. A. Bryson, Dr. W. D. Chowne, Dr. R. Cross, Dr. H. Greenhow, Col. Hough, Mr. T. Hunt, Mr. C. F. J. Lord, Mr. J. F. Marson, Dr. C. Murchison, Dr. E. Murphy, Dr. W. Odling, Dr. B. W. Richardson, Dr. E. C. Seaton, Mr. Spencer Wells, Dr. Nichol, Dr. Aldis, and Prof. Symonds.

The Ordinary Meetings of the Society are held at the rooms of the Royal Medical Benevolent College, 37, Soho-square (entrance, Carlisle-street) on the first Monday in each month except August, September, and October. The Chair is taken at eight p.m. precisely. Annual Subscription of Resident Members, One Guinea. Non-Resident Members, One Guinea, as subscription in full. The rules and regulations of the Society, together with its objects and any information relating to the Society, may be obtained of the *Hon. Sec.*, Dr. M'William, 14, Trinity-square, Tower-hill.

---

*ETHNOLOGICAL SOCIETY, 23, NEWMAN-STREET, OXFORD-STREET. W. —Founded in 1843. *Pres.*, Sir Jas. Clark, M.D.; *Vice-Pres.*, Archbishop of Dublin, Sir B. C. Brodie, Bart., the Earl of Ellesmere, and Mr. B. Botfield, M.P.; *Treas.*, Mr. F. Hindmarsh; *Counc.*, Mr. W. F. Ainsworth, Rev. W. Arthur, Dr. L. J. Beale, Dr. Beddoe, Mr. J. S. Coleman, Dr. J. Conolly, Mr. T. F. Dillon Croker, Mr. R. Dunn, Mr R. N. Fowler, Dr. T. Hodgkin, Mr. R. Ingham, M.P., Dr. D. King, Mr. M. Lewin, Dr. J. Mayer, Lieut.-Gen. Sir C. Pasley, K.C.B., Prof. Pearson, Mr. C. R. Des Ruffieres, Rev. E. J. Selwyn, Mr. J. J. Stainton, Mr. R. Tait, Dr. T. H. Tuke, and Dr. S. Ward; *Trustees*, Hon. M. Elphinstone, Dr. T. Hodgkin, and Mr. F. Hindmarsh.

The Ethnological Society was founded in 1843, to promote the study of Ethnology. The object of this science is to ascertain the distinguishing characteristics, physical and moral, of the varieties of mankind which now inhabit and have formerly inhabited the earth, and to ascertain the causes of such characteristics, in order to determine the relationships of the several varieties of man to each other.

The Society has formed a library, which is continually being enriched by the addition of books for the student, and for those who wish to verify the statements of writers on Ethnology; and also by philological and other special works, for those engaged in advancing the science.

The Society meets during the winter season, from November to June inclusive, for the reading of papers and other communications, and for the discussion of subjects connected with Ethnology.

The Society has issued four volumes of its journal, and the fifth is in the press.

Fellows are admitted by ballot; there is no entrance fee, and the annual subscription is 2*l*. Fellows who reside beyond twenty miles from London may claim to be made non-resident Fellows at an annual subscription, during such residence, of one guinea.

GEOLOGICAL SOCIETY OF LONDON, SOMERSET HOUSE, W.C.—Instituted 1807; Incorporated 1826. *Pres.*, Prof. John Phillips; *Vice.-Pres.*, Dr. J. J. Bigsby, Dr. H. Falconer, Sir C. Lyel, and Maj.-Gen. Portlock; *Secs.*, Prof. T. H. Huxley and Mr. W. W. Smyth; *For. Sec.*, Mr. W. J. Hamilton; *Treas.*, Mr. J. Prestwich; *Counc.* Dr. J. J. Bigsby, Mr. W. J. Broderip, Mr. T. Davidson, Dr. H. Falconer, Mr. R. A. Godwin Austen, Mr. W. J. Hamilton, Mr. L. Horner, Prof. T. H. Huxley, Sir C. Lyel, Prof. W. H. Miller, Mr. J. C. Moore, Prof. John Morris, Sir R. I. Murchison, Mr. R. W. Mylne, Prof. J. Phillips, Maj.-Gen. Portlock, Mr. J. Prestwich, Prof. A. C. Ramsay, Mr. G. P. Scrope, Mr. W. W. Smyth, Mr. A. Taylor, Rev. Prof. Whewell, and Mr. S. P. Woodward.

The Library and Museum are open every day, from eleven o'clock till five.

GOVERNMENT SCHOOL OF MINES.—DEPARTMENT OF SCIENCE AND ART, JERMYN STREET. S.W.—Established 1851. *Direct.* Sir R. J. Murchison; *Regist.*, Mr. T. Reeks.

The chief object and distinctive character of this Institution (to which everything else is made subsidiary), is to give a practical direction to the course of scientific study. Although the education provided in it will not of itself qualify the student to undertake the direction of mining and other technical operations, yet the knowledge which he may acquire of the principles of the sciences on which the arts are respectively based will, in combination with future training, render him in the highest degree competent, not only to engage in any special branch of industry, but to promote its further development. The mode of instruction is by lectures, by written and oral examinations, by practical teaching in the laboratories and drawing office, and also by field excursions, under certain conditions.

The following Lectures will be delivered during the session of 1859-60:—thirty-six on Inorganic and twenty-four on Organic Chemistry, by Dr. Hofmann; forty-eight on Physics, by Mr. G. G. Stokes; fifty on Metallurgy, by Dr. J. Percy; sixty on Mining and forty on Mineralogy, by Mr. W. W. Smyth; thirty on Geology, by Mr. A. C. Ramsay; fifty on Natural History, by Mr. T. H. Huxley; and thirty-six on Applied Mechanics, by Mr. R. Willis.

Entrance fee to Matriculated students is 30*l.*, or two annual payments of 20*l.* each, for admission to all the courses of lectures. The charge for instruction in the laboratories (not included in the above) is 10*l.* for three months.

---

23, 30; Feb. 6, 13, 20, 27; March 5 (General Meeting). On Thursday, March 8 (the Annual Meeting and Oration), 12, 19, 26; April 2, 9, 16, 23, 30; May 7, 14, 21, 28. The Entrance Fee is One Guinea, and the Annual Subscription One Guinea. The Society offers annually a Gold Medal, called the Fothergillian Medal, value Twenty Guineas, for the best dissertation on a subject proposed: the learned of all countries are invited to compete.

Subjects for the Fothergillian Medal. *For March*, 1860, "The Morbid Anatomy of the Human Lung." *For March*, 1861, "The Surgical Treatment of Aneurism."

MEDICAL SOCIETY, ST. THOMAS'S HOSPITAL, BOROUGH. S.E.—This Society is conducted entirely by the Students. *Pres. and Treas.*, Dr. Bristowe; *Vice-Pres.*, Dr. Clapton, Messrs. Gervis, Allingham, and W. Clapton; *Hon. Sec.*, Mr. T. Moreton.

Meetings are held every alternate Thursday, at seven p.m.

METROPOLITAN ASSOCIATION OF MEDICAL OFFICERS OF HEALTH.—*Pres.*, Mr. J. Simon; *Vice-Pres.*, Dr. Barclay and Mr. Burge; *Treas.*, Dr. Aldis; *Hon. Sec.*, Dr. Hillier, 2 Upper Gower-street. *Committee:* Dr. E. Ballard, Dr. G. Buchanan, Dr. J. Challice, Dr. R. Druitt, Dr. S. Gibbon, Dr. E. Lankester, Dr. J. Liddle, and Dr. R. D. Thomson.

This Association was formed in 1856, by the Medical Officers of Health appointed under the Metropolis Local Management Act, for the purposes of mutual assistance and the advancement of Sanitary Science. The Association consists of Ordinary and Honorary Members. All the Medical Officers of Health of the Metropolis are eligible to become Ordinary Members. The Entrance Fee is One Guinea. Honorary Members must be recommended by not less than six members; the election shall be by ballot, and no one shall be declared elected unless four-fifths of the votes recorded be in his favour. The Officers and standing Committees are elected annually. The ordinary meetings of the Association are held at the Local Management Act Office, Whitehall, on the 3rd Wednesday of October, January, April, and July, respectively, at four o'clock. Monthly evening Meetings will also be held as follows:—February 13th, March 12th, May 14th, and June 11th, at half-past seven. Extraordinary Meetings may be called at any other time by the officers, or on the requisition of any three members.

METROPOLITAN COUNTIES BRANCH OF THE BRITISH MEDICAL ASSOCIATION.—*Pres.*, Dr. E. W. Murphy; *Pres.-Elect.*, Mr. John Birkett; *Vice-Pres. and Treas.*, Dr. E. Lankester; *Hon. Secs.*, Dr. A. P. Stewart and Dr. A. Henry; *Council* (*Metropolitan Division*), Mr. S. S. Alford, Dr. W. Camps, Dr. S. W. J. Merriman, Mr. J. Propert, Mr. C. H. Rogers Harrison, Dr. E. Smith, Mr. Spencer Smith, Mr. J. Toynbee (*Extra Metropolitan Division*), Mr. C. T. Carter (Hadley), Mr. E. Ray (Dulwich), Dr. J. Seaton (Sudbury), Dr. G. Webster (Dulwich).

MICROSCOPICAL SOCIETY OF LONDON, 21, REGENT-STREET. S.W.—*Pres.*, Dr. Lankester; *Treas.*, Mr. N. B. Ward; *Hon.-Secs.*, Messrs. J. Quekett and G. E. Blenkins; *Asst.-Sec.*, Mr. J. Williams; *Counc.*, Mr. A. Brady, Mr. E. G. Lobb, Mr. R. J. Farrants, Mr. J. H. Roberts, Mr. H. Perigal, jun., Mr. F. S. C. Roper, Dr. L. Beale, Mr. J. Glaisher, Mr. J. Hogg, Rev. T. Willshire, Mr. R. Warrington, and Mr. T. W. Burr.

The Meetings will be held monthly, except during the months of July, August, and September, when there will be a recess. Business will commence at eight o'clock precisely, each evening. The annual meeting of the Election of Officers will be held in February, at seven o'clock in the evening.

NORTH LONDON MEDICAL SOCIETY, BEDFORD SCHOOL ROOM, CHARRINGTON-STREET, OAKLEY-SQUARE. N.W.—*Pres.*, Dr. James Copland; *Vice-Pres.*, Dr. J. Reynolds, Mr. W. A. Cattlin, Dr. R. Greenhalgh, and Mr. E. Cousins; *Treas.*, Mr. W. Adams; *Hon. Sec.*, Mr. Robt. C. Croft; *Counc.*, Mr. S. Alford, Dr. H. C. Andrews, Mr. C. Claremont, Mr. J. Hainworth, Mr. J. Havers, Mr. T. C. Jackson, Mr. W. E. Jefferys, Mr. C. F. Lord, Mr. J. Part, and Mr. H. Pointer.

The Meetings are held on the second Wednesday of every month from October to July, at eight o'clock.

OBSTETRICAL SOCIETY OF LONDON, 53, BERNERS-STREET. W.—Instituted 1858.—*Hon.-Pres.*, Sir Chas. Locock, Bart., M.D.; *Pres.*, Dr. Rigby; *Vice-Pres.*, Dr. Barnes, Mr. Berry (Birmingham), Dr. Cape, Dr. Granville, Dr. Murphy, Dr. Oldham, Dr. Radford (Manchester), Dr. Tyler Smith, and Dr. Waller; *Mems. of Counc.*, Drs. Elkington (Birmingham), M. Babington, F. Bird, H. Davis, Druitt, Gibb, Merriman, Mackenzie, Priestley, Routh, West (Alford), Whitehead (Manchester), and Messrs. Allen (York), Batty (Liverpool), Brown, Bryant, Butler (Woolwich), Cholmondeley, Musgrave, and Spencer Wells; *Treas.*, Dr. Tyler Smith; *Hon. Secs.*, Drs. Grailey Hewitt, and T. H. Tanner.

The first Meeting of this Society was held in January, 1859. The Meetings of the Society are held on the first Wednesday in each month (August and September excepted), at eight p.m. At the ordinary Meetings, short papers and cases are read, and Pathological specimens exhibited during the first half-hour; after which, papers of greater length are read and discussed. The session begins in January, and ends in December. The subscription for Town and Country Fellows alike is One Guinea. The Society proposes to publish Transactions at the end of each Session. Candidates are proposed at one Meeting, and ballotted for at the next.

ODONTOLOGICAL SOCIETY OF LONDON, 32, SOHO-SQUARE. W.—Instituted 1856. *Pres.*, Mr. Arnold Rogers; *Vice-Pres.*, Messrs. W. A. Harrison, C. Bromley, R. Nasmyth, J. Tomes, J. Martin, and W.

Bigg; *Treas.*, Mr. E. Saunders; *Counc.*, Messrs. H. J. Barrett, A. Canton, G. A. Ibbotson, J. Martin, T. G. Palmer, J. Parkinson, J. H. Parkinson, T. Sheffield, and T. H. Shelley, M.B.; *Hon. Secs.*, Messrs. S. Cartwright, jun., J. Tomes, and T. A. Rogers.

Meetings are held on the first Monday in each month from November to June, at eight p.m. The Annual Meeting in January.

PATHOLOGICAL SOCIETY OF LONDON, 53. BERNERS STREET. W.—*Pres.*, Mr. William Fergusson; *Vice-Pres.*, Dr. Thomas Watson, Dr. W. J. Little, Dr. James R. Bennett, Dr. C. J. B. Williams, Mr. James Moncrieff Arnott, Mr. John Simon, Mr. George Busk, and Mr. Alexander Shaw; *Treas.*, Dr. Richard Quain; *Counc.*, Dr. William Camps, Dr. Theophilus Thompson, Dr. Samuel Wilks, Dr. T. B. Peacock, Dr. A. Whyte Barclay, Dr. Lionel S. Beale, Dr. William O. Markham, Dr. Charles Murchison, Dr. R. Hunter Semple, Dr. Joseph Hullett Browne, Dr. Edward C. Seaton, Mr. Jonathan Hutchinson, Mr. John Wood, Mr. T. B. Curling, Mr. George Critchett, Mr. John James Pernell, Mr. J. Charles Langmore, Mr. Thomas Tatum, Mr. Thomas Ballard, and Mr. Mitchell Henry; *Hon. Secs.*, Dr. John W. Ogle and Mr. Henry Thompson.

The Society meets the first and third Tuesday in every month, at eight o'clock p.m., precisely.

PHARMACEUTICAL SOCIETY OF GREAT BRITAIN, 17, BLOOMSBURY-SQUARE. W.C.—Founded in 1841. Incorporated by Royal Charter, 1843; Enlarged by Act of Parliament, 15 and 16 Vic., cap. 56, 1852. It consists of the Pharmaceutical Chemists of the Kingdom, associated for the purpose of raising the standard of education amongst themselves, and thereby securing the public against unqualified persons. *Pres.*, Mr. T. N. R. Morson; *Vice Pres.*, Mr. Peter Squire; *Treas.*, Mr. D. B. Hanbury; *Sec.*, Mr. Elias Bremridge; *Prof. of Materia Medica and Botany*, Mr. R. Bentley; *Prof. of Chem. and Pharm.*, Dr. Redwood.

Meetings are held upon the first Wednesday in each month, at half-past eight o'clock in the evening, except May, July, August, and September. Anniversary Meeting on the third Wednesday in May. Fees, 1*l.* 1s. members; 10s. 6d. associates.

PUPILS' PHYSICAL SOCIETY, GUY'S HOSPITAL, BOROUGH. S.E.—*Hon. Pres.*, Mr. E. Cock; *Pres.*, Messrs. Atwell, Candy, Evans, Galton, Haynes, Kitchener, Martin, and May; *Hon. Secs*, Dr. G. Whitley and Mr. T. Bryant.

The Society will meet, during 1860, on Jan. 14, 28; Feb. 11, 25; and March 10, 24.

ROYAL ASTRONOMICAL SOCIETY, SOMERSET-HOUSE, W.C.—*Pres.*, Rev. R. Main; *Vice.-Pres.*, Mr. G. B. Airy, Mr J. R. Hind, Admiral Smyth, and Dr. J. Lee; *Treas.*, Mr. S. C. Whitbread; *Secs.*, Mr. R.

Digitized by Google

C. Carrington and Mr. W. De La Rue; *For. Sec.*, Admiral R. H. Manners; *Counc.*, Mr. A. Cayley, Capt. A. R. Clarke, Mr. A. De Morgan, Rev. G. Fisher, Mr. C. Frodsham, Mr. J. Glashier, Mr. R. Grant, Mr. R. Hodgson, Mr. M. J. Johnson, Mr. W. Lassell, Rev. B. Powell and Rev. C. Pritchard; *Asst.-Sec.*, Mr. J. Williams.

The Meetings of this Society are held on the second Friday evening of each month (August, September, and October excepted), at eight o'clock precisely. The Annual General Meeting will be held on Feb. 10, to commence at three o'clock in the afternoon.

ROYAL INSTITUTION OF GREAT BRITAIN, ALBEMARLE-STREET, PICCADILLY. W.—Established under a Charter granted by his Majesty King George the Third, in the year 1800. Enlarged and confirmed by an Act of Parliament in the year 1810. *Pres.*, Duke of Northumberland; *Treas.*, Mr. W. Pole; *Sec.* Rev. J. Barlow; *Hon. Prof. of Chem.*, Mr. W. T. Brande; *Fuller Prof. of Chem. and Dir. of Labor.*, Dr. M Faraday; *Fuller. Prof. of Physiol*, Mr. R. Owen; *Prof. of Nat. and Exper. Philos.*, Dr. J. Tyndall; *Hon. Lib.*, Mr. W. T. Brande and Mr. G. S. Smith; *Asst. in Labor.*, Mr. C. Anderson.

The chief objects of this institution are—

1. To promote scientific and literary research.
2. To teach the principles of inductive and experimental science.
3. To exhibit the application of these principles to the various arts of life; and
4. To afford opportunities for study.

The Royal Institution comprises—

I. Public lectures intended to supply that which books or private instruction can rarely afford.

II. A laboratory for the promotion and advancement of chemical and electrical science, by experiments and original investigations.

III. A library of nearly 30,000 volumes, including the best editions of the Greek and Latin Classics and the Fathers of the Church,—English county histories,—works of science and literature, of art and antiquarian research,—the transactions of the principal British and Foreign academies and scientific institutions, as well as an extensive collection of historical and miscellaneous tracts.

IV. A reading room for study.

V. A newspaper room, in which the principal journals, magazines, and reviews, in the English, French, and German languages, are regularly provided. A circulating library is subscribed to, in order to afford the members an opportunity of seeing the newest books as soon as published.

VI. A museum, containing mineral specimens, many of which are named, and also other collections. The chief object of this museum is to furnish illustrations for the lectures and the Friday evening discourses.

VII. Weekly meetings of the members of the institution.—These are held on every Friday evening during the session, and the members have the privilege of introducing two friends to them by tickets.

Terms of Admission: Ten Guineas (Five Guineas as the first annual payment, and Five Guineas as a contribution to the Library Fund); or Sixty Guineas in lieu of all payments. Members are admitted to ALL lectures delivered in the institution, to the libraries, to the museum, and to

Digitized by Google

the weekly evening meetings, and have the right of voting at the monthly meetings; they may also introduce by tickets two friends to each of the weekly evening meetings, and their families have the privilege of attending the lectures at reduced charge. For every additional subscription of Twenty Guineas at one time, or Three Guineas per annum, each member is entitled to introduce, personally, or by a written order, one visitor to each of the public lectures.

Annual Subscribers to the Institution pay Five Guineas, and One Guinea to the literary fund on admission. They are admitted to all the public lectures delivered in the theatre of the institution, to the libraries, and to the newspaper rooms, but have not the privilege of attending the evening meetings.

Subscribers to lectures for all the courses of lectures (extending from Christmas to Midsummer) pay Two Guineas; for a single course of lectures One Guinea.

Lectures will be delivered on Tuesdays, Thursdays, and Saturdays from the middle of January to the middle of June, at three o'clock, p.m., except in Passion and Easter Weeks.

ROYAL MEDICAL AND CHIRURGICAL SOCIETY, 53, BERNERS-STREET. W. —Instituted 1805. Chartered 1834. *Pres.*, Mr. F. C. Skey; *Vice-Pres*, Dr. J. A. Wilson, Dr. J. Sutherland, Mr. T. B. Curling and Mr. Spencer Smith; *Treas.*, Dr. Baly and Mr. A. Shaw; *Secs.*, Drs. A. W. Barclay and Mr. C. H. Moore; *Libs.*, Dr. W. Wegg and Mr. C. Moore; *Members of Council*, Drs. Babington, Barlow, Burrows, Hutton, and Sieveking, Messrs. W. W. Cooper, F. Harding, P. G. Hewett, W. Hillman, and L. Holden; *Res. Asst. Lib.*, Mr. B. R. Wheatley.

The Meetings of the Society will be held on the following Tuesday evenings, at half-past eight o'clock precisely, viz.:—(1860) Jan. 10, 24, Feb. 14, 28, March 13, 27, April 10, 24, May 8, 22, June 12, 26. Anniversary Meeting, March 1, at eight p.m. The name of every candidate for the Fellowship is suspended in the Library, and the elections (of which there are four annually, viz., in Dec., Feb., April, and June) are conducted by ballot. The admission fee is 6*l.* 6s., exclusive of the annual subscription of 3*l.* 3s. which is paid in advance. Those Fellows who reside beyond seven miles from London pay no subscription. A volume of Transactions is published yearly, and distributed gratuitously to each subscribing Fellow. The Proceedings of the Society are also published from time to time during the Session. Country Fellows are entitled to the Proceedings, and will receive the Transactions as annually published for life by paying a composition fee of 6*l.* 6s. The Proceedings may be subscribed for separately by non-members, by an annual payment of 5s. The library contains nearly 20,000 volumes. Town Fellows are at liberty to select any books for perusal at their own homes.

ROYAL SOCIETY, BURLINGTON-HOUSE, PICCADILLY. W.—*Pres.*, Sir B. C. Brodie, Bart.; *Treas.*, Gen. Sabine; *Secs.*, Messrs. W. Sharpey and G. G. Stokes; *For. Sec.*, Prof. W. H. Miller; *Asst. Sec. and Lib.*, Mr. C. R. Weld; *Clerk*, Mr. W. White.

Digitized by Google

The Meetings of the Society take place on Thursday evening, at half-past eight precisely, commencing on the third Thursday in November, and terminating on the third Thursday in June.

STATISTICAL SOCIETY OF LONDON, 12, ST. JAMES'S-SQUARE. S.W.—Founded 1834. *Pres.*, Lord John Russell, M.P.; *Vice-Pres.*, Sir J. P. Boileau, Bart., Mr. Charles Babbage, Mr. J. Heywood, Col. W. H. Sykes; *Treas.*, Dr. Farr; *Council*, Mr. C. Babbage, Dr. J. Bird, Sir J. P. Boileau, Mr. S. Brown, Mr. J. Caird, M.P., Dr. Camps, Mr. E. Cheshire, Viscount Ebrington, M.P., Dr. Farr, Mr. A. Fonblanque, Rt. Hon. W. E. Gladstone, M.P., Mr. J. W. Gilbart, Sir F. H. Goldsmid, Bart., Dr. W. A. Guy, Mr. Peter Hardy, Rt. Hon. Earl Harrowby, Mr. B. Hebeler, Mr. F. Hendriks, Mr. J. Heywood, Mr. W. B. Hodge, Dr. T. Hodgkin, Mr. W. G. Lumley, Rt. Hon. H. Mackenzie, Mr. W. Newmarch, Rt. Hon. Sir J. S. Pakington, Rt. Hon. Lord John Russell, M.P., Lord Stanley, Dr. Strang, Col. W. H. Sykes, Mr. R. Valpy, and Rt. Hon. James Wilson, M.P.; *Hon. Secs.*, Mr. W. Newmarch, Dr. W. A. Guy, and Mr. W. G. Lumley; *Asst.-Sec.*, Mr. F. W. Haddon; *Trustees*, Mr. C. Babbage, Hon. M. Elphinstone, and Sir C. Lemon.

Fellows are admitted by ballot, and must have three-fourths of the votes in their favour. The Annual Subscription is Two Guineas, due on the 1st of January. Fellows may compound for future payments at any time by paying Twenty Guineas. A library of Statistical works is formed, and the Society publishes a quarterly journal.

UNIVERSITY COLLEGE MEDICAL SOCIETY, GOWER-STREET. W.C.—Established 1828. *Pres.*, Mr. W. F. Teevan and Dr. C. Drysdale; *Hon. Treas.*, Mr. W. Hickman; *Hon. Secs.*, Messrs. C. E. Orme and W. T. Winterbottom; *Auditors*, Messrs. A. Buchanan and J. Copeland; *Committee*, Messrs. Bastian, Buck, Case, Cooke, Lyon, Miller, Ruthe, Shildon, and Shillitoe.

The Society meets once a fortnight, on Thursday evenings, at eight o'clock, for the reading and discussion of papers on subjects connected with medicine. The Society possesses a well-selected library, consisting of about three thousand volumes on medicine, surgery, and the allied sciences; a complete museum of the materia medica, an osteological and a microscopical collection.

WESTERN MEDICAL AND SURGICAL SOCIETY, 44, SLOANE STREET. S.W.—*Pres.*, Mr. A. B. Barnes; *Vice-Pres.*, Mr. W. Martyn, Mr. Keen, Dr. Fincham, and Mr. Leggatt; *Council*. Messrs. Taylor, J. R. Lane, Dr. Aldis, Messrs. Hatfield, Brown, Turner, Mould, Dr. Cahill, Messrs. Scannell, C. G. Brown, Dr. Arlidge, and Mr. Cumberbatch; *Treas.*, Dr. Seaton; *Hon. Secs.*, Dr. Baines and Mr. Milner; *Hon. Libr.*, Mr. T. Dickinson; *Auditors*, Messrs. Love and Bannister.

The Meetings of the Society are held on the first and third Fridays in every month, from October to May, with a short interval at Christmas, at

Digitized by Google

eight o'clock, P.M. The Anniversary Meeting in May. Members are admitted by ballot. The subscriptions are One Guinea on *admission*, and One Guinea *annually*, paid in advance. The library and reading room are open daily from ten in the morning till ten in the evening. Students are admitted as *Associate Members* without entrance-fee, on payment of an annual subscription of Half-a-Guinea.

ZOOLOGICAL SOCIETY OF LONDON, OFFICES, 11, HANOVER-SQUARE. W. GARDENS, IN THE REGENT'S PARK.—This Society was instituted in 1826, under the auspices of Sir Humphrey Davy, Bart., Sir Stamford Raffles, and other eminent individuals, for the advancement of Zoology, and the introduction and exhibition of subjects of the animal kingdom, alive or in a state of preservation. *Pres.*, H.R.H. The Prince Consort; *Vice-Pres.*, Mr. J. S. Bowerbank, Rt. Hon. Sir G. Clark, Bart., Mr. J. Gould, Dr. Gray, Prof. R. Owen, and Mr. G. R. Waterhouse; *Council*, Sir J. Boileau, Bart., Prof. Rusk, The Earl of Ducie, Mr. R. Hudson, Mr. R. MacAndrew, Mr. D. W. Mitchell, Dr. Percy, Mr. E. I. Rudge, Mr. A. Russell, M.P., Mr. H. F. Walter, and Mr. I. Walley, jun.; *Treas.*, Mr. R. Drummond; *Sec.*, Mr. P. S. Sclater.

The General Monthly Meetings of the Zoological Society are held on the first Thursday of every month, at four o'clock.

Fellows pay an admission fee of 5*l.*, and an annual contribution of 3*l.*, or a composition of 30*l.* in lieu thereof; the whole payment, including the admission fee, being 35*l.* Annual subscribers pay a contribution of 3*l.* on the 1st of January in every year. Honorary, foreign, and corresponding members pay no contribution.

The Scientific Meetings take place on the second and fourth Tuesday of every month (except July, August, September, and October), at nine o'clock, P.M. The annual meeting on the 29th of April.

THE LONDON AND PROVINCIAL MEDICAL PROTECTION SOCIETY, 43, LINCOLN'S-INN FIELDS. W.C. Established 1850. *Pres.*, Mr. J. Propert; *Trust.*, Mr. H. Day, Isleworth; Mr. J. Propert, New Cavendish-street; and Dr. Webster, Dulwich; *Treas.*, Mr. R. Dunn; *Bankers*, Goslings and Sharpe, 19, Fleet-street; *Sec.*, Mr. J. Capes.

The objects of the Society are—

1st. To provide a safe and efficient medium by which the Medical Profession may secure more certain and regular payment for their services; with every consideration for the convenience of those who are willing, but unable directly to discharge their liabilities; with rigour for those who are able, but have not the disposition, to remunerate Medical men.

These ends to be accomplished without interfering with the valuable time of the Members of the Profession, or exposing them to the unpleasantness which necessarily attends application for money, or the uncertainty and risk of employing private collectors.

2nd. To assist Members with information and advice in the purchase and sale of practices.

Digitized by Google

3rd. To raise a Benevolent Fund by devoting to that object the profits arising from the general operations of the Society.

The Society consists of qualified Medical Practitioners only. Annual Subscription, one guinea; a firm consisting of two partners, a guinea and a-half; a firm of three partners, two guineas.

The general business is carried on by a Staff of Officers at the central office, 43, Lincoln's-inn-fields, together with trustworthy employés appointed in town and country, the whole of whom are under the direction and superintendence of the Committee.

The Metropolitan Members of the Committee, with the Trustees, are responsible for all moneys received by the Staff.

MEDICAL BENEVOLENT FUND, 11, NEW BURLINGTON-STREET. W.—Established 1836. *Pres.*, Sir J. Clark, Bart., M.D.; *Vice.-Pres.*, Mr. W. Newnham; *Trust.*, Sir C. Hastings, M.D., Sir J. Clark, Bart., M.D., Dr. G. Burrows, Mr. W. Newnham, Mr. J. Toynbee; *Treas.*, Mr. J. Toynbee, 18, Savile-row. W.; *Sec. and Coll.*, Mr. W. Self, 8, Lucas-place West, Commercial road East.

An earnest appeal is now made on behalf of this Fund to the Profession at large, in the confident expectation that such appeal cannot be in vain. Instituted in the year 1836, it has pursued its unwearied course of usefulness and efficiency; it has passed its day of small things, and now stands before the public as one of the most useful of the medical charities. Its income has increased from an average of 50*l.* a-year annual subscriptions, and a like amount of donations for the first five years, to 1,260*l.* 3s. 6d. subscriptions, donations, and interest on bank-stock in the last year. The number of cases relieved has augmented from an average of three, in the first five years, to the fearful number of eighty nine in the last year; and besides this casual relief, amounting to 1,067*l.*, the Benevolent Fund distributed 265*l.* 10s in annuities, thus making a sum of 1,332*l.* 10s. actually expended in the relief of misery.

THE BENEVOLENT FUND is distinguished by doing much, and promising little. The Committee meet on the last Tuesday of every month to receive applications. Strict enquiry is made respecting each case, for the Committee feel the great responsibility that devolves upon them; but when the cases are really deserving of aid, it is promptly and liberally bestowed, without expense, and without trouble to the poor applicants. Is it your wish—prosperous medical men, that the tear of your brother's widow shall fall; or the cry of the helpless orphan shall be heard in vain? Is it possible that the wants of the aged practitioner, disabled from practice by disease, shall be made known to his 20,000 brethren, and that they should reply—"Be ye warmed and be ye filled," as we are, and yet refuse to give a single shilling to those who are so much in need of kindness? Remember that there is, or ought to be—"more pleasure in giving than in receiving."

W. NEWNHAM, *Vice-President.*

Royal Medical Benevolent College, Office, 37, Soho-sq. W.—*Pres.*, Rt. Hon. Earl Manvers; *Visitor*, Rt. Rev. Lord Bishop of Winchester; *Vice.-Pres.*, Lord Bishops of Durham, Oxford, St Asaph, Bangor, St. David's, and Winchester; Earls Denbigh, Effingham, Carlisle, Spencer, Shaftesbury, and Granville; Duke of Marlborough, Marquis of Bute, Lord Stanley, M.P., Lord Dynevor, Sir M. S. Stewart, Bart., Sir J. Warrender, Bart., Dr. R. W. Jelf, Revds. T. Dale, C. Baring, T. Fuller, and J. H. Hamilton, Messrs. B. B. Cabbell, J. W. Freshfield, W. Cotton, B. E. Winthrop, J. Bentley, J. Briscoe, J. Labouchere, and J. G. Murdoch; Drs. E. J. Seymour, R. Ferguson, H. W. Acland, J. Luke, Sir C. Locock, Bart., M.D., Sir J. Clark, Bart., M.D.; Sir J. Forbes, M.D.; Sir H. Holland, Bart., M.D.; Drs. T. Watson, B. G. Babington, H. Davies, H. S. Roots, A. Roberts, and J. Conolly, R. D. Grainger, Dr. T. R. College, T. Paget, H. P. Fuller, N. Clifton, Sir J. Fife, J. Taylor, Dr. G. Webster, J. Stedman, T. Martin, G. Fincham, Dr. G. Beaman, Dr. J. A. Wilson, Dr. Williams, J. Propert; *Members of Council*, the Pres., Treas., and the following—Dr. J. Bird, H. Blenkarne, Dr. W. D. Chowne, N. Clifton, T. B. Curling, G. T. Dale, R. Dunn, R. D. Edgecumbe, G. Fincham, Sir J. Forbes, M.D., J. F. France, H. Hancock, Ed. Hadland, F. Hird, C. Hogg, Rev. R. Holt, Dr. E. C. Johnson, G. C. Jonson, C. F. J. Lord, J. H. Lance, Major Moore, Rev. G. Pocock, R. Quain, E. Ray, G. M. Robinson, J. S. Smith, Dr. J. G. Sparke, H. Sterry, Dr. T. H. Tuke, F. Webb, Jos. Ward, E. Westall; *Treas.*, Mr. J. Propert; *Sec.*, Mr. R. Freeman; *Bankers*, Goslings and Sharpe, 19, Fleet-street.

The purposes of the College are—

1st. To maintain an Asylum, in which 100 Pensioners, who must be duly qualified medical men, or their Widows, not under fifty years of age (possessing incomes of at least 15*l.*, and not more than 60*l.*, a-year), shall be provided with three furnished rooms each, and with such additional assistance and accommodation as the funds may permit.

2nd. To provide a School, in which a liberal education will be given to 200 boys, the Sons of duly qualified medical men; forty of whom will be educated, boarded, clothed, and maintained entirely at the expense of the Institution, while the remainder will be charged at the lowest rate which is found to be practicable.

3rd. To provide annuities, or occasional pecuniary assistance, to duly qualified medical men in distressed circumstances, or to their families, when they can be granted without detriment to the asylum or school, which are to be ever regarded as the principal objects of the College.

There is a Chapel for Divine Service according to the ritual of the Church of England.

Donors of ten guineas are life-governors of the College; subscribers of one guinea annually are governors during the continuance of their subscription. Subscriptions are due in advance on the 1st of January in each year.

Any member of the Profession desirous of accepting the office of Honorary Local Secretary and Treasurer for his neighbourhood, in which one has not been appointed, would oblige by communicating with the Secretary on the subject.

Subscriptions received by the Bankers, Goslings and Sharpe, 19, Fleet-street; the Members of Council; the Hon. Local Secs.; and by the Secretary, at the Office, 37, Soho-square.

SOCIETY FOR THE RELIEF OF WIDOWS AND ORPHANS OF MEDICAL MEN IN LONDON AND ITS VICINITY, 53, BERNERS-STREET, OXFORD-STREET. W.—Instituted 1788. *Pres.*, Mr. T. A. Stone; *Vice-Pres.*, Messrs. M. Ware, E. A. Brande, J. Nussey, Sir B. C. Brodie, Bart., Dr. P. M. Latham, Mr. J. Bacot, Dr. T. Turner, Mr. D. H. Walne, Dr. A. J. Sutherland, Mr. E. Tegart, Mr. E. Stanley, and Dr. Geo. Burrows; *Treas.*, Mr. J. Miles, Dr. J. Clarke (Acting), and Mr. J. T. Ware; *Direct.*, Messrs. R. S. Eyles, H. Sterry, Dr. G. Hamilton, Messrs. H. K. Owen, H. Lee, Dr. R. B. Todd, Dr. R. Nairne, Messrs. W. Cathrow, E. Barker, J. Paget, J. Adams, Dr. F. J. Farre, Mr. A. B. Barnes, Dr. E. Dew, Mr. J. Love, Dr. H. Pitman, Messrs. C. Collambell, B. Travers, Dr. B. G. Babington, Messrs. J. Weatherfield, J. J. Sawyer, T. Brown, Dr. Aldis, and Mr. W. Dickinson. *Trust.*, Messrs. A. B. Barnes, E. Dew, M.D., J. Love, H. A. Pitman, M.D., C. Collambell, and S. Stedman; *Sec.*, Dr. S. W. J. Merriman; *Coll.*, Mr. W. J. Chesshire, 5, Clarendon-terrace, Belsize-road. N.W.; *Bankers*, Sapte, Banbury and Co., 77, Lombard street.

This Society was formed in the year 1788, by Drs. T. Denman, R. Denison, A. Douglas, J. Sims, and J. Squire, and Messrs. W. Chamberlaine and T. Rendall, with the object of establishing a brotherhood for relieving, *half yearly*, those Widows and Orphans of its deceased Members who might need assistance.

It unites the advantages of a Provident, with those of a Benevolent, Society. It is Provident, as by the small yearly subscription of Two Guineas the Members do, through it, protect their own families from destitution, should they unexpectedly need it; and it is Benevolent, as its benefits are conferred only on those who are left in indigent circumstances.

The Society has been greatly assisted by Legacies and contributions from Members and others, and has especially to acknowledge the gracious Patronage of various members of the Royal family.

The permanent efficiency of the Society depends on the maintenance of a due proportion between the available income and the claims made on the funds. Computations have been made by experienced actuaries on all the points susceptible of calculation by way of average.

The experience of Seventy years has fully proved the need that existed for this Society, for the last Report shows that 114 widows, and 179 children of Members of the Society, have been placed in comfort by an aggregate sum of above 53,000*l.*, paid in half-yearly sums. Many of these recipients were in a state of absolute poverty when the Society stepped in to succour them.

In the year (1857-8) 1,775*l.* was distributed among thirty-nine widows and twenty-nine orphans.

Great care has been taken, in the management of its resources, to secure the means of affording permanently such relief as the Society provides for those whose unfortunate condition renders assistance needful; and the good which it has accomplished has proved the wisdom and benevolence of those

Digitized by Google

who originally planned the Society, and the prudence and efficiency with which its affairs have since been conducted

The Society's affairs are managed by a President, twelve Vice-Presidents, three Treasurers, and twenty-four Directors, who are elected by the Members annually, and whose services are gratuitous All duly qualified Members of the Profession, residing within the County of Middlesex, or within seven miles from the Royal Exchange, in Surrey, Kent, and Essex, are eligible for proposal; the mode of admission is by ballot.

Proposal Papers, and other communications for the Court of Directors, should be sent to the Secretary *before the first Wednesday* in the months of March, June, September, and December. Laws, Lists, and Forms of Proposal may be obtained from the Secretary, and will be sent by Post on receipt of a Stamp.

The Secretary attends at the Office, 53, Berners-street, every Wednesday and Friday, from four to five p.m.

---

*THE TRAINING INSTITUTION FOR NURSES, ST. JOHN'S HOUSE, QUEEN-SQUARE, WESTMINSTER. S.W.

Its government consists of a President (the Lord Bishop of London for the time being), a Council, a Master who must be a Clergyman, and a Lady Superintendent, whilst its present establishment consists of Sisters, Nurses, and Probationers in process of training. It is partly supported by Subscriptions and Donations, and partly from funds arising from the hire of nurses by those who can well afford to pay for the services rendered them; but it is to be remarked that one important feature of the Institution is that *its advantages are extended to the poor gratuitously*. Nurses are not provided for lying-in cases except in cases of emergency. Communications may be addressed to the Rev. the Master or to the Lady Superintendent.

The following warrant was issued on October 14, 1858:—

"VICTORIA R.

"Whereas we have taken into our consideration the recommendations of the commissioners appointed by our authority to inquire into the regulations affecting the sanitary condition of our military forces and the medical treatment of the sick and wounded of our army, our will and pleasure is that from and after the date of this warrant the following rules shall be established for the future admission, promotion, and retirement, and the pay, half-pay, relative rank and allowances of the medical officers of our army, and that by these rules our Commander-in Chief shall govern himself in recommending officers for admission, promotion, and retirement.

"1. The grades of Medical Officers in our army shall be four in number viz.:—

"(1.) Inspector-general of hospitals.

"(2.) Deputy-inspector-general of hospitals.

"(3.) Staff or regimental surgeon, who after twenty years' full pay service in any rank shall be styled surgeon-major.

"(4.) Staff or regimental assistant-surgeon.

"2. No candidate shall be admitted to the competitive examination for a commission in the Medical Department of our army who does not possess such a certificate or certificates as would qualify a civilian to practise medicine and surgery; and no such candidate shall receive a commission as assistant-surgeon until he shall have satisfactorily passed an examination in military medicine, surgery, and hygiene, after attending the authorised course in a general military hospital.

"3. No Assistant Surgeon shall be eligible for promotion to the rank of Surgeon until he shall have passed such examination as our principal Secretary of State for War may require, and shall have served on full-pay with the commission of assistant-surgeon for five years, of which two shall have been in or with a regiment.

"4. A Surgeon, whether on the Staff or attached to regiments, must have served ten years in the army, with a commission of full-pay, of which two must have been passed with the rank of Surgeon in or with a regiment, before he will be eligible for promotion to the rank of Deputy-Inspector-General of Hospitals.

Digitized by Google

"5. A Deputy-Inspector-General of Hospitals must have served five years at home, or three abroad, in that rank before he shall be eligible for promotion to the rank of Inspector-General.

"In cases, however, of emergency, or when the good of the service renders such alteration desirable, it shall be competent for our Secretary of State for War to shorten the several periods of service above-mentioned, in such manner as he shall deem fit and expedient.

"6. Assistant-Surgeons shall, as a general rule, be promoted to the rank of Surgeon in the order of their seniority in the service, unless unfit for the discharge of their duties from physical or professional incompetence or misconduct. In cases of distinguished service, however, an Assistant-Surgeon may be promoted without reference to seniority; and in such cases, with a view to insure the responsibility attaching to an appointment made out of the regular course of promotion, the recommendation, in which the services of the officer shall be detailed, shall be published in the General Orders of the Army and in the *Gazette* in which his promotion appears.

"7. All promotion from the rank of Surgeon to that of Deputy-Inspector, and from the rank of Deputy-Inspector to that of Inspector, shall be given by selection for ability and merit; and the grounds of such selection shall be stated to us in writing, and recorded in the office of our Commander-in-Chief, the selection being made from the whole rank of Surgeons, whether styled Surgeons or Surgeon-Majors.

"8. The rates of pay of the Medical Officers of our army shall be in accordance with the following schedule:

—	After 30 Years' Service on Full Pay.	After 25 Years' Service on Full Pay.	After 20 Years' Service on Full Pay.	After 15 Years' Service on Full Pay.	After 10 Years' Service on Full Pay.	After 5 Years' Service on Full Pay.	Under 5 Years' Service on Full Pay.
	£ s. d.	£ s. d.	£ s. d.	s. d.	s. d.	s. d.	s. d.
Inspector-General	2 5 0	2 5 0	2 0 0*	—	—	—	—
Deputy-Inspector-General	1 14 0	1 10 0	1 8 0*	—	—	—	—

Surgeon	—	—	—	18 0	15 0*	—	—
Assistant-Surgeon	—	—	—	—	13 0	11 6	10 0

"9. In addition to the pay of their ranks, officers at the head of the Medical Department on foreign stations shall receive allowances at the undermentioned rates, when serving under the following circumstances, viz.:—

"If with an army in the field of 10,000 men or upwards, 20s. per day.

"If with an army in the field of 5,000 men or upwards, 15s. per day.

"If with an army in the field of any less number, 10s. per day.

"If serving in a colony where the forces consist of 1,500 or upwards, 5s. per day.

"10. After the date of this warrant every Medical Officer placed on half-pay by reduction of establishment, or on the report of a Medical Board, in

(*) Or on promotion, should these periods of service not be already completed.

consequence of being incapacitated by reason of ill-health, caused by wounds, or brought on by the discharge of his duties, shall be allowed the half-pay to which his period of full-pay service may entitle him, according to the following schedule:—

—	After 30 Years' Service on Full Pay.	After 25 Years' Service on Full Pay.	After 20 Years' Service on Full Pay.	After 15 Years' Service on Full Pay.	After 10 Years' Service on Full Pay.	After 5 Years' Service on Full Pay.	Under 5 Years' Service on Full Pay.
	£ s. d.	£ s. d.	£ s. d.	a. d.	s. d.	s. d.	a. d.
Inspector-General	1 17 6	1 13 6	1 10 0	—	—	—	—
Deputy Inspector-General	1 5 6	1 2 6	1 1 0	—	—	—	—
Surgeon-Major ...	—	0 18 6	0 16 6	—	—	—	—
Surgeon	—	—	—	13 6	11 0	—	—
Assistant-Surgeon	—	—	—	—	10 0	8 0	6 0

"11. With a view to maintain the efficiency of the service all Medical Officers of the rank of Surgeon-Major, Surgeon, or Assistant-Surgeon shall be placed on the retired list when they shall have attained the age of fifty-five years, and all Inspectors-General and Deputy Inspectors-general when they shall have attained the age of sixty-five years.

"Officers thus superannuated shall be entitled to the rates of half-pay stated in the preceding schedule.

"12. Every Medical Officer who shall have served upon full pay for twenty-five years and upwards shall have the right to retire upon half-pay, at the rate of seven-tenths of the daily pay he was in receipt of when thus retiring, provided he shall have served three years in the rank from which he retires, or shall have served in any rank for ten years in the colonies, or five years with an army in the field. But if he shall not have complied with any one of these conditions he shall be entitled only to half-pay at the rate of seven-tenths of the daily pay he was in receipt of before his last promotion.

"13. Every Medical Officer thus claiming to retire must give six months' notice to the head of his department of his intention to claim this right prior to his being allowed to retire; and no Medical Officer shall have a right to give such notice after he shall be under orders to proceed to any foreign station, until he shall have served at such station for one month.

"14. If a Medical Officer is placed on half-pay from any other cause than those hereinbefore named, he shall only be allowed a temporary rate of half-pay (not exceeding the rates stated in Clause 10) for such period and at such rate as shall be assigned to him by our Secretary of State for War, on a consideration of the length and character of the services rendered to the public by such Medical Officer.

"15. On reduction of establishment the Surgeon and Assistant-Surgeon who are junior in the ranks shall be the first reduced, and on restoration to full pay the reduced officers who are senior in their rank shall be the first restored.

"16. The relative rank of the Medical Officers of our army shall be as follows:—

Digitized by Google

"Staff or regimental Assistant-Surgeon as a Lieutenant, according to the date of his commission; and after six years' full-pay service as Captain, according to the date of the completion of such service.

"Staff or regimental Surgeon as Major, according to the date of his commission; and Surgeon-Major as Lieutenant-Colonel, but junior of that rank.

"Deputy Inspector-General of Hospitals as Lieutenant Colonel, according to the date of his commission; and after five years' full-pay service as Deputy Inspector-General as Colonel, according to the date of the completion of such service.

"Inspector-General of Hospitals as Brigadier-General, according to the date of his commission, if with an army in the field, or after three years' full-pay service as Inspector-General as a Major-General, from the date of his joining such army in the field, or according to the date of the completion of such service.

"17. Such relative rank shall carry with it all precedence and advantages attaching to the rank with which it corresponds (except as regards the presidency of Courts-martial, where our will and pleasure is, that the senior combatant officer be always president), and shall regulate the choice of quarters, rates of lodging money, servants, forage, fuel, and light, or allowances in their stead, detention, and prize money. But when a Medical Officer is serving with a regiment or detachment, the officer commanding, though he be junior in rank to such Medical Officer, is entitled to a preference in the choice of quarters.

"18. Medical Officers shall be entitled to all the allowances granted by our warrant of the 13th of July, 1857, on account of wounds and injuries received in action, as combatant officers holding the same relative ranks.

"19. Their families shall in like manner be entitled to all the allowances granted by our warrant of the 15th of June, 1855, to the families of combatant officers holding the same relative ranks.

"20. Medical Officers shall be entitled to field allowances, at home and abroad, at the following rates, subject to all the conditions and restrictions laid down in our warrant of the 1st of July, 1848:—

DAILY RATE.

	Ordinary.	Extraordinary.
REGIMENTAL.	s. d.	s. d.
Assistant-Surgeon, under six years' service ...	1 0	2 0
Assistant-Surgeon, above six years' service ...	1 6	2 6
Surgeon	2 6	4 6
Surgeon-Major	2 6	4 6
STAFF.		
Assistant-Surgeon, under six years' service ...	1 6	2 6
Assistant-Surgeon, above six years' service ...	2 0	3 6
Surgeon	3 0	5 0
Surgeon-Major	3 0	5 0
Deputy-Inspector-General, under three years' service	4 6	7 6
Deputy-Inspector-General, above three years' service	6 0	10 0
Inspector-General of Hospitals.....	9 0	15 0

"21. Surgeons or Surgeons Major of infantry regiments shall not in

Digitized by Google

future be subject to any diminution of the allowance of forage, according to the regulations in force, nor to any stoppage out of their daily pay for any ration of hay, straw, or oats supplied for the horse or horses kept by them for the public service.

"22. All Staff-Surgeons of the first class and Senior Surgeons of Artillery now serving, or who, being now on half-pay, shall hereafter be called upon to serve, shall rank as Surgeons-Major from the date of their commissions as Staff-Surgeons of the first-class, or Senior Surgeons of Artillery, and shall receive the pay of Surgeon-Major according to the foregoing schedule of full-pay from the date of this warrant, or from the date of being called from half pay to full-pay; and all surgeons who have already completed twenty years' full-pay service, or upwards, in any rank, shall have the rank and pay of Surgeons-Major from the date of this warrant.

"23. Medical Officers shall be held entitled to the same honours as other officers of our army of equal relative rank.*

"24. A Medical Officer, retiring after a full-pay service of twenty-five years and upwards may, if recommended for the same by the head of his department, receive a step of honorary rank, but without any consequent increase of half-pay.

"25. Good-service pensions shall be awarded to the most meritorious Medical Officers of our army under such regulations as shall be from time to time determined by us, with the advice of our Secretary of State for War.

"26. Six of the most meritorious Medical Officers of the army shall be named my Honorary Physicians, and six my Honorary Surgeons.

"Given at our Court of St. James's this 1st day of October, 1858, in the twenty-second year of our reign.

"By her Majesty's command, "J. PEEL."

QUALIFICATION AND EXAMINATION OF CANDIDATES FOR COMMISSIONS IN THE ARMY MEDICAL SERVICE.

1. Every Candidate presenting himself for admission to the competitive examination required for the Army Medical Service must be unmarried. He must produce a birth certificate from the District Registrar, or a certificate of baptism in which the date of birth is stated; or, if neither of these can be obtained, an affidavit from one of the parents, or from some other near relative who can attest the date of birth, will be accepted. The certificate or affidavit must show that the Candidate is not above 26 nor under 21 years of age. He must also produce certificates of moral conduct and character, one of them from the parochial minister, if possible.

2. The Candidate must make a declaration that he labours under no mental or constitutional disease, nor any imperfection or disability that can interfere with the most efficient discharge of the duties of a medical officer in any climate. He must also attest his readiness to engage for general service immediately on being Gazetted.

3. The Candidate must possess a diploma in surgery, or a licence to practise it, from the Royal College of Surgeons of England, Scotland, or Ireland, or from the Faculty of Physicians or Surgeons of Glasgow, or from some other corporate body legally entitled to grant a diploma in

* This clause does not extend to the compliments to be paid by garrison or regimental guards, as laid down in pages 29 and 30 of the "Queen's Regulations for the Army."

Digitized by Google

surgery, or a licence to practise it. He must besides, and in addition to such diploma or licence, possess a legal qualification to practise medicine in Great Britain or Ireland.

4. The Candidate, in addition to his degree, diploma, or licence, the nature of which must be entered on the following schedule, must transmit to the Director-General certificates of satisfactory attendance on all the courses of instruction required by the bodies from which he obtained his qualifications. And he must enter in the schedule a list of all certificates he can produce of hospital attendance, and of attendance on lectures or courses of practical instruction which he has followed. The following certificates will in all cases be required:—

(1). Of his having dissected the whole body once at least.
(2). A course of operative surgery, with a certificate of having performed all the great operations on the dead body.
(3). Three months' practical chemistry. The certificate must state that the pupil has conducted chemical analysis himself during the whole of that period.
(4). Three months' natural history or comparative anatomy.
(5). Practical midwifery, a certificate of having attended 12 cases.
(6). Three months' lectures on ophthalmic surgery.

Certificates of having attended the following courses of instruction are also recommended, but are not imperative:—

One course of natural philosophy.
" " logic.
" " dentistry.
" " mathematics.
French and German.

5. Degrees, diplomas, licences, certificates, &c., must be lodged at the Army Medical Department, for examination and registry, at least one week before the Candidate appears for examination.

6. On producing the foregoing qualifications and certificates, the Candidate will be examined by the Examining Board on the following subjects:—

Anatomy and Physiology.
Surgery.
Medicine, including therapeutics, the diseases of women and children, pharmacy, and the laws of health.
Natural History, including zoology and comparative anatomy.
Botany.
Physical geography, including meteorology.

The subjects for the three last heads of this examination will be taken from the following books:—

(1). Carpenter's Zoology, edited by W. S. Dallas, F.L.S.
(2). Rymer Jones' "Outlines of the Structure and Functions of the Animal Kingdom," or "Cours Elémentaire d'Histoire Naturelle,' par Milne Edwards.
(3). Lindley's or Henfrey's "Elements of Botany."
(4). Somerville's "Physical Geography."
(5.) Kemptz' "Treatise on Meteorology."
(6). Lyell's Elementary Geology, or Page's Advanced Text Book of Geology.

7. The names of Candidates who pass the Preliminary Examination of

Digitized by Google

the Examining Board will be sent to the Director-General and communicated to the Professors of the Army Medical School. The names will be arranged in the following Classes:—

CLASS I.

Names of those who have passed a pre-eminently distinguished examination, *arranged in their order of merit.*	Characters which distinguish the excellence of each. General estimate of individual capacity, or fitness for special service.

CLASS II.

Names of those who have passed a creditable examination, *arranged in alphabetical order.*	Statement of the topics in which each has individually excelled, and a general estimate of his individual capacity.

CLASS III.

Names of Candidates who have passed the MINIMUM examination, *arranged in alphabetical order.*	Statement of the particular branches of science in which each has been found to be DEFICIENT.

This information will enable the Professors of the Army Medical School to carry out their instructions with a definite aim as regards each Class.

8. After passing his preliminary examination, every Candidate will be required to attend one entire Course of Practical Instruction at the Army Medical School, before being admitted to his examination for a Commission, on :—

(1). Hygiene.
(2). Clinical and Military Medicine.
(3). Clinical and Military Surgery.
(4). Pathology of Diseases and Injuries incident to Military Service.
(5). Applied Chemistry.

These courses to be of not less than four months' duration.

9. At their conclusion the Candidate will be required to pass an examination on the subjects taught in the School. The Examination will be conducted by the Professors of the School. The Director-General, or any Medical Officer deputed by him, may be present and take part in the examination. If the Candidate gives satisfactory evidence of being qualified for the practical duties of an Army Medical Officer he will be eligible for a Commission as Assistant-Surgeon.

10. During the period of his residence at the Army Medical School each Candidate will receive an allowance of 5s. per diem, with quarters; or 7s. per diem, without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform (viz., the Regulation undress uniform of an Assistant-Surgeon, but without the sword).

11. All Candidates will be required to conform to such rules of discipline as the Senate may, from time to time, require.

RULES FOR THE EXAMINATION OF ASSISTANT-SURGEONS PREVIOUS TO PROMOTION.

This examination is intended as a test for promotion, and may be taken at any time after the Assistant-Surgeon has served five or more years.

Digitized by Google

When Assistant-Surgeons have served the requisite time they will be examined in the following manner:—A series of printed questions, prepared by the Examining Board, will be sealed and sent by the Director-General to the Principal Medical Officers of stations where Assistant-Surgeons may be eligible for examination. It will be the duty of the Principal Medical Officer of the station to deliver these sealed questions to the Assistant-Surgeons, and to see that they are answered without the assistance of books, notes, or communication with any other person. The answers are to be signed, and delivered, sealed, to the Principal Medical Officer, who is to send them, unopened, to the Director-General, together with a certificate from the Surgeon of the Regiment, or other superior Medical Officer, that the Assistant-Surgeon has availed himself of every opportunity of practising surgical operations on the dead body.* The Assistant Surgeon will also be required to transmit, together with his answers to the Director-General, a Medico-Topographical account of the station where he may happen to be at the time, or of some other station where he may have been resident sufficiently long to enable him to collect the necessary information for such a report. Failing this, he will send a Medico-Statistical report of his regiment for a period of at least twelve months. If the Examining Board is satisfied with the replies to the questions, and the Director-General is satisfied with the certificates and with the Medico-Topographical or Statistical Report, the Assistant-Surgeon will be held qualified for promotion. The Assistant-Surgeon will thus be subjected to three separate examinations within the first ten years of his service, each examination having a definite object. The FIRST, to ascertain previous to his admission into the service as a Candidate, his scientific and professional education, and to test his acquirements in the various branches of professional knowledge. The SECOND, after having passed through a course of special instruction in the Army Medical School, to test his knowledge of the special duties of an Army Medical Officer; and the THIRD, previous to promotion, to ascertain that he has kept pace with the progress of Medical Science.

MEDICAL DEPARTMENT OF THE NAVY.

Admiralty Office, Somerset House, London. W.C.

Direct.-Gen.—Sir John Liddell, M.D., C.B., F.R.S. *Insp. Gen. of Greenwich Hosp.*—Dr. Wilson. *Insp. Gen. at Somerset House*—Dr. Bryson. *Dep.-Insp. Gen. of Woolwich Naval Hosp. and Marine Infirm.*—Dr. O. Evans.

The following warrant was issued 30th May, 1859:—

1. There shall in future, be four grades of Medical Officers, viz.:—
   1 Inspector-General of Hospitals and Fleets.
   2. Deputy Inspector-General of Hospitals and Fleets.
   3. Surgeon, who, after twenty years' service on full-pay, ten of which in the rank of Surgeon, shall be styled Staff-Surgeon.

2. No candidate shall be admitted to the examination for a Commission in the Medical Department of the Royal Navy who does not possess such a diploma as would qualify a civilian to practise medicine and surgery; and no such candidate shall receive a commission as Assistant-Surgeon until he shall have satisfactorily passed an examination in naval surgery and hygiène before a board of examiners appointed by the Lords Commissioners of the Admiralty.

3. No Assistant-Surgeon shall be eligible for promotion to the rank of Surgeon until he shall have passed such examination as the Lords Commissioners of the Admiralty may require; and shall have served on full-pay, with the commission of Assistant-Surgeon, for five years, of which two, at least, shall have been passed on board one or more of Her Majesty's sea-going ships.

4. No Surgeon shall be eligible for promotion to the rank of Deputy Inspector-General of Hospitals and Fleets until he shall have served ten years in the royal navy, on full-pay, of which three at least must have been passed in one of Her Majesty's ships, on some one or more foreign stations, with the rank of Surgeon.

5. No Deputy Inspector-General of Hospitals and Fleets shall be eligible for promotion to the rank of Inspector-General until he shall have served five years at home, or three years abroad, in the rank of Deputy Inspector-General.

In cases of emergency, however, or when the good of Her Majesty's service may render such alteration desirable, it will be competent for the Lords Commissioners of the Admiralty to shorten the several periods of service above-mentioned, in such manner as they shall deem fit and expedient.

6. The rates of full-pay for the Medical Officers of the Royal Navy will in future be in accordance with the following schedule:—

RANK.	After 30 years' Service on full pay.	After 25 years' Service on full-pay.	After 20 years' Service on full-pay.	After 15 years' Service on full-pay.	After 10 years' Service on full-pay.	After 5 years' Service on full-pay.	Under 5 years' Service on full-pay.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
Inspectr-General of Hospitals and Fleets	2 5 0	2 5 0	*2 0 0

Digitized by Google

7. Every Medical Officer on the active list, now on half-pay, and those who may be placed on half-pay, subsequently to the 13th instant, will be allowed the half-pay to which his period of service on full-pay shall entitle him, according to the following schedule :—

RANK.	After 30 years' Service on full-pay.	After 25 years' Service on full-pay.	After 20 years' Service on full pay.	After 15 years' Service on full-pay.	After 10 years' Service on full-pay.	After 5 years' Service on full-pay.	Under 5 years' Service on full-pay.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
Inspector-General of Hospitals and Fleets	1 17 6	1 13 6	*1 10 0				
Deputy Inspector-General of Hospitals and Fleets	1 5 6	1 2 6	*1 1 0				
Staff-Surgeon ...	...	0 18 6	0 16 6				
Surgeon	...	...	...	0 13 6	*0 11 0		
Assistant-Surgeon	...	...	...	...	0 10 0	0 8 0	0 6 0

* Or on promotion, should these periods of Service not have been already completed.

8. With a view to maintain the efficiency of the service, all Medical Officers, with the ranks of Staff-Surgeon, Surgeon, and Assistant-Surgeon, will be placed on the Retired List, when they shall have attained the age of 60 years. Deputy Inspectors-General will be placed on such Retired List when they shall have attained the age of 65 years, and Inspectors-General when they shall have attained the age of 70 years. Officers thus superannuated will receive the rates of half-pay mentioned in the preceding schedule.

9. The relative ranks of the Medical Officers of the Royal Navy will be as follows :—An Assistant-Surgeon will rank as a Lieutenant in the Army, according to the date of his Commission, and after six years' service on full-pay, as a Captain in the Army, according to the date of the completion of such service. A Surgeon will rank as Major in the Army, according to the date of his Commission, and a Staff-Surgeon as Lieutenant-Colonel, but junior of that rank. A Deputy Inspector-General of Hospitals and Fleets will rank as Lieutenant-Colonel, according to the date of his Commission, and after five years' service on full pay as Deputy Inspector-General, will rank as Colonel, according to the date of completion of such service. An Inspector-General of Hospitals and Fleets will rank as Brigadier-General, according to the date of his Commission, and after three years' service on full-pay as Inspector-General will rank as Major-General, according to the date of completion of such service. Provided always, that no Medical Officer, while borne on the books of one of Her Majesty's ships, or employed in establishments on shore, shall be deemed superior in rank to the Officer appointed to command such ship or establishment; but such Commanding Officer shall, under all circumstances, be held to be superior in rank and precedence to every officer under his command.

10. When Medical Officers of the Navy may be employed on shore, on joint service with Her Majesty's Land Forces, such relative rank will carry with it all precedence and advantages attaching to the rank with which it corresponds, and shall regulate the choice of quarters, rates of lodging money, servants, forage, fuel, and light, or allowances in their

Digitized by Google

stead; but Medical Officers serving in the Fleet, notwithstanding the relative rank thus conferred upon them, will, in all such details, and also in all matters relating to the duties of the Fleet and to the discipline and interior economy of Her Majesty's ships, be subject, as heretofore, to the authority of any executive officer of the Military Branch, while on duty, under the General Regulations which may from time to time be prescribed by the Lords Commissioners of the Admiralty.

11. Medical Officers will share Prize Money according to the Proclamation or Proclamations which may be in force at the time being, for regulating the distribution of the proceeds of Prizes in the Royal Navy.

12. Medical Officers will be entitled to the same allowances on account of wounds and injuries received in action as combatant officers holding the same relative ranks.

13. The families of Medical Officers will in like manner be entitled to the same allowances as granted to the families of combatant officers holding the same relative ranks.

14. Medical Officers will be held entitled to the same honours as other Officers of the Royal Navy of equal relative rank.

15. A Medical Officer retiring, after a full-pay service of twenty-five years, may, in cases of distinguished service, receive a step of honorary rank, but without increase of half-pay.

16. Good Service Pensions will be awarded to the most meritorious Medical Officers of the Royal Navy, under such regulations as shall from time to time be determined upon.

17. Four of the most meritorious Medical Officers of the Royal Navy will be named "Honorary Physicians," and four "Honorary Surgeons," to Her Majesty.

By Command of their Lordships,

H. CORRY.

HER MAJESTY'S INDIAN FORCES.

East India House, Leadenhall-street, London. E.C.

Phys. to the Sec. of State for India in Council, Dr. Scott, 13, Stratton-st. Piccadilly, London. W.

Members of Board of Examiners, Mr. G. Busk, Dr. J. Hooker, Mr. J. Paget, Dr. E. A. Parkes.

All natural-born subjects of her Majesty between twenty-two and twenty-eight years of age, and of sound bodily health, may be candidates for admission into the service of Her Majesty as Assistant-Surgeons in Her Majesty's Indian Forces. They must subscribe and send in to Dr. Scott, the Physician to the Secretary of State for India in Council, ten days before the period fixed for each examination, a declaration to the following effect:—

"I (Christian and Surname at full length), a candidate for employment as an Assistant-Surgeon in Her Majesty's Indian Forces, do hereby declare that I was years of age on the day of last, and that I labour under no constitutional disease

Digitized by Google

or physical disability that can interfere with the due discharge of the duties of a Medical officer; and I also attest my readiness to proceed on duty to India within three months of receiving my appointment."

This declaration must be accompanied by the following documents:—1. Proof of Age, either by extract from the Register of the Parish in which the candidate was born, or by his own declaration, pursuant to the Act 5 and 6 William IV, cap. 62. 2. A certificate of moral character from a magistrate, or a minister of the religious denomination to which the candidate belongs, who has personally known him for at least two preceding years. 3. A diploma in Surgery; or a degree in Medicine, provided an examination in Surgery be required for such degree; from some body competent by law to grant or confer such diploma or degree. 4. A certificate of having attended two courses of lectures, of six months each, on the practice of Physic, and of having attended, for six months, the practice and clinical instruction of the physicians at some hospital containing at least, on an average, one hundred in-patients; or of having attended one course of lectures, of six months, on the practice of Physic, and clinical instruction for twelve months. 5. A certificate of having attended, for three months, the practical instruction given at one of the public Asylums for the treatment of the Insane. 6. A certificate of having attended, for three months, one of the institutions, or wards of an hospital especially devoted to the treatment of Ophthalmic disease. Candidates who may not have been able to attend the practice of an Asylum for the Insane, or of an Ophthalmic hospital, for three months previous to their offering themselves for examination, will not be excluded from examination, but will, if successful in obtaining recommendation for appointments, be required to produce certificates of having attended such practice during the interval between the examination and the time of proceeding to India. 7. A certificate of having attended a course of lectures on Midwifery, and of having conducted at least six labours. 8. A certificate of having acquired a practical knowledge of cupping. Candidates may also, at their option, send in certificates of attendance at any hospitals, or on any course of lectures, in addition to the above. Attendance on a course of Military Surgery, and the practical study of surgical operations on the dead body, are recommended.

The examination will include the following subjects:—1. Surgery in all its departments. 2. Medicine, including the diseases of women and children, Therapeutics, Pharmacy, and Hygiene. 3. Anatomy and Physiology, including Comparative Anatomy. 4. Natural History, including Botany and Zoology.

The following are the books recommended—In Zoology and Comparative Anatomy; Outlines of the Structure of the Animal Kingdom, by Rymer Jones, or Cours Elémentaire d'Histoire Naturelle, par Milne Edwards—Botany: Lindley's School Botany, or Lindley's Elements of Botany.

The examination will be conducted—1. By means of written questions and answers. 2. By object examinations and experiments, when the subject admits of such tests. 3. By practical examination of patients, and by operations on the dead body. 4. By *vivâ voce* examination.

The persons who shall be pronounced by the Examiners to be the best qualified in all respects will be appointed to fill the requisite number of appointments as Assistant-Surgeons in Her Majesty's Indian Forces,

Digitized by Google

and, so far as the requirements of the service will permit, they will have the choice of the Presidency in India to which they shall be appointed, according to the order of merit in which they stand on the list resulting from such examination.

All Assistant-Surgeons are required to subscribe to the Military or Medical, and Medical Retiring Funds, at the Presidencies to which they may be respectively appointed, and to the Military Orphan Society also if appointed to Bengal.

All Assistant-Surgeons who shall neglect or refuse to proceed to India under the orders of the Secretary of State for India in Council, within three months from the date of their appointment, will be considerd as having forfeited it, unless special circumstances shall justify a departure from this regulation.

A copy of these regulations, and any further information, may be obtained on application to the Secretary of the Military department, East-India House.

The examinations will take place in the months of January and July in each year, and due notice will be given by public advertisement of the days appointed and of the probable number of candidates to be selected.

The Examiners for Assistant-Surgeons in Her Majesty's Indian Forces having received many inquiries as to the object and extent of the Examination in Comparative Anatomy, Zoology, and Botany, have considered it desirable to announce that their objects are,—1. To ascertain who of the candidates have devoted especial attention to any of these sciences, and are hence qualified to undertake duties requiring a knowledge of them, as well as the general rules of their profession. Proficiency in these sciences will, in classifying the candidates by merit, be entitled to great consideration. 2. To encourage all candidates to acquire an elementary knowledge of the structure and affinities of the principal natural families of Animals and of Plants, with the general plan upon which these are constructed, and the functions and relations of their most important organs. 3. To promote the study of Natural History as a most important adjunct or preliminary to a liberal Medical education; that of Comparative Anatomy, Zoology, or Botany, if properly cultivated, by means of specimens, for even a short period, being eminently calculated to develop habits of close observation, and to strengthen those powers of reasoning upon observed facts which must be habitually exercised by Medical men everywhere, but which must be exercised with the greatest energy and promptitude by those who practise in a tropical climate, and who are often thrown wholly upon their own resources. The general examination in these sciences will be elementary, and will embrace a very limited range of technical terms. At the written examination, a considerable number of questions will be put, with the view of allowing each candidate to select such subjects as he has attended to, and, thereby, of enabling the Examiners to ascertain the particular departments of science in which the verbal examination should be conducted. With those candidates who have attained proficiency in any branch of these sciences, the verbal examination will be pursued in the branch selected, so as to ascertain the full extent of their knowledge.

MEMORANDUM AS TO THE PAY AND ALLOWANCES OF MEDICAL OFFICERS IN HER MAJESTY'S INDIAN FORCES.

Pay and Allowances and Time of Service commence from date of arrival at the Presidency to which they are appointed.

On first arrival, and whilst attached to the General Hospital at the Presidency, they are granted Pay and Allowances (inclusive of quarters valued at Rs. 25 per month) amounting per month to Rs. 220.

When posted to do duty with Corps, they receive the following allowances:—

		Within 200 miles of the Presidency.				Beyond 200 miles from the Presidency.			
			R.	A.			R.	A.	
Including conveyance allowance of Rs. 30 a month	Horse Artillery and Cavalry	per Mo.	364	6	...	per Mo.	395	4	
	Foot Artillery	,,	264	4	...	,,	295	12	
	Infantry	,,	255	12	...	,,	286	10	

When in charge of Corps as Assistant-Surgeons, having passed the prescribed examination in native languages:—

		Within 200 miles of the Presidency.				Beyond 200 miles from the Presidency.			
			R.	A.			R.	A.	
Including a Staff Salary of Rs. 165 a month	Horse Artillery and Cavalry	per Mo.	499	6	...	per Mo.	530	4	
	Foot Artillery	,,	399	4	...	,,	430	12	
	Infantry	,,	390	12	...	,,	421	10	

When in charge of Corps as Surgeons, having passed the prescribed examination in native languages:—

		Within 200 miles of the Presidency.					Beyond 200 miles from the Presidency.			
			R.	A.	P.			R.	A.	P.
Including a Staff Salary of Rs. 300 a month	Horse Artillery and Cavalry	per Mo.	821	11	4	...	per Mo.	863	0	4
	Foot Artillery	,,	692	5	0	...	,,	733	10	0
	Infantry	,,	674	1	0	...	,,	715	6	0

Surgeons and Assistant-Surgeons of European Corps are granted, in addition, an allowance of Rs. 25 per month for every 100 Europeans under their charge.

Surgical Instruments are provided by Government.

FURLOUGHS.

On Private Affairs—For two years, after ten years' service in India, with pay, if a Surgeon . . . 10s. 6d. a day.

Ditto, if an Assistant Surgeon . . . 6 6 ,,

A Second Furlough for two years after expiration of ten years from date of return to duty from First Furlough, with pay as above.

On Sick Certificate—For eighteen months, with Indian pay and allowances for six months. For the remaining time with Furlough pay as above. Time may be extended on renewed Medical certificate, with pay, for three years in the whole. Assistant-Surgeons returning to England on sick certificate receive Rs. 1,200 passage-money.

THE

PROVINCIAL MEDICAL DIRECTORY,

And General Medical Register,

1860.

*** Where the limit of a Parliamentary City or Borough differs from that of the Municipal, the population of the latter has been preferred, in order to approximate as near as possible to the TOWN population.

The population of both Parliamentary and Municipal limits is given, where the population of the former differed considerably from that of the latter, as in the case of some of the principal Cities and Boroughs.

NOTE.—In some few cases the population is not inserted after the name of the place, as it was not distinguished at the Census of 1851; but the name and population of the Parish, &c., in which it is situated, is inserted in brackets, except in a few instances where it could not be ascertained.

The orthography of the names of places, as well as their designation, as Towns, Parishes, Villages, Tythings, &c., is generally that which was adopted at the Census of 1851.

LIST OF ABBREVIATIONS.

ENGLISH, SCOTCH, AND IRISH UNIVERSITIES, COLLEGES, AND HALLS,

WHERE DEGREES IN MEDICINE AND LICENCES TO PRACTISE CAN BE OBTAINED.

UNIVERSITY OF CAMBRIDGE.

CHANCELLOR, H. R. H. Prince Albert.

HIGH STEWARD, Lord Lyndhurst, LL.D., Trinity.

VICE-CHANCELLOR, H. Philpott, D.D.

REGISTRAR, J. Romilly, M.A., Trinity.

Professorships.	*Professors.*	*College.*	*Elected.*
Regius Physic . .	H. J. H. Bond, M.D. . .	Corpus Christi .	1851
Chemistry . . .	J. Cumming, M.A., F.R.S.	Trinity . . .	1815
Anatomy . . .	W. Clark, M.D. . . .	Trinity . . .	1817
Botany	J. S. Henslow, M.A., F.L.S.	John's . . .	1825
Downing Medicine	W. W. Fisher, M.D. . .	Down . . .	1841

CURATOR OF THE BOTANIC GARDEN, J. Stratton.

The course of lectures on Physic consists of fifty (twenty on general and thirty on special Pathology), delivered during the Lent and Easter terms.

The course on Human Anatomy consists of fifty, delivered during the Michaelmas and Lent terms, by Dr. Humphry.

The course on Chemistry consists of fifty, delivered during the Lent and Easter terms.

The course on Botany consists of twenty, delivered during the Easter term.

The Downing Professor delivers a course of fifty lectures on some subject connected with the study of medicine in the Michaelmas and Lent terms.

The Professor of Anatomy delivers a course of twenty-five lectures on Comparative Anatomy, during the Michaelmas term.

Dr. Humphry delivers a course of lectures on Surgical Pathology.

Pupils have an opportunity of dissecting in private.

There is a rich and interesting Anatomical Museum open to medical students daily.

Students are admitted to the medical and surgical practice of the hospital on the payment of 10*l.* 10*s.* for a year, and an additional 4*l.* 5*s.* for an unlimited period.

Medical students are required to reside in Cambridge nine terms (nearly

Digitized by Google

three years), during the first half of which time they are generally occupied in the study of Classics, Mathematics, &c., in their respective Colleges; then, having passed the previous examination in these subjects, analogous to the preliminary examination required at the University of London, they can pursue the study of Medicine, attend the practice of the Hospital and the Professors' lectures above specified. This done, they may continue their medical studies in Cambridge, or elsewhere.

If it be thought desirable, the student may continue his classical and mathematical reading for a longer period than the above arrangement contemplates; and may, in due time, present himself for the second Examination in those subjects whereby he becomes B.A.; but this is optional.

PROCEEDINGS IN PHYSIC. M.B.

The candidate for M.B. must have resided nine terms (nearly three years), have passed the previous Examination in Classics, Mathematics, &c., and have been engaged five years in medical study. (Four years are sufficient for those who have graduated as B.A.) Six terms, or nearly two years, must be spent in medical study in the University.

There are two Examinations for M.B. The first after three years of medical study. The subjects are Chemistry, Botany, Elements of Comparative Anatomy, Human Anatomy and Physiology, Materia Medica and Pharmacy, Pathology, Portions of Celsus, Hippocrates, and Aretæus, which have been selected in the year preceding the Examination.

The student, before admission to this first Examination, must produce certificates of attendance on lectures on Chemistry, including manipulations. Botany, Elements of Comparative Anatomy, Human Anatomy and Physiology, Pathology, Materia Medica and Pharmacy, of dissection during one season and of attendance on Hospital practice.

The second Examination is after the completion of the course of medical study. The subjects are Pathology and practice of Physic, Clinical Medicine, Medical Jurisprudence, the medical treatment of Surgical and Obstetrical Diseases. The student, before admission to this second Examination, must produce certificates of attendance on lectures on Clinical Medicine, Clinical Surgery, Medical Jurisprudence, and Obstetrical Medical, and of attendance on Hospital Practice for three years.

After the Examinations have been passed, an Act must be kept. The candidate reads a thesis composed in English by himself on some subject approved by the Professor. He is then questioned in English by the Professor on the subject of the thesis, and on other subjects in the faculty of a more general nature.

M.D.

The candidate can be admitted to the degree of M.D. in the ninth term, (nearly three years,) after taking the degree of M.B. A Master of Arts may be admitted to the degree of M.D. at the prescribed period, when he has produced the same certificates and passed the same Examinations as are required for the degree of M.B.

An Act has to be kept similar to that required for M.B.

UNIVERSITY OF OXFORD.

(Founded 872.)

	Elected.
CHANCELLOR, the Earl of Derby	1852
HIGH STEWARD, the Earl of Carnarvon	1859
VICE-CHANCELLOR, F. Jeune, D.C.L., Master of Pembroke College	1858
REGISTRAR, E. W. Rowden, D.C.L., late Fellow of New College	1853
Regius Professor of Medicine, founded 1535, by Henry VIII. H. W. Acland, M.D., Ch. D.	1857
Tomlins Prælector of Anatomy, founded 1626	
Sherardian Professor of Botany, founded 1728 (Botanic Garden, Earl Danby, 1632). C. G. B. Daubeny, M.D., Magd. Coll. .	1834
Lichfield's Clinical Medicine, founded 1772, by Earl Lichfield (Lectures in Radcliffe Infirm.) H. W. Acland, M.D., Ch. D.	1857
Aldrichian Professor of Anatomy, founded 1803, by Dr. G. Aldrich. (At present in abeyance.)	
Aldrichian Professor of Medicine, founded 1803, by Dr. G. Aldrich. (At present in abeyance.)	
Aldrichian Professor of Chemistry, founded 1803, by Dr. G. Aldrich. B. C. Brodie	1855
Lee's Lecturer in Anatomy, founded 1759. G. Rolleston, M.D. .	1857

Lectures in the Museum of Anatomy, Christ Church.

Radcliffe Librarian, H. W. Acland, M.D.

UNIVERSITY TERMS AND RESIDENCE.

Full term is understood to commence on the first day of the week after the first congregation is held; so that if the congregation be held on the Monday, the Sunday after is considered the first day of full term. For the degree of M.D., the degree of Bachelor in Medicine is required, after undergoing the same three examinations that are appointed for Bachelor of Arts. No one can be examined for the degree of Bachelor of Arts before the twelfth term* from the date of his matriculation. By those who have not taken any degree in Arts, Michaelmas and Hilary Terms are each kept by six weeks' residence, and Easter and Trinity Terms by three weeks'. Twelve terms of residence are required for the degree of B.A. At the expiration of twenty-eight terms from matriculation, and twelve terms from the third examination for the degree of B.A., the candidate may become a B.M., and at the end of three years more he may obtain the degree of D.M.

EXERCISES FOR DEGREES.

1st. To perform the Exercise called Responsions, which are fixed to take place in Hilary Term, on the Monday after the 4th Sunday in Lent and in Trinity Term, on the Thursday after the first Sunday after Trinity, and in Michaelmas Term, on Dec. 5. This exercise consists in an examination

* The sons and the eldest sons of the eldest sons of English, Scotch, and Irish peers and peeresses in their own right, as well as baronets and the eldest sons of baronets and knights, when matriculated as such, and not on the foundation of any College, are allowed to offer themselves as candidates for the degree of B.A. after having completed two years.

Digitized by Google

in the Greek and Latin languages (chiefly with a view to their grammatical construction), in the rudiments of logic, or in Euclid's Elements of Geometry, and in Arithmetic.

2nd. To pass an examination under Moderations. These examinations take place twice in each year, viz., commencing on Friday after Ascension Day, and on November 20.

3rd. To be Publicly Examined. Public Examinations are held twice a year, viz., in Michaelmas Term, beginning on the second day of November, and in Easter Term, beginning on the Friday which follows the second Sunday after Easter. The examination comprises—1st. The rudiments of religion; 2nd. The Literæ Humaniores; 3rd. The elements of the mathematical sciences, and of physics; 4th. Natural science. 5th. Law and modern history. The candidate is permitted his choice of these different schools, but he must pass in two at least. In medicine, all students (besides undergoing the three same examinations appointed for Bachelors of Arts) are to be examined by the Regius Professor of that faculty and two examiners of the degree of D.M., appointed by the Vice-Chancellor, in the theory and practice of medicine, anatomy, physiology, and pathology; in materia medica, and in chemistry and botany, so far as they illustrate the science of medicine, and in two at least of the following ancient medical writers—Hippocrates. Aretæus, Galen, and Celsus. For a Doctor's degree in medicine, a dissertation upon some subject, to be approved of by the Regius Professor of Medicine, is to be publicly recited in the schools, and a copy of it afterwards delivered to the professor.

The examination for the Bachelor's degree in medicine takes place once a year, viz., in Trinity or Act Term. The examiners are the Regius Professor of Medicine, and two other graduates in that faculty. Degrees are conferred, generally, once in every fortnight during term, according to an announcement of the several days made by the Vice-Chancellor at the commencement of every term.

UNIVERSITY OF DURHAM.

The course of study for a licence in Medicine extends over four years, one of which must be spent in the University, and the other three, either in the University, or in some School of Medicine in connection with the University.

The Newcastle-on-Tyne College of Medicine is in connection with the University. The three years' course in that College is the same as that required by the Royal College of Surgeons of England, and the Apothecaries' Society of London.

At the end of his first year's residence in the University, the student passes an examination in the rudiments of religion, literature, and science.

At the end of the fourth year, a student who has passed the first examination and produced satisfactory testimonials of conduct, and certificates of having attended the requisite medical lectures and hospital practice, is admissible to the final examination.

The examination is conducted by three or more Examiners nominated annually by the Warden, and approved by the Convocation of the University.

This examination is directed to the Medical sciences, and continues for four days. On the first and second day, written answers are required to

Digitized by Google

four printed papers on Anatomy, Physiology, Chemistry, Botany, Materia Medica, Medical Jurisprudence, Midwifery, Surgery, and practice of Physic. On the third day, practical examinations take place, — on Anatomy and in Surgery, in the dissecting-room; on Chemistry, in the laboratory; and on cases of Medical and Surgical Disease in the Hospital. The fourth day is devoted to a *viva voce* examination on Surgical and Medical Science, at the discretion of the Examiners.

The written and *viva voce* examinations take place in the University of Durham, the practical trials in the College of Medicine at Newcastle, and in the Infirmary at Newark, containing 230 beds.

The student, at the expiration of twenty-one terms, or seven years from his matriculation at Durham, may proceed to the degree of M.B.; and at the end of thirty-three terms, or eleven years, to the degree of M.D., on writing an Essay and passing an examination upon some appointed Medical subject.

The Medical Schools of King's College, London, and Queen's College, Birmingham, are also recognised as Medical Schools, at which students in Medicine of the University may pursue their medical studies.

For particulars relative to the Newcastle-on-Tyne School of Medicine in connexion with this University,—see "Provincial Schools of Medicine."

PROVINCIAL SCHOOLS OF MEDICINE.

BIRMINGHAM.—QUEEN'S COLLEGE.

Surgical Anatomy: Prof. S. Cox.
Descriptive Anatomy: Prof. F. Jordan.
Practical Anatomy and Superintendence of Dissections: Prof. Jordan and Dr. Walker.
Chemistry: Dr. Bond.
Principles and Practice of Medicine: Prof. Wade.
Principles and Practice of Surgery: Prof. S. Cox.
Comparative Anatomy and Zoology: Dr. R. C. R. Jordan.
Materia Medica and Therapeutics: Dr. A. Fleming.
Midwifery and the Diseases of Women and Children: Prof. S. Berry.
Botany and Vegetable Physiology: Prof. Knowles.
Practical Chemistry: Dr. Bond.
Medical Tutor: Dr. Walker.
Histology, supplementary to the Course of Physiology: Dr. Waller
Clinical Lectures: Clinical lectures will be delivered by the Professors.
Museums, library, and chemical laboratories are connected with the College, to which students have free access.

College Expenses. The College expenses, including commons, chamber rent and servants' wages, but exclusive of College fees, do not exceed 50*l.* for the Three terms.

Fees for lectures, &c., in the different faculties average from 20*l.* to 30*l.* per annum.

The Courses of Lectures and Hospital Practice in the Medical Faculty required by all the Examining Boards may be compounded for by a payment of 73*l.* 10s. in one sum.

The expenses of the five years' Medical course, viz., two years in the Junior department and three years in the Senior department, with attendance on the Surgical, Medical, and Midwifery Practice, Dispensing at the Hospital, and on the requisite courses of Lectures, may be covered by a payment of 76*l.* annually, inclusive of commons, rooms, servants, coals, &c.

Chemical Laboratory.—There is a Laboratory in the College, fitted up with every convenience for the attainment of Practical Chemistry, and for the prosecution of Scientific researches. Students wishing to work at Practical Chemistry may do so in the Laboratory of the Professor of Chemistry. Fee, one month, 3*l.* 3s.; three months, 7*l.* 7s.; nine months, 18*l.* 18s.

PRIZES.

The Warneford Scholarships.—Four Scholarships have been founded by the Rev. Dr. Warneford, of 10*l.* each, to be held for two years; to be conferred upon Students who have resided in the Medical Department of the College at least twelve months, and who have otherwise distinguished themselves by good conduct and regularity of attendance upon the Lectures.

The Warneford Gold Medals.—The interest of 1,000*l.* is applied for the institution of two Prizes, either in equal or unequal amounts. The Essays written for these Prizes are to be of a religious as well as a scientific nature.

Digitized by Google

The Webster Prize.—Books of the value of Five Guineas are offered by the late Joseph Webster, Esq., for the Student who may pass the best Examination in the French Language. Three candidates must compete for this Prize, or it will not be given.

The Percy Prize.—Books of the value of Five Guineas are offered by John Percy, M.D., to the Student who may pass the best Examination in three German Works. There must be not less than two competitors.

The Ratcliff Prize.—Books of the value of Ten Guineas are offered by Charles Ratcliff, Esq., for the best Essay on a subject, to be chosen by the Professors, in Medicine or Surgery. There must be not less than two competitors.

Prizes are annually given on a Public Examination for regularity of attendance at Lectures, Examinations, and at Chapel, good conduct during three years, and who shall be recommended to the Council by the Professors for general excellence in the College Examinations.

HOSPITAL PRACTICE.—QUEEN'S HOSPITAL, BATH-ROW.

Lying-in Department.—Under the superintendence of Professor Berry. Besides the ordinary advantages derived from the hospital, a Midwifery Department has been added for the benefit of Poor Lying-in Married Women, who, on the production of an Out-patient's note, are attended at their own homes.

Fees for admission to the Medical, Surgical, and Midwifery Practice: six months, 6*l.*; one year, 10*l.*; three years, 21*l.*

The offices of Physicians' Clerks, and Surgeons' Dressers, are also open to the students without any additional fee.

For further information in reference to the Medical Departments, and College regulations, apply to the Dean of the Faculty, or to Dr Bond, Hon. Sec. to Professor at the College.

BIRMINGHAM.—SYDENHAM COLLEGE.

WINTER SESSION.

Anatomy and Physiology: Dr. J. W. Keyworth.
Pathology: Dr. J. Russell.
Anatomy, Descriptive and Surgical: Messrs. G. Elkington, F. Jones, and D. Johnson.
Principles and Practice of Medicine: Dr. B. Fletcher.
Principles and Practice of Surgery: Mr. A. Baker.
Surgical Pathology: Mr. O. Pemberton.
Midwifery and the Diseases of Women and Children: Dr. F. Elkington and Mr. V. W. Blake.
Therapeutics: Dr. Russell.
Materia Medica and Pharmacy: Mr. J. Bassett.
Chemistry, Theoretical and Practical: Dr. A. Hill and Dr. F. Wrightson.
Botany, Systematic and Structural: Mr. F. Westcott.
Forensic Medicine: Mr. W. C. Oxford, and G. Vernon Blunt, M.D.
Classics and Mathematics.—The Rev. G. Voight.

The students have the use of a Reading-room, where all the standard Medical and Surgical Journals are provided. They have also free access to the Museums of Anatomy, Physiology, and Pathology, as well as those of Chemistry and Materia Medica. The Diagrams, Models, and Plates,

Digitized by Google

illustrative of the various courses of lectures, may be used by them, under certain rules, with which they will be made acquainted.

In addition to the obstetric preparations in the Museum, the collection belonging to the Lying-in Hospital will be made accessible to the students under suitable regulations.

The Dissecting Rooms are open from eight in the morning until eight at night, and the pupils have the benefit of a constant superintendence in their dissections.

Clinical Courses will be given by those lecturers who are attached to the various public institutions of the town. The lectures are so arranged that no interference with attendance upon hospital practice will be caused by them. Prizes will be awarded in each course, under fixed regulations; and a prize will also be given for general proficiency.

For the benefit of the students, examinations will be held by the lecturers to test their qualifications for matriculation at the University of London.

Some of the lecturers will receive students into their houses; and parents or guardians are requested to communicate with the Principal before placing students at lodgings.

Composition fee for all the lectures required by the College and Hall.

BIRMINGHAM GENERAL HOSPITAL, SUMMER-LANE,

Established 1772, contains 240 beds. Upwards of 20,000 Patients received Medical and Surgical relief during last year.

It affords opportunities for the practical study of Medicine and Surgery equal to any similar Institution in the kingdom, and from the nature of the manufactories by which it is surrounded, and proximity of the mining districts, some of the most important accidents are constantly being admitted.

Clinical Prizes will be given by Dr. Fletcher and Mr. Alfred Baker, for faithful reports of cases under treatment in the Hospital.

Fees for Medical and Surgical Pupils: Medical Practice, six months, 7*l.* 7s.; twelve months, 10*l.* 10s.; eighteen months, 12*l.* 12s.; three years, 21*l.* *Surgical Practice*, six months, 8*l.* 8s.; twelve months, 10*l.* 10s.; eighteen months, 15*l.* 15s.; three years, 21*l.*

The Fees for Dresserships may be ascertained by enquiry at the Hospital.

Further particulars may be obtained by application to the Principal, Dr. Bell Fletcher, Waterloo-street; the Treasurer, Dr. Russell, Newhall-street, who is authorized to enter Students; or to the Hon. Secretaries, Mr. Basset, St. Paul's-square, and Mr. F. Jones, 42, Newhall-street.

BRISTOL MEDICAL SCHOOL.

WINTER SESSION.

Theory and Practice of Physic: Dr. F. Brittan, Monday, Wednesday, and Friday, at a quarter after eight a.m. Sessional course, 4*l.* 4s.; unlimited, 6*l.* 6s.

Surgery: Messrs. H. Clark and A. Prichard, Tuesday, Thursday, and Saturday, at a quarter after eight a.m. Sessional course, 4*l.* 4s.; unlimited, 6*l.* 6s.

Chemistry: Mr. W. Herapath, Tuesday, Wednesday, Thursday, and Friday, at a quarter after nine a.m. Sessional course, 5*l.* 5s.; unlimited, 8*l.* 8s.

Digitized by Google

General Anatomy and Physiology : Dr. Martyn and Dr. H. Fripp, Monday and Saturday, at a quarter-past nine ; Wednesday and Friday, at a quarter-past ten. Sessional course, 5*l.* 5s. ; unlimited, 9*l.* 9s.

Descriptive and Surgical Anatomy : Messrs. R. W. Coe and C. Leonard, Monday, Tuesday, Thursday, and Saturday, at a quarter-past ten a.m. Sessional course, 5*l.* 5s. ; unlimited, 9*l.* 9s.

SUMMER SESSION.

Botany and Vegetable Physiology : Mr. T. E. Clark, daily, Monday, Tuesday, Thursday, and Friday, at three p.m. Sessional course, 3*l.* 3s. ; unlimited, 5*l.* 5s.

Materia Medica and Therapeutics : Dr. G. F. Burder, daily, except Saturday, at eight a.m. Sessional course, 4*l.* 4s. ; unlimited, 6*l* 6s.

Midwifery : Dr. J. G. Swayne, daily, except Saturday, at nine a.m. Sessional course, 4*l.* 4s. ; perpetual, 6*l.* 6s.

Forensic Medicine : Mr. W. M. Clarke ; and *Chemical Toxicology,* Mr. W. Herapath, Monday, Tuesday, Thursday, and Friday, at nine a.m. Sessional course, 3*l.* 3s. ; unlimited, 5*l.* 5s.

Practical Chemistry : Mr. Herapath, daily, except Saturday. Sessional course, 3*l.* 3s.

Fee for the perpetual attendance on all the above courses, excepting practical chemistry, 47*l.* 5s.

The courses of lectures upon the practice of Medicine and upon Surgery will be illustrated by preparations from the Museum, as well as by numerous morbid specimens and cases from the practice of the Bristol Royal Infirmary.

The lectures upon General Anatomy and Physiology will be accompanied by numerous Microscopic Demonstrations, and further elucidated by an extensive series of diagrams and specimens from Human and Comparative Anatomy.

The students attending the course of Descriptive Anatomy will have every facility for devoting themselves to Practical Anatomy in the dissecting-rooms, under the superintendence of the Demonstrators.

The Chemical Lectures are illustrated by experiments, and by a very large collection of specimens, both organic and inorganic.

The Midwifery course will be illustrated by a valuable series of specimens from the Museum ; and the pupils attending it, when properly qualified, will be amply supplied with cases.

The collection of Materia Medica, to which students attending this course have free access, is good and complete.

The students of the Botanical Class attend the lecturer on herborizing excursions. Vegetable Physiology is made a prominent part of the course, and diagrams, as well as a very beautiful series of microscopical preparations of vegetable tissue, are used in illustrations of the subject.

Students from a distance can be provided with Board and Lodging, under the recommendation of the Faculty of the School.

The Honorary Secretary and the Registrar will attend at the School at stated times, of which notice will be duly given, for issuing and for registering tickets.

HOSPITAL PRACTICE.

BRISTOL ROYAL INFIRMARY.—This hospital contains 242 beds ; nearly 20,000 patients are annually under treatment, and of these more than 2,600 are in-patients.

Digitized by Google

The Fees are the following: Surgeon's Pupil, first year, 18*l.*; second year, 12*l.*; third year, 8*l.*; for three years, at one payment, 30*l.* Surgeon's Pupil (dresser), first year, 30*l.*; second year, 25*l.*; third year, 20*l.*; for three years, at one payment, 65*l.*; Physician's Pupil, for six months, 8*l.*; for one year, 15*l.*; for eighteen months, 20*l.*; perpetual, 25*l.*

Each pupil is required to pay an entrance-fee to the Infirmary of 5*l.*, and a subscription of 1*l.* per annum to the library.

The Dressers reside in the Infirmary in weekly rotation, free of expense, to attend upon the Casualties, and have unusual opportunities of becoming practically acquainted with the treatment of injuries and surgical maladies of all kinds.

Two Prizes, each consisting of a gold medal and seven guineas in money, are annually distributed to the successful candidates among the pupils of the Infirmary, after examinations held by the Physicians and Surgeons.

BRISTOL GENERAL HOSPITAL.—The hospital contains 115 beds. The total number of in and out-patients treated during the last six months has been at the rate of about 10,000 per annum.

The fees are as follows:—Medical practice, six months, 6*l.*; one year, 10*l.*; perpetual, 20*l.* Surgical practice, six months, 6*l.*; one year, 10*l.*; perpetual, 20*l.*

Library fee, one guinea per annum. Dressership or Clinical Clerkship, 5*l.* 5s., for six months.

Dressers reside in the House by rotation. Clinical Clerks have the privilege of examining and recording cases for private study.

Fee for the entire period of attendance required for the Members' examination at the Royal College of Surgeons, and for Licentiates' examination at Apothecaries' Hall, 33*l.* 3s.—This fee includes the use of the library.

Any student, desiring to do so, may pay a general fee, which will entitle him to all the hospital practice required by the College of Surgeons and the Society of Apothecaries, and to attendance (unlimited except in the case of Practical Chemistry) on every course of lectures delivered in the Bristol Medical School. This general fee is 83*l.* 11s.

Clinical Instruction: Lectures will be delivered by the Physicians and Surgeons at stated times in accordance with the new regulations; and general clinical instruction given during their daily visits. The out-patients are seen and prescribed for daily between twelve and two o'clock. The wards are visited daily from one to three o'clock.

Obstetric Department: Dr. Swayne attends twice a week to see patients affected with uterine disease, and will deliver a course of lectures on the Diseases peculiar to Women, for which a separate fee of 3*l.* 3s. is paid.

Practical Pharmacy: Students may receive private instruction in practical pharmacy on payment of a laboratory fee to the hospital.

Morbid Anatomy: Particular attention is paid to the study of Morbid Anatomy. Post-mortem examinations are conducted by Mr. Coe. The separate record of pathological appearances so obtained may be advantageously compared with the clinical diagnosis, which is registered in every case under the superintendence of Dr. Martyn. In the Museum will be found many interesting and instructive specimens.

The Library, attached to which is a commodious reading room, contains a good and increasing collection of medical works, an excellent microscope, and other physical apparatus. Occasional instruction in the use of the

Digitized by Google

microscope and chemical analysis, in connexion with the clinical teaching, will be given by the Faculty.

All fees are paid to the Secretary, Mr. Underwood. Further information relating to medical study will be afforded by Dr. Fripp, on application being made to him at the hospital.

The course of study required by each Examining Board, and all other particulars, may be known on application to the Hon. Secretary of the School,

HENRY FRIPP, M.D.

Medical School, Old Park, Aug. 1859.

CAMBRIDGE MEDICAL SCHOOL.

WINTER SESSION.

Principles of Pathology and Practice of Medicine: Dr. Bond, Monday, Wednesday, and Friday, at nine a.m. Unlimited, 5*l.* 5s.

General and Comparative Anatomy and Physiology: Dr. Clark, Monday, Wednesday, and Friday, at one p.m. 2*l.* 2s.

Human Anatomy and Physiology: Dr. Humphry, Tuesday, Thursday, and Saturday, at one p.m. Unlimited, 5*l.* 5s.

Chemistry: Professor Canning, Monday, Wednesday, and Friday, at twelve, 3*l.* 3s.

SUMMER SESSION.

Botany: Professor Henslow, Tuesday, Wednesday, Thursday, and Friday, at one p.m.

Materia Medica and Therapeutics: Dr. Fisher, Monday, Wednesday, and Friday, at twelve.

Practical Chemistry: G. Liveing, M.A., daily.

Clinical Lectures are delivered weekly at Addenbrooke's Hospital.

Attendance at the above lectures and at the hospital recognised by the Universities of Cambridge and London, and by the College of Surgeons and Society of Apothecaries, for one year.

HULL AND EAST RIDING SCHOOL OF MEDICINE AND ANATOMY.—KINGSTON-SQUARE.

WINTER SESSION.

Anatomy, Physiology, and Pathology: Mr. R. M. Craven, daily, at eight a.m. Sessional, 5*l.* 5s.; perpetual, 8*l.* 8s.

Anatomical Demonstrations: Dr. King, daily, at five p.m. Sessional, 4*l.* 4s.; perpetual, 6*l.* 6s.

Principles and Practice of Medicine: Dr. Daly, daily, at three p.m. Sessional. 5*l.* 5s.; perpetual, 7*l.* 7s.

Principles and Practice of Surgery: Mr. J. H. Gibson, Tuesday, Thursday, and Saturday, at four p.m. Sessional, 3*l.* 3s.; perpetual. 5*l.* 5s.

Chemistry: Mr. Beckett, Tuesday, Wednesday, Thursday, and Friday, at eight p.m. Sessional, 5*l.* 5s.

SUMMER SESSION.

Midwifery and Diseases of Women and Children: Mr. H. Gibson, daily, at seven a.m. Sessional, 4*l.* 4s.; perpetual, 6*l.* 6s.

Digitized by Google

Materia Medica and Therapeutics: Mr. Carnley, daily, at eight a.m. Sessional, 5*l.* 5s.; perpetual, 7*l.* 7s.

Forensic Medicine and Histology: Dr. Munroe, Monday, Wednesday, Friday, and Saturday, at three p.m. Sessional, 3*l.* 3s.; perpetual, 7*l.* 7s.

Botany: Mr. Niven, Monday, Wednesday, Friday, and Saturday, at three p.m. Sessional, 3*l.* 3s.; perpetual, 7*l.* 7s.

Practical Chemistry: Dr. Beckett. Sessional, 2*l.* 2s.

Perpetual to all the lectures, except Chemistry, 42*l.*

Attendance at the above lectures and at the hospital, which contains 152 beds, will confer the same qualification as is obtained in the medical schools of London.

Clinical Lectures will be given at the hospital twice a week. Medicine, Sir H. Cooper, Dr. Sandwith, and Dr. Baly; on Surgery, by Dr. Lunn, Mr. Craven, and Dr. King.

Perpetual fee for attendance on the medical and surgical practice, 21*l.*; Clinical Lectures, 1*l.* 1s.

The Library is open to students by an annual payment of ten shillings.

Application for tickets may be made to Mr. R. M. Craven, 14, Albion-street, Hull.

LEEDS SCHOOL OF MEDICINE.

WINTER SESSION.

Anatomy, Physiology, and Pathology: Messrs. Ikin and C. G. Wheelhouse, Monday, Tuesday, and Thursday, at twelve o'clock. First session, 4*l.* 4s.; second session and perpetual, 3*l.* 3s.

Anatomy, Descriptive: Messrs. W. N. Price and T. P. Teale, jun., Monday, Wednesday, Thursday, and Friday, at ten a.m. First session, 6*l.* 6s.; second session and perpetual, 5*l.* 5s.

Principles and Practice of Surgery: Messrs. Hey and Nunnelley, Monday, Wednesday, and Friday, at eight p.m. First session, 4*l.* 4s.; second session and perpetual, 3*l.* 3s.

Chemistry: Messrs. Morley and Scattergood, Monday, Wednesday, Thursday, and Friday, at six p.m. First session, 4*l.* 4s.; second session and perpetual, 3*l.* 3s.

Principles and Practice of Physic: Drs. Chadwick and Heaton, Monday, Tuesday, Wednesday, and Thursday, at five p.m. First session, 5*l.* 5s.; second session and perpetual, 3*l.* 3s.

Demonstrators: Mr. T. P. Teale, jun., and Mr. Hall.

SUMMER SESSION

Materia Medica and Therapeutics: Mr. Bishop, daily, except Saturday, at five p.m. First session, 4*l.* 4s.; second session and perpetual, 2*l.* 2s.

Midwifery and Diseases of Women and Children: Messrs. Smith and Braithwaite, daily, at seven a.m. First session, 4*l.* 4s.; second session and perpetual, 2*l.* 2s.

Forensic Medicine and Toxicology: Dr. P. Smith, Monday, Tuesday, Wednesday, and Friday, at one p.m. First session, 3*l.* 3s.; second session and perpetual, 1*l.* 11s. 6d.

Practical Chemistry: Mr. Scattergood, Monday and Thursday, at three p.m. 2*l.* 2s. each course.

Botany: Mr. W. Hall, Monday, Tuesday, Thursday, and Friday, at twelve o'clock. First session, 3*l.* 3s.; second session and perpetual, 1*l.* 11s. 6d.

Operative Surgery: Mr. Nunneley, and Mr. S. Hey.

Digitized by Google

Fee to all the courses required by the Examining Bodies, except Practical Chemistry, 42*l.*

Clinical Lectures at the General Infirmary, twice a week, on Medical Cases, by Drs. Chadwick and Heaton, and on Surgical Cases, by Messrs. Smith, T. P. Teale, and S. Hey. On Ophthalmic and Aural Practice, at the Eye and Ear Infirmary, by Mr. Nunnelley.

Medical Libraries are connected both with the School and the Infirmary.

Clinical Clerkships and Dressership. — Three Clinical Clerkships and Dresserships are at the disposal of the Physicians and Surgeons to the General Infirmary, and are gratuitous.

C. G. WHEELHOUSE, *Sec.*

LIVERPOOL ROYAL INFIRMARY SCHOOL OF MEDICINE.

WINTER SESSION.

Anatomy, Physiology, and Anatomical Demonstrations : Messrs. Fletcher and Waters, daily, at eight and half-past nine a.m. One course, 8*l.* 8s.

Chemistry and Pharmacy : Dr. J. B. Edwards, Tuesday, Thursday, and Saturday, at three p.m. One course, 5*l.* 5s.

Principles and Practice of Physic : Dr Inman, Monday, Tuesday, Wednesday, Thursday, and Friday, at five p.m. One course, 5*l.* 5s.

Principles and Practice of Surgery : Mr. Long, Monday, Wednesday, Thursday, and Friday, at six p.m. One course, 5*l.* 5s.

SUMMER SESSION.

Materia Medica and Therapeutics: Dr. Nevins, daily, at eight a.m. One course, 4*l.* 4s.

Botany : Dr. Collingwood, Monday, Wednesday, and Friday, at half-past nine a.m. One course, 3*l.* 3s.

Midwifery and Diseases of Women and Children : Messrs. Batty and Grimsdale, daily, at four p.m. One course, 4*l.* 4s.

Medical Jurisprudence : Drs. Cameron and Edwards, four days weekly, at three p.m. One course, 3*l.* 3s.

Practical Chemistry : Dr. Edwards, two days weekly, from six to eight p.m. One course, 3*l.* 3s.

Ophthalmic Medicine and Surgery : Dr. R. H. Taylor, Tuesday and Friday, at two p.m. One course, 1*l.* 1s.

Pathological Anatomy : Dr. W. H. Broadbent, on Wednesday, at three p.m. One course, 1*l.* 1s.

Fees to all the lectures required by the Hall and College (including practical Chemistry), 45*l.*, payable in advance.

ANNUAL EXHIBITIONS.

Royal Infirmary Medical Scholarship : Value 42*l.* consisting of a Gold Medal value 10*l.* 10s. and six months' free board and residence, with dressership and Clerkship, in the Royal Infirmary. In case the scholarship is gained by a resident pupil, six months' payment (31*l.* 10s.) will be returned to him.

Four Exhibitions : Value 31*l.* 10s. each, consisting of free board and residence in the Royal Infirmary for six months, with dressership on award of the Medical Board.

Digitized by Google

HOSPITAL PRACTICE.

Students are admitted to the Medical and Surgical Practice of the Liverpool Royal Infirmary from ten a.m. to one p.m. daily.

Fees for Medical and Surgical Practice.—For six months, 10*l.* 10*s.*; for the First Year, 18*l.* 18*s.*; for the Second, 12*l.* 12*s.*; for the Third, 10*l.* 10*s.*; for Three Years, 36*l.* 15*s.* *No additional fees whatever.*

MANCHESTER ROYAL SCHOOL OF MEDICINE AND SURGERY,

Grosvenor-street, Piccadilly.

WINTER SESSION.

General and Microscopic Anatomy and Physiology: Messrs. T. Turner, and W. Smith.
Descriptive Anatomy and Dissections: Mr. E. Lund and Mr. F. A. Heath.
Chemistry: Mr. D. Stone.
Principles and Practice of Medicine: Drs. T. H. Watts and H. Browne.
Principles and Practice of Surgery: Messrs. A. W. Dumville and G. Southam.

SUMMER SESSION.

Obstetric Medicine and Diseases of Women: Mr. A. M. Heath and Dr. J. Whitehead.
Materia Medica and Therapeutics: Mr. A. Somers.
Pathology and Morbid Anatomy: Dr. W. Roberts.
Forensic Medicine: Messrs. G. Greaves and G. M. Harrison.
Botany: Mr. L. Grindon.
Anatomy, Physiology, and Pathology of the Eye: Messrs. R. T. Hunt and E. Lund.
Practical Chemistry: Mr. D. Stone.

HOSPITAL PRACTICE

At the Royal Infirmary, where Clinical Lectures on Medicine and Surgery are regularly delivered by the Physicians and Surgeons of the Institution.

Scholarships.—Three Scholarships for Perpetual Pupils will be offered for competition during the Session:—One of 20*l.* for third year's Students; one of 15*l.*, for second year's Students; one of 10*l.*, for first year's Students.

Prizes and Certificates of Honour are annually awarded for general proficiency.

Diplomas and Degrees.—The Lectures qualify for examination at the Royal College of Surgeons and Apothecaries' Society; and the Students of this School are admitted to Degrees in Medicine, and for the Honours, Exhibitions, and Scholarships conferred by the University of London.

Connected with this School are Museums of Human and Comparative Anatomy and Materia Medica, a Chemical Laboratory, a Library, and a Medical Society.

The Winter Session commences on the 1st of October, and terminates at the end of March. The Summer Session begins on the 1st of May, and terminates at the end of July.

Perpetual Fee to the whole of the Lectures required to qualify for Examination at the London University, the Royal College of Surgeons, and the Society of Apothecaries, Forty Guineas.

Digitized by Google

The Register of Tickets for the Winter Courses is open from October 1st to October 15th, 1859, and for the Summer Courses, from May 1st to May 15th, 1860.

Further particulars may be obtained from the Registrar, Mr. Southam, or from any of the Lecturers.

NEWCASTLE-UPON-TYNE COLLEGE OF MEDICINE, IN CONNECTION WITH THE UNIVERSITIES OF DURHAM AND LONDON.

WINTER SESSION.

Physiology: Dr. D. Embleton and Dr. R. H. Wilson, twice a week, at eight a.m.

Anatomy, Practical and Surgical: Dr. T. F. McNay, four days a week, at nine a.m.

Dissections: Dr. T. F. McNay, daily, from eleven.

Principles and Practice of Physic: Drs. E. Charlton and G. Robinson, Monday, Wednesday, and Friday, at five.

Mental Diseases: Dr. G. Robinson.

Principles and Practice of Surgery: Dr. G. Y. Heath, Monday, Wednesday, and Friday, at seven p.m.

Principles of Chemistry: Dr. T. Richardson and Mr. E. J. J. Browell, Wednesday, Thursday, Friday, and Saturday, at eight a.m.

SUMMER SESSION.

Botany and Vegetable Physiology: Messrs. R. B. Sanderson, jun., and J. Thornhill, Monday, Wednesday, Thursday, and Friday, at nine a.m.

Medical Jurisprudence: Dr. W. Robinson and Mr. W. Chater, Solicitor, Monday, Tuesday, Thursday, and Friday, at four p.m.

Materia Medica and Therapeutics: Dr. T. Humble, daily, at five p.m.

Midwifery and the Diseases of Women and Children: Drs. S. M. Frost, W. Dawson, and C. Gibson, daily, at eight a.m. Cases are supplied by the Lecturers.

Operative Surgery: Dr. G. Y. Heath.

Practical Chemistry: Dr. T. Richardson and Mr. E. J. J. Browell, daily, at ten a.m. till five p.m.

Pathological Anatomy: Dr. S. Fenwick and Dr. C. J. Gibb, Wednesday, at four.

Medical Ethics: Dr. T. M. Greenhow.

Fees for Lectures.—Perpetual fee for all the Lectures qualifying for the Licence in Medicine of the University of Durham, the Diploma of the College of Surgeons, and the Licence of the Apothecaries' Society, payable on entering to the first Winter Session, is Forty-four Guineas.

The Courses of Lectures delivered in this College are open to all Students, whether they intend to Matriculate at the University of Durham, or the University of London, or pass the Examinations of the Royal College of Surgeons, or the Society of Apothecaries.

Students of this College who matriculate at the University of Durham are enabled to proceed in the first place to a Licence in Medicine, and then to the Degrees of Bachelor and Doctor of Medicine.

The course required is as follows: One year's residence in the University of Durham, and attendance on lectures similar to those given to Students

Digitized by Google

in Arts in their first year. At the end of this year all Students in Medicine are required to pass an examination in the Rudiments of Religion, Literature, and Science.

Students of Medicine who have passed their first examination must afterwards pursue their studies for three years in the College of Medicine at Newcastle, and then, preparatory to obtaining a licence in Medicine, pass at Durham and Newcastle the final examination, which will be directed to the Medical Sciences.

Licentiates in Medicine may proceed to the Degrees of Bachelor and Doctor of Medicine, by performing such exercises as the Warden and Senate of the University of Durham shall appoint. Such Licentiates being of the standing of twenty-one terms from the date of Matriculation for the Degree of Bachelor, and of thirty-three terms for the Degree of Doctor of Medicine.

HOSPITAL PRACTICE.

THE NEWCASTLE INFIRMARY contains 230 beds. Clinical lectures are regularly delivered. According to the last report, 1,573 in-patients, 1,635 out-patients, and 8,593 casual patients were attended at this Institution.

Medical and Surgical Practice.—Twelve months, seven guineas; six months, five guineas; three months, four guineas; perpetual, seventeen guineas. An extensive Library is open to the students attending the Infirmary.

Clinical Clerkships.—There are two resident and two non-resident Clinical Clerks, selected by the Medical Board from among the most meritorious of the Students, to hold office for six months, and to be re-eligible at the expiration of that time. The Resident Clerks pay 10*l.* 10*s.* for their Board.

Dresserships.—The four Dresserships are at the disposal of the Surgeons of the Infirmary, and are gratuitous.

The Museum of the College will be open daily, for the use of students.

Medical Scholarships in the University of Durham. The following grace was passed in convocation of the University, June 17th, 1856: "Four Scholarships, of 25*l.* a year each, shall be founded, tenable each for four years by students pursuing their medical studies in the University or at Newcastle, and not of sufficient standing to proceed to a Licence in Medicine."

Perpetual tickets to all the lectures, qualifying for the Diploma of the College of Surgeons, and the Licence of the Apothecaries' Company, and the Licence in Medicine in the University of Durham (exclusive of Practical Chemistry), forty guineas.

The Book of Registration will be closed on the 21st of October and on the 14th of May.

Further particulars may be learned from any of the lecturers, and tickets obtained from the Registrar.

D. EMBLETON, M.D., *Registrar.*
T. F. MCNAY, M.D., *Secretary.*

SHEFFIELD MEDICAL INSTITUTION.

WINTER SESSION.

General Anatomy and Physiology: Messrs. Skinner, Allanson, and Dr. Eastwood, daily, at four p.m. One course, 4*l.* 4*s.*

Digitized by Google

Practical Anatomy and Demonstrations: Mr. H. Walker and Mr. Benson, daily, at one p.m. One course, 2*l.* 2s.

Principles and Practice of Medicine: Drs. Bartolomé and Smith, daily, at five p.m. One course, 4*l.* 4s.

Principles and Practice of Surgery: Mr. Barber and Mr. W. F. Favell, three days in the week. One course, 3*l.* 3s.

Chemistry: Dr. Bingley, daily, at one p.m. One course, 6*l.* 6s.

SUMMER SESSION.

Botany: Mr. Walker and Mr. Birks, daily, at four p.m. One course, 3*l.* 3s.

Midwifery and the Diseases of Women and Children: Mr. W. Jackson, daily, at five p.m. One course, 3*l.* 3s.

Materia Medica and Therapeutics: Drs. Shearman and Jackson, daily. One course, 4*l.* 4s.

Medical Jurisprudence: Dr. Law, daily, at eight p.m. One course, 3*l.* 3s.

Clinical Lectures are given by Dr. Bartolomé on his practice at the Infirmary.

Clinical Lectures on Surgery are given by the Surgeons at the Infirmary.

The fees for all the lectures required by the College of Surgeons, and the Society of Apothecaries, will not exceed 42*l.* This, however, is exclusive of the fee for Practical Chemistry, which must be subject to special arrangement with the Lecturer.

House pupils will be received by some of the Lecturers.

A prospectus and every information may be obtained by addressing to the Hon. Sec., Mr Barber, 2, Eyre-street, Sheffield.

*CAMBRIDGE PHILOSOPHICAL SOCIETY.—Established 1819; chartered 1832. *Pres.*, Dr. Paget; *Vice-Pres.*, Dr. Clark, Profs. Miller and Willis; *Secs.*, Messrs. Babington, Adams, and Liveing. This Society is composed of Graduates of the University, and it publishes "Transactions."

CANTERBURY.—EAST KENT AND CANTERBURY MEDICAL SOCIETY.—Established 1839. Object: The circulation of books, the formation of a permanent Medical Library, holding periodical meetings for promoting Medico-Chirurgical knowledge, and collecting pathological specimens for a Museum. *Pres.*, Mr. E. Garraway (Faversham); *Vice-Pres.*, Mr. C. Holttum (Canterbury); *Treas.*, Mr. T. S. Cooper; *Gen. Hon. Sec.*, Mr. J. Reid (11, Bridge-street, Canterbury); *Hon. Sec. for Book Circulation*, Mr. R. Tassell (Canterbury); *Comm.*, Dr. Lochèe, Mr. P. B. Hallowes, Mr. R. C. Kersey, Mr. A. Sicard, and Mr. G. Rigden. Periodical meetings are held in Canterbury at the County Hospital, and in the neighbouring towns in East Kent, for the presentation of pathological specimens, and reading papers upon subjects of medical science. The Annual Meeting is held at the County Hospital, on the first Thursday in August. The Library contains upwards of 1,700 volumes, and is mainly supported and increased by donations and contributions from two Book Societies in the district of East Kent.

*CHESTER MEDICAL AND ETHICAL SOCIETY.—Established for the discussion of medical subjects, reading of papers, &c. &c. *Sec. and Treas.*, Mr. T. Brittain, Bollands Court, Chester. Meetings are held generally in the first week of each month during the winter, in the Library of the General Hospital.

DERBY TOWN AND COUNTY MUSEUM AND PHILOSOPHICAL SOCIETY.—The former founded in 1836; the latter established by the late Dr. E. Darwin, in 1784. Amalgamated 1858. *Pres.*, Lord Belper; *Secs.*, Mr. L. Jewitt and Mr. J. Jones. Meetings are held every alternate month, at which papers are read, and objects of interest exhibited. The Museum is one of the best in the Provinces, and the Library extensive and scientific.

*ESSEX AND HERTS MEDICAL BENEVOLENT SOCIETY. — Established 1786.

FALMOUTH.—ROYAL CORNWALL POLYTECHNIC SOCIETY.—Established 1833. *Pres.*, Sir C. Lemon, Bart., F.R.S.; *Sec.*, Mr. S. Hodges. An Annual Exhibition is held in the Autumn of each year, in the Polytechnic Hall.

GLOUCESTERSHIRE MEDICAL AND SURGICAL ASSOCIATION.—Established 1840. *Pres.*, Mr. T. Warner; *Comm.*, Dr. Abercrombie, Dr. Evans,

* No return from the Secretary for the present year.

Messrs. W. Jessop, J. Cornewall, A. Eves, Dr. Robertson, Dr. Wright, Dr. Washbourn, Messrs. Wilton, Holbrow, Hickes, and Dr. Davey; *Hon. Sec.*, Mr. J. W. Wilton. This Society meets quarterly at the appointed cities in the county, on the second Thursday in January, April, July, and October, at three o'clock. The Annual Meetings are held on the second Thursday in July, at either Gloucester or Cheltenham.

---

*GREENWICH.—WEST, KENT MEDICO-CHIRURGICAL SOCIETY, GREENWICH-ROAD.—Instituted 1856. *Pres.*, Mr. J. Sutton; *Vice-Pres.*, Dr. D. King and Dr. F. Bossey; *Counc.*, Mr. C. C. Cogan, Mr. C. Nind, Dr. Hoggan, Mr. A. Jones, Dr. C. Taylor, Mr. R. Mitchell, Dr. R. Venables; *Treas.*, Dr. P. Purvis; *Sec.*, Dr. R. W. Eve; *Asst.-Sec.*, Mr. A. Jones; *Libr.*, Mr. T. J. Ryder. The chief objects of the Society are to read papers and discuss subjects in connexion with the cultivation and promotion of the science and practice of Medicine and Surgery. The Society consists of Honorary, Corresponding, and Ordinary Members. The Officers are elected annually from the Members. The General Meetings are held in the Committee Room of the Royal Kent Dispensary, Greenwich-road, on the second Friday of every month, at eight p.m., from October to May, inclusive. Number of members, 113.

HASTINGS.—EAST SUSSEX MEDICO-CHIRURGICAL SOCIETY.—Established 1851. *Comm.*, Dr. Moore, Mr. J. C. Savery, Dr. Turner, Mr. Wallis, Mr. Watts; *Secs.*, Dr. Greenhill and Mr. Penhall. Number of Members, 45. Meetings are held at the Members' houses monthly. An Annual Meeting is held at Hastings, when papers on medicine and the collateral sciences are read and discussed. There is a Library, containing upwards of 900 volumes, connected with the Society.

HUDDERSFIELD MEDICO-ETHICAL SOCIETY.—Established in 1852, at the Infirmary. *Pres.*, Dr. Wm. Turnbull; *Vice-Pres.*, Mr. George Robinson; *Treas.*, Mr. Samuel Booth; *Hon. Secs.*, Dr. W. Scott and Mr. G. W. Rhodes; *Comm.*, Messrs. W. Greenwood, W. J. Clarke, R. Sissons, Wm. Robinson, Roberts, and Allatt. The objects of this Society are to maintain proper professional usage and etiquette; to maintain the interests and support the respectability of the Profession; also the powers to correspond, as an Association, with other bodies or individuals on any subject involving mutual interests, &c. &c. This Society has been already of great advantage to the medical gentlemen of this district, and will, no doubt, be the means of cementing still closer the interests of each, and diminish or prevent the abuses so often complained of in the Medical Profession. Quarterly Committee Meetings are held on the first Friday in March, June, September, and December; and Annual General Meetings at the Huddersfield Infirmary, on the first Friday in June, at four p.m. The Bye-laws of this Society are very stringent; they are divided into three Sections—1. The Disqualification from Membership; 2. The Code of Medical Etiquette; and 3. "On the Adjudication of Disputes." And each member has to subscribe the following declaration:—"I hereby pledge

myself to conform to the laws and bye-laws of the Medico-Ethical Society of Huddersfield, and to maintain its honour and welfare to the utmost of my power."

ISLE OF WIGHT MEDICAL REGISTRATION ASSOCIATION.—*Hon. Sec.*, Dr. Castle (Newport). Meetings are held at the Guildhall.

ISLE OF WIGHT MUSEUM SOCIETY.—Founded in 1852, for the Exhibition of the Natural and Historical Productions of, and pertaining to, the Isle of Wight. *Pres.*, Rev. E. B. James; *Hon. Curator*, Dr. E. P. Wilkins (Newport). Meetings are held in March, June, September, and December.

ISLE OF WIGHT INSTITUTION.—Established in 1801, for Literary and Philosophical purposes. *Pres.*, Right Hon. Earl of Yarborough. *Hon. Sec. and Treas.*, Dr. E. P. Wilkins (Newport). The Library contains 4,000 volumes. Number of members and subscribers, 92. Meetings are held on the fourth Tuesday of every month. Annual Meeting, the first Monday in June.

ISLE OF WIGHT MEDICAL ASSOCIATION.—The Meetings are held quarterly. *Hon. Sec.*, Dr. E. P. Wilkins (Newport).

KENT BENEVOLENT MEDICAL SOCIETY.—Established 1787, for the relief of widows and orphans of medical men, and of themselves under particular circumstances, in the county of Kent. Meetings are held at Greenwich, Maidstone, and Canterbury, alternately. *Pres.*, Mr. R. J. Starling; *Vice-Pres.*, Mr. H. M. Gould; *Treas.*, Mr. H. Denne; *Asst. Sec.*, Mr. T. Southee, Kent and Canterbury Hospital; *Sec. for East Dist.*, Mr. R. Ford (Canterbury); *Sec. Middle Dist.*, Mr W. Joy (Maidstone); *Sec. West Dist.*, Mr. J. Sutton (Greenwich).

LEEDS.—WEST RIDING OF YORKSHIRE MEDICAL CHARITABLE SOCIETY.—*Pres.*, Dr. Kendell; *Vice-Pres.*, Mr. Coates (Bradford); Mr. Moore (Doncaster); Dr. W. Alexander (Halifax); Mr. Nunneley (Leeds); Mr. Sayle (Pontefract); Dr. Paley (Ripon); Mr. Favell (Sheffield); Mr. Statter (Wakefield); *Treas.*, Mr. W. Hey; *Sec.*, Dr. Chadwick, Park-square. The next Annual Meeting will be holden at Wakefield on the second Thursday in July, 1860.

*LEICESTER MEDICAL SOCIETY.—Established for the maintenance of a Library, and the discussion of medical subjects. *Pres.*, Dr. Shaw; *Sec.*, Mr. C. R. Crossley, Granby-st. Meetings are held in the Library, at 5, Gallowtree Gate, on the evenings of the first Tuesday in each month, from November to May, inclusive. Half-yearly Meetings are also held in June and December.

LIVERPOOL LITERARY AND PHILOSOPHICAL SOCIETY.—Established 1812. *Pres.*, Rev. H. H. Higgins; *Vice-Pres.*, Dr. T. Inman, Prof. T. C. Archer, and J. B. Edwards, Ph. D.; *Treas.*, Mr. I. Byerley; *Hon. Sec.*, Dr. D. P. Thomson; *Counc.*, Mr. A. Higginson, H. Duckworth, C. Collingwood, J. C. Redish, Rev. J. Robberds, Dr. Nevins,

* No return from the Secretary for the present year.

Principal Clerks.

Paid Officers' Correspondence—J. Bellamy, Esq.

Legal Department—Danby P. Fry, Esq.

Order Department—A. H. Montucci, Esq.

Vaccination—T. Austin, Esq.

Statistics—F. Purdy, Esq.

Architect—C. W. Savage, Esq.

To facilitate reference to this List, the following explanation is necessary:—

1. The COUNTIES are arranged *alphabetically;* as are also the UNIONS under each County.

2. Each *paragraph* contains the particulars of *one union.* The name of the

Digitized by Google

Union is given in *small capitals*, and the name of each district in *italics*. The letter P. is placed before the *Population*, and the letter A. before the *Area* in *Acres*. Then follows the name of the Medical Officer, with the amount of his salary.

3. To a few of the Unions an asterisk * has been prefixed, to signify that the Clerks of such Unions have not replied to the enquiries forwarded to them. For the correctness of the entries so marked, the Editors do not hold themselves responsible.

4. In those cases where the amounts of extras have been given, it may, *as a rule*, be inferred that both medical fees and vaccination charges have been included.

BEDFORD.

AMPTHILL: *Clerk*, John Wright.—*Ampthill*, P. 5,593, A. 12,744; And. Hamilton, 100*l.*——*Cranfield*, P. 2,698, A. 7,671; John F. Williams. 50*l.*——*Shitlington*, P. 4,136, A. 11,356; Charles C. Hailey, 90*l.*——*Westoning*, P. 4,115, A. 9,780; Wm. Saml. Slinn, 100*l.*——*Workhouse*, Thos. Chapman, jun. 60*l.*

ADVERTISEMENTS.

AMICABLE LIFE ASSURANCE SOCIETY,

50, FLEET-STREET, LONDON.

Incorporated by Charter of Queen Anne, A.D. 1706, and empowered by Special Acts of Parliament.

DIRECTORS.

Francis Geo. Abbott, Esq.	Mr. Serjeant Merewether
Benjamin John Armstrong, Esq.	Robert Obbard, Esq.
John Barker, Esq.	George Ogle, Esq.
Richard Holmes Coote, Esq.	Mark Beauchamp Peacock, Esq.
George De Morgan, Esq.	The Right Hon. Sir E. Ryan
Charles Fiddey, Esq.	George Trollope, Esq.

PHYSICIANS.

Francis Boott, M.D., 24, Gower-street, Bedford-square.
Theophilus Thompson, M.D., F.R.S., 3, Bedford-square.

SOLICITOR.

Charles Rivington, Esq., Fenchurch-buildings.

BANKERS.

Messrs. Goslings and Sharpe, Fleet-street.

This Society has been established upwards of 150 years, and is the oldest Life Assurance Institution in existence. Its principles are essentially those of Mutual Assurance, and the whole of the profits are divided among the members.

By a recent alteration of the Bye-Laws of the Society, policies are now granted on the bonus plan, entitling the assured to a bonus at the expiration of every five years, instead of seven years, from the date of each policy.

Assurances may be effected for any sum not exceeding 7,000*l.* on one and the same life, either with or without participation in profits.

In the event of a life assured dying within three calendar months after the day stipulated for the payment of the annual premium, although such premium be unpaid at the time of the decease, the policy will continue in force, provided the premium be paid (pursuant to the Society's Bye-Laws) before the expiration of three calendar months from the day on which it became due.

The rates of premium are moderate; the sums assured are guaranteed by a large accumulated capital invested in the Government funds, freehold estates, and other approved securities; and the expenses of management amount only to about 3 per cent. on the annual income.

Loans are granted upon mortgage of freehold estates, life interests, &c.; and also upon the security of the Society's policies after three years' payments have been made.

Prospectuses and every information may be obtained at the Office.

HENRY THOMAS THOMSON, Registrar.

Samuel Gurney, Esq., M.P.	Thomas Charles Smith, Esq.

PHYSICIAN.—Dr. G. Owen Rees, 26, Albemarle-street. W.

Life Assurances are granted under an extensive variety of forms, and at Moderate Premiums; the Rates for the *Younger Ages* being lower than those of many of the older and most respectable offices.

Participation of Profits. *Four-fifths*, or Eighty per Cent. of the declared Profits will be divided quinquennially among those entitled to participation.

Non-participating Scales of Premium. Policies issued at minimum Rates without participation in profits.

The risk of actual Service within the United Kingdom in Volunteer Rifle Corps, and in the Militia, is covered by the Company.

Life Policies are not liable to Forfeiture by the Lives Assured proceeding beyond the prescribed limits without the cognisance of the holders of such Policies.

Reduced Extra Rates for residence out of Europe.

No charge for Stamps or Medical Fees.

Fire Assurances, both at home and abroad, are accepted at very Moderate Premiums.

Losses by *Lightning* are made good; and the Company are liable for Losses by *Explosion*, except when occasioned by Gunpowder, or in cases specially provided for in the Policy.

Detailed Prospectuses will be furnished on application.

FRANCIS A. ENGELBACH, Actuary and Secretary.

FIRE PROFITS TO THE ASSURED.

The Profits appropriated at the last Quinquennial Meeting to the assured *in the Fire Branch* of the Company—in respect of such policies as had then been in force five complete years—are now in course of distribution.

PHYSICIAN—Dr. Jeaffreson, 2, Finsbury-square.
SURGEON—W. Coulson, Esq., 2, Frederick's-place, Old Jewry.
ACTUARY—George Clark, Esq.
SOLICITOR—William Fisher, Esq.

ADVANTAGES OF ASSURING WITH THIS COMPANY.

The Premiums are on the lowest scale consistent with security.

The Assured are protected by an ample subscribed capital—an **Assurance Fund** of upwards of 480,000*l.* invested on Mortgage and in the Government **Stocks**—and an Income of 85,000*l.* a year.

Premiums to Assure £100.			Whole Term.	
Age.	One Year.	Seven Years.	With Profits.	Without Profits.
20	£0 17 8	£0 19 9	£1 15 10	£1 11 10
30	1 1 3	1 2 7	2 5 5	2 0 7
40	1 5 0	1 6 9	3 0 7	2 14 10
50	1 14 1	1 19 10	4 6 8	4 0 11
60	3 2 4	3 17 0	6 12 9	6 0 10

MUTUAL BRANCH.

Assurers on the Bonus system are entitled, at the end of **five years, to participate** in nine-tenths, or 90 per cent. of the profits.

The Profit assigned to each Policy can be added to the sum **assured, applied** in reduction of the annual premium, or be received in cash.

At the first division a return of 20 per cent. in cash on the **premiums paid** was declared; this will allow a reversionary increase varying, **according** to age, from 66 to 28 per cent. on the premiums, or from 5 to 15 **per cent.** on the sum assured.

One-half of the "whole-term" premium may remain on credit for seven **years**, or one-third of the premium may remain for life as a debt upon the **policy** at 5 per cent., or may be paid off at any time without notice.

Claims paid in One Month after proofs have been approved.

Loans upon approved security.

NO CHARGE FOR POLICY STAMPS.

Medical Attendants paid for their reports.

Persons may, in time of peace, proceed to, or reside in, any part of **Europe** or British North America, without extra charge.

No extra charge for the Militia, Volunteer, Rifle, or Artillery Corps on **Home** Service.

The Medical Officers attend every day at a quarter before Two o'clock.

E. BATES, Resident Director.

ATLAS FIRE AND LIFE ASSURANCE COMPANY,

92, CHEAPSIDE, LONDON. E. C.

Instituted 1808. And empowered by an Act of Parliament of the 54th Geo. III.

DIRECTORS.

John Oliver Hanson, Esq., Chairman.

William George Prescott, Esq., Deputy-Chairman.

Sir William Baynes, Bart.
Arthur Edward Campbell, Esq.
Thomas Chapman, Esq., F.R.S.
Benjamin Buck Greene, Esq.
Joseph Grote, Esq.
John George Maclean, Esq.
Samuel Eustace Magan, Esq.
Capt. Alex. L. Montgomery, R.N.
Joseph Pulley, Esq.
Arthur Augustus Rasch, Esq.

AUDITORS.—John Oliver Hanson, jun. Esq. and Philip Ainslie Walker, Esq.

ACTUARY.—Charles Ansell, Esq., F.R.S. SECRETARY.—Richard Ray, Esq.

SOLICITOR.—Thomas Browning, Esq.

BANKERS.—Messrs. Prescott, Grote, Cave, and Cave.

This Office has been established more than fifty years, ample time to prove the soundness of the principles on which it has been conducted.

LIFE DEPARTMENT.

The following statement will show the magnitude to which this branch of the Office business has extended.

The Accumulated Life Premiums are over	£1,600,000
And the Annual Income of the Department exceeds	186,000
The aggregate amount assured by Life Policies is more than	4,020,000
Claimants under Life Policies have received from the Office a total sum of	3,373,400
The ascertained surplus at the several divisions of profits amount to an aggregate sum of	1,678,537

The whole of which was appropriated to the Policy-holders.

Persons assuring on the Participating Scale of Premiums, in Great Britain or Ireland *respectively*, will be entitled, at the end of every fifth year to participate in the Surplus Premiums, to be then ascertained by actual valuation.

Bonuses have been declared on Policies to an amount **greater than the sums originally assured.**

Premiums have been extinguished, where the parties assured have applied the bonus in reduction of the Annual Premiums.

The following TABLE shows the **total additions** made to Life Policies for £1,000, effected in London or through an Agent in Great Britain which had been in force for the Thirty-eight Years ending at **Christmas 1854.**

Date of Policy.	Age at commencement.	Annual Premium.	BONUS. Gross Additions to the Sum assured.	BONUS. Equivalent to the following per-Centage on the Premiums paid to the Company.
Dec. 25, 1816	25	£24 0 10	£740	£81 0 0
do.	30	26 14 2	804	79 4 4
do.	35	29 18 4	896	78 16 4
do.	40	33 19 2	1055	81 15 2
do	45	38 19 2	1284	86 14 8
do.	50	45 6 8	1721	99 18 1
do.	55	53 3 4	2224	110 1 7

Persons assuring in Great Britain have the option of

Participating Rates of Premium, or of

Non-Participating Rates.

The Premiums may be made payable annually or half-yearly, so long as the [illegible] lives; or they may cease at any given period.

Digitized by Google

Combined provision may be made for Old Age and early Death, so that a person may secure a sum of money *for himself*, to be paid at a stipulated Age, if he should live so long, or to be paid to his Executors if he should die before that age. This feature in the Atlas Office arrangements deserves particular attention, as likely to meet the requirements of a large number of persons.

Policies are also issued **on the Lives of two or more Persons**, payable on the death of the *first*, or on the death of the *last*; or to provide against the risk of one person dying before another.

On Assurances for the whole term of Life, **one-fourth part of the Annual Premium may be suffered to remain as a debt on the Policy.**

The Directors desire it to be understood that they are ready to receive proposals for Assurances on any contingency involving payment of a sum at death.

No Extra Premium is required for the voyage to, or residence in any part of Europe, during peace. Nor on the lives of persons in the army or navy while residing in the United Kingdom, in the time of peace.

Advances are made on Life Policies to the extent of their value. Or the Directors will purchase the Interest of the Assured at an equitable price.

Lapsed Policies may be revived within three months.

Policy Stamps are not charged for.

FIRE DEPARTMENT.

Renewals should be paid within fifteen days after the respective Quarter-days when they become due.

The Company undertakes the assurance of Property in the Manufacturing, Agricultural, and other districts, on favourable terms. Risks of extraordinary hazard on special agreement, upon survey.

An Allowance for the loss of Rent of Buildings rendered untenantable by Fire is one of the advantages offered by the Company.

Tables of rates, forms of proposal, and any information needful to effect Life or Fire Assurances, may be obtained on application to the Office, No. 92, Cheapside, London, or to any of the Company's Agents.

London, 1st Dec., 1859.

ALBERT LIFE ASSURANCE AND GUARANTEE COMPANY.

(Established 1838.)

PRINCIPAL OFFICE, No. 7, WATERLOO-PLACE, PALL-MALL, LONDON.

LIFE DEPARTMENT.

Assurances, Annuities, and Endowments granted, and every provision for families arranged. Premiums on the half-credit system. Extension of limits for voyaging and residence at ordinary rates. Naval and Military Lives, not in active service, assured at ordinary rates. Facilities for revival of lapsed policies.

GUARANTEE DEPARTMENT.

In this department the Company guarantees the fidelity of persons filling or about to fill situations of trust; and when a Life Assurance is combined with such guarantee, a considerable reduction is made in the premium for the latter.

Prospectuses, Forms of Proposal, and every information obtained at the Offices of the Company, or by letter addressed to

HENRY WILLIAM SMITH, Actuary and Secretary.

ASSURANCES may be effected on Lives, Survivorships, &c. &c., as stated in the Society's Prospectus, to any amount not exceeding 5,000*l.*

The whole available Bonus is the sole property of Life Assurers, no part whatever is taken from it to be shared amongst proprietors. The greatest advantage to Life Assurers necessarily results from this principle of Mutual Assurance, that at the end of every fifth year return is made to every Assurer of that which is then found to be an excess of payment made by him, beyond that which the circumstances of the case required, as proved by experience.

The Fee to the Medical Referees is paid by the Society.

Applications for Prospectuses, or further information, to be made at the Office, 3, BROAD SANCTUARY, WESTMINSTER.

This Society is strictly confined to the Clergy of the Church of England and of the Episcopal Church of Scotland, their wives and families, and the near relations of themselves and wives, and is distinguished from other institutions by the title of

"THE CLERGY MUTUAL ASSURANCE SOCIETY."

SECURITY COMBINED WITH ADVANTAGE.

The **Sum Assured** now exceeds 2,425,000*l.*
The **Funds Invested** amount to 847,000*l.*
The **Annual Income** is upwards of 116,000*l.*
The **Bonuses** added to Policies amount to 320,180*l.*
The **Sums Paid** to the representatives of deceased Members exceed 1,150,000*l.*, and during the Thirty-five years of its existence the Company has not in a single instance been engaged in litigation with respect to the payment of the claims.

The **Policies** are issued *free of expense*, the **Policy Stamp and Medical Fees** being paid by the Company, and no Entrance-money is charged.

The **Assurer's Fund** is not subject to any charge for Interest to Proprietors.

The **Surrender Value** of a Policy will be paid in Cash; or, if preferred, a **New Policy** will be issued for an equivalent sum, for which no future Premium will be required.

Loans are granted to the Assured at any time, to the extent of the Surrender Value of the Policy.

A Policy may be *exchanged* by the substitution of a healthy and approved life, the new Policy being entitled to advantages, by way of Bonus or otherwise, *equivalent* to those attaching to the original Policy.

The **Usual Commission** allowed to Solicitors and others introducing Assurances at the Head Office.

By Order of the Directors,

B. HALL TODD, *Secretary and Actuary.*

Special Notice.

Persons Assuring with the Company before 25th March, 1860, will be entitled to share in the Profits then to be divided, and in every fifth year thereafter so long as their policies remain in force.

CHURCH OF ENGLAND LIFE AND FIRE ASSURANCE INSTITUTION.

HEAD OFFICE.—5, LOTHBURY, LONDON.

Established 1840, *and Empowered by Special Act of Parliament*, *4 & 5 Vic. Cap. XCII.*

SUBSCRIBED CAPITAL, **ONE MILLION.**

(A List of the Proprietors periodically Enrolled in the High Court of Chancery.)

LIFE DEPARTMENT.

This Institution adopts both the **Proprietary** and **Mutual** systems of Life Assurance, and the Policy-holders IN BOTH BRANCHES are fully protected by the *large Subscribed Capital* of the Company. The Rates of Premium are reduced in all cases as far as is compatible with stability, and especially favourable for *young and middle-aged lives.*

In the **Mutual Branch** of this Institution, the Policy Holders are entitled to the *Entire Profits* of the Branch, thus enjoying all the advantages of a strictly Mutual Assurance Society, together with the security of an ample Proprietary Capital.

In the **Proprietary Branch,** Assurances may be effected in a great variety of ways, to suit the circumstances and convenience of the Assured. Among others, where the Policy is made payable "On the Assured attaining *Sixty* years of age, *or at Death*, if that event should happen previously," is particularly deserving of attention.

Prospectuses, the necessary Forms, and every requisite information for effecting Assurances, may be obtained on application at the Head Office, as above, or to any of the Agents of the Company.

WM. EMMENS, Manager.

ACTUARY AND SECRETARY.—Charles Jellicoe, Esq.

The realised Assets of this Company amount to upwards of £2,000,000 sterling.—The Annual Income is about £365,000.—The number of existing Policies is upwards of 14,000.—The total Amount Assured exceeds £7,000,000.—The divisions of surplus are Quinquennial, and the whole surplus (less twenty per cent. only) is distributed amongst the Assured.—At the Division of surplus in 1857, about £208,000 was added to the sums assured under Participating Policies.—The Premiums required, although moderate, entitle the Assured to 80 per cent. of the Quinquennial Surplus.—The Lives assured are permitted, in time of peace, without extra charge, to reside in any country (Australia and California excepted) north of 33 degrees north latitude, or south of 33 degrees south latitude, or to pass by sea (not being seafaring persons by profession), between any places lying in the same hemisphere and beyond those limits.—All Policy Stamps and Medical Fees required on effecting Assurances are paid by the Company.—By recent enactments, persons are exempt, under certain restrictions, from Income Tax, as respects so much of their income as they may devote to Assurances on Lives.—The Annual Reports of the Company's state and progress, Prospectuses and Forms, may be had, or will be sent, post free, on application at the Office, or to any of the Company's Agents.

EQUITABLE ASSURANCE OFFICE,

NEW BRIDGE-STREET, BLACKFRIARS.

INSTITUTED 1762.

PRESIDENT.—Right Hon. Lord Tredegar.

TRUSTEES.—Right Hon. Lord Tredegar; Ralph Price, Esq.; William Samuel Jones, Esq.; William Frederick Pollock, Esq.; James Spicer, Esq.

Capital.—1st November, 1859:—3,380,000*l.* in the 3 per cents. 3,190,370*l.* on Mortgage of Freehold Estates. 20,000*l.* Exchequer Bills. 52,040*l.* on Security of Policies.

Income.—Arising from the Interest on the above Capital, and the Annual Premiums on existing Policies, 407,000*l.* per annum.

Division of Profits or Bonus.—Two-thirds of the clear Surplus Stock is decennially appropriated as a Reversionary Bonus, but parties may receive the value in present money of such reversionary benefits, or may apply them in reduction of their future Annual Premiums. In the event of a participating policy becoming a claim between the decennial periods of division, it receives a further addition in respect of every annual premium become due and paid thereon since the preceding appropriation; so that the profits are to a certain extent distributed annually.

The remaining third of the Surplus is reserved for security, and as an accumulating fund for future distribution.

The sum paid by way of Bonus, or for Additions to claims on death, and for Additions redeemed in the eight years ending 1st November, 1859, exceeds **Three Million Five Hundred Thousand Pounds.**

Advances on Policies.—The Directors under a recent Bye-law are prepared to grant Loans on unencumbered policies effected in this Office, to the extent of nine-tenths of the value of such policies.

THE EQUITABLE SOCIETY now offers to Insurers the Security of a very large Capital, and, in the present position of the Society, confers a right to participate, after payment of the Sixth Annual Premium, in the Profits of the Office, such Profits being increased by the accumulations from a large Surplus reserved out of former Divisions of Profit.

When the Income, the early Division of Profits, the regularly published Annual Expenses of this Office, and the very large proportion which the Capital bears to the whole amount of the sums assured, together with the additions upon them, are taken into consideration, the public may clearly perceive the great advantages it holds out to new Assurers.—By order of the Court of Directors,

ARTHUR MORGAN, Actuary.

Parties assuring within six months of their last birthday are allowed a proportionate diminution in the Premium.

The Assurances in force exceed £1,300,000; the Annual Income is upwards of £50,000; and the Invested Funds are about £250,000.

Eighty per cent. of the Profits are divided at the end of every five years among the Assured. At the first division, to the end of 1849, the addition to the amount assured averaged 50 per cent. on the Premiums paid; and at the second, to the end of 1854, 55 per cent. Another division will be made this year.

The conditions of Assurance have been recently carefully revised, in order to make them more favourable to the Assured, and to render the Policies valid securities to third parties.

The Annual Reports and Accounts are printed periodically. Copies may be had, with Forms of Proposal, and every requisite information, upon written or personal application to the Office, of the Society, No. 26, Lin-

This Society undertakes assurances against all the ordinary contingencies affecting human life. Its tables of premiums have been revised according to the most recent data, and are as low as is consistent with perfect security.

Special advantages to assurers: for particulars of which see the Society's prospectus.

Active and influential agents are required in all places not efficiently represented. Liberal commissions will be allowed, and at the death of an agent, one-half of the ordinary renewal commissions of the agency will, under a fixed condition, be continued to his widow or other nominee during life.

Medical Men introducing business to the Society are allowed the same Commissions as are allowed to Solicitors.

Prospectuses and every information, post free, on application to the Secretary, at the chief office, to whom applications for agencies may be addressed.

EDWIN H. GALSWORTHY,
Actuary and Secretary.

E. N. Clifton, Esq.
E. Crosley, Esq.
F. Hawley, Esq.
E. B. Hewitt, Esq.
W. R. Rogers, Esq., M.D.

This Society is established on the tried and approved principle of Mutual Assurance. The funds are accumulated for the exclusive benefit of the Policyholders, under their own immediate superintendence and control. The Profits are divided annually, and applied in reduction of the current Premiums. Policy-holders participate in Profits after payment of five Annual Premiums.

The Annual General Meeting was held on the 17th June last, when the Report of the affairs of the Institution was presented to the Members, who, being fully satisfied, resolved unanimously that a reduction of 32½ per cent. should be made in the current year's Premium payable by all Policyholders now entitled to participate in the Profits.

Credit is allowed for half the Annual Premiums for the first five years.

The following Table exemplifies the effect of the present reduction.

Age when Assured.	Amount Assured.	Annual Premium originally paid.			Allowance of 32½ per cent.			Annual Premium now payable.		
	£.	£	s.	d.	£	s.	d.	£	s.	d.

Joseph Williams, Esq.

BANKERS.—Bank of England, and Olding, Sharpe, and Co.

MEDICAL REFEREE.—Alfred Smee, F. R. S., Surgeon to the Bank of England.

SOLICITOR.—T. H. Devonshire, Esq., 8, Old Jewry.

ACTUARY AND SECRETARY.—Edwin James Farren, Esq.

Considering the present extent and nature of the transactions of the GRESHAM, the Directors have deemed it advisable to apply to the Bank of England for permission to exercise the Corporate function of investing in the public funds, under the Society's Common Seal, and are glad to be able to say that the permission has been granted.

Looking forward to the close of the financial year ending July 31st, 1860, the Directors take the opportunity of reminding the friends and connections of the Society that at such period the quinquennial investigation and valuation of the Company's affairs will take place, with the view of declaring a bonus. The interim will thus form a favourable time for new Assurers to join the Society; and the Directors trust that all parties concerned will aid in every way in extending the range of the Company, thereby increasing its usefulness to the public.

Without wishing, in the least degree, to forestall the result of the elaborate calculations which will have to be made prior to the declaration of any new Bonus, the Directors think it perfectly legitimate to contrast the present state of the Society at this period, as compared with that of the year before the Bonus of 1855.

At that date the new preminms were 7,129*l.* 18s. 5d.; the current premiums, 35,379*l.* 9s. 1d.; and the funds, at interest or actually in hand, exclusive of deposits, were 69,689*l.* 4s. 10d.

At the close of the past year the new premiums were 28,208*l.* 2s. 10d.; the current premiums, 85,598*l.* 12s. 4d.; and the funds, at interest or actually in hand, exclusive of deposits, 184,609*l.* 19s. 2d.

Policies are effected without loss of time, formalities being carried through at the Office every day, from ten to four; Saturdays, ten to two; medical officer, daily at eleven. The Board assembles on Thursdays, at half-past twelve.

Loans may be obtained in connexion with policies effected with the Company. There has been advanced in this respect upwards of a quarter of a million since July, 1848.

Annual Reports, Prospectuses, and other Forms on application.

EDWIN JAMES FARREN, Actuary and Secretary.

SECRETARY.—Thomas Tallemach, Esq. ACTUARY.—Samuel Brown, Esq.

SUPERINTENDENT OF FIRE DEPARTMENT.—Isaac Delvalle, Esq.

PHYSICIANS.—Dr. George Darling, Russell-square, and Dr. C. Metcalfe Babington, Hertford-street, May-fair.

SOLICITORS.—Parkin and Pagden, New-square, Lincoln's-inn.

SURVEYOR.—Joseph Jennings, Esq., Langham-street, Cavendish-square.

BANKERS.—Messrs. Martin and Co., 68, Lombard-street; Messrs. Coutts and Co., 59, Strand.

LIFE DEPARTMENT.

Medical Fees allowed by this Company.

Under the provisions of an Act of Parliament this Company now offers to future Assurers' EIGHTY PER CENT. OF THE PROFITS, WITH QUINQUENNIAL DIVISION or a LOW RATE OF PREMIUM, without participation of Profits.

The next division of Profits will be declared in June 1860, when all Participating Policies which shall have subsisted at least one year at Christmas 1859 will be allowed to share in the Profits.

At the Five Divisions of Profits made by this Company the total Reversionary Bonuses added to the Policies have exceeded 913,000*l.*

At Christmas 1854 the Assurances in force amounted to upwards of 4,240,000*l.*, the Income from the Life Branch in 1854 was more than 200,000*l.*, and the Life Assurance Fund (independent of the Guarantee Capital) exceeded, after Division of Profits, 1,540,000*l.*

LOANS granted on Life Policies to the extent of their values, provided such Policies shall have been effected a sufficient time to have attained in each case a value not under 50*l.*

UNSOUND LIVES.—Persons who are not in such sound health as would enable them to insure their lives at the Tabular Premiums, may be insured at such extra Premium as the Directors may deem adequate to the increased risk thereby incurred.

Every renewable Policy is held in force during the 30 days allowed for its renewal, provided the Premium shall be paid within that period.

A Policy taken out on Own Life is held to be valid in case of suicide, death by duelling, or by the hands of justice, to the extent of any bonâ fide interest acquired therein by other parties.

Age admitted in all cases upon proof being furnished satisfactory to the Directors.

Appearances taken any day, but the usual day of appearance is Friday, at one o'clock.

Appearances also taken by appointed Agents of the Company in most parts of the United Kingdom and Continent of Europe, without Fine for non-appearance in London.

No additional Premium required from Naval and Military Men, unless when called into actual service, nor for service in the Local Militia or Volunteer Corps.

No additional Premium required during peace for passing by sea from one part of Europe to another.

No charge made for Entrance Money or Admission Fees.

No charge for Policies.

In the FIRE DEPARTMENT, Insurances are effected upon moderate terms; and no charge is made for the Policy.

ANNUAL DIVISION OF PROFITS, AND LARGE REDUCTION OF PREMIUMS.

HAND-IN-HAND FIRE AND LIFE INSURANCE SOCIETY,

No. 1, NEW BRIDGE-STREET, BLACKFRIARS, LONDON.

Instituted in 1696. Extended to Life Insurance, 1836.

IMMEDIATE ANNUITIES GRANTED.

DIRECTORS.

The Hon. William Ashley	T. Fuller Maitland, Esq.
The Hon. Sir Edward Cust	William Scott, Esq.
Arthur Eden, Esq.	John Sperling, Esq.
John Lettsom Elliot, Esq.	Thomas Turner, Esq.
James Esdaile, Esq.	Henry Wilson, Esq.
John Gurney Hoare, Esq.	W. Esdaile Winter, Esq.

AUDITORS.—Colonel the Hon. P. F. Cust; James Esdaile, Esq.; Thomas Palmer Chapman, Esq.

BANKERS—Messrs. Goslings and Sharpe, 19, Fleet-street.

PHYSICIAN—T. K. Chambers, M.D., 1, Hill-street, Berkeley-sq.

STANDING COUNSEL—Hon. A. J. Ashley, 32, Lincoln's-inn-fields.

SOLICITORS—Messrs. Nicholl, Burnett, and Newman, 18, Carey-street.

ACTUARY—James M. Terry, Esq. SECRETARY—R. Ray, Esq.

LIFE DEPARTMENT.—The important advantages offered by the plan and constitution of the Life Department of this Society are:

That Insurers are protected by a large invested Capital, upon which there is no Interest to pay, and for which no deduction of any kind is made; which enables the Directors to give the whole of the Profits to insuring Members. That the Profits are divided annually amongst all Members of five years' standing, and applied towards reducing Life Insurance to the lowest possible rates of Premium.

The abatement of Premium on all Policies of five years' standing was in 1842, 1843, and 1844 at the rate of 45*l.* per cent. in each year; in 1845, 1846, 1847, and 1848, 50*l.* per cent. in each year; and in 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856, 1857, 1858, and 1859, 52*l.* 10*s.* per cent. in each year; and it is expected that an equal abatement will in future be annually made.

Persons insuring their own lives, or the lives of others, may become members. Persons who are willing to forego participation in the profits can insure at a lower rate than that charged to Members.

The following Table will show the effect of the Reduction of Premium made by the Society on Members' Policies that have been five years in force:

Age when Insured.	Sum Insured.	Annual Premium for first Five Years.	Reduced Premium.
	£	£ s. d.	£ s. d.
30	100	2 13 5	1 5 6
40	100	3 7 11	1 12 3
30	500	13 7 1	6 7 0
40	500	16 19 7	8 1 3
45	1,000	38 19 2	18 10 1
40	2,000	67 18 4	32 5 2
45	5,000	194 15 10	92 10 6

This system of reducing the Premiums affords immediate benefit to the Members, and enables them to insure a further sum upon their lives equal to more than one-third of the present policy, without any additional outlay.

No charge for Policy Stamps.

FIRE DEPARTMENT.

Insurances are effected on every description of property at the usual rates.

By order, RICHARD RAY, Secretary.

LAW LIFE ASSURANCE SOCIETY,

INSTITUTED 1823,

FOR GRANTING ASSURANCES UPON THE LIVES OF PERSONS IN EVERY STATION OF LIFE.

Office—Fleet-street, London.

SUBSCRIBED CAPITAL—ONE MILLION.

TRUSTEES.

The Right Hon. the Lord High Chancellor.

The Right Hon. Lord Abinger.
The Right Hon. Lord Justice Sir G. J. Turner.
James William Farrer, Esq.
George Law, Esq.
Philip Martineau, Esq.
John Henry Cancellor, Esq.

ACTUARY.—William Samuel Downes, Esq.

BANKERS.—Messrs. Hoare, Fleet-street.

PHYSICIAN—P. Mere Latham, M.D., 36, Grosvenor-street.

SOLICITOR—Daniel Smith Bockett, Esq., 60, Lincoln's-inn-fields.

Assurances are effected on the Lives of Persons in any station of Life, to the extent of £10,000 on any one Life.

At the end of every fifth year, four-fifths of the Profits are allotted to the Assured.

The next Division of Profits will be made up to the 31st December, 1859, when all whole-life Policies then in force, effected on or before the 31st December, 1857, will participate.

Bonuses amounting to nearly **Three Millions** have been added to the Policies at the Four Divisions of Profits which have already been made.

The **Assets** of the Society amount to upwards of **Four Millions and a Half**, and the **Annual Income exceeds Four Hundred and Fifty Thousand Pounds.**

Prospectuses may be obtained, and Assurances effected, through any solicitor in Town or Country, or by application direct to the Actuary, at the Office in London.

October, 1859. WILLIAM S. DOWNES, Actuary.

[ESTABLISHED 1841.]

MEDICAL, INVALID, AND GENERAL LIFE OFFICE,

25, PALLMALL, LONDON.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

At the SEVENTEENTH ANNUAL MEETING, held on the 25th November, 1858, it was shown that on the 30th of June last—

The Number of Policies in force was	**6,110**
The Amount Insured was	**£2,601,925**
The Annual Income was nearly	**£121,263**

The New Policies issued during the last Five Years are as follows:—

5,411 Policies for **£2,599,658**, yielding **£110,624** in Premiums, showing an average yearly amount of new business of more than

HALF A MILLION STERLING.

The Society has paid claims amounting to **£503,619** since its establishment in 1841.

Assurances are effected at home or abroad on healthy lives at as moderate rates as the most recent data will allow.

INDIA.—Officers in the Army and civilians proceeding to India, may insure their lives on the most favourable terms, and every possible facility is afforded for the transaction of business in India.

Invalid Lives assured on scientifically constructed tables based on extensive data, and a reduction in the premium is made when the causes for an increased rate of premium have ceased.

Policies issued free of stamp-duty and every charge but the premiums.

In the event of death during the days of grace, the risk binding on the Society if premium paid before the days of grace expire.

Every information may be obtained at the Chief Office, or on application to any of the Society's agents.

INDISPUTABLE POLICIES.

The next Division of Four-fifths of the Profits of the Society among the Assured will take place on the 31st December, 1861, and will be declared as soon after that date as practicable.

LEGAL AND GENERAL LIFE ASSURANCE SOCIETY.

ESTABLISHED 1836.

For Assuring the Lives of Persons in every Station of Life, wherever Resident.

OFFICE, No. 10, FLEET STREET, LONDON, NEAR TEMPLE BAR.

By the Deed of Settlement of this Society it is expressly provided—and every Policy issued by the Society has a condition printed on it—That the Policy will not become void if the Premium be paid within Thirty Days from the time agreed upon, notwithstanding the death of the Life Assured may have happened before such payment.

TRUSTEES.

The Right Hon. Lord Lyndhurst	The Hon. Sir George Rose
The Right Hon Thomas Erskine	Sir William Domville, Bart.
The Right Hon. Sir J. L. Knight Bruce, Lord Justice	Kenyon Stevens Parker, Esq., Q.C., Examiner in Chancery
The Hon Sir William Page Wood, Vice-Chancellor	Edward Smith Bigg, Esq.
The Hon. Mr Justice Williams	Robert Bayly Follett, Esq., Taxing Master in Chancery

This Society has been established nearly 23 years.

On the 30th June, 1859,—

The Property of the Society amounted to nearly One Million and Seventy Thousand Pounds sterling, invested in the names of the Trustees.

The annual Income of the Society (increasing yearly) amounted to nearly 150,000*l.*

The Claims under Policies, effected with and paid by the Society, amounted to 630,783*l.*

The Bonus paid to Policy-holders amounted to 102,234*l.*

The following facilities and advantages are (amongst others) offered to Assurers by this Society, viz.:—

Persons whose Lives are Assured are permitted, without payment of Extra Premium, to pass to and from, or reside in, any part of the World (except Australia), distant more than 33 degrees from the Equator. They may, however, reside within the prohibited Degrees on payment of the required Extra Premium; and Policies are maintained in force in case the Lives Assured proceed within such prohibited Degrees, without the consent of the Directors, provided the party interested, *as soon as the fact of Departure comes to his knowledge*, pay the requisite additional Premium.

Persons at the time of effecting a Policy, not being engaged, and not intending to engage, in the Naval, Military, or Foreign Civil Service, or in the Mercantile Marine, or not intending to travel beyond the limits above mentioned, but who may possibly be called on to do so hereafter, may, by the payment of a small extra Premium, have a "*Whole World Policy*," permitting Employment or Residence in any part of the World.

In case of Death by duelling, or by the hands of justice, payment is made of the sum Assured.

In case of Suicide, payment is made of the sum Assured, if the Life Assured be not the party interested; but in case the Life Assured committing Suicide be entitled to the benefit of the Policy, payment is made only of so much of the sum assured as is equal to the amount of the Premiums received.

The age of the Life Assured admitted at the time of issuing the policy.

No appearance before the Directors required of Persons whose lives are proposed to be Assured.

Assignments of Policies registered, and the receipt of notices of Assignment acknowledged.

Policy Stamps and Medical Fees paid by the Society.

The Profits of the Society (of which four-fifths, or 80 per cent., are allotted to the Assured) *divisible every five years;* and, at the option of the Assured, applied either as an addition to the Sum Assured—in Reduction of the Annual Premium—or, on surrender to the Society, in exchange for an immediate Cash Payment.

Two fifths of the Annual Premium for the first Five Years on a Policy, effected for the Whole Term of Life, may remain unpaid as a debt on the Policy.

Loans, to the amount of their Office value, made on the security of policies effected with the Society.

Claims paid Three Months after Death of the Lives Assured, subject to the satisfactory evidence of Death, and of ownership of the Policy, being furnished in the meantime.

Office Hours from Ten till Four o'clock (except on Saturday, when the Office closes at Two o'clock). A Medical Officer in attendance every Tuesday and Friday at Two o'clock.

A Prospectus, Form of Proposal, and every Information desired for effecting Assurances, may be had on application, either personally or by writing, to the Office of the Society; or upon application to any Solicitor in London or in the Country.

By Order of the Board,

JOHN NETTLETON, Secretary.

LIFE ASSOCIATION OF SCOTLAND.

FOUNDED 1838.

LONDON—20, KING WILLIAM-STREET. E.C.

DIRECTORS AT LONDON.

Thomas Graham, Esq. (Graham and Lyde) Solicitor, 1, Mitre-court Chambers, Temple.
John Fairrie, Esq. (Fairrie, Brothers, and Co.) Church-lane, Commercial-road.
John Boustead, Esq., 8, Upper Gloucester-street, Dorset-square.
W. W. Cargill, Esq., Oriental Bank.
James L. Wylie, Esq. (Dumas and Wylie), Change-alley, Cornhill.
R. Spear Begbie (Robert Begbie and Co.) 6, Great Winchester-street.

MEDICAL OFFICER.—Stephen H. Ward, Esq., M.D., 28, Finsbury-circus.

SOLICITORS—Messrs. Simpson, Roberts, and Simpson, 62, Moorgate-street.

The Life Association of Scotland is one of the most successful Assurance Institutions in the kingdom, and its regulations are framed on the most liberal footing. During the year ending 5th April, 1859, 1,011 new policies have been issued, assuring 486,000*l.* The accumulated fund is now upwards of 451,399*l.*, and the annual income, 150,000*l.*

The Policies now being issued by the Association are free from many of the restrictions commonly imposed on assured lives, and are thus rendered more valuable, as provisions under marriage settlements, and securities for money, than the Policies of most other Assurance Offices.

An allocation of Profit is made *every year* to participating Policy-holders of five years' standing at the date of the preceding balance, and the share of profit is applied in reducing their next premiums. Each Policy-holder thus enjoys *during his own life* his share of the profit. The annual return of profit to Policy-holders of the first series, now closed, has now attained to 37½ per cent. of the premiums—that is, a Policy-holder whose premium is 50*l.* obtains this year a return of 18*l.* 15s., and another, whose premium is 25*l.*, obtains 9*l.* 7s. 6d.

EXAMPLES.—POLICIES OF £1,000.

Age at Entry	Annual Premiums.	Profits Allocated for the Year.	Premiums thereby Reduced to
25	£21 18 4	£8 4 4	£13 14 0
35	28 10 0	10 13 9	17 16 3
45	37 1 8	13 18 1	23 3 7
55	53 15 0	20 3 1	33 11 11
60	65 10 0	24 11 3	40 18 9

The second series of Participating Policy-holders was begun in 1855; and there is every prospect that large sums of Profit will be divided also amongst them.

The outlay for an Assurance may also be materially lessened by means of the "Half Credit System;" payment of only one half of the first six years' premiums being required. The first payments for Policies of 500*l.* are thus only—Age 25, 5*l.* 15s. 1d.; Age 30, 6*l.* 11s. 3d.; Age 40, 8*l.* 11s. 1d.

ACTUARY—Peter Hardy, Esq., F.R.S.

This Corporation has granted Assurances on Lives for a period exceeding 130 years, having issued its first policy on the 7th June, 1721.

Two-thirds, or 66 per cent. of the entire profits are given to the Assured.

Policies may be opened under any of the following plans, viz.—

At a low rate of premium, without participation in profits, or at a somewhat higher rate, entitling the Assured, either after the first five years, to an annual abatement of premium for the remainder of life, or, after payment of the first premium, to a participation in the ensuing quinquennial Bonus.

The high character which this ancient Corporation has maintained during nearly a century and a half, secures to the public a full and faithful declaration of profits.

The Corporation bears the whole expenses of management, thus giving to the Assured, conjoined with the protection afforded by its Corporate Fund, advantages equal to those of any system of Mutual Assurance.

All Policies are issued free from Stamp Duty, or from charge of any description whatever, beyond the Premium.

The fees of Medical Referees are paid by the Corporation.

Annuities are granted by the Corporation, payable Half-yearly.

Fire Department.

MANAGER—Thos. B. Bateman, Esq.

Common Assurances, One Shilling and Sixpence per Cent.

Hazardous Assurances, Two Shillings and Sixpence per Cent.

Doubly Hazardous Assurances, Four Shillings and Sixpence per Cent.

Foreign and Special Assurances accepted at moderate Rates.

Prospectuses and all other Information may be obtained by either a written or personal application to the Actuary, the Manager of the Fire Department, or to the Superintendent of the West-End Office.

ADVANTAGES OF ASSURING WITH THIS SOCIETY:—

Economical Management, no paid Agents being employed in either town or country, and no Commission allowed.

The application of *the whole of the profits* to the reduction of the Premiums of Members of five years' standing or upwards.

The Guarantee of an Accumulated Fund exceeding	£870,000
A Gross Annual Income	140,000
During its existence the Society has paid in Claims, without a single instance of dispute	500,000
And has returned to Members in reduction of their Annual Premiums	430,000
The Sums Assured by existing Policies exceed	3,000,000

FOR THE YEAR ENDING THE 4TH APRIL, 1860, AN ABATEMENT HAS BEEN DECLARED AT THE RATE OF 51 PER CENT.

Prospectuses, copies of Accounts, which are published annually, and full particulars may be obtained on application to

Nov. 1859. HENRY MARSHAL, Actuary.

*** THE MEDICAL REFEREES OF PERSONS PROPOSED FOR ASSURANCE, ARE, IN ALL CASES, REMUNERATED BY THE SOCIETY FOR THEIR REPORTS.

PHYSICIAN—Dr. Tweedie, F.R.S., 46, Brook-street, Grosvenor-square.

THE FOLLOWING IMPORTANT BENEFITS ARE AFFORDED BY THIS COMPANY:—

1st.—A guaranteed Return will be made at any time for the surrender of existing whole term Policies, effected by even rates, of 40 per cent. of the amount of ordinary Premiums received thereon. This is an advantage which it is believed has not hitherto been afforded by any other Assurance Company.

2nd.—A person desirous of surrendering his Policy may receive, instead of a payment in cash, a new Policy for an equivalent sum, not subject to further payment of Premium.

3rd.—Credit given for one-third of the Premiums upon whole term Policies.

4th.—Notices of assignments received and registered, and acknowledged if required.

5th.—No claim will be disputed, except in case of palpable fraud: an unintentional error will not vitiate a Policy.

6th.—No entrance money or fee of any kind, nor any charge made for Policies.

7th.—Loans are granted on deposit of Policies of five years' standing to the extent of their value.

8th.—No appearance before the Court of Directors required.

The Income for 1858 was . . . . . 77,274*l.*
The Accumulated Funds on 31st Dec. 1858, were . . . 362,045*l.*

Prospectuses, Forms of Proposal, and every information, may be obtained at either of the Offices as above, or from any of the Agents throughout the kingdom.

FOUR-FIFTHS OF THE PROFITS DIVIDED EVERY FIVE YEARS.

Policies effected by the Participation Scale prior to 31st December, 1860, will participate in the Division of Profits in 1862, if then in force.

WILLIAM THOMAS ROBINSON, Actuary and Secretary.

Oct. 1859.

DAYS OF GRACE.

Should a person assured die within one month after a renewable premium becomes due, the Company will be liable, provided the premium be paid within the stipulated period.

MEDICAL MEN REMUNERATED FOR THEIR REPORTS.

This Company has always permitted the Assured to serve in Volunteer Corps or Local Militia, without extra charge.

Sir J. W. Lubbock, Bart., and Co.

SOLICITORS.

Messrs. Wilde, Rees, Humphry, and Wilde.

ACTUARY.

Charles Ansell, Jun., Esq.

MANAGER AND SECRETARY.

Frederick Lock, Esq.

This Society is conducted on the principle of Mutual Assurance, and there being no proprietary body, the whole of the profits belong exclusively to the Members.

A Division of Profits is made every year, and all Members' Policies upon which five full yearly Premiums have been paid, are entitled to participate therein, either by a Reduction of the Premiums for the current year, or by an equivalent Reversionary Addition to the sum Assured.

Loans are granted on approved security in connexion with Life Assurance.

The Directors are prepared to purchase any Policy issued by this Society, on which three or more Annual Premiums have been paid, as well as any bonus or bonuses which may have been added thereto; or they will, if preferred, advance money on security of such Policies, to nearly the extent of the Office value.

Policies are issued for any amount from 50*l.* to 5,000*l.*, the cost of th e stamps being defrayed by the Society.

The Society's capital, accumulated solely from the Premiums, amounts to 350,000*l.*, after providing for all claims and expenses; and the Annual Income from Premiums and Interest on the capital, to 60 000*l.*, thus affording the fullest security to the Assured for the due fulfilment of the Claims as they arise.

The Society has paid to the representatives of deceased members about 440,000*l.*, in addition to 190,000*l.* returned to Members as profit and applied to the Reduction of their Premiums.

When the large proportion which the accumulated capital of this Society bears to the amount assured [1,400,000*l.*] is considered (contrasting as it does very favourably with the most successful Offices),—the regularly published annual Accounts,—the moderate amount of expenses,—and the early period at which Members participate in the Profits, it will be at once apparent that this Society offers to the public great advantages, combined with perfect security.

FREDERICK LOCK, Manager and Secretary.

BANKERS.—Messrs. Brown, Janson, and Co., and Bank of England.

SOLICITOR.—Septimus Davidson, Esq.

CONSULTING ACTUARY—Charles Ansell, Esq., F.R.S.

MUTUAL INSURANCE WITHOUT INDIVIDUAL LIABILITY.

On the 20th November last the total number of Policies issued was 22,585.

The amount of capital was £1,755,685, 6s. 11d.

Amount paid for claims arising from death, and bonuses accrued thereon—£919,103 10s. 4d.

The annual income arising from premiums on 15,750 existing policies, less the annual abatement on the 20th November, 1857 (of £50,112), to be continued for the five years ending in 1862, is £207,844 19 3

Add interest on invested capital..... 75,701 6 0

Total net annual income £283,546 5 3

The present number of members is about 13,000

At the Quinquennial Division of Profits made up to the 20th November, 1857, the computed value of assurances in Class IX was.....£1,090,090 16 6

Assets in Class IX. 1,345,125 0 5

Surplus or profit £345,034 3 11

The effect of the successful operation of the Society during the whole period of its existence may be best exhibited by recapitulating the declared surpluses of the four investigations made up to this time.

For the 7 years ending 1842 the surplus was £32,074 11 5
" 5 years " 1847 " " 86,122 8 3
" 5 years " 1852 " " 232,061 18 4
" 5 years " 1857 " " 345,034 3 11

The Prospectus, with the last report of the Directors, and with illustrations of the profits for the five years ending the 20th November, 1857, may be had on application, by which it will be seen that the reductions on the premiums range from 11 per cent. to 98½ per cent, and that in one instance the premium is extinct. Instances of the bonuses are also shown.

No charge made for Policy Stamps.

Loans are granted on the security of the Society's Policies to the extent of their value.

December 10th, 1859. JOSEPH MARSH, Secretary.

NORTH BRITISH INSURANCE COMPANY,

4, NEW BANK BUILDINGS, LOTHBURY, LONDON,
AND
64, PRINCES-STREET, EDINBURGH.

Established in 1809, and Incorporated by Royal Charter.

President.—HIS GRACE THE DUKE OF ROXBURGHE, K.T.

Chairman of the London Board.—SIR PETER LAURIE, Alderman.

Deputy-Chairman.—JOHN IRVINE GLENNIE, Esq.

Physician.—JOHN WEBSTER, M.D., F.R.S.

Surgeon.—J. A. KINGDON, Esq.

Solicitor.—ALEX. DOBIE, Esq., Lancaster-place, Strand.

The progress of this Company is shown by comparing the state of the business at the division in 1837 with that at the close of the fifth septennial period, in December, 1858.

	Sum Assured.	Annual Revenue.	Accumulated Premiums.
	£	£	£
In 1837 .	1,283,275	50,000	200,169
„ 1844 .	2,125,255	90,222	442,394
„ 1851 .	2,460,024	105,672	600,696
„ 1858 .	3,295,599	125,870	680,399

ADVANTAGES OFFERED BY THIS COMPANY:

1. A protecting capital fully subscribed of 1,000,000*l.*
2. An accumulated premium fund of more than 680,000*l.*
3. An annual revenue from life premiums exceeding 125,000*l.*
4. Nine-tenths (or 90 per cent.) of the profits divided every seven years, thereby affording the benefits of a mutual insurance office, with the advantages of a paid-up capital, and may be applied either to the increase of the sum insured, to an immediate cash payment, or to the reduction and ultimate extinction of future premiums.
5. Policies on the participation scale guaranteed a *prospective bonus of 1l. per cent.* on the sum insured, including previous bonuses, for each premium paid, should the policy become a claim before next division of profits.
6. Premiums payable until the age of 65, when the policy becomes due, or previously in case of death.
7. An ascending scale of premium, whereby insurances may be effected at the lowest possible expense.
8. On insurances for the *whole term* of life, *half the premium may remain on credit* for the first five years.
9. Premiums may be paid annually, half-yearly, or quarterly.
10. Policies shall, on proof of age of the party insured, be DECLARED INDISPUTABLE from and after the expiry of five years from their date.
11. A fee paid for the medical report.
12. A liberal commission to solicitors and others.

William Westgarth, Esq.

Secretary—A. P. Fletcher. *Vice-Secretary*—Edward Fuchs.

FIRE DEPARTMENT.

The Company grants Insurances against Fire on every description of Property, at Home, in the Colonies, and elsewhere.

FOREIGN INSURANCES.—The Directors, having had all the *important places abroad practically surveyed* are enabled to offer unusual advantages as regards rates of premium and conditions; and a discount is allowed to merchants and others effecting their own and correspondents' insurances.

LIFE DEPARTMENT.

The ordinary rates cover residence in all parts of the world, distant more than 33 degrees from the Equator.

In the Participation Branch the business is conducted and the Policies are guaranteed by the Proprietors for a fixed charge of 10 per cent. on the premiums, without any other deduction whatever; thus insuring economy of management and all the profits of the mutual system, without its attendant liability and uncertainty.

The bonus additions have averaged from 26 to 68 per cent. on the premiums paid.

Secretary—Sir S. Bignold | *London Agent*—C. J. Bunyon, Esq.

This Society is one of the very few Mutual Insurance Companies, and having no proprietary to absorb the profits of the Institution, offers to its members the full benefit of the system.

Its invested Capital exceeds £2,100,000, and it possesses large reserves applicable to future Bonuses.

Its rates are considerably below those usually charged—under 45 not less so than 10 per cent. Thus, at the medium age of 40, the sum of £33 19s. 2d, which, at the ordinary premium of £3 7s. 11d. per cent. will insure £1,000, with the Norwich Union will insure £1,095 8s. This is itself equivalent to a considerable immediate Bonus.

Insurances may be effected for sums payable either at death or on attaining a given age.

One-half of the first five Annual Premiums may remain as a permanent charge upon Policies granted for the whole duration of life.

Annuities are granted and special risks undertaken on favourable terms.

Policy Stamps are paid by the Office.

This Society is wholly distinct from the Norwich Union Fire Office, which is a proprietary body.

Secretary—Sir Samuel Bignold | *London Agent*—Chas. J. Bunyon, Esq.

The Norwich Union Fire Office was established in 1797. By the constitution of the Society, three-fifths of the surplus Premiums are periodically distributed by way of Bonus to the Assured, who have thus received, from time to time, returns amounting in the aggregate to nearly £400,000. The advantages of the mutual principle without the liabilities, are thus extended to the Fire Insurers in this Company, who are free from all responsibility on account of its engagements.

The Premiums charged by this Office are upon the most moderate scale, and in no case higher than those required by other Offices making no return to their Insurers.

1856: Duty paid to Government £76,588 1 0 Farming Stock Insured £10,013,990
1858: Duty paid to Government 79,892 0 6 Farming Stock Insured 10,107,584

Frederick Squire, Esq.
William Henry Stone, Esq.

John A. Beaumont, Esq., Managing Director.

John Hoddinott, Esq., Secretary.

PHYSICIAN.—John Maclean, M.D., 24, Portman-street, Portman-square.

No charge is made for Policy Stamps or Medical Fees.

Policies are purchased by the Office, or loans may be obtained upon them when their surrender value amounts to 20*l.* and upwards.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling deduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to these advantages, the Directors adopt the principle of allotting a Bonus to Policies entitled to participate in Profits lapsing between the Quinquennial periods of Division, at the rate of £20 per cent. on the aggregate amount of Premiums paid on each such Policy from the then last Quinquennial Division.

The Directors have always acted upon the principle that they are bound to receive the Renewal Premium upon a Policy any time within the thirty days' grace allowed, notwithstanding the death of the Life insured.

Extract from the LIST OF CLAIMS paid by the "PROVIDENT."

No. of Policy	Date of Policy	Life Insured.	Sum Insured.		Sum Paid.		
			£	s.	£	s.	d.
2246	1818	The Right Hon. the Earl of Fife	5,000	0	9,254	13	5
3086	1819	John Bennett, Esq., M.P., Pythouse, Wilts .	5,000	0	8,467	9	9
2090	1815	Sir William Earle Welby, Bart., Denton-house, near Grantham	3,000	0	5,338	6	6
5486	1825	William Henry Phibbs, Esq., Mortimer-street, Cavendish-square	999	10	2,399	2	1

ROYAL INSURANCE COMPANY,

FOR FIRE, LIFE, AND ANNUITIES.

29, LOMBARD-STREET, E.C., LONDON, AND ROYAL INSURANCE BUILDINGS, LIVERPOOL.

CAPITAL, - - - £2,000,000.

FIRE BRANCH.—Insurances against Fire are received upon all descriptions of property in the United Kingdom, the Colonies, and most parts of the Globe. The rates of premium are exceedingly moderate, and governed in each case by a careful consideration of the risk proposed.

The Fire premium in 1858 was upwards of **£196,000,** thus placing the Company among **the very largest Offices in the Kingdom,** while the Income from all sources reached the vast sum of **£285,889,** or more than a Quarter of a Million sterling.

LIFE BRANCH.—The progress of this increasingly important Branch of the "ROYAL'S" business is shown to have been as steady as it has been rapid by the subjoined figures, contrasting the new business of the alternate years, from 1854 to the present date.

	No. of Policies.		New Premiums.
Year ending 1854	408	giving	£4,694
„ 1856	703	„	8,850
„ 1858	832	„	12,354

and showing a nearly **tripled** accession of income in Four years.

This extraordinary increase of *new* business within so short a space, is mainly consequent on the **magnitude of the Bonus in 1855,** being no less than £2 per cent. per annum on the sum assured—ONE OF THE LARGEST EVER DECLARED.

The most important element of this marked prosperity has been the small amount of general expenditure charged against the Life branch, from the Fire department having borne, through its extraordinary magnitude, by far the larger portion of the charges indispensable to every Office, leaving the Life department comparatively unweighted by expense. Thus only could so large a Bonus have been declared.

ANNUAL AND HALF-YEARLY PREMIUMS FOR AN ASSURANCE OF £100 FOR THE WHOLE TERM OF LIFE.

Age	Without Participation.		With Participation.	
	Half-Yearly.	Yearly.	Half-Yearly.	Yearly.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.
20	0 17 9	1 14 11	1 0 0	1 19 4
25	1 0 2	1 19 7	1 2 6	2 4 2
30	1 2 10	2 4 10	1 5 4	2 9 9
35	1 6 0	2 11 0	1 8 8	2 16 2
40	1 9 10	2 18 6	1 12 8	3 4 1
45	1 14 11	3 8 5	1 18 1	3 14 6

The **Paid-up and Invested Capital,** including Life Funds, amounts to a Total of more than **£700,000 Sterling.**

PERCY M. DOVE, Esq., Actuary and Manager to the Company.
JOHN B. JOHNSTON, Esq., Secretary to the London Board.

General H. G. A. Taylor, C.B.
Wilbraham Taylor, Esq.
Lieutenant-Colonel F. S. Sotheby, C.B.
General Sir George Pollock, G.C.B.
Rear-Admiral Michael Quin.
Vice-Admiral Sir George R. Lambert, K.C.B.

Assurances are granted upon the lives of persons *in every profession and station of life.*

Officers serving in the Royal Navy are assured on particularly favourable terms, and Premiums have been constructed on sound principles with reference to every British Colony.

Policies on the lives of Officers and others residing abroad can be effected conditionally, subject to proof, satisfactory to the Directors, to be afterwards produced, that they were at the time eligible for Assurance.

By payment of a proportionate addition to the Premium, in case of increase of risk, persons assured in this office may change from one climate to another, without forfeiting their Policies, and on returning to this country, will be required to pay the Home Premium only.

Medical Referees are remunerated in all cases submitted to them for their professional opinion.

From the commencement of this Society, the first condition of Assurance, endorsed on every Policy issued, has been "that payment within the thirty days' grace allowed will be sufficient to keep the Policy in force, notwithstanding the person whose life is assured may have died within such thirty days."

*** Board-day, Friday, at One o'clock, and facilities afforded for effecting Assurances on other days of business. Prospectuses and every information may be obtained by application, either personally or by letter to the Secretary, at the Office, 13, Waterloo-place, London, S.W. or from any of the Agents of the Society.

WILLIAM MONTGOMERY JAMES, Secretary.

William Soltau, Esq.
Joseph Somes, Esq., M.P.
William Wallace, Esq.
Charles Baring Young, Esq.

Medical Referee—Samuel Solly, Esq., F.R.S.

FIRE, LIFE, and MARINE ASSURANCES may be effected with this Corporation on advantageous terms.

Life Assurances are granted with, or without, participation in Profits; in the latter case at reduced rates of Premium.

Any sum not exceeding £15,000 may be assured on the same Life.

The Reversionary Bonus on British Policies has averaged 48 *per cent.* upon the Premiums paid, or very nearly 2 *per cent. per annum* upon the sum assured.

The future divisions of Profit will take place every Five Years.

The Expenses of Management, being divided between the different Branches, are spread over *a larger amount of Business than that transacted by any other Office.* The charge upon each Policy is thereby so much reduced as to account for the magnitude of the Bonus which has been declared, and to afford a probability that a similar rate will be maintained at future Divisions.

This Corporation affords to the Assured a liberal participation in Profits, with exemption under Royal Charter from the liabilities of Partnership;—a rate of Bonus equal to the average returns of Mutual Societies, with the guarantee not afforded by them, of a large invested Capital-Stock;—the advantages of modern practice, with the security of an Office whose resources have been tested by the experience of nearly a Century and a half.

*** *The Medical Attendants of Persons proposed for Assurance are always consulted by the Corporation, and remunerated for their Reports. This Office was the first among the leading Companies to adopt the practice.*

JOHN A. HIGHAM, Actuary and Secretary.

The St. George Assurance Company combines in one office every species of business to which the principles of Assurance are applicable, thereby affording to all classes of the community unusual facilities for availing themselves of its benefits.

The Leading Features of this Office are—

Every description of Life Assurance on the most favourable terms.

The Assurance of Defective Titles, thereby restoring the Property to its full value.

Endowments for Husbands, Wives, or Nominees.

Endowments for Children on attaining a certain age.

Annuities of every description granted on terms peculiarly favourable.

Notices of Assignments of Policies registered.

Medical referees paid by the Company.

Age of the Life Assured admitted on all Policies, on reasonable proof being given.

Loans on Real or Personal Security, repayable by monthly or quarterly instalments, from one to five years.

Annual Premiums, with participation in Profits, for the Assurance of £100.

Age 20	30	40	50	60
£1 18 0	£2 8 11	£3 5 11	£4 14 3	£7 7 2

Immediate Annuities granted for every £100 invested, payable half-yearly.

SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY.

INSTITUTED 1831.
HEAD OFFICE: 26, St. Andrew square, Edinburgh.
LONDON OFFICE: 26, Poultry.

The Profits are divided every *three years*, and wholly belong to the members of the Society. The last division took place at 1st March, 1859, and from the results of it is taken the following

EXAMPLE OF ADDITIONS.

A POLICY FOR £1000 DATED 1ST MARCH, 1832, is now increased to £1654 9s. 5d. Supposing the age of the Assured at the date of entry to have been 40, these Additions may be surrendered to the Society for a present payment of £363 17s. 8d., or such surrender would not only redeem the entire premium on the Policy, but also entitle the party to a present Payment of £104 4s., and, in both cases, the Policy would receive future triennial additions.

The existing Assurances amount to - - -	£5,272,367
The Annual Revenue - - - - -	£187,240
The Accumulated Fund (arising solely from the Contributions of Members) - - - -	£1,194,657

ROBERT CHRISTIE, Manager.

Alexander Gillespie, Esq., 2, Billiter-court.

MANAGER.
Wm. Thos. Thomson.

SOLICITORS.
Messrs. Miuet and Smith.

RESIDENT SECRETARY.
H. Jones Williams.

INSPECTOR OF AGENCIES.
William Bentham.

DIVISION OF PROFITS.

The Sixth Division of the Company's Profits is appointed to be made at 15th November, 1860, and all policies effected before that date will participate in that Division.

The Fund to be divided will be the Profits which have arisen since 15th November, 1855.

A Policy effected before 15th November, 1860, will rank at the division as of One Year's standing, and secure One Year's additional Bonus, *at all future Divisions*, over Policies of a later date.

PROGRESS OF THE COMPANY.

Sums proposed for Assurance during the year 1858 .	£596,369	2	4
Sums assured during the year 1858, exclusive of Annuity transactions . . .	507,522	9	0
Corresponding Annual Premiums on new Policies .	16,695	11	10
Annual Revenue (15th November, 1858) .	275,990	8	9
Accumulated Fund, invested in Government Securities, in Land, Mortgages, &c. (at 15th November, 1858) .	1,565,105	9	0

The Directors invite particular attention to the liberal terms and conditions of Assurance introduced by this Company into the practice of Life Assurance.

SELECT ASSURANCES.—The privilege of this class are: permission to travel and reside in any part of the world, free of extra premium; and the cancellation of all conditions under the Company's policies, which thus become unchallengeable on any ground whatever except non-payment of the ordinary premium.—Assurances of five years' standing are admissible to this class.

REVIVAL OF POLICIES.—Policies not renewed within the days of grace do not become absolutely forfeited, but may be revived on certain conditions, any time within thirteen months from the date of the premium falling due. The regulations under this head are very favourable to the assured in other respects also, and are worthy of special attention.

SURRENDER VALUES.—Liberal allowances made for surrender of Assurances under the Profit Scheme, at any time after payment of one annual premium.

WILL. THOS. THOMSON, Manager.
H. JONES WILLIAMS, Resident Secretary.

35	2	16	10	
45	3	16	0	
55	5	6	4	
60	6	7	4	

BONUS.—The last Septennial Bonus added to the sum Insured by Policies effected in Great Britain varied from £45 to £60 per cent. on the Premiums paid on lives at the ages of 25 to 40 for the previous seven years.

By the Regulations of this Society, four-fifths, or £80 per cent., of the office profits are now appropriated to the benefit of the Assured, thus affording them nearly all the advantages of a Mutual Assurance Office; while the GUARANTEE CAPITAL, created under an Act of Parliament of 55th George III, with accumulations, including the remaining one-fifth of the Office Profits, and the collective Life Premiums, together amounting to upwards of ONE MILLION STERLING, invested in Government and other Securities, form an ample protection to the Assured, and guard them against the liability incurred by Members of Mutual Societies.

Loans granted on Policies to the extent of their value, when such value is not under £50.

Persons whose Lives are Assured, and not being of Military nor seafaring occupation, are allowed in time of peace to pass by sea from one part of Europe direct to any other part thereof, in steam or other decked vessels.

WM. B. LEWIS, Secretary.

BANKERS.
Messrs. Biddulph, Cocks, and Co., 43, Charing-cross; and Union Bank of London, 4, Pallmall East.

SOLICITORS.
Messrs. Upton, Upton, and Johnson, 20, Austin-friars.

This Company offers the security of a large paid-up Capital, held in Shares by a numerous and wealthy Proprietary, thus protecting the Assured from the risk attending Mutual Offices.

There have been three Divisions of Profits, the Bonuses averaging nearly 2 per cent. per annum on the sums assured from the commencement of the Company, or **from 30 to 100** per cent. on the premiums paid.

Sums Assured.	Bonuses added.	Payable at Death.
£5,000	£1,987 10 0	£6,987 10 0
4,000	1,590 0 0	5,590 0 0
3,000	1,192 10 0	4,192 10 0
2,000	795 0 0	2,795 0 0
1,000	397 10 0	1,397 10 0
500	198 15 0	698 15 0

To insure 100*l.* payable at death, a person aged 21 pays 2*l.* 2s. 4d. per annum; but as the profits have averaged nearly £2 per cent., per annum, the additions in many cases have been almost as much as the premiums paid.

The Premiums, nevertheless, are extremely moderate, and only one half the Annual Premium need be paid for the first five years, when the Assurance is for life.

Loans granted on approved personal security.

Parties effecting Policies with this Office in Scotland will secure every facility and advantage which they can obtain by assuring with an exclusively Scotch Office.

Prospectuses and every information afforded, on application at the Office in London.

E. LENNOX BOYD, Res. Director.

By this Institution UPWARDS OF 21,000 POLICIES HAVE BEEN ISSUED, and during the last two years upwards of 5,000 new Members have been added.

A valuation of the Assets and Liabilities of the Institution is made every five years. At the last valuation in 1855 *a Bonus was declared ranging from 35 to 75 per cent. on the total amount of Premiums paid.*

Mr. Peter Hardy, F.R.S., reported as follows: "I can give the Directors and Members assurance that the amount of profit about to be divided has been fairly realised in the past transactions of the Society, and in no way includes future or anticipated profits. I therefore venture to predict, that if the Society, during the next succeeding five years, makes the same extraordinary progress which it has done during the last five, and is conducted with the same steady prudence and sagacity, that the Bonus which will be declared on the occasion of the next division will, if possible, give even greater satisfaction than the present one should do."

Statement of Business in the five years preceding the last valuation, compared with that of the following three years and ten months.

From January, 1851, to December, 1855; five years.

Policies Issued.	Amount Assured.	Annual Premiums.
6,426	£1,016,679	£35,000 0s. 0d.

From January, 1856, to October, 1859; three years and ten months.

Policies Issued.	Amount Assured.	Annual Premiums.
9,907	£1,471,497	£51,386 4s. 11d.

	Accumulated Capital.	Annual Income.
December, 1855	£138,408	£43,162 0s. 0d.
December, 1859	285,000	92,000 0 0
Increase in four years	146,592	48,838 0 0

Every description of Life Assurance effected on application to the Resident Director.

WATERLOO LIFE ASSURANCE COMPANY.

INCORPORATED 1851.—CAPITAL, £400,000.

(FULLY SUBSCRIBED FOR BY HUNDREDS OF PERSONS OF THE HIGHEST CHARACTER AND RESPECTABILITY.)

The Directors refer with pleasure to the following extract from a Report furnished them in May last by Peter Hardy, Esq., F.R.S., Actuary.

"The present condition of the Society may be regarded as satisfactory. The Proprietors' share of the surplus affords them a fair amount of remuneration for the use of their Capital, taken in conjunction with other advantages they have already enjoyed; and the sum to be divided amongst the Assured gives to them a fair amount of Bonus; in short, the results of this Valuation, in my opinion, are QUITE AS FAVOURABLE as could reasonably have been expected, when all the difficulties attendant on the establishment of a Company are fairly borne in view."

This Office offers the benefits of mutual assurance without its liability, and will be found highly eligible for every description of Life Assurance.

No extra charge for residence in Australia.

Rates of Premium moderate.

Assurances granted against casualties, from whatever cause arising.

Annuities granted.

Family Endowments.

Eighty-five per cent. of the profits divided amongst the Assured every five years.

Forms of proposal and every information on application to the Manager.

By order,

T. G. WILLIAMS, jun., Manager and Secretary.

Head Office, 355, Strand, London. W.C.

No charge for Policy Stamps.—All Policies Indisputable.

WELLINGTON
ANNUITY & LIFE ASSURANCE SOCIETY.

Head Office—3, Chatham-place, Blackfriars, London. E.C.

Branch Office—42, John Dalton-street, Manchester.

PRESIDENT.

Sir John Villiers Shelley, Bart., M.P.

CHAIRMAN OF BOARD.

Lord Henry Gordon, Hampton Court.

SPECIAL ADVANTAGES.—Reasonable rates of Premium. Two-thirds of the Profits divided every five years. Ages of the parties assuring admitted in the Policy. Foreign residence allowed, in most cases, without extra Premium. No entrance fees charged, nor appearance required before the Board. Half-credit rates of Premium for the first five years. Medical men remunerated for their opinions.

INDUSTRIAL LIFE ASSURANCES.—Policies granted for small sums, and Premiums received *monthly* or *quarterly*.

Invalid Life Assurances granted upon equitable terms.

Maritime Passengers' Assurances granted to persons proceeding to sea, against fatal and non-fatal accidents.

Educational Annuities granted upon an entirely new plan, for the education of children. Prospectuses may be obtained at the Head or Branch Offices.

CHARLES W. ROE, Manager.

N.B.—Active Agents wanted in all parts of the country, to whom liberal commissions, and other benefits, are allowed.

MEDICAL OFFICERS.

Archibald Billing, M.D., F.R.S.; T. W. Jones, M.D.;
Samuel Solly, F.R.C.S., F.R.S.

The business of the Company embraces every description of risk connected with Life Assurance. *Credit allowed of one-third* of the Premiums till death, or *half* the Premiums for five years, on Policies taken out for the whole of life. Residence in most of the Colonies allowed without payment of any extra Premium, and the rates for the East and West Indies are peculiarly favourable to Assurers. *Endowment Assurances* are granted payable at 60, 65, or any other age, or at death, should that happen previously. Four-fifths, or 80 per cent. of the entire Profits are appropriated to Assurers on the Profit Scale.

Advances in connection with Life Assurance are made on advantageous terms, either on real or personal security.

Medical men are paid for their Reports, and the usual commission is allowed for introducing Assurances.

WILLIAM RATRAY, Actuary.

PELICAN LIFE INSURANCE COMPANY

(ESTABLISHED IN 1797).

THE ONLY CHEAP MEDICAL JOURNAL,

ORIGINAL IN ITS PLAN, INSTRUCTIVE IN ITS MATTER, INDEPENDENT IN ITS POLICY, AND HONEST IN ITS PURPOSE.

THE MEDICAL CIRCULAR

AND

GENERAL MEDICAL ADVERTISER.

ENLARGED ONE HALF FROM JANUARY, 1860.

Published every Wednesday morning. Price—Unstamped, 4½d.; Stamped, 5½d.; Annual Subscription, 19s. 6d.; if paid in advance, 17s. 4d.

This Journal is distinguished from all others by features peculiar to itself.

1.—Its Leading Articles invariably apply to the most prevailing topics of the day, and are characterised by a bold and fearless tone, a spirit and a piquancy, not to be found in those of any other Medical Journal.

2.—A Clinical Lecture of some distinguished Professor appears in almost every Number of the Journal.

3.—Weekly Reports of the Proceedings of the various Medical Societies.

4.—It is a Key to all the other Medical Journals, by recording any interesting facts they may contain, leaving the wearisome verbiage and unprofitable communications by which they are often encumbered, untouched; thus saving that most precious commodity of the busy Practitioner's Life. TIME.

5.—Notices of every Medical Work immediately on its being sent to the Office.

6.—Space is devoted to Communications remarkable for their interest and utility; and to Controversial Correspondence on Points of Etiquette, Medical Reform, and Quackery.

7.—All the Medical News of the day, including Births, Marriages, and Deaths, new Appointments, Pass Lists of the Colleges, &c. &c.

8.—Notices to those Correspondents who desire information on points relating to the Economy of the Profession.

Office, 20, King William-street, Strand, where all Communications for the Editor should be addressed.

THE MIDDLESEX HOSPITAL MEDICAL COLLEGE.

GENERAL FEE for all the Lectures and Hospital Practice required by the College of Surgeons and Society of Apothecaries, 81*l.*; payable by three instalments, falling due as follows:—First Session, 35*l.*; Second Session, 35*l.*; Third Session, 11*l.*

THE MIDDLESEX HOSPITAL, having an endowed Cancer Department and special Wards for Uterine Diseases and Syphilis, contains in the aggregate 305 beds. There are separate Out-patient Departments for **OPHTHALMIC CASES**, and for the **DISEASES OF WOMAN AND CHILDREN.**

FIVE APPOINTMENTS within the walls of the Hospital, with free board and residence, are open to those Gentlemen who have completed their education in the Medical College; namely—Two House-Surgeoncies (Fee, 21*l.*), and Three Clinical Assistantships (no Fee), tenable for one year. The award of these appointments is made by means of Competitive Examination.

The arrangements for **CLINICAL INSTRUCTION** provide that every general Student shall be, during certain distinct periods, both Clinical Clerk and Dresser.

CERTIFICATES OF HONOUR are given in each Class, and also for good **CLINICAL REPORTS.** **PRIZES** are given for general proficiency. **WRITTEN PERIODICAL EXAMINATIONS** are held several times in the Session—the results of which determine the award of the Prizes.

The Prizes of each of the two first Winter Sessions are in value Six and Four Guineas. The Prizes of the Third Session are—The Governors' Prize, value Twenty Guineas; Two Prizes, value Six Guineas each; Two Prizes, value Four Guineas each, for Reports in Clinical Medicine and in Clinical Surgery.

The Prizes of each of the Summer Sessions are in value Three and Two Guineas.

THE CLAYTON PRIZE, value Three Guineas, given by Oscar Clayton, Esq., for proficiency in Comparative Anatomy.

NAMES OF THE MEDICAL OFFICERS OF THE HOSPITAL AND OF THE LECTURERS.

Names.	In the Hospital Staff.	Lecturer in the College, on

ST. THOMAS'S MEDICAL SESSION.

A GENERAL INTRODUCTORY ADDRESS is delivered on the 1st of October, after which the Distribution of Prizes takes place.

Gentlemen have the option of paying 40*l.* for the first year, a similar sum for the second, and 10*l.* for each succeeding year; or 90*l.* at one payment, as perpetual.

PRIZES AND APPOINTMENTS FOR 1859-60.—Voluntary Matriculation Examinations are held early in October, and Prizes are given in each of the three following divisions:

1st. In Mathematics, Classics, and Ancient History. The President's Prize of 20 guineas.—2nd. In Physics and Natural History. A College Prize of 20*l.*—3rd. In Modern Languages and Modern History. A College Prize of 20*l.*

To the three most distinguished Pupils for General Proficiency in each year the following Prizes are awarded:

First Year's Students.—1st. The Treasurer's Prize of 30 guineas. 2nd. A College Prize of 20*l.* 3rd. A College Prize of 10*l.*—Second Year's Students.—1st. A College Prize of 30*l.* 2nd. A College Prize of 20*l.* 3rd. A College Prize of 10*l.* The Dressers and the Clinical Clerks are awarded to merit, after examination.—Third Year's Students.—1st. A College Prize of 30*l.* 2nd. A College Prize of 20*l.* 3rd. A College Prize of 10*l.* Clinical Assistants, a Prize of 10*l.*, and 5*l.* to the two most meritorious. Mr. Geo. Vaughan's Cheselden Medal. The Treasurer's Gold Medal. Mr. Newman Smith's Prize of 5*l.* for the best Essay on Neuralgia.

The two House-Surgeons, the Resident Accoucheurs, and the Dressers are periodically selected, and are provided with rooms and commons in the Hospital, free of expense. A Hospital Registrar at an annual salary of 80*l.* Students of each year are classed according to their respective total merits in the examinations, and all of the first class receive certificates of honour.

MEDICAL OFFICERS.—Dr. Roots, Consulting Physician; Mr. Green, Consulting Surgeon; Dr. Barker, Dr. J. Risdon Bennett, Dr. Goolden, Mr. South, Mr. Mackmurdo, Mr Solly, Mr. Le Gros Clark, Mr. Simon, Dr. Peacock, Dr. Bristowe, Dr. Waller, Mr. Whitfield.

Clinical Instruction is given at stated times by the Medical and Surgical Officers. On Ophthalmic Surgery, Mr. Mackmurdo; Midwifery, Dr. Waller and Mr. H. Gervis; Dental Surgery, Mr. Patient; Medical Tutor, E. Clapton, M.D.

LECTURERS.—On Clinical Medicine, Dr. Barker; Medicine, Dr. J. Risdon Bennett; Surgery, Mr. South; Physiology, Mr. Grainger and Dr. Brinton; Descriptive and Surgical Anatomy, Mr. Le Gros Clark and Mr. S. Jones; Chemistry and Practical Chemistry, Dr. Rt. Dundas Thomson; Midwifery, Dr. Waller; Practical Midwifery, Mr. H. Gervis; General Pathology, Mr. Simon; Botany, Dr. Bristowe; Comparative Anatomy, Mr. W. M. Ord; Materia Medica, Dr. Peacock; Forensic Medicine, Dr. Brinton; Public Health, Dr. Headlam Greenhow; Anatomical Demonstrations, Mr. Rainey and Mr. W. M. Ord; Demonstrations Morbid Anatomy, Dr. Bristowe and Mr. S. Jones; Microscopical Anatomy, Mr. Rainey.

Students can reside with some of the Officers close to the Hospital.

The patients are admitted daily at half-past nine a.m., and the out-patients seen at the same time.

To enter, or to obtain prospectuses and further information, apply to Mr. WHITFIELD, Medical Secretary, resident at the Hospital.

ST. MARY'S HOSPITAL MEDICAL SCHOOL.

IT IS A DISTINCTIVE CHARACTERISTIC OF ST. MARY'S HOSPITAL THAT THE FOLLOWING MEDICAL APPOINTMENTS ARE ANNUALLY CONFERRED UPON THE PUPILS FREE OF EVERY EXPENSE; THE ADVANTAGES OF FIVE OF THESE APPOINTMENTS FAR EXCEED IN MONEY-VALUE AS MANY SCHOLARSHIPS OF FIFTY POUNDS EACH. THERE ARE FOUR RESIDENT MEDICAL OFFICERS, WHO BOARD (FREE OF ALL EXPENSE) IN THE HOSPITAL, THREE OF WHOM ARE APPOINTED FOR TWELVE MONTHS; AND ONE (THE OBSTETRIC OFFICER) WHO IS APPOINTED FOR SIX MONTHS: THREE NON-RESIDENT MEDICAL OFFICERS; A MEDICAL AND A SURGICAL REGISTRAR; ALL OF WHOM ARE APPOINTED BY THE WEEKLY BOARD OF GOVERNORS ON THE RECOMMENDATION OF THE MEDICAL COMMITTEE. CLINICAL CLERKS AND DRESSERS ARE SELECTED FROM THE BEST QUALIFIED STUDENTS. ALL THE ABOVE OFFICES ARE AWARDED, AFTER COMPETITION, AMONG THE QUALIFIED PERPETUAL PUPILS OF THE HOSPITAL.

Physicians—Drs. Alderson, Chambers, Sibson, H. Jones, Sieveking, and Markham.

Surgeons—Messrs. Coulson, Lane, Ure, Spencer Smith, Walton, and J. Lane.

Physician-Accoucheur—Dr. Tyler Smith.

Ophthalmic Surgeon—Mr. White Cooper.

Aural Surgeon—Mr. Toynbee.

Surgeon-Dentist.—Mr. Sercombe.

Fee as a Perpetual Pupil, entitling the Student to unlimited attendance on the Hospital Practice and all Lectures (with the exception of Practical Chemistry), and also to competition for Dresserships, Clinical Clerkships, and Twelve Months' House Surgeoncy, free of every expense, 105*l.*

Fee for the Lectures and Hospital Practice required by the Examining Boards, 89*l.* 5s.

These Fees may be paid by instalments.

Further information may be obtained on application to the Dean of the School, who will also furnish the names of Gentlemen in practice in the vicinity of the Hospital willing to receive pupils to reside with them.

SPENCER SMITH, Dean of the School.

St. Mary's Hospital, December, 1859.

PHARMACEUTICAL SOCIETY OF GREAT BRITAIN.

SCHOOL OF PHARMACY,

17, BLOOMSBURY-SQUARE, LONDON.

Chemistry and Pharmacy. By Dr. Redwood. Tuesday, Wednesday, and Friday mornings, at Half-past Eight.

Botany and Materia Medica. By Professor Bentley, F.L.S. Monday and Saturday mornings, at Half-past Eight.

Laboratory for Practical Instruction in Pharmaceutical Chemistry. Under Professor Redwood.

Comprising the preparation of all the chemical compounds employed in medicine, Pharmaceutical manipulations and processes, qualitative and quantitative analysis, with special applications to the determination of the strength and purity of medicines, and the detection of poisons.

QUEEN'S UNIVERSITY IN IRELAND.

QUEEN'S COLLEGE, GALWAY.

SESSION 1859-60.

FACULTY OF MEDICINE.

DEAN OF THE FACULTY:

CHARLES CROKER KING, M.D., F.R.C.S.I., M.R.I.A.

PROFESSORS.—Anatomy and Physiology: Charles Croker King, M.D., F.R.C.S.I., M R.I.A.—Practice of Medicine: Nicholas Colahan, M.D.—Practice of Surgery: James V. Browne, M.D.. L.R.C.S.I.—Materia Medica: Simon M Coy, F.R.C.S.I.—Midwifery and Diseases of Women and Children: Richard Doherty, M.D., V.P. Dublin Obstetrical Society.—Medical Jurisprudence: Simon M'Coy, F.R.C.S.I.—Modern Languages: Augustus Bensbach, M.D.—Natural Philosophy: Arthur H. Curtis, A.M. Chemistry: Thomas H. Rowney, Ph. D.—Natural History: Alexander G. Meville, M.D. Edinburgh, M.R.C.S. England, M.R.I.A.—Logic and Metaphysics: Thomas W. Moffett, LL.D.—Demonstrator of Anatomy: Robert Reid, B.A., M.R.C.S.E.

The Matriculation Examinations, in the Faculty of Medicine, will commence on Tuesday the 18th of October.

Additional Matriculation Examinations will be held on Thursday the 24th of November.

Matriculation is necessary for those Students only who intend to proceed for the degree of M.D. in the Queen's University, or to become candidates for Scholarships, Exhibitions, or Prizes in the College.

SCHOLARSHIPS AND EXHIBITIONS.

In the Faculty of Medicine Six Junior Scholarships of the value of 20*l.* each, and Six Exhibitions of the value of 10*l.* each, are appropriated as follows:—Two Scholarships and Two Exhibitions to Students of the first, second, and third years, respectively. Also, Two Senior Scholarships of the value of 40*l.* each, and Two Exhibitions of the value of 18*l.* each, are appropriated to Students of the fourth year.

The Examinations for Scholar-hips and Exhibitions will commence on Thursday the 20th of October, and be proceeded with as laid down in the Prospectus.

In addition to the Scholarships and Exhibitions above mentioned, Prizes will be awarded by each Professor at the close of the Session.

Scholars of the first, second, and third years are exempted from a moiety of the Class Fees.

The Medical School of Queen's College, Galway, affords ample means for the acquisition of Medical and Surgical knowledge.

MUSEUMS.—An extensive Museum, illustrative of *Anatomy and General Pathology, Materia Medica and Toxicology*, has been provided; and to facilitate the study of the *Obstetric* branch of Medical Science, the College has purchased the *Montgomery Museum*.

HOSPITALS.—The Hospitals, to which Students are admitted, contain TWO HUNDRED BEDS. and are visited every morning by the Medical Professors, who deliver Clinical Lectures.

In order to induce Medical Students to attend the practice of the Hospitals during the entire course of their Education, the Fee for Hospital Attendance and Clinical Lectures conjointly has been reduced to £2 for each Session.

COLLATERAL SCIENCES.—Laboratories and every requisite appliance exist for the cultivation of Chemistry and Natural Philosophy. The College is furnished with a Museum of Natural History, and a Botanical Garden. Botanical excursions are conducted by the Professor in the proper season.

Further information may be had on application to the REGISTRAR, from whom Copies of the Prospectus may be obtained.

Sir PATRICK DUN'S HOSPITAL is visited at Nine o'clock, daily, by the Clinical Professors, and Clinical Lectures are delivered twice in each week during the Winter Sessions, as also during the months of May, June, and July.

The COURSE of PRACTICAL ANATOMY and of Anatomical Demonstrations will be conducted by the Professor of Anatomy, assisted by the Demonstrators.

	£	s.	d.
Fee for each Course of Clinical Lectures . . .	2	2	0
Fee for twelve months' attendance on Sir Patrick Dun's Hospital	10	10	0
Students in Arts of T.C.D., after Senior Freshman Year, are entitled to twelve months' Hospital attendance for . .	3	3	0

All the Lectures, with the exception of the Clinical Lectures, will be delivered in the MEDICAL LECTURE-ROOMS of the UNIVERSITY.

W. E. STEELE, M.D.,
Fellow and Registrar of the King and Queen's College of Physicians in Ireland.

CITY OF DUBLIN HOSPITAL.

The Course of Practical, Medical, and Surgical Instruction in this Hospital commenced in October.

The Clinical Lectures will be delivered on three days in each week during the Session, by Dr. Jacob, Dr. Benson, Mr. Hargrave, Mr. Williams, Dr. Geoghegan, and Mr. Tufnell; and on diseases peculiar to women and children, by Dr. Beatty. Dr. Jacob's Clinical Lectures on Diseases of the Eye, illustrated by the Cases in the Hospital, are open to the pupils in attendance.

Consulting Physicians:—Sir Henry Marsh, Bart., and Professor Apjohn.
Consulting-Surgeons:—Professor Porter and J. W. Cusack, M.D.

The certificates of attendance are received as qualification by all the Colleges, Halls, and Boards.

Digitized by Google

THE LYING-IN HOSPITAL,

DUBLIN.

Consulting Physician: Sir HENRY MARSH, Bart.

Consulting Surgeon: JAMES W. CUSACK, Esq.

Master: ALFRED H. McCLINTOCK, M.D., F.R.C.S., M.R.I.A.

This Hospital, the lagest and only chartered Clinical School of Midwifery in the British dominions, contains 130 Beds, 15 of which are appropriated to the diseases of females.

An Obstetrical Museum (containing upwards of 500 preparations) and a Library are attached to the Hospital; and a limited number of *Intern* Pupils can be accommodated. Clinical Instruction in Midwifery and on the Diseases of Women and Infants is given daily.

The Master's Lectures are recognised by the Royal Colleges of Surgeons in Ireland, London, and Edinburgh; the King and Queen's College of Physicians; the Apothecaries' Halls of Dublin and of London; the Army and Navy Medical Boards, and all the other Licensing Bodies.

The Pupils of this Hospital are privileged to attend the Institution for Diseases of Children, Pitt-street, and the Cow Pock Institution, Sackville-street and York-street.

Terms of attendance for Six Months:

Intern Pupils . . .	Twenty Guineas
Extern Pupils . . .	Ten Guineas
Fee on Diploma .	Ten-and-Sixpence

The Lectures are delivered at seven p.m. on Tuesdays, Thursdays, and Saturdays.

Applications to be made to the Master, Dr. McClintock, at the Hospital.

ROYAL COLLEGE OF SURGEONS IN IRELAND.

SCHOOL OF SURGERY—SESSION 1859—1860.

The Dissecting Rooms opened on the 3rd of October, and the Lectures commenced on Monday, 31st.

Anatomy and Physiology, Dr. Jacob; Descriptive Anatomy, Dr. Power and Dr. Bevan; Surgery, Mr. Porter and Mr. Hargrave; Practice of Medicine, Dr. Benson; Chemistry, Dr. Barker; Materia Medica, Dr. Williams; Midwifery, Dr. Sawyer; Medical Jurisprudence, Dr. Geoghegan; Practical Chemistry, Dr. Barker; Comparative Anatomy, Dr. Jacob; Botany, Dr. Mitchell; Military Surgery, Mr. Tufneil; Logical Science, John Murray, A.M., L.L.D.

The Fee for each of the above courses is Two Guineas, except Comparative Anatomy, which is free, and Military Surgery, which is Three Guineas.

Dissections under the direction of the Professors of Anatomy, assisted by the Demonstrators, Messrs Morgan, Mapother, Egan, and Croly.

The Summer Session will commence in May and terminate in August.

For further information, application to be made to any of the Professors, or to the Registrar. By order, JOHN BRENNEN, Registrar.

Histology	Dr. Redfern		3 5 6
Natural History	Rev. Dr. Longmuir	9 to 10 a.m.	2 2 0

THE ROOMS FOR PRACTICAL ANATOMY ARE PERSONALLY SUPERINTENDED BY DR. REDFERN.

Students are required to matriculate within the first month of the Winter Session, and within the first fortnight of the Summer Session, and no certificate of attendance will be given without such matriculation. The Matriculation Fee for all the Classes is one sum of 5s. for the Winter, and one of 2s. 6d. for the Summer Session.

CHEMISTRY and NATURAL PHILOSOPHY will be taught, as formerly, in King's College; and the other Classes in the Medical School, St. Paul-street.

King's College, October, 1859. DAVID THOMSON, SECRETARY.

DROITWICH ASYLUM.

Established in 1791.

Many and great Improvements have taken place in this Establishment, and it is now licensed to Sir Charles Hastings, M.D, D.C.L. and Francis I'on Bennett, L.R.C.P. Ed., M.R.C.S. Eng., for the reception of private Patients only.

The Grounds are well arranged and extensive, which, combined with moderate charge for Board and Medical Attendance and the great preponderance in the proportion of cures over that of mortality, render it an Establishment well suited for the recovery of the Insane.

The Terms and Forms of Certificates may be obtained on application to Francis I'on Bennett, Resident Physician and Proprietor, Asylum, Droitwich.

THE LONDON HOME, FOR SURGICAL DISEASES OF WOMEN.

16, STANLEY TERRACE, NOTTING HILL,

NEARLY OPPOSITE ST. JOHN'S CHURCH.

MEDICAL OFFICERS.

PHYSICIAN.

T. Hall Davis, M.D.

SURGEONS.

I. Baker Brown, Esq., F.R.C.S. T. W. Nunn, Esq., F.R.C.S.

ASSISTANT-SURGEON.

Philip H. Harper, Esq., F.R.C.S.

VISITING-SURGEONS.

W. F. Wratislaw, Esq., 1, Archer Villas, Westbourne-grove West.
Dr. Menzies, 12, Elizabeth-terrace, Westbourne-grove.
G. Spencer, Esq., 1, Horbury-terrace, Notting-hill.
Dr. Giles, Norfolk-terrace, Westbourne-grove West.

This Institution is established for the treatment of Surgical Diseases peculiar to women. It contains twenty beds. A small sum is paid by each patient, weekly, towards the expense of the Institution, the services of the medical officers being entirely honorary. All qualified medical men are admitted to see the practice on Thursdays, at 2 p.m., on application to one of the medical officers at "The Home."

GEO. FORBES, Honorary Secretary.

ARDEN HOUSE, WARWICKSHIRE.

PRIVATE ASYLUM for the cure and care of a very limited number of persons, of the higher classes, labouring under Mental and Nervous Affections. Established by the late Mr. BURMAN, and now in possession of GEORGE RUSSELL DARTNELL, M.R.C.S. Engl., Inspector-General of Army Hospitals, H.P., and lately Staff-Surgeon Superintendent of the Government Asylum for Military Lunatics.

ARDEN HOUSE,—centrally situated in one of the Midland Counties, in the neighbourhoods of Warwick, Leamington, and Stratford-on-Avon,—stands upon elevated ground, in a peculiarly healthful and picturesque locality. The Grounds and Gardens are very extensive, tastefully laid out and planted; there are no boundary walls, or other objects calculated to impart a prison-like appearance to the mansion, which simply resembles that of a country gentleman. The present proprietor is a married man, whose family have been accustomed to study the comforts and amusements, and soothe the minds of persons suffering from impairment of the mental powers; and few circumstances, it is well known, conduce more to the recovery of the insane than cheerful association (properly regulated) with young persons in a normal state of mental health.

References and Testimonials of the most unexceptional character can be given.

Address, ARDEN HOUSE, HENLEY-IN-ARDEN, BIRMINGHAM.

Digitized by Google

BARNWOOD HOUSE INSTITUTION

FOR THE CURE AND TREATMENT OF THE INSANE.

This Institution is a registered Hospital under the Commissioners in Lunacy, to be supported partly by the payments of the inmates and partly by voluntary contribution.

The Charitable Fund for its establishment dates its commencement from 1794. It was applied in 1814 in aid of the erection and maintenance of the Gloucester County Asylum, into which, from its first opening until the year 1856, private patients as well as the poor of the county were received; but that establishment having then become so large as to render a longer continuance of the union undesirable, the subscribers felt it their duty to make provision elsewhere for those patients for whom the funds at their disposal were more especially intended.

The main object of Barnwood House is to afford suitable accommodation and treatment to persons in the middle ranks of life whose recources are inadequate to meet the necessary expenses of a Private Asylum.

It is, however, intended to receive two classes:

1st. Those in affluent circumstances for whom fitting provision is made, and who will be expected to pay according to their requirements.

2nd. Persons of limited means, who will be admitted at rates of payment less than the cost of their maintenance, the sum to be paid being regulated in each case by the Committee of the Subscribers. This class will be assisted from the Charitable Fund, and from any excess that may arise in the proceeds of Class No. I.

Cure is the object of the Establishment, and *in the admission of patients* the first consideration will always be given to recent cases, and to such as appear to warrant a reasonable hope of their restoration to society.

BARNWOOD HOUSE is situated in the parish of Barnwood, two miles from Gloucester.

Subscriptions and Donations are received by NATH. HARTLAND, Esq., the Treasurer, at the Gloucestershire Bank, in Gloucester.

Applications for admission must be made to the Resident Medical Superintendent, ALFRED J. WOOD, M.D., F.R.C.S.

BROOM HOUSE, MANSFIELD,

NOTTINGHAMSHIRE.

A PRIVATE ASYLUM FOR LADIES ONLY.

This Establishment, hitherto so successfully conducted by the late Booth Eddison, F.R.C.S., will in future be carried on by his Widow, with the assistance of an efficient Superintendent and a Medical Man in regular attendance.

BROOM HOUSE is contiguous to the Mansfield Station of the Midland Railway, about 14 miles from Nottingham, and within easy distance of Chesterfield, Worksop, Southwell, and Alfreton. The House is commodious, and surrounded by several acres of Garden and Pleasure Ground, and is replete with every convenience for the classification of Patients of the higher and middle classes, every facility being afforded for carriage and garden exercise.

Mrs. BOOTH EDDISON is determined that nothing shall be wanting on her part to make this a first-rate Establishment, on terms to meet the requirements of the Patients.

For further particulars apply to Mrs Eddison, or to Miss Stevenson, Resident Superintendent.

Digitized by Google

PRIVATE ESTABLISHMENT FOR THE INSANE,

CHURCH STRETTON, NEAR SHREWSBURY.

This Establishment is conducted by the Resident Proprietor, Dr. S. G. BAKEWELL, son of the late Mr. Bakewell, of Spring Vale, Staffordshire.

The Ladies occupy a separate residence, and are under the immediate care of Mrs. Bakewell.

The neighbourhood of Church Stretton is very picturesque and healthy. Its similarity to Malvern is often noticed.

References can be given to Medical Gentlemen and others, in Shrewsbury, Hereford, Birmingham, and throughout Staffordshire.

The Reports of the Commissioners in Lunacy, and of the visiting Magistrates, will be shown on personal application.

Church Stretton is a First-Class Station on the Shrewsbury and Hereford Railway, twelve miles from Shrewsbury.

DUDDESTON HALL,

BIRMINGHAM.

PRIVATE ASYLUM FOR MENTAL ALIENATION.

Within easy distance of Aston Hall and Park.

Under the Medical direction of the Resident Proprietor, Dr. BOISRAGON (son of the late Dr. Boisragon, of Cheltenham) formerly Medical Superintendent of Private Asylums, and late Physician to the Cornwall County Asylum.

The House, situated in 13 acres of ground, with walled Gardens, Green and Hothouses, Plantation and Pleasure Grounds, is easily accessible by the Midland and South Staffordshire Railways.

RETREAT FOR MENTAL INVALIDS,

EARL'S-COURT HOUSE, OLD BROMPTON.

Ladies suffering from Mental and Nervous Disorders will find a most desirable home, with extensive Pleasure Grounds, an easy and convenient distance from London, where there is cheerful society, and every comfort and amusement studied, combined with the most approved modern system of medical and moral treatment.

Terms, regulated by the accommodation required, with full particulars, can be had on application, or forwarded by post, with the higher testimonials from the leading members of the Medical Profession and others.

GROVE HOUSE ASYLUM,

ACOMB, NEAR YORK,

Is pleasantly situated on an eminence commanding an extensive view of the surrounding country. It has a regular Medical Attendant, and the comfort of Patients is secured by the personal superintendence and management of Mr. and Mrs. PEARSON. Being situated within two miles of York, the Asylum is easily accessible. For terms, apply to the Proprietor, Mr PEARSON, Grove House, Acomb, York.

Digitized by Google

PRIVATE HOUSE OF RETIREMENT

(For the reception of Insane Persons of both Sexes),

DUNNINGTON HOUSE, NEAR YORK.

This Establishment is in a retired and healthy situation, about four miles from York; its domestic comforts, gardens, and pleasure grounds attached, render it equal to any other Establishment in the kingdom. The Patients are under the immediate superintendence of Mr. and Mrs. Hornby, and partake of all the enjoyments of a domestic life. The amusements are varied and numerous. The Billiard Table and Bowling Green afford ample exercise for those whose unhappy situation renders walking or riding exercise from home improper. The house is attended by an eminent Surgeon, *but the friends of any Patient may make their own choice of a Medical adviser when occasion requires.* Patients attended from their own residences; travelling expenses only charged. The terms will vary according to the accommodation required.

DUNSTON-LODGE ASYLUM.

ESTABLISHED IN 1830,

FOR THE RECEPTION AND RECOVERY OF THE INSANE.

(Provisional County Asylum for Cumberland and Westmoreland.)

DUNSTON LODGE is pleasantly situated, near the healthy and retired village of Whickham, in the county of Durham, and is of easy access from the Newcastle-upon-Tyne and Gateshead Railway Stations.

The House is spacious, and contains every domestic comfort with perfect retirement. The buildings and pleasure-grounds have been considerably enlarged, and will now permit a limited increase of private patients, of either sex.

Terms moderate, according to the requirements of each.

Proprietor and Superintendent . . . Mr. C. GARBUTT.

Medical Superintendent, Mr. J. E. Forster, M.R.C.S. Eng.; Assistant-Superintendent, Mr. Jno. Garbutt, L.A.C.; Matrons, Mrs. Garbutt and Mrs. Pilling.

Medical Gentlemen and Clergymen are respectfully invited to visit this Establishment.

PRIVATE ASYLUM FOR THE INSANE,

FAIRFORD RETREAT, FAIRFORD, GLOUCESTERSHIRE.

The above Establishment has been conducted by the present Proprietors for upwards of a quarter of a century, and possesses an uninterrupted series of favourable Reports from the Commissioners in Lunacy, the Visiting Justices, and from Recovered Patients and their Friends.

Terms moderate, and varying according to the accommodation required.

For particulars apply to Messrs. ILES, the Proprietors.

Digitized by Google

GROVE HALL ASYLUM,

BOW, LONDON.

The arrangements in this Asylum for Private Patients have been much increased, and are specially adapted for the accommodation of patients from the middle classes of society.

Terms, from One to Two Guineas per week.

The Asylum is within three minutes' walk of the Bow Station of the Camden Town Railway from Fenchurch street, and is one mile from the Stratford Station of the Eastern Counties Line.

Further particulars may be obtained on Application to the Proprietor or Resident Medical Superintendent.

HAYDOCK LODGE,

ASHTON-IN-MACKERFIELD, LANCASHIRE,

Two Miles from the Newton Bridge Station, on the Manchester and Liverpool Railway.

ASYLUM FOR MENTAL AND NERVOUS COMPLAINTS

UNDER THE SUPERINTENDENCE OF MR. AND MRS. SUTTON.

Visiting Physician.—F. RENAUD, Esq., M.D., Manchester.

Resident Surgeon.—D. ROSSITER, Esq.

Chaplain.—The Rev. FRED. KENNEY, M.A.

This Mansion, pleasantly situated in an extensive park about three miles in circumference, and lying in a retired district, midway between Liverpool and Manchester, possesses many natural advantages for the treatment and cure of persons afflicted with mental disorders. The soil is sandy, and lies on the red rock,—a circumstance that implies freedom from humidity and purity of water.

HAYDOCK LODGE, having been built about sixty years ago as the country seat of an opulent gentleman, is arranged internally and externally so as to ensure a large amount of domestic comfort. The day rooms are large and lofty, and the sleeping apartments numerous and perfectly unexceptionable. Extensive lawns and woodlands surround the house, and a garden, four acres in superficial area, adjoins it. To these, as well as to the park, Patients have free access, under proper superintendence. There is also a farm of nearly sixty acres, upon which the Gentlemen Patients are very generally induced to employ themselves.

The alterations within the Mansion have been such only as were necessary to ensure domestic comfort and classification. Altogether, the house resembles a large private residence, rather than a public institution.

Out-door exercise, as an occupation, forms an essential part of treatment, when the weather is fair; and when the days are unpropitious, in-door amusements are substituted.

The religious wants of such of the Inmates as are in a fit state are provided for by the Vicar of the parish.

The highest Medical and general references can be given, and further particulars, and blank forms of certificates, may be had on application to the Superintendent, whether personally or by letter.

HARPENDEN HALL,

ST ALBAN'S, HERTS,

Established by J. Q. RUMBALL, Surgeon, for the reception into his family circle, and for the Phrenological treatment, of a limited number of First-class Patients. Conducted by himself and Son.

TERMS UPON APPLICATION.

Digitized by Google

LIME TREE HOUSE,

ACOMBE, YORK.

For the reception of a limited number of first-class patients of both sexes nervously and mentally afflicted, situate in a pleasant, healthy, and airy locality, two miles west of York; conducted by Mr. Nelson, Medical Proprietor.

This institution affords experienced medical treatment, security, privacy, and all the comforts of a home.

Billiards and other amusements suitable to the capabilities of the inmates will be provided.

Mrs. Nelson and family reside in the house.

HAYDON HALL,

EASTCOTE.

Resident Proprietor—J. R. DIAMOND, M.D.

The mansion stands in a small park, and is surrounded by six acres of pleasure grounds.

Three ladies only are received, who reside entirely with Dr. Diamond's family. A carriage is kept, and the accommodation is very superior.

Eastcote is situate in one of the most rural and beautiful parts of Middlesex, five miles from Harrow-on-the-Hill, two miles and a half from the Pinner Station on the North-Western Railway, and four miles from Uxbridge on the Great Western.

THE RETREAT,

MOUNT STEAD, NEAR ILKLEY.

The PRIVATE ASYLUM, for the Care and Recovery of Persons afflicted with Disorders of the Mind—Established at Castleton Lodge in 1830—is now REMOVED to MOUNT STEAD, near ILKLEY, under the superintendence of Mr. SAMUEL SMITH, Senior-Surgeon to the General Infirmary, at Leeds, and Dr. PYEMONT SMITH, Lecturer on Medical Jurisprudence at the Leeds School of Medicine. Mount Stead possesses ample and commodious premises, with extensive pleasure grounds, surrounded by the most beautiful scenery in the West Riding of Yorkshire, the purest mountain air, an abundant supply of the Ilkley spring waters, and every convenience for the treatment and cure of those afflicted with Mental Disease. Mount Stead is about two miles from Ilkley, on the Otley road, and eight miles from the Arthington Station, on the North-Eastern Railway.

Application for terms, &c., may be made to Messrs. Smith, 20 Park-place, Leeds.

PRIVATE INSTITUTION FOR THE TREATMENT OF THE INSANE,

SANDYWELL PARK,

NEAR CHELTENHAM, GLOUCESTERSHIRE.

Conducted by Dr. HITCH and Mr. YORKE J. WOOD.

SANDYWELL PARK has been long known as one of the most admired and healthful residences in the county of Gloucester. The Mansion is situated in a finely-timbered Park of 120 acres in extent, with Gardens, Plantations, and a Farm attached to it. It is on the Cotswold Hills, overlooking the Vale of the Severn, amidst varied and beautiful scenery; and though only five miles from Cheltenham, is perfectly secluded, and affords every facility of access without publicity.

The Mansion has been much improved and considerably enlarged, and by means of additional buildings has been made to consist of two houses attached to each other, effecting not only a separate residence for the two sexes, but a complete classification of patients, with accommodations for either sex, on any required scale; whilst the arrangements are such as to afford separation or social intercourse, according to the varied condition of each invalid, or the wishes of the relatives or friends.

This Institution, therefore, possesses all the requisites for the successful treatment of every form of mental disorder. It embraces the means of domestic quiet, privacy, and security from observation, without close confinement; facility for exercise of all kinds in the open air, and of amusements within doors, suited to the wants as well as to the tastes and habits of the invalid; and as the Physician and his family reside in the house, and live with the patients, the establishment assimilates itself to that of a country gentleman, with this advantage, that it combines the solace of domestic life, and the benefits of social communion, with the indispensable watchfulness of the *medical* eye.

There are also separate houses on the Estate for those Patients whose friends wish them to avoid association with others.

A Chaplain is also attached to the Establishment.

The Commissioners in Lunacy report, at their visit in March, 1848, "That the arrangements appear to be extremely judicious, and that altogether they have never seen any Private Establishment with which, in point of situation, construction, and means of varied exercise and amusements, they have had greater reason to be satisfied."

For any other particulars, or for terms (which will depend on the accommodations required), applications made to Dr HITCH, Sandywell Park, near Cheltenham, will receive every attention.

WYE HOUSE,

BUXTON, DERBYSHIRE.

Established in 1838, for the Care and Treatment of a Select and Limited Number of the Insane.

Resident Medical Proprietor, THOMAS DICKSON, R.C.S.E., late Resident Medical Superintendent of the Manchester Lunatic Hospital.

WYE HOUSE is situated at the outskirts of Buxton, and stands in an extensive Lawn facing the South and West; it is surrounded by Ornamental Shrubberies, and Flower and Kitchen Gardens. The Grounds extend to upwards of twelve acres, most of which are richly wooded. The river Wye, in which there is excellent fishing, passes through part of the grounds, and from the House several of its Cascades are seen.

The salubrity of Buxton as a place of residence, and the Hygienic effects of its Water and Baths, are well known to every one, and as a place of residence for the Insane it is peculiarly adapted.

To those labouring under the various forms of Monomania, to the Melancholic, the Nervous, the Depressed, and the Sufferer from Mania after its more acute stage has been subdued, the Scenery in and around Buxton affords subjects of enjoyment, wonder, and admiration. Mountains, woods, dales, rivers, and waterfalls for those who admire Nature in the grand and beautiful—ferns, wild flowers, and wild fruits in endless variety for those who have a taste for Botanising—for those addicted to the Piscatory art there are rivers and streams in abundance. The works of art, such as the Parks and handsome buildings in Buxton itself, Chatsworth, Ilam Hall, Haddon Hall, Hardwick Hall, Lyme Hall, with their grounds, parks, and gardens, afford ample means of enjoyment to those having a taste for architecture, landscape gardening, and their beauties; while the admirers of natural curiosities have the rich and varied scenery of Wye Dale, Ashford Dale, Dove Dale, Aullers Dale, and Castleton, its Caves and Cavern, &c. &c., to interest and amuse them.

Ample means are provided for the occupation and amusement of the Patients, including carriage and garden exercise, &c. &c.

RETREAT, MARFLEET LANE, near HULL.

Mrs. CAMPBELL, PROPRIETOR.

Established for the reception of LADIES mentally afflicted, and where they will receive all the comforts of home, combined with proper Medical treatment.—Terms on application.

PECKHAM HOUSE ASYLUM,

NEAR LONDON.

The Proprietors, Dr. ARMSTRONG and Mr. MORRIS (Surgeon) have made arrangements for the reception of a larger number of Private Patients of both sexes. The Asylum is situate three miles from Londonbridge.

Full particulars may be obtained either personally or by a letter addressed to the Proprietors.

Digitized by Google

INSANITY.

TUE BROOK-VILLA, GREEN-LANE,

SITUATED ABOUT THREE MILES FROM LIVERPOOL.

Erected expressly for the care and cure of those invalids, of both sexes, whose mental afflictions render absence from home desirable and necessary.

This House is in the Italian style of Architecture, light and airy throughout; its various Corridors, Sitting and Bed-rooms, commanding extensive views from all the windows and from the Garden and Pleasure Grounds.

The internal arrangements are complete, where everything is combined, with the kindest care and attention, for the restoration of the unhappy invalids.

Mr. and Mrs. Owen have had upwards of twenty years' experience in the care and treatment of the Nervous, and those mentally afflicted.

The terms vary according to the circumstances and accommodation required. Experienced attendants sent to remove invalids if required.

ADDRESS—TUE BROOK-VILLA, GREEN-LANE,
WEST DERBY, LIVERPOOL.

PRIVATE ASYLUM FOR THE INSANE,

(Licensed 1834) Portland House, Whitchurch, near Ross, Herefordshire, 4 miles from Monmouth, and 6 from the Ross Station on the Great Western Railway.

Mr. MILLARD, Surgeon and Resident Proprietor, has a few vacancies for Patients of either Sex. Terms moderate.

NORTHUMBERLAND HOUSE,

GREEN LANES, STOKE NEWINGTON.

PRIVATE ASYLUM FOR THE CARE AND TREATMENT OF THE INSANE.

Resident Proprietor, GEORGE BIRKETT, M.D., Lond., Lecturer on Forensic Medicine at the Charing-Cross Hospital, and late Physician to the Islington Dispensary.

WYKE HOUSE,

SION-HILL, ISLEWORTH, MIDDLESEX. W.

A Private Establishment for the Residence and Cure of Ladies and Gentlemen Mentally Afflicted.

Application to be made to Dr. R. GARDINER HILL (late Resident Proprietor of Eastgate House, Lincoln), 8, Hinde-street, Manchester-square, W., or to EDMUND S. WILLETT, M.D., Wyke House,—the PROPRIETORS.

THE MEDICAL PROFESSION, at the suggestion of an old and valued Member, have endeavoured to found an Asylum for those of their Brethren who, from ill health, want of success, or other adverse influences, have sunk into poverty, and for the Widows of Medical Men in reduced circumstances; with this is combined a School, devoted, in part, to the gratuitous education of Orphans of Medical Men. The purposes are as follows:—

FIRST,—To maintain an Asylum, in which 100 Pensioners, who must be duly-qualified Medical Men, or their Widows, not under 50 years of age (possessing incomes of at least £15 and not more than £50 a year), shall be provided with three furnished rooms each, and with such additional assistance and accommodation as the funds may permit.

SECONDLY,—To provide a School, in which a liberal education will be given to 200 boys, the Sons of duly-qualified Medical Men; forty of whom will be educated, boarded, clothed and maintained entirely at the expense of the Institution, while the remainder will be charged at the lowest rate which is found to be practicable.

THIRDLY,—To grant Annuities, or occasional pecuniary assistance to distressed Members of the Medical Profession or their families, when they can be granted without detriment to the Asylum or School, which are to be ever regarded as the principal objects of the College.

There is a Chapel for Divine worship, according to the ritual of the Church of England.

Donors of TEN GUINEAS are Life Governors of the College; Subscribers of ONE GUINEA Annually are Governors during the continuance of their Subscription. All Subscriptions are payable in advance on the 1st of January in each year, and must be paid before the elections in order to entitle Governors to vote.

The Governors vote by ballot, either personally or by proxy, and have votes in the proportion of one for each GUINEA subscribed annually, for every TEN GUINEAS given, for every TWENTY GUINEAS collected.

Any information with regard to the details of the Institution will gladly be communicated to parties addressing inquiries to the Secretary, at the Offices of the College, 37, Soho-square, by whom Subscriptions and Donations will be thankfully received. Subscriptions will also be received by the Treasurer, the Members of the Council, the Honorary Local Secretaries, and the Bankers, Messrs. Goslings and Sharpe, 19, Fleet-street.

IMPORTANT TO THE MEDICAL PROFESSION.

THE GENUINE DR. JAMES' FEVER POWDER.

Messrs. NEWBERY,
(*whose great grandfather was* partner and co-patentee *with the late Dr. James*), continue to prepare the above

From the only recipe existing under Dr. James' Hand,

And beg to recommend the Profession ALWAYS to prescribe it as "**Pulvis Jacobi ver. Newbery's,**" that they may not be disappointed in the result of their recipes by the substitution of COMMON ANTIMONIAL POWDER, which is often sold under the title of "*Pulvis Jacobi Verus,*" but is neither so MILD or so CERTAIN in its operation as the Powder prepared from Dr. James' Recipe. *The identity of these cheap imitations with common Antimonial Powder is proved by the similarity of dose, viz., six grains.*

They direct attention to the paper by the late Dr. Cheyne in the first vol. of the 'Dublin Hospital Reports,' page 315; likewise to the 'British Medical Journal.' No. 88, page 737; also to the 'Lancet,' No. 5, vol. 2, 1859 (Dr Grantt, of Poona); all of which illustrate its importance as an invaluable remedy.

***Be careful to observe on each Government stamp—"F. NEWBERY, No. 45, ST. PAUL'S CHURCHYARD," London. Prices, for dispensing, 9s. per oz.; ¼ oz. 3s. 4d.; also in packets at 2s. 9d. Established A.D. 1746.

N.B.—It is a remarkable fact, that Dr. James' Powder, prepared from his own recipe, may be SAFELY given in doses up to SIXTEEN grains, while *common Antimonial Powder*, and some other preparations *sold as true* Dr. James' Powder, cannot be administered in doses EXCEEDING SIX GRAINS WITHOUT DANGER.

The genuine medicine, *which has been sold by the Newbery family ever since its introduction*, has a Seal in red wax, as in the margin, on the outside of *each* package.

Dr. Graham, in his 'Modern Domestic Medicine,' 5th edition, page 38. says: "NEWBERY'S *James' Powder should always be used.*" Be careful to prescribe "PULVIS JACOBI VER. NEWBERY'S."

NO MORE DIFFICULTY IN TAKING COD LIVER OIL.—Use *NEWBERY'S COD LIVER OIL CAKES.* No nausea, perfectly tasteless. May be taken by the most delicate, without the slightest disagreeable circumstance. Highly nutritious for general use; can be carried in the pocket. One teaspoonful of purest oil in each cake. Packets, 1s. 9d. and 3s., with a liberal allowance to the Profession. F. NEWBERY and SONS, 45, St. Paul's Churchyard, London: established A.D. 1746.

"The gingerbread is extremely light and pleasant, the flavour of the oil being completely covered."—'Medical Times,' 12th February, 1859.

M. Bassi, a French Physician, has recently suggested this form of rendering Cod Liver Oil tasteless and effective to the French public.—Vide 'Medical Times and Gazette,' October 22nd, 1859, page 422, 1st column.

TO THE MEDICAL PROFESSION.

THE ONLY GENUINE
DR. JAMES' FEVER POWDERS.

GENTLEMEN,—Having been informed by Messrs. BUTLER & CRISPE (late Butler and Harding), my Agents, that great misapprehension exists in the minds of many persons, even in the medical profession, as to which is the "Genuine Fever Powder" invented by my Grandfather, I am advised to make the following statement in respect to it, and to refer to the Report of the suit in the Court of Chancery, *instituted by Mr. NEWBERY against me*, in support of my statement.

My Father died in 1801, when I was only twelve years old, and appointed his two Brothers as my Guardians; to the eldest of whom he imparted the secret of making the Fever Powders *in trust for me*, but not to instruct me until I was twenty-four years of age. My Uncle continued to supply Mr. F. NEWBERY, *as Agent only*, upon the same terms as my Grandfather and Father had done before him (from our then house No. 33, Bruton-street). In the year 1816, my Uncle for the first time allowed me to look into the accounts, and finding that they were not in accordance with terms of the agreement which my Grandfather had entered into, when he appointed Mr. JOHN NEWBERY (Mr. F. Newbery's Father), his Agent, I proposed to Mr. F. Newbery that the Agency should be continued strictly upon the terms of that agreement; this he refused, and I then refused to supply him with any more medicine. Mr. F. NEWBERY then filed a Bill in Chancery against me *to compel me to supply him with the Medicine as my Grandfather, my Father, and my Uncle had done*, and attempted to prove to the Court that he had a joint proprietorship in the medicines: *this he failed in doing*, the Chancellor's decision was given in my favor, and THEN, AND NOT TILL THEN, did Mr. NEWBERY *prepare and send forth* to the Public *a Spurious Article* under my Grandfather's name.

In their advertisements and announcements, Messrs. NEWBERY *insinuate*, that they had always been in the habit of preparing these medicines. the truth being, that my Grandfather, Father, my Uncle George James, and myself, *are the only persons* who have ever been in the possession of the secret for preparing the "Genuine Dr. James' Fever Powders, Pills, &c." A reference to the report of the case in Chancery, between Messrs. NEWBERY and myself, which will be found in "Merivale's Reports," vol. 2, page 447, will prove the truth of this assertion.

I remain, GENTLEMEN, your obedient Servant,

R. G. G. JAMES.

The following extract, taken from Dr. A. Todd Thompson's "Materia Medica," 3rd edition, page 1065, also supports the above statement, and proves the superiority of the genuine Powders:—

"The celebrity of the Powder of Dr. James, as a certain diaphoretic, has led to many unsuccessful attempts to imitate it; and the antimonial powder of the Pharmacopœias was intended as a substitute for this empirical remedy.

"A specimen of Butler's James' Powder examined by me, contained ten per cent. of the Sesqui-oxide, a result which nearly accords with Dr. Maclagan's analysis; he found 2·89 in Newbery's, and 9·80 in Butler's James' Powder. It is to the Sesqui-oxide of Antimony that its diaphoretic influence is due."

Sold Wholesale and Retail by BUTLER & CRISPE (late Butler and Harding), 4, Cheapside, corner of St. Paul's, London, in packets 2s. 9d., and bottles 11s. each; and may be obtained through every respectable chemist in the United Kingdom.

Purchasers are particularly requested to observe that every Package or Bottle of the Genuine Fever Powder is signed by the Proprietor thus:—

All others are spurious imitations.

TO THE MEDICAL PROFESSION.

MESSRS HUGHES AND BUTLER

Have always on Sale a large Collection of Standard and Elementary Works, to which they respectfully invite the attention of the Medical Profession.

Gentlemen pursuing their professional studies at the hospitals of this metropolis will be able to procure all the elementary works which they may require, at the shortest notice, and on the most liberal terms.

Physicians, Surgeons, and General Practitioners will find here a large collection of standard works, by the most eminent men, on Anatomy, Physiology, Pathology, Therapeutics, and Surgery.

Chemists and Druggists also will find here a very excellent selection of the various scientific and other works they may require, including Pharmacy, Chemistry, Mineralogy, Botany, Natural History, &c.

Messrs. Hughes and Butler also take this opportunity of informing their Medical Friends, that they always have on hand a large stock of Works on every department of general literature.

Messrs. Hughes and Butler continue to keep on hand a most extensive collection of Ancient and Modern WELSH LITERATURE, to which they invite the attention of their Welsh Friends.

London: 15, St. Martin's-le-Grand, City, opposite the General Post-office.

Now ready, price 5s. 6d., or free by post to any part of the United Kingdom, price 6s., Fourth Edition, greatly enlarged and improved,

A GRAMMATICAL INTRODUCTION TO THE

LONDON PHARMACOPŒIA and a KEY to PHYSICIANS' PRESCRIPTIONS. By F. S. LEACH.

"This little work will be found extremely useful to students who have received but an imperfect classical education."—'The Lancet.'

Hughes and Butler, Medical Booksellers and Publishers, 15, St. Martin's-le-Grand.

JOZEAU'S COPAHINE MÈGE

JOZEAU'S COPAHINE OR SACCHARATED CAPSULES.

Copaiba and Cubebs are, doubtless, the best remedies, but these drugs are of a repulsive taste and odour, and occasion colicky pains, nausea, and gastric disturbance. M. Jozeau has succeeded in rendering these valuable therapeutic agents perfectly innocuous, by increasing, in his Copahine, all the curative properties. This preparation has been adopted by the Paris Academy of Medicine, after more than a thousand trials in Paris, and the different London Hospitals, viz., St. Thomas's, Guy's, and St. Bartholomew's, under the care of Messrs. Lloyd, Poland, and Legros Clark. —'Lancet,' Nov. 6, and Dec. 10, 1852. The Copahine, which is in form of a pretty pink sugar-plum, effects a cure in about six days, either in recent or chronic diseases. 100 capsules, 4s. 6d.; free by post, 5s. 2d.; at G. Jozeau's, French Chemist, 49, Haymarket, London; 22, Rue St. Quentin, Paris; and all the most important Chemists.

E. BURTON'S ACHROMATIC MICROSCOPES

Cannot be surpassed at the price. An excellent (Student's) Microscope, with set of Achromatics, Pliers and Condenser, in Cabinet, 3*l.* 3s. Microscopes with 3 powers, Live and Water Box, 6 objects, packed in neat case, 12s. 6d.—Manufactory, 47, CHURCH-STREET, MINORIES, LONDON, E.—An Illustrated Catalogue upon application, or receipt of two stamps.

1099

THE GENUINE NATURAL VICHY WATERS

are sold—Quarts, 12s. per dozen; Pints, 8s. per dozen.

The VICHY WATERS COMPANY, who bottle the Waters of Vichy at the Springs and import them direct into England, deem it necessary to inform the Public that the original prices of these Waters, as above, have not been altered. Those Waters, therefore, which are sold at lower prices are not the Natural Mineral Waters of Vichy, but artificial only.

The celebrated VICHY PASTILLES (or Lozenges) for digestion, and the VICHY SALTS for baths, are also obtained at the London establishment.

London Depôt, 27, Margaret-street, Regent-street.

COOPER'S DISPENSING ESTABLISHMENT, 26, OXFORD-STREET.

Invalids from the country, consulting medical men in town, can have their Prescriptions prepared with dispatch whilst waiting, or the Medicines will be forwarded to any railway station.

Invalids may rest assured that no exertion will be spared to keep up the celebrity this Establishment has attained for pure Chemicals and genuine Drugs at moderate prices. The preparation of Medicines is carried on by competent Assistants only, **no Apprentices** being employed.

Prescriptions, and Orders from the country, if forwarded by post, will be prepared and despatched the same day.

The Stock will be found to consist of the largest and best Assortment of

MEDICINE CHESTS.

EYE DOUCHES. Price 20s. For applying lotion to the eyes.

IMPROVED LAVEMENT APPARATUS, administering the whole of the injection at one stroke of the piston. Price 35s.

THE BRITISH FEEDING BOTTLE, the only bottle by which the supply of food can be regulated while the infant is being fed. Approved by every Medical man who has seen it. Price 7s. 6d.

Syringes, Elastic Bottles, Breast Pumps, Gazogenes, Medicine Spoons, Graduated Glasses, Stoppered Bottles in Cases, Waterproof Cloth, with every other article necessary for the relief and comfort of Invalids.

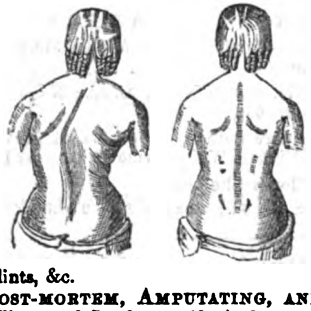
CURVATURE OF THE SPINE.



W. H. BAILEY begs to call the attention of Physicians and Surgeons to his improved INSTRUMENTS for SPINAL DISTORTIONS, which are so constructed as to afford the necessary support to the vertebral column, without any undue pressure or constraint.

W. H. B. also manufactures every description of Trusses, Belts, Elastic Stocking, Urinals, Enema Apparatus, Splints, &c.

POST-MORTEM, AMPUTATING, AND MIDWIFERY INSTRUMENTS.

Illustrated Catalogues (free) of every description of Surgical Instruments and Appliances.

Manufactory, 418, Oxford-street, London.

J. & E. BRADSHAW,

LATE

SHOOLBRED and BRADSHAW,

34, JERMYN-STREET, LONDON.

PATENTEES OF THE

ELASTIC STOCKING, KNEE-CAP, SOCKS, ABDOMINAL BELTS, &c.,

For Varicose Veins, Weak, Swollen, or Dropsical Affections, Accident to the Knee Joint, Increase of the Synovial Fluid, and in all Rheumatic and Gouty Affections.

J. & E. BRADSHAW beg particularly to call the attention of the Profession to the improvements they have made in the above articles, whereby all the objections hitherto existing have been overcome.

J. & E. B. have likewise made arrangements for the Manufacture of all Surgical Bandages in India-rubber, vulcanized on a principle whereby the elasticity is preserved and not affected by climate, the Bandages being all made from patterns taken from each particular case; a perfect fit is secured thereby, preventing the many evils arising from undue pressure being applied to any part, which must always be the case providing the Bandage is not adapted to each particular case.

Prices, which will be found as low as other makers', notwithstanding the advantages offered, together with directions for measurement, will be sent on application, per return of post.

J. CLARK

(Late THOMPSON),

SURGICAL INSTRUMENT MAKER,

CUTLER, TRUSS, AND BANDAGE MAKER,

M.B.—Original Manufacturer of the Improved Convenience for Invalids and Railway Travellers.

W. F. DURROCH,

SURGICAL INSTRUMENT MAKER TO THE ROYAL NAVY AND GREENWICH HOSPITAL,

Respectfully informs the Profession that he continues to MANUFACTURE SURGICAL INSTRUMENTS of every description, of the best quality and highest finish, to which are applied all the improvements introduced by the first authorities of the day. The patronage and approval of the most eminent practitioners and lecturers warrant him in assuring gentlemen who may honour him with their commands, that all his instruments will be found highly adapted for the purposes designed. Established 1748. No. 2, New-street, St. Thomas'-street (near the Hospitals), Southwark.

GRACIE, HULL, AND CO.,

TRUSS MAKERS

To the Rupture Society; the Denbighshire and Devonshire Infirmaries; the Middlesex Lunatic Asylum, Hanwell; Colney Hatch; the Bridewell and Bethlehem Hospitals; the Parish of St. George's, Hanover-square, St. Pancras, and numerous other parishes throughout England and Wales; and Surgical Machinists to her Majesty's Royal Hospitals in the West Indies. Upwards of thirty years Truss Makers to the Rupture Society, from which 48,900 patients, of all ages, have been relieved; a considerable number have been infants, and those in general effectually cured.

G., H., and Co. have had thirty-six years' experience in the department, and upwards of eighty thousand cases of hernia or rupture have come under their notice; they can therefore confidently recommend their Trusses to the use of all classes of the afflicted.

11, MARYLEBONE-STREET, GOLDEN-SQUARE. W. LONDON.

ARTIFICIAL LEGS.

PARIS PRIZE MEDAL, 1855.

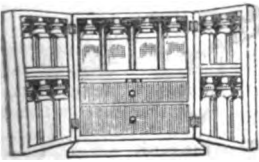
GROSSMITH'S
NEW ARTIFICIAL LEG,
WITH PATENT ACTION, KNEE AND ANKLE JOINTS,

Enables the patient to walk, sit, or ride with ease and comfort, wherever amputated. It is much lighter and less expensive than the old style of cork leg, will last a lifetime, and is the only leg yet invented that Ladies and Children can wear with safety. It was awarded the highest Medal at the recent PARIS EXPOSITION, although more than twenty other makers from different nations exhibited. Can be obtained only at

GROSSMITH'S
ARTIFICIAL EYE, LEG, AND HAND MANUFACTORY, 175, FLEET-STREET, LONDON, (ESTABLISHED 1760,) OR OF

Messrs. FANNIN and Co., DUBLIN; KEMP and Co., EDINBURGH; SALT and SON, BIRMINGHAM; or CHARRIERE and SON, PARIS.

MEDICINE CHESTS.



RAYMOND GRIFFITHS,
LATE
SPRINGWEILER,
2, DUKE-ST., SMITHFIELD, LONDON. E.C.
Chests from 3s. 6d. to 10*l*. Ship Chest, according to Act of Parliament.
Established 50 years.

SURGICAL INSTRUMENTS.

Messrs. MILLIKIN and LAWLEY, of 161, Strand, adjoining the King's College, respectfully beg to draw the attention of the public to their extensive assortment of SURGICAL INSTRUMENTS, CUTLERY, &c., which for excellence of workmanship, durability of material, and moderation of price are unrivalled by any house in London. Officers going abroad will find a favourable opportunity for testing the nonpareil qualities of the articles to be purchased at their old-established depôt.—An extensive assortment of Osteology to be viewed on the premises. Skeletons, Skulls, Hands, Feet, &c., Articulated or dis-Articulated, at very moderate charges.

TO SURGEONS, DENTISTS, &c.

The best House in London for SECOND-HAND INSTRUMENTS is Mr. WM. LAWLEY'S, Lombard House, 78, Farringdon-street, City.
Established upwards of a Century.
A large Stock of New Instruments always on Sale, all warranted.
Instruments Bought, Sold, or Exchanged.
N.B.—The largest Stock of Second-hand Dissecting Cases in London.

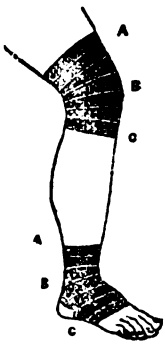
SPARKS AND SON,

Patentees and Manufacturers of the Spiral Elastic Surgical Bandages, Ankle Socks, Leggings, Knee Caps, Belts, &c.

SPARKS AND SON,

(Established 1830,)

98, CONDUIT-STREET, BOND-STREET, LONDON. W.



KNEE CAP & ANKLE SOCK.

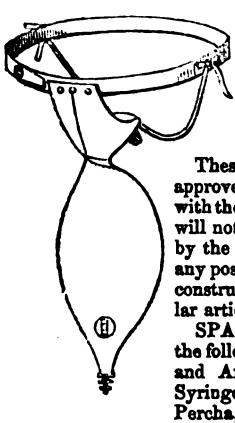
Beg to call attention to their Elastic Stockings, Knee Caps, Ankle Socks, Wrist Bands, &c., made either to lace or draw on without lacing, decidedly superior to any other article now in use, which they have now brought to the greatest perfection, and are strongly recommended in all cases where support may be necessary. They are light and elastic, and, being washable, do not produce that injurious heat so much complained of in all other Bandages.

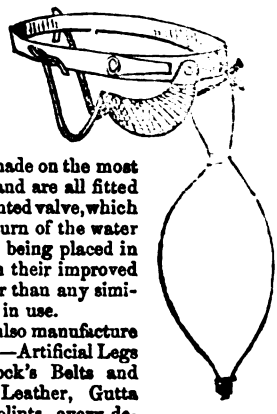
☞ The only Patent Elastic Bandages ever invented that secure permanent compression to the part affected without seams or lacing.

STOCKING.

INDIA-RUBBER URINALS,

FOR MALE AND FEMALE RAILWAY TRAVELLERS, INVALIDS, AND CHILDREN.





These Urinals are made on the most approved principles, and are all fitted with the recently-invented valve, which will not allow any return of the water by the upper part, by being placed in any position, and from their improved construction are better than any similar articles at present in use.

SPARKS & SON also manufacture the following articles:—Artificial Legs and Arms, Dr. Locock's Belts and Syringes, Moulded Leather, Gutta Percha, and other Splints, every description of Trusses, with or without springs, Instruments to relieve and cure Deformity, India-Rubber and Elastic Cotton Bandages, Arm Slings, Air and Water Cushions, Waterproof Bed Sheets, Belts and Bandages for Cholera, and every contrivance to relieve the Invalid and Wounded, &c. &c.

*** Hospitals, Unions, and other Public Institutions supplied on the lowest possible Terms.

Country Orders are to be accompanied by a Money Order, payable at the Post-office, Regent street, London, addressed to SPARKS and SON.

FRANCIS L. PUCKRIDGE,

Sole Inventor and Manufacturer of the late Mr. R. Liston's

WATERPROOF TRANSPARENT ISINGLASS MEMBRANE PLASTERS.

Now patronised by Mr. Liston's successor, Mr. Quain, in his hospital and private practice; patronized likewise by Mr. W. Fergusson, Surgeon of King's College Hospital, Mr. J. M. Arnott and Mr. Wormald, of Bartholomew's Hospital. Used for Amputations and other serious wounds requiring observation without exposure to the air.

F. L. P. begs to state there are two qualities, and it is particularly beneficial for Spinal complaints, Ruptures, or any weakened part; likewise for Burns or Scalds, will remove the pain in a very short time. Also, a defensive Skin, to apply between the wound and the lint, and causes less pain in dressing. Likewise a superior Gauze Lisse, of the same adhesive properties as the Membrane. Also, superior Tinted Court Plasters, and Tinted Gold-beater's Skin, by the yard and in cases.

F. L. P. offers his most grateful thanks for the encouragement and kind patronage he has received from the Medical Gentlemen of England and foreign parts, and hopes to merit a continuance of their favours by manufacturing his Plasters with the same unremitting care as heretofore.

F. L. P. begs particularly to introduce to the surgeon-dentist, for tender gums, a delicate Plaster, that will adhere to the gold or ivory, and at the same time heal and protect the gums from pressure.

May be had of the Proprietor, 4, York-place, Walworth-road, Surgical Instrument-maker, Chemist, &c., with improved directions how to apply.

SALMON, ODY, AND CO.

Most respectfully inform the public that their

PATENT SELF-ADJUSTING TRUSSES

afford more ease and security for the relief of Hernia than any other instrument for the purpose. They will answer for right or left side, requiring no under-strap or galling bandage. Persons in the country are requested to send the circumference of the body one inch below the hips. A female attends by appointment from 10 to 2.

Manufactory, 292, STRAND.

Every description of Engraving, Letter-press, Copper-plate, and Lithographic Printing, executed at the lowest charges.

Catalogues of each kind of Label sent per post on application.

WEISS AND SON,

62, STRAND, LONDON,

SURGEONS' INSTRUMENT MAKERS, AND MECHANICIANS; Manufacturers of Trusses and Bandages of every description; Artificial Arms, Hands, and Legs; Crutches, plain and improved.

TARRATT'S

BANDAGE AND STRENGTHENING PLASTER.

This Plaster, from the nature of the composition, and the material on which it is spread, is adapted for a permanent bandage, as it neither produces irritation of the skin, nor, when applied, does heat cause it to lose its adaptation to the part. Having these qualities, it is peculiarly valuable in the treatment of ulcerated legs, varicose veins, &c., where equal and constant support is required. Several of the most eminent surgeons continue to use this Plaster in their practice, preferring it in certain cases to any other. It is well suited for exportation and use in warm climates, the high temperature having less effect on it than on any other plaster.

The Profession are referred to Messrs. Westwoods & Hopkins, Wholesale Druggists, Newgate-st., where the Plaster may be had in packets, containing three yards, for 2s.6d., or spread upon skins of chamois leather, at 3s.6d.

Westwoods and Hopkins also call attention to their Compound Adhesive Plaster for fractures and wounds, as likewise to their Concentrated Preparations, Essences, &c.

WINES FROM SOUTH AFRICA.

DENMAN,

INTRODUCER

OF THE

SOUTH AFRICAN PORT, SHERRY, &c.,

Twenty Shillings per Dozen, Bottles included.

A PINT SAMPLE BOTTLE OF EACH FOR TWENTY-FOUR STAMPS.

Extract from the 'Lancet,' July 10th, 1858.—'The Wines of South Africa.—We have visited Mr. Denman's Stores, selected in all eleven samples of Wine, and have subjected them to careful analyzation. Our examination has extended to an estimation of their bouquet and flavour, their acidity and sweetness, the amount of wine stone, the strength in alcohol, and particularly to their purity. We have to state that these wines, though branded to a much less extent than sherries, are yet on the average nearly as strong; that they are pure, wholesome, and perfectly free from adulteration. Indeed, considering the low price at which they are sold their quality is remarkable.'

PRICED LISTS, WITH DR. HASSALL'S ANALYSIS, FORWARDED ON APPLICATION.

'A letter from Mr. Phillips, of Cheltenham, on the subject of adulterated wines used at the Communion, was lately inserted in this journal, and that gentleman then recommended the use of the African Port Wines, imported and sold by Mr. Denman, of 65, Fenchurch-street, London. The subject is one of considerable importance in a social point of view; for quite apart from the private tastes which we may have in regard to wines, one that is cheap and good is a desideratum in almost every neighbourhood. The clergy dispense a great deal of wine to the poor, and at the present time they must either give away very expensive port wine, or commit an act of cruelty by giving a cheap article which they may be sure is adulterated. Now these African wines are said to be equally nutritious with the more expensive kinds, while they can be sold so cheap (port and sherry at 20s. and 24s. per dozen), because, being the produce of our own colony, they pay but a small duty. Impressed by these considerations, we have taken the trouble to try Mr. Denman's wines, and have also submitted them to several of the clergy, and the opinion formed is that they are worthy of being patronized. We make this statement, not with any expectation that such an opinion will be received as authoritative by our readers, far from it; but merely because it forms a *primâ facie* reason why they should judge for themselves as to the merits of the wines.'—'Clerical Journal,' October 22, 1857.

WINE IN CASK forwarded free to any Railway Station in England. Price Lists forwarded on application. Packages allowed for when returned.

EXCELSIOR BRANDY,

PALE or BROWN, 15s. per Gallon, or 30s. per dozen. Terms—Cash. Country Orders must contain a remittance. Cheques to be crossed 'Bank of London.'

J. L. DENMAN, Wine and Spirit Importer, 65, Fenchurch st., London.—Counting-house entrance, first door on the left up Railway-place. N.B.—Wine delivered free to a distance of five Miles.

Mr. YEARSLEY'S WORKS on the EAR and THROAT.

DISEASES OF THE EAR.

Just published, Fifth Edition, price 2s. 6d., by post, 2s. 8d.

DEAFNESS PRACTICALLY ILLUSTRATED, as to its Nature, Causes, and Treatment.

"A careful perusal has convinced us that the author is correct in his views; his experience has been ample, and his powers of observation and research have been by no means inferior to his opportunities."—'Medical Gazette.'

"A thorough acquaintance with the facts and views which it contains must be regarded as essential to the Medical practitioner."—'The Lancet.'

"Contains much practical information."—'Medical Times.'

"Well deserving attention."—'British and Foreign Medico-Chirurgical Review.'

"The author's observations will be read with advantage, and will afford many useful hints for the detection and management of disease."—'Provincial Medical Journal.'

DISEASES OF THE THROAT.

Also just published, price 5s., by post, 5s. 4d., the Sixth Edition, with new Plates,

On THROAT AILMENTS, more especially the ENLARGED TONSIL and Elongated Uvula, in connexion with Defects of Voice, Speech, Hearing, Deglutition, Respiration, Susceptibility to Cold and Sore Throat, Cough, Nasal Obstruction, and the Imperfect Development of Health, Strength, and Growth in Young Persons.

"Mr Yearsley's great experience in diseases of the throat and ear, and in affections of the voice and speech, entitles all he says to much attention and consideration."—'The Times.'

THROAT-DEAFNESS.

Price 1s., post-free,

On THROAT-DEAFNESS, and the PATHOLOGICAL CONNEXIONS of the THROAT, NOSE, and EAR. Reprinted from the Author's larger work, 'Deafness Practically Illustrated.'

(Reprinted from 'The Lancet.')

Price 1s., post-free,

THE ARTIFICIAL TYMPANUM

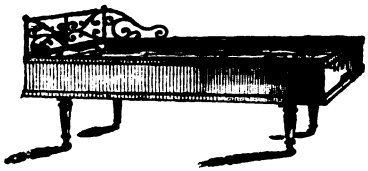
A New Mode of Treating Deafness, when attended by Partial or Entire Loss of the Membrana Tympani, associated or not with Discharge from the Ear.

Reprinted from the 'Medical Circular,' price 1s., post free, Second Edition,

ON A NEW METHOD OF TREATING OTORRHŒA.

"The sensation of comfort, and the removal at once of all offensive fœtor which is so distressing to the patient, are not the only advantages gained by this novel mode of treatment."—Preface.

London: John Churchill, 11, New Burlington-street.



Dr. ARNOTT'S HYDROSTATIC, OR FLOATING BED.

In the manufacture of this Bed great improvements have been made, by which it is rendered much more durable, and less expensive. The present prices are—

No. 1.—Hydrostatic Bed, with Castors, &c.....	£8	8	0
No. 2.—Ditto, plain	7	7	0

FOR HIRE.

No. 1.—First Month	1	15	0
„ Second and succeeding Months.....	1	2	0
No. 2.—First Month	1	10	0
„ Second and succeeding Months.....	0	17	6

The hire of the Bed, with Waterproof Sheet and Carriage, to be paid in advance.

EDWARD SPENCER & Co. have published instructions for its use, which remove much of the inconvenience complained of in some cases, and suggests increased adaptation.

☞ Dr. Arnott, the Inventor, has inspected the Beds manufactured by Edward Spencer and Co., and has expressed his approval of their construction and make.

THE ADJUSTING BED,

Recommended for Lunatic Patients, in such Cases where the Hydrostatic Bed cannot be used.—See Report of Commissioners, June, 1847, page 486. Prices Four and Five Guineas.

THE LIFTING BED,

Is a Mechanical Arrangement by which the Patient may be raised to any level required, or placed in any position without any exertion to the Attendant. This Bed is particularly suitable in all cases of heavy and helpless Patients, who often suffer much from the efforts used to move them, which this contrivance entirely obviates. It forms a beautiful combination with the Hydrostatic Bed. Price Ten Guineas, and upwards.

THE BED SITTING SUPPORTER,

Is a simple contrivance, relieving the Spine of all the superincumbent weight of the head and shoulders, and thus enabling many a patient to sit up and read and write, who could not have done so else. It is found to be a great relief in all cases of weakness from long confinement to bed, or spinal affections. Price Two Guineas.

Waterproof Sheeting, for Beds and Hospital Use. Air and Water Bed and Cushions, of all sizes and descriptions.

18 & 19, Billiter Street, Fenchurch Street, London, E.C.

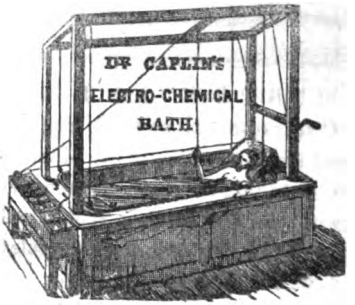
DR. CAPLIN'S ELECTRO-CHEMICAL BATH AND MEDICO-ELECTRICAL ESTABLISHMENT,

9, YORK-PLACE, BAKER-STREET, PORTMAN-SQUARE.



For the extraction of Mercury, Lead, and other Metallic or inert inassimilable substances, which, by their presence in the human organism, impair the vital functions, and produce that extended range of chronic diseases which have hitherto baffled every known resource of the healing art; such as Secondary Symptoms, Simple and Mercurial Rheumatisms, Articular and Scattered Concretions, Liver Complaints, Obesity, Menstrual Irregularities, Hysteria, Nervous Irritability, General Debility, Jaundice, Paralysis, Sciatica, Neuralgia, Lumbago, and every disease resulting from the retention of morbific matter in the system.

The taking of the Bath is most soothing and comfortable, generally affording immediate relief to the patient, and may in all cases, either acute or chronic, be tried without the least danger.

For the scientific demonstration of its modus operandi, see

DR. CAPLIN'S TREATISE ON THE ELECTRO-CHEMICAL BATH,

And the Relation of Electricity to the Phenomena of Life, Health, and Disease. Price 1s.

To be had at the Author's Establishment, 9, York-place, Portman-square.

TO THE MEDICAL PROFESSION.

Dr. CAPLIN being very anxious, for the sake of suffering humanity, to fairly establish the real value of the Electro-Chemical Bath as a therapeutic agent, and to propound its use, by affording Medical Gentlemen the opportunity of testing its efficacy by experiments carried out, under their own supervision, has arranged to keep one bath at their disposal, for the reception of their poor patients (one at a time), provided that those who avail themselves of the offer will engage to follow their cases while under the treatment. Six patients may be received daily.

N.B. Will shortly be published, a Book of Cases treated by this method, in which its successful application will clearly be demonstrated.

Prospectus and list of terms are to be obtained at the establishment, or by letter, prepaid, enclosing a postage stamp.

Digitized by Google

PATRONISED BY HER MAJESTY THE QUEEN.

DR. CAPLIN'S

HYGIENIC GYMNASIUM, KINESITHERAPIC AND ORTHOPŒDIC INSTITUTION,

9. YORK-PLACE, BAKER-STREET, PORTMAN-SQUARE.

A Special Establishment for Ladies and Children.

Prize Medal at the Exhibition of all Nations, 1851.

The only one awarded for Gymnastic Apparatus and Spinal Instruments.

GYMNASTICS is the science of regulating bodily exercise in accordance with the anatomical structure of the human body, in order to produce the physiological phenomena by which the equilibrium of the muscular system is preserved or re-established, and the regularity of the human frame obtained in harmony with the free play of the vital functions,—these conditions being indispensable to *health*, *beauty*, and *happiness*.

KINESITHERAPY is the science of preventing and curing disease by movements. This system, introduced by Ling, of Sweden, particularly consists in the practice of passive movements, offering the advantage to be used with helpless invalids and young children of the most delicate constitution.

ORTHOPŒDY is the scientific and philosophical appliance of means to the cure of

DEFORMITIES.

The combination of these three systems into one is the foundation of the principle of DYNAMOGENESY,* founded by Dr. CAPLIN. His establishment has been created for the purpose of carrying out this system to all its extent.

In conclusion, his Gymnasium is furnished with every variety of apparatus that a course of *physical education* may require, and the ultimate result is, that by healthy and amusing exercises, the strength, symmetry, elegance, and beauty of the human frame are developed, the vital functions stimulated, health secured, mental capacity improved, and happiness increased.

Kinesitherapy, as already stated, affords a remedial agent and wholesome preventive in the incipient stage of weakness, debility, and predisposition to malformation.

The Orthopœdic department constitutes the curative process for DEFORMITIES OF THE SPINE, by the additional appliances of Mechanical assistance, Manipulations, Local Vapour Douches, of Electricity, as the case may require. This mode of treatment constitutes the alleviating system introduced by Dr. CAPLIN, as, instead of causing pain, it relieves the patient. Thus, whether lateral, outward, or inward curvature of the Spine, if attended to in time, will be promptly and perfectly cured; even in its worst form, the evil is arrested at once, the appearance of the figure greatly improved, the health restored, the mental condition and spirits renovated. *Vide* Dr. Caplin's "Lectures on the Causes and Nature of Deformities of the Spine, and the rational means of curing that disorder." Second Edition, price 1s., to be had at Dr. Caplin's Institution, 9, York-place, Baker-street, Portman-square.

* Dynamogenesy signifies the means of regenerating the physical strength and vital forces of th... Vide Dr. Caplin's Treatise on that subject, price 6d., second edition, to be had at his establishment.

Google

Nos. 1, 2, & 3, show J. ALDERMAN'S Patent Graduating Elastic Spinal and General Invalid Couch, which is fitted up with two, three, or four distinct graduating actions, so that an invalid can be adjusted imperceptibly to any position without being touched by the nurse, and free from all pressure, that being avoided by his Elastic Ventilating Mattress and his Patent Elastic Adjusting Foundation; so that a patient cannot become bed-sore by long confinement.

the Couch, is made to follow nature in every respect, as the back, the arms, the seat, and the leg-rest are made to work at the same time, so that not a muscle of the patient need be disturbed. The arms are also made to put on and off in an instant, so that the patient can get on and off from either side while the leg-rest is out.

No. 6 is J. A.'s improved Self-Propelling Chair, which renders an invalid perfectly independent, being able to run from room to room without any assistance.

No. 7 is J. A.'s improved Exercising Horse, which he fits upon a variety of ways, so as to give any amount of exercise.

No. 8, 8, 8, is J. A.'s Patent Portable Equilibrium Carrying Chair, which enables an invalid, however weighty, to be carried up and down stairs with perfect ease and safety; the Chair always adjusting itself, enables the two persons who carry to walk up and down stairs in the usual way, quite erect. with their arms straight down, which avoids any

WILLIAM HOOPER (Operative Chemist),

7 PALL-MALL EAST, AND 55, GROSVENOR-STREET, LONDON.

WALTERS' RAILWAY URINALS,

FOR TRAVELLERS AND INVALIDS.

F. WALTERS having originally invented these Urinals, begs to warn the Profession of the many bad and useless imitations which are now sold, and he would advise them, before purchasing, to look that they are stamped with his name; as, unless that be the case, he cannot guarantee them.

These Urinals will be found particularly useful for women during pregnancy, as well as when travelling, and in cases of incontinence.

The Cup is made of Walters' Ætherized India Rubber, which dispenses with the necessity of the stiffening, which has hitherto been found so inconvenient.

The patent Valve at C entirely prevents the possibility of the fluid returning; and from their being made of solid India Rubber, they are entirely without smell, if kept properly washed out. They are made in various forms for Gentlemen, and also for Children.

A Prospectus, with Prices and Engravings, sent free by post on application.

Curvature of the Spine.

These cases require the greatest judgment, in order so to adapt the mechanical assistance that there may be support without undue pressure. F. Walters having paid great attention to the subject, and having studied anatomy at St. Bartholomew's Hospital, can confidently offer his services to those in the Profession who may have Patients suffering under this disease.

Hot Fomentations.

WALTERS' INDIA-RUBBER BAGS for hot water will be found the most convenient and useful application for all cases of cholera, and whenever it may be necessary to apply heat to any part of the body. It is well known that, whatever may be the treatment for this disease, it is most important that the abdomen and the feet should be kept warm. Price from 12*s.* 6*d.*; by post, 15*s.*

New Truss for Hernia.

F. WALTERS begs to call attention to his New Truss, with improved water pad. The advantage of water is extreme softness, and the certainty of the pressure being always in the proper place. This Truss has received the approbation of the most eminent Surgeons, many of whom pronounce it the most perfect ever yet produced.

Manufacturer also of the Patent Moc-Main Lever Truss, which can be worn without any spring round the body; Salmon and Ody's Self-adjusting Truss; Cole's Truss, with a Spring in the Pad; the German Truss; the French Truss; India Rubber Trusses for Children and Bathing; Elastic Silk Spiral Belts; Elastic Cotton ditto ditto; Elastic Woven Silk ditto; Elastic Woven Cotton ditto; Elastic Stockings; Elastic Knee-caps; Elastic Socks; Improved Elastic Suspenders for riding and hunting; Enema Syringes, and Anatomical Surgical Instruments of all kinds.

A Female to attend on Ladies.—N.B. Ladies' Entrance, Private Door.

Frederick Walters, No. 16, Moorgate-street, London.
